Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Principal Life Insurance Company, the Plan custodian, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the

custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

(1) Description of Plan

The following description of the EKS Group, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of EKS Group, LLC (the "Company") who are age twenty-one or older and have in excess of 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan's trustees consist of two managing partners from the Company. The Plan is sponsored and administered by the Company. Principal Life Insurance Company ("Principal") is the Plan's third-party administrator and custodian.

Contributions. Each year, participants may make contributions to the Plan. Participants may elect to defer the receipt of a portion of their compensation on a pre-tax basis, not to exceed the maximum contribution limits specified by the Internal Revenue Code. The Plan also permits rollover contributions from other plans, as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers several pooled separate accounts as well as a guaranteed interest account option for participants.

The Company made matching contributions of 100% up to the first 4% of base compensation that a participant contributed. The Company may also make an additional discretionary contribution each Plan year.

Participants' Accounts. Each participant's account is credited with the participant's contribution, rollover contributions, if any, and an allocation of the Company's contribution and Plan earnings or losses. Allocations of the Plan earnings or losses are based on the participant's account balance during the Plan year, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting. Participants are immediately vested in their voluntary contributions, including amounts rolled over into the Plan from other qualified plans (as defined in the Plan), plus actual earnings thereon. Vesting in the Company's matching contributions and earnings thereon is based on years of continuous service as defined in the Plan. After one year, a participant is 20% vested, 40% after two years, 60% after three years and 80% after four years. A participant is 100% vested in the entire account after five years of credited service.

(1) Description of the Plan, Continued

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at rates available for similar loans from commercial lending institutions. The loan administrator periodically examines the rates such lenders are using. The rates are fixed at the loan origination date. Principal and interest is paid ratably through bi-monthly payroll deductions. Loan terms cannot exceed five years.

Payment of Benefits. Upon termination of service, a participant may request to receive a lump sum amount equal to his or her vested account. Balances greater than $5,000 may remain in the Plan upon termination if not otherwise directed by the participant. Account balances less than or equal to $5,000 are to be automatically distributed upon termination, if not otherwise directed by the participant. A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Forfeited Accounts. Forfeited accounts are used by the Company to pay Plan administrative expenses or reduce future employer contributions. There were no forfeited accounts in 2014 or 2013.

(2) Summary of Accounting Policies

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting.

Subsequent Events. Management has evaluated all significant events occurring subsequent to the financial statement date through June 12, 2015, which is the date the financial statements were available to be issued, determining no events require additional disclosure in the financial statements.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value and are based on the framework for measuring fair value. Fair values of pooled separate accounts are determined using unit values calculated by Principal.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(4) Fair Value Measurements, Continued

(continued)

(2) Summary of Accounting Policies, Continued

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of Benefits. Benefits are recorded when paid.

Expenses. Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(3) Investments

Investments that represent 5% or more of the Plan's net assets follows:

	At December 31,	
	2014	**2013**
Pooled separate accounts:		
Principal LifeTime 2030	$ 238,191	227,122
Principal LifeTime 2040	77,894	60,171
Principal LifeTime 2015	67,192	48,738
Principal LifeTime 2035	40,697	28,247
Principal LifeTime 2020	*	41,832
Principal LifeTime 2025	*	40,388

* Less than 5% at this date.

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $31,317.

(4) Fair Value Measurements

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy

requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy describes three levels of inputs that may be used to measure fair value:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

(continued)

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and model-driven valuations whose inputs are observable or whose significant value drivers are observable. Valuations may be obtained from, or corroborated by, third-party pricing services.

Level 3: Unobservable inputs to measure fair value of assets and liabilities for which there is little, if any market activity at the measurement date, using reasonable inputs and assumptions based upon the best information at the time, to the extent that inputs are available without undue cost and effort.

The asset fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts. Each pooled separate account ("PSA") invests in a single mutual fund, domestic stocks, international stocks, or fixed securities. While the underlying assets values may be quoted prices, the net asset value ("NAV") of the PSA is not publicly quoted. GAAP allows NAV per share to serve as a practical expedient to estimate the fair value of a PSA. PSA's can be redeemed at NAV as of the measurement date on a daily basis and are therefore categorized as a Level 2 fair value measurement.

Guaranteed Investment Contract. Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at the contract value, fair value is determined annually for the financial statement reporting purposes only. In determining the reasonableness of the methodology the Plan evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes

(4) Fair Value Measurements, Continued

its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(continued)

(4) Fair Value Measurements, Continued

The following table sets forth by Level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

	$ 521,781	-	521,289	492

(continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets during the year ended December 31, 2014:

	Guaranteed Return Investment Accounts
Balance, beginning of year	$ 492
Unrealized loss relating to instruments still held at the reporting date	(3)
Purchases, sales, issuances and settlements (net)	(3)
Balance, end of year	$ 486

The following table represents the Plan's Level 3 financial instruments at December 31, 2014, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Significant Values
Investment contracts	$ 486	Discounted Cash Flow	Swap Yield Rates	0.72%

Duration	2.0
Payout Date	12/31/15
Payout Percentage	100%

(5) Related Party Transactions and Service Fees

Certain Plan investments are pooled separate accounts and investment contracts managed by Principal, the Plan's third-party administrator and custodian, and therefore, these transactions qualify as party-in-interest. Fees charged by Principal for managing and investing the Plan's assets are paid by the Plan and were $5,239 during 2014. In addition, the Company provides certain accounting and administrative services to the Plan for which no fees are charged.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(continued)

(7) Tax Status

The Company adopted a prototype plan document that was approved by the Internal Revenue Service ("IRS") on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC'). The Plan has not applied for an individual determination letter from the IRS. The Company believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC and that the Plan has satisfied the qualification requirements of the IRC Section 401(a) in operation and, therefore, the related trust is exempt from federal income taxes under the provisions of IRC Section 501(a). Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Company has analyzed the tax positions taken by the Company, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Information Certified by Custodian

The information contained in the financial statements and supplemental schedule, which was certified by the Plan's custodian, is as follows:

Statements of Net Assets Available for Benefits

Investments:
- Pooled separate accounts
- Guaranteed return investment account

Statement of Changes in Net Assets Available for Benefits

Investment income

Schedule of Assets Held for Investment Purposes

All information, except notes receivable from participants

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
