1. Plan Description

The following description of the Ingardia Bros. Produce Inc. 401(k) Employee Savings & Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

a. General

The Plan, effective January 1, 2008, is a defined contribution plan covering all full-time employees of Ingardia Bros. Produce Inc. (the Company) who have completed 1 year of service and attained 19 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions

Participants may contribute up to 100 percent of pretax annual compensation, as defined in the plan document and allowed by law. Participants may also contribute amounts representing distributions from other qualified plans. Company contributions are discretionary. For the year ended December 31, 2014, the Company made contributions equal to 20 percent of participant deferrals, or $55,806.

c. Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution, if applicable, and the Plan's earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts into various investment options offered by the Plan.

d. Vesting

Participants are immediately vested in all contributions.

e. Distribution of Benefits

Upon termination of employment due to termination of service, death, disability, or retirement, participants may elect to receive the value of their vested account balance in a lump-sum. Participants may also take a financial hardship withdrawal under certain circumstances.

f. Notes Receivable from Participants

Participants may borrow the lesser of $50,000 (reduced by the participant's highest outstanding loan balance during the 12-month period ending on the date of the loan) or 50 percent of their vested account balance with a minimum loan amount of $1,000. Loan terms range up to five years, but may be extended if the proceeds are to be used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest from 5.25 to 7.00 percent. Principal and interest are paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of net assets available for benefits of a defined contribution plan attributed to full benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Plan Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net realized and unrealized appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid.

e. Net Appreciation in Fair Value of Investments

Realized gains and losses on investments are based on the market value of the asset at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day the investments are sold during the year. Unrealized gains and losses on investments are based on the market value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value at the end of the year. Net realized and unrealized appreciation in fair value of investments is reflected in the accompanying Statement of Changes in Net Assets Available for Plan Benefits.

f. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

g. Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the administrative agent and independent public accountants, may be paid by the Plan. The Company, at its discretion, decided to pay for certain of these administrative expenses on behalf of the Plan. Most investment options have management fees, which reduce the overall return on assets. The net realized and unrealized appreciation in fair value of investments is reflected net of these fees.

h. Subsequent Events

The Plan has evaluated the subsequent events through July 6, 2015, the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

4. Investments

The following presents investments that represent five percent or more of the Plan's net assets at December 31, 2014 and 2013.

	2014	2013
American Funds Growth Fund of America R3	$ 1,881,177	$ 1,657,485
Voya Fixed Account	1,349,713	1,292,568
Voya Russell Small Cap Index Portfolio I	691,803	618,775
Voya Oppenheimer Global Portfolio – Initial Class	492,121	628,811
American Funds Fundamental Investors Fund R4	405,221	-
Vanguard Variable Insurance Fund – Diversified Value Portfolio	399,960	415,363
American Funds American Balanced Fund R4	385,653	-
American Funds Fundamental Investors Fund R3	-	351,731
American Funds American Balanced Fund R3	-	338,757

During 2014, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $354,254.

5. Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. Fair Value Measurement (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows by a risk-adjusted discount rate (see Note 2a).

Pooled separate accounts: Valued at the net asset value of units held by the Plan at year-end, which is considered by plan management to be the best approximation of fair value. Funds held in pooled separate accounts may be redeemed daily without restriction.

The Plan has identified the following classes of investments for its pooled separate accounts based on the nature and risks of the underlying investments. The fair values for each major class of investment are disclosed in the tables below. The following describes the significant investment strategies of each major class of investment.

- U.S. equity: Most funds are invested in equity securities, primarily domiciled in the United States, to achieve long-term capital appreciation and income. The Voya Russell Small Cap Index Portfolio I seeks to approximate the returns of the Russell 2000 Index, an index that measures the small-cap segment of the domestic equities universe, by investing in domestic equity securities included in the index, convertible securities that are convertible into equities included in the index, derivatives that, by design, yield returns equivalent to the index or its components, or exchange traded funds.
- International equity: Funds are invested in common stocks, both domestically and internationally, to achieve capital appreciation.
- Balanced: The American Funds American Balanced Fund R4 invests in an actively managed portfolio of stocks and convertible securities (both domestically and internationally), mortgage-backed securities, corporate bonds, and U.S. treasury securities with the goal of achieving a targeted balance of capital preservation, current income, and long-term growth in capital and current income. The Voya Index Solution portfolios invest in passively managed investment options that track different market indices around the world with the goal of providing a balance of total return and stability of principal consistent with an asset allocation tailored to the target retirement date.
- Fixed income: The Voya Intermediate Bond Portfolio I invests in a diversified portfolio of securities including mortgage related securities, corporate bonds, U.S. treasuries, and foreign government obligations with the goal of capital appreciation and current income.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

5. Fair Value Measurement (Continued)

5. Fair Value Measurement (Continued)

The following tables present information about significant unobservable inputs related to the Plan's investment in assets categorized as level 3 in the FASB ASC 820 fair value hierarchy at December 31, 2014 and 2013.

Significant Unobservable Inputs Related to Level 3 Assets at December 31, 2014

Type	Fair value	Valuation technique	Significant unobservable inputs	Range
Guaranteed investment contract	$1,349,713	Discounted cash flow	Risk-adjusted discount rate (1)	1.96%
			Standard credited rate for contract (2)	2.00%
			Mean expected term	5.25 years
			Surrender value percentage (3)	100%

Significant Unobservable Inputs Related to Level 3 Assets at December 31, 2013

Type	Fair value	Valuation technique	Significant unobservable inputs	Range
Guaranteed investment contract	$1,292,568	Discounted cash flow	Risk-adjusted discount rate (1)	2.24%
			Standard credited rate for contract (2)	2.00%
			Mean expected term	5.25 years
			Surrender value percentage (3)	80%

(1) The rate for a 7-year Treasury Bond derived by interpolating between 5-year and 10-year Treasury Bond rates for the week prior to the reporting date.

(2) The median declared interest rate communicated monthly for the class of contract (with a floor equal to the contract minimum crediting rate of 2%).

(3) The percentage of the investment's value that would be paid out using the contract's market value formula upon surrender. The remainder would be paid out at contract value. The percentage is determined by the number of contract years completed by the Plan based on a five-year graded schedule. The percentage impacts the amount realizable by the Plan upon surrender of the contract and, therefore, the exit price.

5. Fair Value Measurement (Continued)

The Custodian develops an estimate of fair value for the level 3 investments and provides information on the assumptions underlying the estimate as well as information regarding the unobservable inputs used in the valuation process. The plan administrator reviews information provided by the Custodian on an annual basis and considers whether any additional adjustments are necessary. As of December 31, 2014 and 2013, the plan administrator used the Custodian's fair value estimates without adjustment.

6. Investment Contract with Insurance Company

The Plan holds a benefit-responsive investment contract with Voya Retirement Insurance and Annuity Company (Voya). Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is reset quarterly.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

	2014	2013
Average yield	2.39%	2.64%
Crediting interest rate, as of December 31	2.40%	2.50%

7. Summary of Unaudited Information

The Custodian of the Plan certified certain information, which was not audited in accordance with the plan administrator's instructions and as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Information certified by the Custodian consists of the following:

- Fair value of investments as reflected in the Statements of Net Assets Available for Plan Benefits as of December 31, 2014 and 2013.
- Investment income as reflected in the Statement of Changes in Net Assets Available for Plan Benefits for the Year Ended December 31, 2014.
- Investment information as reflected in Notes 4 and 5 to these financial statements.
- Investment information reflected in the Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2014.

The Plan's independent public accountants did not perform auditing procedures with respect to the above information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

8. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants' interest would be distributed in accordance with Plan provisions.

9. Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 20, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for plan years ending on December 31, 2010, or prior.

10. Party-in-Interest Transactions

Voya is the Custodian of the Plan and holds and manages investments. Transactions with Voya are party-in-interest transactions, as defined by ERISA.

11. Reconciliation to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 at December 31, 2014 and 2013.

	2014	2013

Excess contributions payable	6,310	10,283

The following is a reconciliation of the change in net assets per the financial statements to the Form 5500 for the year ended December 31, 2014.

Excess contributions payable accrued in current year	6,310
Refund of excess contributions payable accrued in prior year	(10,283)
Net increase in plan assets per the Form 5500	$ 472,222

At December 31, 2014 and 2013, liabilities of $6,310 and $10,283, respectively, were recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the IRS.
