MELINK CORPORATION 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

1. Description of plan

The following brief description of the Melink Corporation 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established to provide voluntary retirement benefits and tax deferred savings opportunities to eligible employees of Melink Corporation (the “Company”). All current employees are eligible to participate in the Plan. Eligible employees may begin participating in the Plan when they are at least 21 years of age and have completed one year of eligible service with the Company.

Contributions

The Plan provides the opportunity for participants to elect to have up to 100% of their pre-tax annual compensation contributed to the Plan under guidelines provided by the Internal Revenue Service (“IRS”) regulations. In addition, employees may make rollover deposits to the Plan from other qualified plans or certain individual retirement accounts.

The Company may make discretionary matching and profit sharing contributions to each eligible participant’s account. No matching contributions were approved or remitted in 2013 and 2012.

The Company has elected to provide a safe harbor contribution to each participant who is eligible to make a salary deferral. The safe harbor contribution was made as an employer profit sharing allocation in the amount of 3% of each eligible participant’s compensation for the year ended December 31, 2013.

Participant accounts

Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contributions and Plan earnings. Allocations are based on the provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Notes receivable from participants

Participants may borrow a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant’s account. The loan interest rate, determined quarterly, is set at the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon death, disability, retirement or termination of service, a participant may elect to receive an amount equal to the value of the participant’s vested interest in his or her account, in accordance with Plan provisions.

1. Description of plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. The vesting schedule for Company contributions and actual earnings thereon is based on years of credited service. The vesting schedule is as follows:

<u>Years of Credited Service</u>	<u>Vesting Percentage</u>
Less than 1	0%
1 but less than 2	0%
2 but less than 3	50%
3 or more	100%

Forfeited accounts

Forfeitures are retained in the Plan and will be used to reduce future employer contributions payable or to pay administrative expenses of the Plan. At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$1,228 and \$1,446, respectively.

Plan expenses

Substantially all Plan expenses are paid by the Company.

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The Accounting Standards Codification ("ASC") Topic on Defined Contribution Pension Plans requires that investment contracts held by a defined contribution plan be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the fully benefit responsive investment contract as well as the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are reflected on a trade date basis. Gains or losses on sales of securities are based on average cost. Interest income is recorded on the accrual basis. Dividend income includes capital gains and is recorded on the ex-dividend date.

MELINK CORPORATION 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

2. Summary of significant accounting policies (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent events

Subsequent events have been evaluated through June 26, 2015 which is the date the financial statements were available to be issued and there are no subsequent events requiring disclosure.

3. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures* (ASC 820) defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. ASC 820 does not require any new fair value measurements, but rather applies to all accounting pronouncements that require or permit fair value measurements.

ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices that are observable for the assets or liabilities and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

3. Fair value measurements (continued)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: The fair values of participation units in the pooled separate accounts are based upon the net asset values of such accounts which are provided by the custodian. The net asset value is based on the underlying assets owned by the account less liabilities and then divided by the number of shares outstanding. The accounts allow for daily redemptions and contributions.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Company's assets and liabilities that are measured and recognized at fair value on a recurring basis classified under the appropriate level of the fair value hierarchy as of December 31, 2013 and 2012:

As elected by the Plan administrator, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements.

The fair value of individual investment that represent 5% or more of the Plan's net assets are listed below. All investments were participant-directed at December 31, 2013 and 2012.

4. Investments and notes receivable from participants (continued)

For the year ended December 31, 2013, Plan investments, including gains and losses on investments bought, sold and held during the year, appreciated in value by \$455,888, as follows:

Units of pooled separate account	\$ <u>455,888</u>
----------------------------------	-------------------

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Party-in-interest transactions

Certain Plan investments are shares of pooled separate accounts or guaranteed investment contracts that are managed by ING, the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

7. Tax status

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2008, stating that the Plan is qualified under Internal Revenue Code ("IRC") Section 401(a), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

8. Investment contract with insurance company

During December 31, 2013 and 2012, the Plan held an investment contract with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses by ING. The contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses, because it is fully benefit responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate for the investment contract was approximately 3.0% for both December 31, 2013 and 2012. Renewal rates are declared on an annual basis.

9. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Prohibited transactions

During the years ended December 31, 2010 through December 31, 2013, on more than one occasion the Company failed to remit participants' contributions as soon as reasonably possible.
