FIRST CREDIT UNION 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 DESCRIPTION OF THE PLAN

The following description of the First Credit Union 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants and others should refer to the Plan agreement for a more complete description of the Plan's provisions. The effective date of the Plan is January 1, 1997. Effective January 1, 2003, the Plan was amended and restated to comply with all recent law changes relating to minimum distributions and catch-up contributions. The restatement complied with the required EGTRRA and GUST amendments.

General

The Plan is a defined contribution plan which provides eligibility for all employees of First Credit Union (the Plan Sponsor) (Credit Union) who are not members of a collective bargaining unit or nonresident aliens and have attained age 19 and completed one year of service, or earlier if they complete at least 500 hours of service in the first six months of employment with First Credit Union. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended. The Trustees are responsible for the oversight of the Plan. They determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Participant contributions to the Plan are made through payroll deductions. Participants may elect to have a percentage of their eligible pre-tax earnings contributed to the Plan up to annual limits established by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Employer contributions are made at the discretion of First Credit Union and may consist of both matching and discretionary profit sharing amounts. Each participant's share of the matching contribution is based on the matching percentage of 50 percent of the first 6 percent of eligible employee deferrals. Each participant's share of the discretionary profit sharing contribution is based on the relationship of the participant's compensation to the total compensation for all participants. Participants are eligible for matching and discretionary contributions when they have reached age 21 and completed one year of service. For the years ended December 31, 2013 and 2012, employer match contributions were made.

Participant Accounts

Participants make direct contributions to any of several investment options. Each participant's account is credited with the participant's contribution and allocation of the Plan earnings (losses), Credit Union matching contribution, and the discretionary profit sharing contribution. Allocations are based on account balances and participant earnings (losses), as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account subject to plan provisions.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and the participant loan fund. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive the value of the vested interest in his or her account in the form of a lump sum distribution. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan administrator will authorize the benefit payment without the participant's consent. If the vested amount is over \$1,000, the participant may leave the account under the Plan or have the balance of the vested account paid after employment terminates.

Vesting

Participants are immediately fully vested in contributions made through salary deferrals and earnings/losses. Participants are fully vested in the employer contributions after completing six years of service.

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

Forfeitures are the unvested amounts of employer contributions that were allocated to the accounts of terminated participants. Forfeitures are used to offset the amount of future employer discretionary contributions and administrative expenses.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value.

**FIRST CREDIT UNION 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Continued)

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts which approximates contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates in Preparing Financial Statements

The preparation of the financial statements in accordance with accounting principles generally accepted in the United State of America requires management to make a number of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments are reported at fair value, which is the current market value of each account as determined by the custodians.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Changes in market value of investments held at year-end and realized gains and losses on investment transactions during the year are reflected in the statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. Interest income (loss) is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make note repayments and the Plan administrator deems the participant note to be in default, and the participant note balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Administrative costs of the Plan are paid by First Credit Union and can be reduced by forfeitures. Investment expenses are charged to the participants' accounts.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2014, the date the financial statements were available to be issued.

Reclassification of 2012 Data

Data in the 2012 financial statements has been reclassified to conform with the presentation of the 2013 financial statements. This reclassification did not have any change on net assets available for benefits.

NOTE 3 INVESTMENTS CERTIFIED BY THE CUSTODIANS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- a. Participant-directed investments as shown in the accompanying statements of net assets available for benefits of \$4,402,521 and \$4,238,497 as of December 31, 2013 and 2012, respectively.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

FIRST CREDIT UNION 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end, using Interactive Data Corporation (IDC) for securities pricing. IDC provides the NAV as determined by the mutual fund distributor each day the NAV is determined (typically, each day the New York Stock Exchange is open). Mutual fund NAVs are determined by the distributor in accordance with the pricing methodology adopted by the mutual fund.

Collective funds: Valued at the NAV for a common/collective trust fund (CCT) directly from the trustee of the CCT each period for which the trustee determines an NAV, with information sent to CUNA Mutual Insurance Society (CUNA). The NAV is determined in accordance with a valuation methodology adopted by the CCT's trustee.

Deposit administration contract (stable value fund): The investment contracts are reported at contract value and are calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. (See Note 5)F

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There are no unfunded commitments on the Plan's investment holdings.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the nature and risks of the categories of assets by major security type.

Asset Allocation Funds (Managed portfolio funds): includes investments with pre-built portfolios based on personal investment style and funds with strategies that change as they approach a specific retirement date. Conservative funds seek income first, then capital appreciation; moderate funds seek a combination of income and capital appreciation; and aggressive funds seek capital appreciation. Target retirement date funds are investment portfolios where the investment option furthest away from the retirement date has a greater percentage of stocks than bonds. The portfolio changes over time becoming increasingly conservative as the target date nears.

Large-Cap Stocks (Moderate stock funds): seek a high level of long-term capital appreciation by investing in common stocks. Funds invest in common stocks of small and medium companies seeking to parallel the Standard & Poor's 500 Index funds, or common stocks of companies anticipating significant growth.

Stable Value Fund: seeks long-term, stable interest rate returns on pension deposits. CUNA guarantees the account, with investments primarily in corporate bonds, mortgage backed securities, municipal bonds, and other high grade fixed income securities.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31.

NOTE 5 INVESTMENT CONTRACT WITH INSURANCE COMPANY

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another investment entity); (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the Plan sponsor or other plan sponsor events which cause significant withdrawal from the plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes of any required prohibited transaction exemption under ERISA.

The Plan does not believe that any occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

During the year ended December 31, 2012, the Plan entered into a fully benefit-responsive deposit administration group annuity contract with CUNA Mutual. CUNA Mutual maintains the contributions in an active life fund. This account is credited with interest at the rate specified in the contract and charged for participant withdrawals. As described in the Summary of Significant Accounting Policies, because the deposit administration group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the deposit administration group annuity contract. Fair value, as reported to the Plan by CUNA Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value, less applicable penalties.

For the deposit administration group annuity contract, the average yields based on actual earnings were approximately 1.95% and 2.35% for 2013 and 2012, respectively.

The average yields based on interest rate credits to participants were approximately 1.95% and 2.35% for 2013 and 2012, respectively. The crediting interest rates were 1.95% and 2.35% for 2013 and 2012, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

NOTE 6 TAX STATUS

The Plan obtained its latest determination letter on January 13, 2006, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

FIRST CREDIT UNION 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 6 TAX STATUS (CONTINUED)

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 FORFEITURES

At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$6,751 and \$2,907, respectively. These forfeited account balances are available to reduce future employer contributions. During 2013 and 2012, employer contributions were reduced by forfeiture reallocations of \$2,913 and \$7,114, respectively.

NOTE 8 RELATED PARTY TRANSACTIONS

For the period of January 1, 2012 through October 1, 2012, the Plan's investments include mutual funds and a guaranteed interest contract managed by Marshall & Ilsley Trust Company who is a custodian as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions.

For the period of October 2, 2012 through December 31, 2013, the Plan's investments include a deposit administration contract and variable annuity contracts managed by CUNA CMFG Life Insurance Company and MG Trust Company, LLC who are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 9 PLAN TERMINATION

Although it has not expressed any intent to do so, First Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon such termination, all participants would become fully vested in their account balances after deductions for estimated liquidation and distribution expenses.

NOTE 10 RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
