EXTRUMED, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

For the Year Ended December 31, 2012

NOTE 1- DESCRIPTION OF PLAN

The following description of the EXTRUMED, INC. 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan Document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees (with the exception of a collective bargaining unit or non-resident aliens) of EXTRUMED, INC. ("Company") who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute the maximum amount allowed by the Internal Revenue Code. Participants may also contribute amounts representing rollover distributions from other qualified pension plans. The Company may contribute to participant accounts in addition to elective deferrals. Employees become eligible to participate in the Plan after one year of service. In the year a participant becomes eligible, the Company contributes its required safe harbor match for that participant calculated retroactively back to the beginning of the year in which eligibility was first met.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of their respective gain and loss. All salary deferrals are invested in participant segregated accounts.

Vesting

Participants are immediately vested in their salary deferral contributions and Company funded required safe harbor matching contributions plus actual earnings thereon. The vesting schedule for Employer discretionary matching contributions and Employer discretionary Profit Sharing is at the rate of 20% each year after 1 year of service (20% vested in the first year – 40% vested in the second year, 60% vested in the third year, 80% vested in the fourth year, and 100% vested in the fifth year).

Participants may borrow multiple loans from the Plan for an amount not exceeding the lesser of \$50,000 or 50% of the vested interest in their account. The loans are secured by the vested balance in the participant's account and bear interest at variable annual rates.

Payments of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or roll-over their vested benefit to another eligible account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants are also eligible to receive a hardship distribution of any or all of their respective vested funds.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair market value. Shares of registered mutual fund companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTES TO FINANCIAL STATEMENTS

For the Year Ended December 31, 2012

SFAS No. 157, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad level: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on the quoted net asset values of the shares held by the Plan at the year-end. The fair value of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Level 3 Fair Value Measurements

The participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)
