HENRY H. OTTENS
MANUFACTURING 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION:

The following description of the Henry H. Ottens Manufacturing 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General -

Henry H. Ottens Manufacturing Co., Inc. (the "Company") established the Henry H. Ottens Manufacturing 401(k) Plan (the "Plan") and related trust for the benefit of eligible employees. Substantially all of the Plan's participants are employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective May 1, 2015, the Company was acquired by International Flavors & Fragrances Inc. Currently, there are no formal arrangements to terminate the Plan.

Contributions -

The Plan is a defined contribution plan to which participants may contribute up to 92% of their compensation, as defined in the Plan, subject to certain limitations. In addition, participants may contribute "rollover" contributions from other qualified plans. The participant, upon application, specifies the available funds into which his or her own contributions shall be invested. Participants may elect to change the manner in which contributions are allocated and may also transfer contributions from one fund to another. Employees are covered by the Plan after completing six months of service with the Company.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 2% of eligible compensation. Contributions are automatically invested in a designated balanced fund until changed by the participant.

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

The Company matches, on a per-pay basis, 100% of the first 3% of the amount contributed into the Plan by eligible participants and 50% of the next 2% contributed. Highly compensated participants are not eligible for this safe harbor match. The Company made a discretionary matching contribution (4% of compensation in 2014 and 30% of participant's elective deferral in 2013), to each eligible highly compensated participant's elective deferral, subject to certain limitations. The Company may also make an additional profit sharing contribution to predetermined allocation groups as specified in the Plan agreement. There were no profit sharing contributions for the years ended December 31, 2014 and 2013.

Participant Accounts -

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participant contributions, Company matching contributions and earnings thereon are fully vested at all times and are not subject to forfeiture.

Vesting in profit sharing contributions is as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
1	33%
2	66%
3	100%

Participants become fully (100%) vested in any profit sharing contributions upon the occurrence of death, total or permanent disability, or normal retirement.

Forfeited Accounts -

At December 31, 2014 and 2013, forfeited accounts totaled \$24, respectively. These accounts will be used to reduce future Company matching contributions. In 2013, Company matching contributions were reduced by \$187 from forfeited accounts. In 2014, no forfeitures were used.

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Notes Receivable from Participants -

Participants may borrow from their fund accounts. Maximum terms of loans to participants are generally five years. Monthly interest payments by participants are based on rates determined by the Plan administrator considering market interest rates in effect at the time of making the loan. Loans are secured by the participant's account balance and are limited to the lesser of \$50,000 or 50% of the amount vested in the participant's account.

Payment of Benefits -

Payment of participant benefits is made upon the participant attaining normal retirement age, disability, death, or termination of employment. Benefits are distributed to a participant or their designated beneficiary in a lump-sum payment.

Administrative Expenses -

Substantially all expenses of the Plan are paid by the Company except for fees associated with participant loans.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting -

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates -

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Risks and Uncertainties -

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Notes Receivable from Participants -

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income from notes receivable is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the entire outstanding principal and accrued interest is immediately due and payable based on the terms of the Plan document.

Investment Valuation and Income Recognition -

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits -

Benefits are recorded when paid.

Date of Management's Review -

Subsequent events were evaluated through June 12, 2015, which is the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable inputs and have the lowest priority. The Plan uses the appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were used by the Plan.

Level 1	The fair values of the registered investment companies and money market funds are based on the closing price reported on the active market where the individual securities are traded.

6. FEDERAL TAX STATUS:

The Company adopted the Plan using the Volume Submitter Plan Document prepared by Fidelity Management & Research Company. An opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008 states that the form of the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Volume Submitter Plan Document has been amended since receiving the opinion letter. The Company has not obtained a separate determination letter from the IRS; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for taxes has been made in the accompanying financial statements.

HENRY H. OTTENS MANUFACTURING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
