Retirement Income Plan for Salaried Employees of
Plymouth Tube Company

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Income Plan for Salaried Employees of Plymouth Tube Company (the Plan), which comprise the statements of net assets available for benefits as of August 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of August 31, 2013, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified or provided by Wells Fargo, the current trustee of the Plan, and Delaware Charter Guarantee & Trust Company (d/b/a Principal Trust Company) the former trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustees hold the Plan's assets and execute transactions. The Plan Administrator has obtained a certification from the current trustee as of August 31, 2014 and 2013, and for the year ended August 31, 2014 and the period from December 1, 2012 through August 31, 2013, and the former trustee for the period from September 1, 2012 through January 31, 2013 that the information provided to the Plan Administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, Line 4.i., Schedule of Assets (Held at End of Year) and Schedule H, Line 4.j., Schedule of Reportable Transactions as of or for the year ended August 31, 2014, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustees, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 1. Plan Description

The following brief description of the Retirement Income Plan for Salaried Employees of Plymouth Tube Company (Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General: The Plan is a defined benefit pension plan which covered salaried employees of Plymouth Tube Company (Company) not participating in any other pension plan sponsored by the Company and non-exempt employees of the Hopkinsville location. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended effective December 31, 2003, such that benefit accruals for employees covered under the Plan ceased. Vested benefits for active employees on December 31, 2003, will be determined as if they had terminated employment on December 31, 2003. Employees not fully vested at December 31, 2003, who are active employees on their subsequent vesting date, will become fully vested in the benefit they earned as of December 31, 2003.

The Pension Protection Act of 2006 (PPA) as amended by the Worker Retiree and Employer Recovery Act of 2008 (WRERA) imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage (FTAP). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (AFTAP). The 2014 AFTAP for the Plan is 93.21 percent using the unit credit cost method. Since the AFTAP is not less than 80 percent for 2013, the benefit restriction rules of PPA do not apply.

Pension benefits: Employees age 65 or older with five or more years of service are entitled to annual income equal to the sum of (a) 1-2/3 percent of final average compensation, as defined, multiplied by years of credited service (not to exceed 30) and (b) 1 percent of final average compensation multiplied by years of credited service in excess of 30 (not to exceed 10) less (c) 1-3/4 percent of the primary Social Security benefit to which the members are entitled multiplied by years of credited service (not to exceed 40).

The Plan permits early retirement at ages 60-64 with five years of vesting service. Early retirement payment is reduced by 6/10 of 1 percent for each month prior to normal retirement age.

Participants who terminate service prior to the earlier of age 65 or the completion of five years of service receive no benefits under the Plan.

Payment of benefits: Normal form of retirement benefit payment shall be made under a joint and 50 percent survivor annuity. Alternative optional forms of distribution available under specific circumstances, as outlined in the plan document, are (1) life annuity payable in equal installments that terminates upon participant's death, (2) life annuity with period certain payable in equal installments until participant's death or until 120 monthly payments are paid to the participant or his/her beneficiary, or (3) joint and 75 or 100 percent survivor annuity. If the lump-sum actuarial equivalent value of a participant's vested account retirement benefit does not exceed \$5,000 at the time benefits are paid, it may be distributed in a lump-sum payment form.

Pre-retirement death benefit: In the event of an active married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and 50 percent survivor benefit payable at their normal retirement or early retirement date and died the next day.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of plan assets available for benefits and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the present value of accumulated plan benefits reported in the accompanying financial statements. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumption in the near-term would be material to the financial statements.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

1. Retired or terminated employees or their beneficiaries.
2. Beneficiaries of employees who have died.
3. Present employees or their beneficiaries.

Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial valuation was done by using the beginning-of-the-year method. Therefore, the statement of accumulated plan benefits as of August 31, 2013, is presented from information provided by the actuary as of September 1, 2013. There has been no significant change in the Plan's provisions or coverage from August 31, 2013 to September 1, 2013.

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

The actuarial present value of accumulated plan benefits is determined by an actuary from AON Consulting under the unit credit method and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of September 1, 2013 were:

1. Life expectancy of participants – RP-2014 Aggregate table with the SSA-Int Fully generational projection.
2. Retirement age assumptions - normal retirement age (65) or age on valuation date, if greater.
3. Investment return - 7 percent compounded annually, net of investment expenses.

The Plan's reporting valuation changed its life expectancy table for participants from the 2012 static mortality tables for annuitants and non-annuitants to the RP-2014 Aggregate table with the SSA-Int Fully generational projection.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of benefits: Benefit payments to participants are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events through June 9, 2015, the date the financial statements were available to be issued.

Note 3. Funding Policy

The Plan is a non-contributing participation plan. The employees do not contribute; rather all contributions are made by the Company. It was recommended by the Plan's actuary that the Company make contributions of \$443,121 to \$18,341,251 for the plan year ended August 31, 2014, and \$269,909 to \$16,286,338 for the plan year ended August 31, 2013. These recommendations were determined by applying the full funding limitation, which limits the tax-deductible contribution to the excess of the normal cost over the Plan's surplus. The Plan chose to apply the pre-funding balance against the required contribution for plan year ended August 31, 2013. Actual contributions by the Company were \$245,781 and \$0 for the plan years ended August 31, 2014 and 2013, respectively. See Note 10.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

All investments in the Statement of Net Assets Available for Benefits are reported at fair value.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2014 and 2013.

Insurance company pooled separate accounts: The fair value of the investments in the insurance company's pooled separate accounts is primarily valued at net asset value (NAV) per share based on quoted market prices of underlying investments.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements (Continued)

The following table sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent).

	Fair Value		Unfunded	Redemption	Redemption
Investment	2014	2013	Commitment	Frequency	Notice Period
Principal Life Insurance Company:					
Fixed Income (a)	\$ 1,425,383	\$ 1,412,567	\$ -	Once every 30 days	None

This category invests the majority of assets in commercial real estate holdings. Investments in this category can be redeemed once every 30 days at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended August 31, 2014, there were no significant transfers between levels.

Note 5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, to provide the following benefits in the order indicated:

- A. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire during that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- B. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations (discussed below).
- C. All other vested benefits (that is, vested benefits not insured by the PBGC).
- D. All nonvested benefits.

Notes to Financial Statements

Note 5. Plan Termination (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For 2015 Plan terminations, that ceiling is \$5,000. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 7. Information Certified and Provided by Wells Fargo, the Current Trustee, and Principal Trust Company (Principal), the Former Trustee

The following is a summary of the Plan's asset and income information as of August 31, 2014 and 2013, and for the years then ended, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the current and former trustees that information provided to the Plan Administrator by the trustees related to the following assets and income information is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and income:

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated July 10, 2012, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Plymouth Tube Company**

Notes to Financial Statements

Note 9. Party-In-Interest Transactions

Wells Fargo manages certain funds for the Plan and is the trustee and custodian, as defined by the Plan. Therefore, these are party-in-interest transactions. Fees paid by the Plan for trustee, custodial and other services amounted to approximately \$12,800 and \$7,200 for the years ended August 31, 2014 and 2013, respectively.

Certain employees of the Company are performing services for the Plan and are not compensated by the Plan. Certain other expenses of the Plan are paid by the Company.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date	June 30, 1962
Effective Date of Last Amendment	September 1, 2011
Plan Year	September 1st to August 31st
Employer Fiscal Year	January 1st to December 31st
Employer ID Number	38-0933700
Plan Administrator's ID Number	36-3000337
Plan Number	005
Plan Administrator	Plan Administrative Committee

Eligibility

All employees of the employer compensated on a salaried basis and not participating in any other defined benefit or defined contribution plan (other than a 401(k) plan) sponsored by the employer, are eligible to participate in this plan upon the first day of the month following completion of one year of service. Participants of the Hopkinsville Plan on January 1, 1991, began participation in this plan on the same date.

Prior to February 6, 1993, employees were eligible to participate in the plan upon the first day of the month following the completion of one month of service.

Service

Periods of service for determining benefit accruals, vesting and benefit qualification are determined using the continuous service of a participant (including authorized leaves of absence and periods of total and permanent disability). For the purpose of determining benefit accruals, continuous service shall be all continuous service after the first day of the year of service which qualifies the employee to be an eligible participant. For other purposes, continuous service shall be all continuous service commencing with date of employment. Periods of employment in a classification excluded from participation shall count for vesting and participant purposes but not for benefit accrual.

Schedule SB Attachment (Form 5500)—2013 Plan Year

Company

EIN: 38-0933700 PN: 005

Normal Retirement Date

For participants who entered the plan before January 1, 1988, the normal retirement date is the participant's sixty-fifth birthday. For participants who entered the plan on or after January 1, 1988, the normal retirement date is the later of the sixty-fifth birthday or the first day of the plan year which includes the fifth anniversary of the date the participant comes into the plan.

Annual Compensation

Annual compensation is compensation paid during each calendar year which is subject to withholding.

Final Average Compensation

Final average compensation is the highest average compensation for any consecutive three calendar years in the previous 10 years of service.

Normal Retirement Benefit

The annual benefit at normal retirement age to be paid in monthly installments equals:

- (1) $1\frac{2}{3}\%$ of final average compensation multiplied by years of credited service (not to exceed 30 years); plus
- (2) 1% of final average compensation multiplied by years of credited service in excess of 30 years (not to exceed 10 years); minus
- (3) $1\frac{3}{4}\%$ of primary Social Security benefit multiplied by years of credited service (not to exceed 40 years).

The benefit for employees who were covered under the prior Hopkinsville Plan is the sum of the Hopkinsville Plan benefit for service to January 1, 1991 (\$5 per month per year of service) and this plan's benefit for service after January 1, 1991.

The plan was frozen as of December 31, 2003. No benefits shall accrue after this date.

Delayed Retirement

A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement the greater of the actuarial equivalent of his normal retirement benefit or the benefit based on service and compensation as of actual retirement date.

Schedule SB Attachment (Form 5500)—2013 Plan Year

Retirement Income Plan for Salaried Employees of Plymouth Tube Company

EIN: 38-0933700 PN: 005

Accrued Benefit

The accrued benefit at any time prior to a participant's normal retirement date shall be the normal retirement benefit based on credited service and final average compensation on the date of determination. The primary Social Security benefit is calculated using the current law and assuming the employee earns level Social Security taxable compensation after the date of the determination.

Early Retirement Benefit

Upon the completion of five years of service and the attainment of age 60, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced by 0.6 of 1% for each month by which the payment date precedes the normal retirement date.

Death Benefit

In the event of a married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and one half survivor benefit payable at his normal retirement or early retirement date and died the next day.

Severance Benefit

Upon the termination of employment after five or more years of service a participant shall have a vested interest in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Less than 5	0%
5 or more	100%

In the event that a participant has met the service requirements for early retirement at the date of termination, he may elect to receive his vested interest at age 60. Such benefit will be reduced as described under Early Retirement Benefit.

Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000 and the 401(a)(17) compensation limit of \$255,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
