Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

September 30, 2014 and September 30, 2013

1. Description of the Plan

The following brief description of the Scitor Corporation (the "Company") Salary Savings and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide employees of the Company with retirement benefits within the meaning of section 401(a) of the Internal Revenue Code (the "IRC"), as amended. The Plan was amended and restated effective October 1, 2013. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility

Employees are eligible to participate in the Plan immediately upon the first day of employment. Temporary or leased employees, interns, and contractors are not eligible to participate in the Plan.

Contributions

Eligible employees may make bi-weekly pre-tax or after-tax contributions, as defined by the Plan, through salary reductions of up to 50% of their eligible compensation, subject to the limitations of the IRC. Eligible employees who have attained the age of 50 before the end of the fiscal year may elect to contribute additional catch-up contributions to the Plan. The Plan also allows participants to make rollover contributions from other qualified plans.

The Company may make annual discretionary contributions to the Plan in an amount determined by the Company. The Plan was amended effective October 1, 2013 to identify three Participant Groups:

Participant Group 1: Eligible Participants previously employed with GCI Inc., and whose participation in the Plan commenced on November 22, 2013 in connection with a transaction with GCI Inc.

Participant Group 2: Eligible Participants previously employed with GDIT Inc., and whose participation in the Plan commenced on November 22, 2013 in connection with a transaction with GDIT Inc.

Participant Group 3: All Eligible Participants not described in Participant Group 1 or Participant Group 2.

Discretionary contributions may be determined separately for each Participant Group, as defined by the Plan. Discretionary contributions are allocated as of the last day of the Plan year, to participants that are Eligible Participants on the last day of the Plan year, in the ratio that each Eligible Participant's Compensation, as defined by the Plan, in such Participant Group bears to the aggregate Compensation of all Eligible Participants in that Participant Group. For the fiscal year ended September 30, 2014, the discretionary contribution for Participant Groups 1, 2, and 3 was 16.50%, 5.00%, and 7.61%, respectively, of eligible compensation paid during the fiscal year. Prior to October 1, 2013, all participants received the same discretionary percentage. For the fiscal year ended September 30, 2013, the discretionary contribution was 6.95% of eligible compensation paid during the fiscal year.

Vesting

Participants are immediately vested in both their voluntary contributions and the Company's contributions plus actual earnings thereon.

Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

September 30, 2014 and September 30, 2013

Participant Accounts

Participants may elect to have their individual account invested in any combination of various mutual funds and common trust funds managed by T. Rowe Price Trust Company ("T. Rowe Price" or "Trustee"). In addition, participants may select a self-directed option whereby they may select any investment available through T. Rowe Price. Each participant's account is credited with the participant's contributions, an allocation of the Company's contributions, and an allocation of Plan earnings (losses) thereon based on participant earnings or account balances, respectively, as defined in the Plan agreement.

Notes Receivable from Participants

Eligible employees participating in the Plan may borrow up to 50% of their vested account balance, limited to a maximum loan of \$50,000. Loans are subject to approval and bear interest at prevailing market rates at the date of the loan, as determined by the Trustee, which is currently set at the prime rate plus 2%. The interest rates on existing loans ranged from 5.25% to 10.25% at September 30, 2014 and September 30, 2013.

Loans are to be repaid within four and one half years of the date of the loan, unless the loan is used by a participant to acquire a principal residence, in which case the term of the loan will not exceed ten years. Loans are secured by the balance in the participant's account, and principal and interest are paid through payroll deductions. Participants must pay any outstanding loan balances in full upon termination of service with the Company.

Payment of Benefits

Upon termination of employment or separation of service due to retirement, death, or disability, the balances in the participants' accounts may be distributed to the participants or their beneficiaries in a lump sum. Employees who are age 59-1/2 or older may request to withdraw an amount up to their total account balance accumulated through September 30, 2007. Any contributions made to the Plan after October 1, 2007 are not eligible. The Plan also allows for certain hardship withdrawals.

Plan Amendment and Termination

Although it has not expressed any intention to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, Plan assets would be distributed to participants after satisfying all liabilities.

Administrative Expenses

Administrative expenses are paid by an unallocated account funded by T. Rowe Price, the Company, or the Plan. Administrative expenses of \$175,917 and \$167,181 were paid out of the unallocated account for the fiscal years ended September 30, 2014 and September 30, 2013, respectively. The amount funded by T. Rowe Price for the fiscal years ending September 30, 2014 and September 30, 2013 was \$212,578 and \$161,170, respectively. During the fiscal year ended September 30, 2014, the Plan allocated excess budgeted amounts of \$249,276 from the unallocated account to eligible participants. As of September 30, 2014, no amounts were owed to the Plan by T. Rowe Price, and the balance in the unallocated account was \$261,553. As of September 30, 2013, the receivable owed to the Plan by T. Rowe Price was \$97,398, and the balance in the unallocated account was \$474,850. The balance in the unallocated account will be used to pay future administrative expenses of the Plan, or may be refunded to participants, as appropriate.

Participants with balances in the self-directed option incur a maintenance fee of \$18.75 per quarter, and participants may incur redemption fees for certain investment fund transactions. For the fiscal years ended September 30, 2014 and September 30, 2013, these fees totaled \$19,811 and \$14,922, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

All investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and is measured based on an established hierarchy of inputs. See Note 5 for a discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The T. Rowe Price Stable Value Common Trust Fund ("SVF") is a fully benefit-responsive common trust fund. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. Contract value is cost plus accrued income minus redemptions. The statement of changes in net assets available for benefits is prepared on a contract value basis. The Plan's investment in the SVF is valued based on information reported by the Plan's Trustee.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan provides for various investment options. Investment securities, such as mutual funds, common trust funds, and common stocks, are exposed to various risks, such as interest, market, and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults, and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan agreement.

Payment of Benefits

Benefit payments are recorded when paid.

Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

September 30, 2014 and September 30, 2013

Tax Status

Income taxes are not provided as the Plan is designed to be exempt from taxation under the IRC. The Plan obtained its latest determination letter on July 10, 2014, at which time the Internal Revenue Service (the "IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently operating in compliance with the applicable requirements of the IRC. For fiscal year 2014, the Plan initially failed IRS code section 415(c) compliance testing, and corrective distributions were made subsequent to September 30, 2014 in the amount of \$1,763. No contribution overpayments were identified through IRS code section 415(c) compliance testing for fiscal year 2013.

The Company determined that the Plan inadvertently made certain in-service withdrawals during fiscal years 2008 through 2015, which were not permitted under the terms of the Plan. The Plan was amended, effective April 23, 2015, to allow in-service withdrawals in certain situations. The Company is in the process of preparing a request to the IRS for approval of a correction under the Voluntary Correction Program (VCP). Under this correction, the Company will retroactively amend the Plan, effective October 1, 2007, to allow in-service withdrawals in certain situations and bring the previously made in-service withdrawals into compliance with the amended Plan. The plan administrator and counsel for the Company expect that the final outcome of the VCP process will not have a material effect on the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2014 and September 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the fiscal year ended September 30, 2010 and prior years.

New Accounting Pronouncements

Recent accounting pronouncements issued by the FASB during fiscal year 2014 and through the report release date did not have, and are not expected to have, a material impact on the Plan's financial statements.

3. Information Certified by the Trustee

The investment balances included in the statement of net assets available for benefits, the related investment income information, which includes net appreciation (depreciation) in fair value and interest and dividends included in the statement of changes in net assets available for benefits, the related notes to financial statements, and the supplemental schedule, excluding the fair value of the SVF and the difference between fair value and contract value of the SVF as described in Note 2, were derived from the Plan's trust statements as of September 30, 2014 and September 30, 2013 and for the fiscal years then ended, and were certified by the Plan's Trustee as complete and accurate.

4. Investments

The fair value of the individual investments that represent five percent or more of the Plan's net assets available for benefits at September 30, 2014 and September 30, 2013 are as follows:

Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

T. Rowe Price U.S. Small-Cap Value Equity Trust	- *	23,966,714

* Investment does not represent 5% or more of net assets at September 30.

5. Fair Value of Investments

The FASB provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the framework are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

Transfers between levels of the fair value hierarchy are deemed to have occurred as of the date of the event or change in circumstances that caused the transfer. There were no transfers between Level 1 and Level 2 during the fiscal years ended September 30, 2014 and September 30, 2013.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2014 and September 30, 2013.

Scitor Corporation Salary Savings and Profit Sharing Plan

Notes to Financial Statements

September 30, 2014 and September 30, 2013

Common Stock and Preferred Stock: Valued at the closing price reported on the exchanges on which the securities are traded.

Corporate Bonds: Valued based on yields currently available.

Common Trust Funds: Valued at the net asset value ("NAV") per unit held at fiscal year-end.

T. Rowe Price Equity Income Trust ("Equity Income Trust"): The Equity Income Trust invests in the common stocks of established companies, with the objective of providing substantial dividend income and long-term growth of capital. The Equity Income Trust is not publicly traded and is valued at NAV per unit based on the fair value of the underlying investments.

T. Rowe Price Retirement Active Trusts ("Retirement Trusts"): Each Retirement Trust is structured as a trust of trusts, investing exclusively in other trusts offered by the Trustee that invest directly in securities. The Retirement Trusts are not publicly traded and are valued at NAV per unit based on the fair value of the underlying investments.

T. Rowe Price U.S. Small-Cap Value Equity Trust ("Small-Cap Value Equity Trust"): The Small-Cap Value Equity Trust invests in the common stocks of small companies whose stocks appear undervalued, with the objective of providing long-term capital growth. The Small-Cap Value Equity Trust is not publicly traded and is valued at NAV per unit based on the fair value of the underlying investments.

T. Rowe Price Stable Value Common Trust Fund ("Stable Value Fund" or "SVF"): The SVF is a common trust fund that primarily invests in guaranteed investment contracts ("GICs"), bank investment contracts ("BICs"), synthetic investment contracts ("SICs"), and separate account contracts ("SACs"). The SVF is a fully benefit-responsive investment contract and is valued at NAV per unit based on contract value. The estimated fair value is computed and available monthly, and the Plan's pro-rata share of the SVF's audited year-end net assets is used to determine fair value of the Plan's investment in the SVF.

Money Market Funds: Valued at the NAV of shares held at fiscal year-end. Money market funds are considered to be cash equivalents.

Mutual Funds: Mutual Funds held by the Plan include funds that are publicly traded. Funds are valued at the NAV of shares held at fiscal year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables represent assets and liabilities measured and recorded at fair value on the Plan's statements of net assets available for benefits on a recurring basis and their level within the fair value hierarchy as of September 30, 2014 and September 30, 2013:
