Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of November 3, 2014 and December 31, 2013, and the changes in net assets available for benefits of the Plan for the period and year then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Effective October 9, 2014, the Plan was amended allowing for the assets of the Plan to be merged into the Worthington Industries, Inc. Deferred Profit Sharing Plan (the "Worthington Plan"). The assets of the Plan with a fair value of \$24,493,109 became assets of the Worthington Plan as of November 3, 2014.

General:

Immediately following WISCO's acquisition of Thyssen's ownership interest, Worthington acquired an additional 10% interest in TWB and became the majority member.

Eligibility:

All full-time employees of the Company age 18 and older who are employed for 90 days are eligible to participate in the Plan. Effective January 1, 2014, participants in the Plan who have otherwise not made an enrollment designation will be subject to an automatic enrollment arrangement whereby 4% of their compensation will be automatically contributed to the Plan. Additionally, effective March 1, 2014, contributions for active participants for whom a current automatic enrollment contribution of 2% is being made will be increased to 4% of compensation.

Additional Company contributions may be made at the option of the Plan Sponsor and will be allocated based on the unit credit method. The unit credit method uses the employees' years of service and compensation to allocate any additional contribution.

Participant Accounts - Each participant's account is credited with the participant's elective contributions, employer matching contributions, employer contributions, earnings and losses thereon and an allocation of the Plan's administrative expenses. Substantially all administrative fees are paid by the Plan, through allocation, both direct and indirect, to its participants.

Rollover contributions from other plans are also accepted, providing certain specified conditions are met.

Investment Options:

Participants direct their contributions among a choice of the Plan's investment options. All contributions are allocated to the designated investment options according to each participant's election, although, to the extent that a participant receiving a contribution made no allocation election, the participant's contribution is invested in the applicable Fidelity Freedom Fund, as determined by the age of the participant.

Effective January 1, 2013, future contributions to the Worthington Industries, Inc. Common Stock fund are limited to not more than 25% of the total contributions made by or for a participant to the Plan. A participant will be prohibited from making investment exchanges to the Worthington Industries, Inc. Common Stock fund if the participant's investment in the fund equals or exceeds 25% of such person's total accounts.

Vesting:

All participants are 100% vested in all contributions and related earnings credited to their accounts.

1. Description of Plan, Continued

Notes Receivable from Participants:

Loans are permitted under certain circumstances and are subject to limitations. Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loans are repaid over a period not to exceed five years, except when used for the purchase of a primary residence.

The loans are secured by the balance in the participants' accounts and bear interest at rates established by the Trustee. Principal and interest are paid ratably through payroll deductions.

Other Plan Provisions:

Normal retirement age is 62, or when the sum of the participant's age and years of service equals 70. The Plan also provides for early payment of benefits to in-service employees, with certain restrictions, after reaching age 59-1/2.

Payment of Benefits:

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Hardship Withdrawals:

Hardship withdrawals are permitted in accordance with Internal Revenue Service ("IRS") guidelines.

2. Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

As described in current accounting guidance, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by U.S. GAAP, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

2. Summary of Significant Accounting Policies, Continued

Basis of Accounting, Continued:

The Plan's investments are stated at fair value as of year-end. Fair values for mutual funds and Worthington Industries, Inc. Common Stock are determined by the respective quoted market prices. Fair value of the common collective trust is determined by dividing the trust's net assets at fair value by its units outstanding at the valuation dates. Fair value of investments in wrapper contracts within the common collective trust are measured using a discounted cash flow model, which considers recent fee bids as determined by recognized dealers, discount rates and the duration of the underlying portfolio securities.

Purchases and sales of securities are recorded on a trade-date basis using fair market value, except for those investments in investment contracts, which are transacted at contract value. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis.

Investment Valuation and Income Recognition:

The Master Trust's investments are stated at fair value as of year-end. Fair values for mutual funds and Worthington Industries, Inc. Common Stock are determined by the respective quoted market prices. Fair value of the common collective trust ("CCT") is determined by dividing the trust's net assets at fair value by its units outstanding at the valuation dates. Fair value of investments in wrapper contracts within the common collective trust are measured using a discounted cash flow model, which considers recent fee bids as determined by recognized dealers, discount rates and the duration of the underlying fund securities. The primary goal of the CCT is to seek current income while maintaining stability of invested principal. The CCT is invested and reinvested primarily in a diversified portfolio of fixed-income instruments which may include traditional and separate account guaranteed investment contracts (obligations of creditworthy life insurance companies), corporate investment contracts, synthetic GICs (high-quality debt securities including mortgage-backed, commercial mortgage-backed, asset-backed and corporate securities held by the CCT within contracts that are intended to minimize market volatility), variable rate GICs, repurchase agreements, US treasury and agency securities, and cash and cash equivalents, including certificates of deposit and money market instruments. The CCT may also invest in a collective fund or group trust (including but not limited to one maintained by The Bank of New York Mellon or its affiliate) that invests in such fixed income instruments. No investment contract in which the CCT invests will have a duration of more than six years from the date of issuance. The CCT will operate with a weighted average duration selected by The Bank of New York Mellon, in its capacity as Trustee of the fund from time to time, but such weighted average duration generally will average between 1.0 and 3.0 years. Participants may purchase or redeem units of the CCT for cash or securities based on the unit value determined as of the valuation date. Unit value is generally determined each business day of the year. All participants have a proportionate undivided interest in the net assets of the CCT.

Purchases and sales of securities are recorded on a trade-date basis using fair market value, except for those investments in investment contracts which are transacted at contract value. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis.

2. Summary of Significant Accounting Policies, Continued

Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Plan Merger:

Effective October 9, 2014, the Plan was amended allowing for the assets of the Plan to be merged into the Worthington Industries, Inc. Deferred Profit Sharing Plan (the "Worthington Plan"). The assets of the Plan with a fair value of \$24,493,109 became assets of the Worthington Plan as of November 3, 2014.

3. Tax Status

The Plan received a determination letter from the IRS dated December 23, 2010 stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of November 3, 2014, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

At December 31, 2013 the Plan held 42,857 common shares of Worthington Industries, Inc. The Plan did not hold any common shares of Worthington Industries, Inc. at November 3, 2014, due to the merger of the Plan into the Worthington Plan, as described in Footnote 1, “*Description of Plan*”. The Plan received cash dividends from Worthington of \$20,768 and \$12,311 for the years ended November 3, 2014 and December 31, 2013, respectively.

Investments of the Plan that represented more than 5% of the net assets of the Plan at November 3, 2014 and December 31, 2013 were as follows:

5. Benefit-Responsive Contracts

The Plan holds a stable value investment contract (the “portfolio”) with the Trustee. The portfolio is an open-end commingled pool dedicated exclusively to the management of assets of defined contribution plans. The portfolio invests in underlying assets, typically fixed-income securities or bond funds and enters into “wrapper” contracts issued by third parties. The Plan is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The wrapper contract issuer agrees to pay the portfolio an amount sufficient to cover unit holder redemptions and certain other payments (such as portfolio expenses), provided all the terms of the wrapper contract have been met. Wrappers are normally purchased from issuers rated in the top three long-term ratings categories (equaling A- or above).

TWB Company, LLC Deferred Profit Sharing Plan, as Amended and Restated

5. Benefit-Responsive Contracts, Continued

As described above, because the stable value investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value investment contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the wrapper contract issuer. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed for resetting on at least a semi-annual basis. Certain events limit the ability of the Plan to transact at contract value with the issuer. However, the Plan Administrator does not believe that the occurrence of any such event would limit the Plan's ability to transact at contract value with participants. The issuer may terminate the contract for cause at any time.

Mellon Stable Value Fund	November 3 2014	December 31 2013
Investments at Fair Value	\$ -	\$ 1,560,444
Adjustments to Contract Value	-	(7,040)
Investments at Contract Value	<u>\$ -</u>	<u>\$ 1,553,404</u>
 Average Yield on Actual Earnings	 1.50%	 1.44%
Crediting Interest Rate	1.26%	1.18%

6. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by the Trustee; therefore, transactions involving these funds qualify as party-in-interest transactions.

The Plan offers common shares of Worthington as an investment option. As a result, Worthington qualifies as a party-in-interest.

The Company provides certain administrative and accounting services at no cost to the Plan and may pay for the cost of services incurred in the operation of the Plan.

7. Risks and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the near or long term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

8. Fair Value

As defined in current authoritative accounting guidance, fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value are classified and disclosed in one of the following three categories:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets; and
- Inputs other than quoted prices that are observable for the asset or liability.

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. See the description within Footnote 2, "Summary of Significant Accounting Policies," as to the investment valuation methodology for each class of assets noted in the below table.
