INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Fred Smith Plumbing and Heating Co., Inc.
401(k) Profit Sharing Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Fred Smith Plumbing and Heating Co., Inc. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Massachusetts Mutual Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule on page 21 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of the Plan

The following brief description of the Fred Smith Plumbing and Heating Co., Inc. 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all eligible employees of Fred Smith Plumbing and Heating Co., Inc. (the "Company") who have one year of service and have attained the age of twenty-one (21). The Plan was established effective January 1, 1962 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Effective January 1, 1998, the Company elected to amend the Plan in order to convert it to a 401(k) plan.

Contributions

Prior to the conversion to a 401(k) plan, the amount of the contribution made by the Company to the Plan was a portion of its net income as determined by the Company. Effective January 1, 1998, contributions are made to the Plan by participants who may elect to defer a portion (up to 15%) of their compensation subject to certain limitations. The Company may make matching contributions and other non-elective contributions to the Plan at its own discretion. The Company made discretionary contributions of $100,000 and $100,000 to the Plan for the years ended December 31, 2011 and 2010, respectively.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of the employer contribution to the Plan, plan earnings, and forfeitures of terminated participants' nonvested accounts, less an allocation of administrative expenses. Allocations are based on participants' account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of the Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the Company's contributions portion of their accounts, plus earnings thereon, is as follows:

Years of Service	Vesting Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participants' vested account balance. The loans are secured by the balance in the participants' accounts and bear an interest rate of 5.25% at December 31, 2011.

Loans must be repaid in level payments by salary reduction, unless another loan repayment method is approved by the loan administrator. All loans are required to be repaid within 5 years of the date of the loan. All loans will be due at the termination of service of the Plan participant. If the Plan participant notifies the loan administrator in writing that the entire proceeds of the loan will be used to acquire a primary residence of the Plan participant, the loan will be required to be repaid within 10 years of the original date of the loan.

Payment of Benefits

The purpose of the Plan is to provide eligible employees of the Company with retirement benefits. The benefits may be provided to eligible participants upon death, disability or termination of employment.

Note 1 - Description of the Plan (Continued)

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $3,310 and $621, respectively. These accounts may be used to reduce future employer contributions. During 2011 and 2010, employer contributions were reduced by $-0- from forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value.

The MassMutual Guaranteed Fund is stated at fair valued based upon the estimated liquidation value, as determined by the trustee, within contract specifications.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

The pooled separate accounts are valued at account value, which approximates fair value. Account value represents contributions made, plus earnings, realized gains (losses) on sale of investments, changes in unrealized appreciation (depreciation) of investments, less funds used to pay distributions to participants and administrative expenses, if any.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All payments in excess of the amounts recorded by the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events and transactions through October 2, 2012, the date that the financial statements were available to be issued.

Note 3 - Information Certified by Trustee (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the plan administrator has obtained certification from Massachusetts Mutual Life Insurance Company, the trustee, that the information pertaining to the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2011	2010
Investments, at fair value:		
MassMutual Guaranteed Fund	$ 4,611,818	$ 4,380,318
Pooled separate accounts	2,544,934	2,595,094
Total investments	$ 7,156,752	$ 6,975,412
Notes receivable from participants	$ 174,264	$ 163,617
Investment income:		
Net (depreciation) appreciation in fair value of investments	$ (126,185)	$ 229,292
Interest and dividends	236,297	247,453
Net investment income	$ 110,112	$ 476,745
Interest on notes receivable from participants	$ 8,723	$ 2,937
Adjustment from fair value to contract value for fully benefit-responsive investment contracts - MassMutual Guaranteed Fund	$ (394,720)	$ (306,289)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Investment Contract with Insurance Company

In 2003, the Plan entered into a fully benefit-responsive investment contract (the MassMutual Guaranteed Fund) with MassMutual Retirement Services ("MassMutual"). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $4,611,818 and $4,380,318, respectively. The crediting interest rate is based upon a formula agreed upon with the issuer. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) temporary absence, (2) change in position or other occurrence qualifying as a temporary break in service under the Plan, (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer, or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2011	2010
Average yields:		
Based on actual earnings	2.79%	2.86%
Based on interest rate credited to participants	2.79%	2.86%

Note 5 - Investments

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits.

	2011	2010
Massachusetts Mutual Life Insurance Company:		
MassMutual Guaranteed Fund	$ 4,611,818	$ 4,380,318
Pooled separate accounts:		
MassMutual Premier Core Bond Fund	426,541	503,621

As stated in Note 4, the MassMutual Guaranteed Fund, which is deemed to be fully benefit-responsive, is stated at fair value in the statements of net assets available for benefits, with a corresponding adjustment to contract value. The contract value of this investment at December 31, 2011 and 2010 was $4,217,098 and $4,074,029, respectively.

Net (Depreciation) Appreciation in Fair Value of Investments

During 2011 and 2010, the Plan's investments in securities (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by $(126,185) and $229,292 as follows:

	2011	2010
Investments at account value, which approximates fair value:		
Pooled separate accounts	$ (126,185)	$ 229,292
Net (depreciation) appreciation in fair value of investments	$ (126,185)	$ 229,292

Note 6 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

Note 6 - Fair Value Measurements (Continued)

The valuation methods described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2011:

Investments in securities:

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

MassMutual Guaranteed fund is organized with the objective and purpose of making investments in real estate assets; owning, managing, supervising, and disposing of such investments through its subsidiaries; sharing the profits and losses therefrom. Investment in this fund is redeemable the following quarter after notice is given.

The Plan's investment in the pooled separate accounts - bond funds, consists of holdings in the following:

The Premier Core Bond Fund's objective is to seek a high total rate of return consistent with prudent investment risk and preservation of capital. The fund invests at least 80% of its assets in investment-grade fixed income securities which include U.S. dollar-denominated corporate obligations, securities issued or guaranteed by the U.S. government or its agencies, U.S. dollar-denominated bonds of foreign issuers, and mortgage-backed and other asset-backed securities. The fund may also invest up to 10% of its assets in below investment-grade debt securities.

Note 6 - Fair Value Measurements (Continued)

The Plan's investment in the pooled separate accounts - growth stock funds, consists of holdings in the following:

The Spectrum Growth Fund's objective is to seek long-term capital appreciation and growth of income with current income as a secondary objective. The fund normally diversifies assets widely among a set of T. Rowe Price mutual funds representing specific market segments. The fund normally invests in domestic and international equity funds and a money market fund.

The Select Aggressive Growth Fund's objective is to seek long-term capital appreciation. The fund invests primarily in U.S. common stocks and other equity securities, with an emphasis on large capitalization growth companies.

The American Funds Growth Fund of America's objective is to seek capital appreciation by investing in common stocks. The fund invests primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital.

The Select Mid Cap Growth Equity II Fund's objective is to seek growth of capital over the long term. The fund normally invests at least 80% of its assets in a broadly diversified portfolio of common stocks of mid-cap companies whose earnings the fund expects to grow at a faster rate than the average company.

The Select Small Cap Growth Equity Fund's objective is to seek long-term capital appreciation. The fund invests at least 80% of its net assets in the securities of companies whose market capitalizations, at the time of purchase, fall within the range of companies in the Russell 2000 Index or the S&P Small Cap 600 Index.

The American Funds EuroPacific Growth Fund's objective is to seek above average capital appreciation. The fund normally invests at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth.

The Plan's investment in the pooled separate accounts - income stock funds, consists of holdings in the following:

The Premier Strategic Income Fund's objective is to seek high current income. The fund invests mainly in debt securities of three market sectors: foreign governments and companies, U.S. government securities, and lower rated high-yield securities of U.S. and foreign companies.

Note 6 - Fair Value Measurements (Continued)

The Plan's investment in the pooled separate accounts - value stock funds, consists of holdings in the following:

The Select Large Cap Value Fund's objective is to seek both capital growth and income. The fund normally invests at least 80% of its assets in common stocks of companies with market capitalizations of at least $5 billion at the time of purchase. The fund's strategy is to select these companies for the long term.

The Select Fundamental Value Fund's objective is to seek long-term total return. The fund normally invests at least 80% of its assets in equity securities.

The Select Focus Value Fund's objective is to seek growth of capital over the long term. The fund invests primarily in a portfolio of U.S. equity securities.

The Plan's investment in the pooled separate accounts - index stock funds, consists of holdings in the following:

The Select Indexed Equity Fund's objective is to seek to approximate, as closely as practicable (before fees and expenses), the capitalization-weighted total rate of return of that portion of the U.S. market for publicly-traded common stocks composed of larger capitalized companies. The fund normally invests at least 80% of its assets in the equity securities of companies that make up the S&P 500 Index.

The SSgA Mid Cap Equity Index Fund's objective is to seek to replicate the return of the S&P Mid Cap 400 Index. The fund normally invests in a portfolio that owns units of one or more portfolios that hold securities of the S&P Mid Cap 400 Index, in the same capitalization weights as they appear in the index.

The SSgA Small Cap Equity Index Fund's objective is to seek to replicate the returns and characteristics of the Russell 2000 Index. The fund normally invests in a portfolio that holds the securities of the Russell 2000 Index.

The SSgA International Equity Index Fund's objective is to seek to match the performance of the MSCI EAFE Index while providing daily liquidity. The fund invests in an underlying portfolio that replicates the index.

Note 6 - Fair Value Measurements (Continued)

The Plan's investment in the pooled separate accounts - other funds, consists of holdings in the following:

The T. Rowe Price Retirement Income Fund's objective is to seek the highest total return over time consistent with an emphasis on both capital appreciation and income. The fund invests in a set of underlying T. Rowe Price mutual funds representing various asset classes and sectors.

The T. Rowe Price Retirement 2010 Fund's objective is to seek the highest total return over time consistent with an emphasis on both capital appreciation and income. The fund invests in a set of underlying T. Rowe Price mutual funds representing various asset classes and sectors.

The T. Rowe Price Retirement 2020 Fund's objective is to seek the highest total return over time consistent with an emphasis on both capital appreciation and income. The fund invests in a set of underlying T. Rowe Price mutual funds representing various asset classes and sectors.

The T. Rowe Price Retirement 2040 Fund's objective is to seek the highest total return over time consistent with an emphasis on both capital appreciation and income. The fund invests in a set of underlying T. Rowe Price mutual funds representing various asset classes and sectors.

The Premier Small Company Opportunities Fund's objective is to seek long-term capital appreciation. The fund invests at least 80% of its net assets in the securities of small-cap companies whose market capitalizations at the time of purchase are within the range of the capitalization of companies included in the Russell 2000 Index or the S&P Small Cap 600 Index.

The Premier Global Fund's objective is to seek long-term capital appreciation. The fund invests mainly in common stocks of U.S. and foreign companies.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Note 6 - Fair Value Measurements (Continued)

Changes in Fair Value Levels (Continued)

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2011 and 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 7 - Related Party Transactions

Certain Plan investments are shares of pooled separate accounts managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $31,600 and $32,398 for the years ended December 31, 2011 and 2010, respectively.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 9 - Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated January 2, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 9 - Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
