NOTES TO FINANCIAL STATEMENTS

October 31, 2014 and 2013

NOTE A – DESCRIPTION OF PLAN

The following description of the Aetna Plywood, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was adopted effective November 1, 1986. The Plan is a defined contribution plan covering all employees of Aetna Plywood, Inc. (the Company) who meet the minimum eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

For each plan year, the Company shall make an annual employer contribution under the Plan in an amount determined by the Company's Board of Directors.

Participants may elect to contribute from 1% to 50% of their annual compensation for the year, up to $17,500 in 2014. In addition, the Company may make matching 401(k) contributions in a uniform percentage as determined by the Company. In 2014 and 2013 the Company made a matching contribution equal to $.50 for each dollar contributed by participants up to a maximum deferral rate of 6%, for a total matching contribution of $156,988 and $150,178, respectively.

3. Participant accounts

Separate accounts are maintained for all participants to reflect their interest in each investment fund. For each investment fund, a participant's account is credited by a percentage of the participant's total contribution per the participant's request. An allocation of fund earnings and realized and unrealized gains and losses is also credited based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Payment of benefits

Upon termination of service, a participant is entitled to receive a distribution equal to the vested portion of the net value of all the participant's investments and account balances. Distributions may either be made in a lump-sum or an installment basis, if elected by the participant, as defined by the Plan.

5. Participant loans

Participants may borrow from their fund accounts. The maximum amount that a participant may borrow is the lesser of 50% of his or her vested account balance or $50,000, less the difference between the participant's highest outstanding balance during the preceding twelve-month period and the outstanding loan balance on the date the new loan is made. The maximum loan term is five years, except when the loan is used to purchase a primary residence; then the loan may be repaid over a maximum term of fifteen years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the plan administrator. Rates currently range between 3.25% and 5.0%.

NOTE A – DESCRIPTION OF PLAN – Continued

6. Vesting

Participants are immediately 100% vested in the amounts they contribute plus any earnings and investment gains and losses thereon. Employer contributions vest based upon the following schedule:

Years of service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

7. Forfeitures

Forfeited non-vested accounts will be reallocated to participants in the same manner as employer contributions. Unallocated forfeitures are approximately $1,500 and $3,200 at October 31, 2014 and 2013, respectively. Also, in 2014 and 2013 employer contributions were reduced by approximately $1,500 and $3,200, respectively, from forfeited non-vested accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of accounting

The financial statements have been prepared using the accrual method of accounting.

2. Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

3. Investment valuation and income recognition

The Plan's investments in all funds, except the BMO Employee Benefit Stable Principal Fund, are stated at fair value, based on quoted market prices of the underlying securities within each fund at October 31, 2014 and 2013. The BMO Employee Benefit Stable Principal Fund is fully-benefit responsive and is reported at contract value and adjusted to fair value. Contract value represents the accumulated contributions plus accrued net earnings less distributions. Fair value of the investment in the BMO Employee Benefit Stable Principal Fund is estimated using discounted cash flows. Interest income is recorded on the accrual basis.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

4. Notes receivable from participants

In accordance with FASB ASU 2010-25, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans,* the Company has classified participant loans as notes receivable from participants. These notes are measured at their unpaid principal balance plus any accrued and unpaid interest. Interest income from notes receivable from participants is recognized when accrued based on individual agreements.

5. Payment of benefits

Benefits are recorded when paid.

6. Administrative costs

Accounting and administrative costs relating to the maintenance of participant eligibility and management of Plan asset records are absorbed by both the Plan and the Company.

7. Plan termination

Although management has not expressed any intent to do so, it has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' accounts shall become 100% vested and nonforfeitable.

8. Subsequent events

Management has evaluated subsequent events through June 24, 2015. This date represents the date the financial statements are available to be issued.

NOTE C – RELATED PARTY TRANSACTIONS

The Plan invests in shares of a common collective trust fund and mutual funds managed by an affiliate of BMO Retirement Services. BMO Retirement Services acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transactions.

NOTE D – INVESTMENTS

The Plan entered into an investment agreement (see Note E) with BMO Retirement Services under which contributions are deposited, at the direction of the participants, into any combination of the nineteen investment accounts.

Investments at October 31, 2014 and 2013 are summarized below. Investments that represent five percent or more of the Plan's net assets are separately identified.

	2014	2013
Investments at fair value:		
Common collective trust fund		
BMO Employee Benefit Stable Principal Fund	$ 6,333,303	$ 3,976,502
Mutual fund investments		
American Funds EuroPacific Growth Fund	2,212,904	1,961,393
Vanguard 500 Index Fund	2,042,225	1,755,402
Dodge & Cox Stock Fund	1,801,233	3,407,204
PIMCO Total Return Fund	1,680,291	2,872,868

Subtotal - mutual funds	15,077,600	17,791,878
	$ 21,410,903	$ 21,768,380

During 2014, the Plan's investments (including investments, bought, sold, and held during the year) appreciated in value by $940,029, as follows:

Investments at fair value:	
Common collective trust fund	$ -
Mutual funds	940,029
	$ 940,029

The net investment gain as reported on the 2013 Form 5500 includes interest and dividend income of $386,795 and other income of $34,854.

The Plan provides for various investment options in any combination of common collective trust fund and mutual funds. Such investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE D – INVESTMENTS – Continued

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are categorized into one of the three levels based on the lowest level of significant input used. The following is the major category of assets measured at fair value on a recurring basis during the year ended October 31, 2014 and 2013, using quoted prices in active markets for identical assets (Level 1); significant other observable inputs (Level 2); and significant unobservable inputs (Level 3).

The pooled fund included in Level 2 owns Traditional and Synthetic GIC contracts with various crediting rate formulas. Fixed rate Traditional GIC contracts have no reset and are deemed to remain at par. Monthly reset Traditional GIC contracts are credited off of one month LIBOR rate and a rolling twelve month Consumer Price Index. These contracts are reset monthly at a spread to their index. Contracts are deemed to be par. Monthly reset Synthetic GIC contracts are credited off the internal rate of return, dollar duration, and dollar weighted duration of an underlying portfolio. The monthly reset contracts are maintained at contract value. The underlying portfolios are priced at market value. As rates rise, the market values fall versus contract value. Crediting rate will rise with a lag due to reinvestment. As rates fall, the market value will rise versus the contract value. Crediting rates will fall with a lag due to reinvestment.

NOTE E – INVESTMENT AGREEMENT

The Plan has entered into an investment agreement with BMO Retirement Services who maintains the contributions in various mutual fund accounts and a common collective trust fund. The accounts are credited with earnings on the underlying investments (see Note C) and charged for Plan withdrawals.

NOTE F – INVESTMENT CONTRACT

The Plan entered into a fully benefit-responsive investment contract with BMO Retirement Services (BMO). BMO maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from contract value to fair value for the investment contract is based on the contract value as reported to the Plan by M&I. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at October 31, 2014 and 2013 was $6,333,303 and $3,976,502, respectively. The average yield and crediting interest rates were 2.18% and 1.82%, respectively, for 2014 and 2.14% and 1.82%, respectively, for 2013. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a daily basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with BMO. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

NOTE G – TAX STATUS

The Plan obtained its latest determination letter dated September 7, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior 2011.

NOTE H – REPORTABLE TRANSACTIONS

The value of the Plan net assets at the beginning of the Plan period was $22,150,986. All non-participant-directed individual transactions or series of similar transactions greater than $1,107,549 (5% of beginning of year plan net assets) are considered to be reportable transactions. There were no reportable transactions in plan year 2014.
