Bell Hospital Defined Contribution Plan

Notes to Financial Statements

Note 1 Plan Description

The following description of Bell Hospital Defined Contribution Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Plan Termination

On November 26, 2013, the plan sponsor passed a resolution to terminate the Plan effective November 30, 2013. During 2014, the plan assets were fully liquidated and final distributions were made to participants in accordance with the participant's directives.

General

The Plan was a participant-directed defined contribution plan established for a not-for-profit organization, commonly known as a Code Section 403(b) savings plan. Bell Memorial Hospital (the "Sponsor") was the plan sponsor and is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (IRC). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was intended to satisfy the requirements under Section 404(c) of ERISA and, therefore, provided that participants chose to direct their contributions and/or all or part of their account balances among the Plan's investment alternatives. All investments were participant directed.

Participant Contributions

Each year, participants could contribute up to 100% of pretax annual compensation, as defined in the Plan, up to the annual maximum allowed by the Internal Revenue Service (IRS). Participants who attained age 50 before the end of the plan year were eligible to make catch-up contributions. Participants were also allowed to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

Bell Hospital Defined Contribution Plan

Notes to Financial Statements

Note 1 Plan Description (Continued)

Employer Contributions

The Plan provided for either profit sharing or matching contributions to be made by the Sponsor to eligible participants. Employees that were eligible for Bell Memorial Hospital Non-Union Pension Plan prior to it being frozen on November 1, 2005, were eligible to receive employer profit sharing contributions. The amount of profit sharing contributions received by an eligible participant was based on 1.5% of annual compensation. Nonunion, noncontingent participants who were not eligible to receive the employer profit sharing contributions were instead eligible to receive employer matching contributions. Employer matching contributions were based on 100% of the pretax contributions made by the participant, up to a maximum of 1.5% of the employee's compensation. Amounts contributed to the Plan from other qualified plans were not matched.

Participants' Accounts

Each participant's account was credited with the participant's contribution and allocations of (a) the Sponsor's contributions, (b) plan earnings or losses, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

As a result of the Plan termination, participants became 100% vested in their accounts as of November 30, 2013.

Notes Receivable From Participants

Participants could borrow from their account a minimum of \$1,000 to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Note terms ranged from one to five years. The notes were secured by the balance in the participant's account and bore interest at a fixed rate of interest determined by the Plan's custodian based on prevailing market conditions. Principal and interest were paid ratably through payroll deductions.

Bell Hospital Defined Contribution Plan

Notes to Financial Statements

Note 1 Plan Description (Continued)

Payment of Benefits

For plan termination distributions, participants received the value of their account as a lump-sum distribution or a rollover to another qualified plan. If the participant did not make an election as to the type of distribution, a distribution was made to a qualified individual account established at the plan custodian in the participant's name.

Forfeitures

Plan forfeitures arose as a result of participants who terminated service with the Sponsor before becoming 100% vested in the Sponsor's contributions. During 2013, forfeitures of \$1,748 and \$177,768 were used to pay plan expenses and reduce employer contributions, respectively. In connection with the Plan's termination, the remaining forfeitures in the amount of \$87,265 were allocated to participants based upon their respective account balances.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 1, the Plan was terminated. In accordance with accounting principles generally accepted in the United States (GAAP), the Plan changed its basis of accounting used to value plan assets from the ongoing plan basis to the liquidation basis for 2014 and 2013.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Bell Hospital Defined Contribution Plan

Notes to Financial Statements

Note 2 **Summary of Significant Accounting Policies (Continued)**

Investment Valuation and Income Recognition

Investments are reported at their liquidation basis. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Due to the nature of the investments, there were no significant differences between the liquidation basis and fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed as incurred. No allowance for credit losses was recorded at December 31, 2013. If a participant ceased to make loan repayments and the custodian deemed the loan to be in default, the note balance was reduced and a benefit payment was recorded upon the occurrence of a distributable event.

Payment of Benefits

Benefits were recorded when paid.

Administrative Expenses

Fees for investment management services were offset by rebate income received from the Plan's mutual fund investments. For 2014 and 2013, the net rebate income was classified as other income in the accompanying statements of changes in net assets in liquidation available for benefits. Note and distribution fees were charged to specific participant accounts and are classified as administrative fees in the accompanying statements of changes in net assets in liquidation. All other fees are paid by the Sponsor and excluded from the accompanying financial statements.

Bell Hospital Defined Contribution Plan

Notes to Financial Statements

Note 2 **Summary of Significant Accounting Policies (Continued)**

Subsequent Events

Subsequent events have been evaluated through February 18, 2015, which is the date the financial statements were available to be issued.

Note 3 **Investments**

The following is a schedule of investments that individually represent 5% or more of the Plan's net assets in liquidation available for benefits at December 31, 2013:

American Funds EuroPacific Growth Fund (R4)	\$ 1,187,250
Goldman Sachs Mid Cap Value Fund (A)	738,134
Janus Forty Fund (S)	984,702
Wells Fargo:	
Advantage Discovery Fund (Admin)	1,109,514
Advantage Dow Jones Target 2020 Fund (Admin)	1,028,362
Advantage Dow Jones Target 2030 Fund (Admin)	1,524,545
Advantage Dow Jones Target 2040 Fund (Admin)	1,097,758

During the nine-month period ended September 30, 2014 and the year ended December 31, 2013, the Plan's investments in mutual funds (including investments bought or sold during the year as well as those held at year-end) appreciated in value by \$31,210 and \$2,196,710, respectively.

Note 4 **Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Bell Hospital Defined Contribution Plan

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the Plan's valuation methodology used for assets measured at their liquidation basis:

Mutual funds were valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Bell Hospital Defined Contribution Plan

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method was appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	2013			Total
	Level 1	Level 2	Level 3	
Mutual funds:

Note 6 Tax Status

The Plan's terms were drafted in reliance on the sample language provided by the IRS. The Plan was required to operate in conformity with the IRC to maintain the exclusion from tax for plan participants. Plan management believes the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 Party-in-Interest Transactions

Certain plan investments were mutual funds managed by Wells Fargo Bank, N.A. These transactions qualified as party-in-interest transactions.
