LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note 1. Description of Plan

The following description of the Laddawn, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all employees of Laddawn, Inc. who are age eighteen or older. The Plan's entry dates are January 1, April 1, July 1 and October 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct their contributions and Company contributions, if any, within various investment options offered by the Plan through the Great-West Life & Annuity Insurance Company, Inc. (Great-West). Each year, the Company, at the discretion of its Board of Directors, may make an annual matching contribution or a profit-sharing contribution. In 2014, the Company contributed 50% of the first 6% of base compensation that each participant contributed to the plan. Contributions are subject to certain limitations. The Company contributed $252,650 to the Plan in 2014.

Each participant's account is credited with the participant's contribution, the Company matching contribution (if any) and the Company non-elective contribution (if any), an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company matching contributions is based on years of continuous service. A participant is 100% vested after three years of credited service.

At December 31, 2014 and 2013, forfeited accounts totaled $6,082 and $3,614, respectively. These accounts will be used to offset future plan expenses and future employer contributions. In 2014, the Plan Sponsor used forfeited accounts to reduce plan expenses by $3,614 and employer contributions by $14,868.

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of the vested portion of their individual accounts, whichever is less. Loans must be repaid within five years unless the proceeds are used to buy a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 7.75%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through weekly payroll deductions.

On termination of service, for any reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals may be made under certain other circumstances in accordance with the Plan document.

LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note 2. Summary of Significant Accounting Policies

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported additions to and deductions from assets. Actual results could vary from the estimates that were used.

The Plan's investments are stated at fair market value. Quoted market prices are used to value investments. Shares of pooled separate accounts are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Benefits are recorded when paid.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Assets Available for Benefits and the Statement of Changes in Assets Available for Benefits presents the fair value of the investment contracts as it approximates contract value.

Note 3. Investments

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

Note 4. Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian:

	2014	2013
Investments at Fair Value:		
Units of Pooled Separate Accounts	10,069,822	9,233,590
Units of Guaranteed Investment Contract	1,178,085	776,921

Investment Income	623,028

Note 5. Fair Value Measurements

U.S. Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

Level 2

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (cont.)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013:

LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note 6. Investment Contract with Insurance Company

In 2006, the Plan entered into a guaranteed investment contract with Great-West. Great-West Life & Annuity Insurance Company, Inc. maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, unless due to Plan or contract termination, in which case they are made at the lesser of contract or market value. Market value does not significantly differ from contract value at December 31, 2014 or 2013.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The interest crediting rate and average yield was 1.25% for the year ended December 31, 2014 and 1.26% for the year ended December 31, 2013. The crediting interest rate is based on a formula agreed upon with the issuer, and is reset quarterly.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable of occurring.

Note 7. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Great-West Life & Annuity Insurance Company, Inc. Great-West Life & Annuity Insurance Company, Inc. is also the investment custodian as defined by the Plan, therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for the investment management services totaled $32,354 for the year ended December 31, 2014.

LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

Note 10. Administrative Costs

Laddawn, Inc., the plan sponsor, absorbs significant administrative costs of the Plan.

Note 11. Tax Status

The Company has a Prototype Plan and Trust Agreement. The Internal Revenue Service has determined, by a letter, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Management does not believe the Company's financial statements include any uncertain tax positions. Generally, the Company's tax returns remain subject to examination for a period of three years.

Note 12. Date Through Which Subsequent Events Have Been Evaluated

The Company has evaluated all material subsequent events from the end of the fiscal year through June 5, 2015, the date the financial statements were available to be issued.
