Federal Equipment Company 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description

The following description of Federal Equipment Company 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Federal Equipment Company (the "Company") who are age 21 or older. Participants may enroll in the Plan on the first day of the plan year, as well as the first day of the fourth, seventh, and tenth months of the plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for both pretax and after tax employee salary 401(k) contributions up to a maximum of 90 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer-matching contributions of 100 percent of the participant's first 3 percent of eligible compensation and 50 percent of the participant's next 2 percent of compensation, not to exceed 4 percent of the employee's deferred compensation. The Company may also make discretionary contributions. There were no discretionary contributions made in 2014.

Vesting - Participants are immediately 100 percent vested in employee salary, rollover, Company matching and discretionary contributions, and any income or loss thereon.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. Participants may also request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document.

Forfeitures - If a participant is not fully vested on his or her termination date, the non-vested amount of the account is forfeited. Forfeitures are used to pay administrative expenses of the Plan or reduce future company contributions. At December 31, 2014 and 2013, forfeited account balances totaled \$4,050.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 1 - Plan Description (Continued)

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. In the event that the Plan is terminated, participants would become 100 percent vested in their accounts.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Participant Accounts - Each participant's account is credited with the participant contributions and allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value, except for the common collective trust fund, which is stated at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - The Company paid approximately \$10,000 to third parties for legal, accounting, investment, and administrative expenses of the Plan.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 8, 2015, which is the date the financial statements were available to be issued.

Restatement - During 2014, it was determined that the money market fund previously classified as a Level 2 investment should have been classified as Level 1 based on the fair value hierarchy. Accordingly, the 2013 fair value disclosure has been updated.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments as of the end of year are as follows:

Fidelity Freedom 2010	\$ 570,677	\$ 545,863
Fidelity Freedom 2020	1,438,857	1,282,915
Fidelity Freedom 2030	630,809	558,510

Fidelity Freedom 2035	595,333	674,741

Federal Equipment Company 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan of Fidelity Management Trust Company, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the trust's tax position and does not believe the trust has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Federal Equipment Company 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 5 - Fair Value Measurements (Continued)

Money Market Fund - The money market fund is valued at closing quoted prices reported in active markets.

Common Collective Trust Fund - The common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

The common collective trust fund primarily holds guaranteed investment contracts, fixed income securities, and derivatives. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of the wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (I) This class represents investments in an actively managed common collective trust fund that invests primarily in investment contracts and a variety of fixed income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, and wrapper contracts. The fund seeks to maintain a stable net asset value of \$1 per share, but it cannot guarantee that it will be able to do so. Investments are valued at net asset value per share multiplied by the number of shares held as of the measurement date. There were no unfunded commitments or redemption restrictions.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

There were no significant transfers between levels of the fair value hierarchy during 2014.
