UNITED BIOSOURCE CORPORATION 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS September 30, 2014 and December 31, 2013

NOTE 1 - DESCRIPTION OF PLAN

The following description of United BioSource Corporation 401(k) Plan (the Plan) provides only general information. Plan participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan was organized effective July 1, 1995, as a defined contribution retirement savings plan covering all employees of United BioSource Corporation (the Employer) who are at least 21 years of age. The Plan excluded from participation certain leased employees, nonresident aliens with no U.S. source income, and employees subject to collective bargaining agreements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Global Retirement Committee (GRC) was responsible for oversight of the Plan, determined the appropriateness of the Plan's investment offerings, and monitored investment performance.

Merger Agreements: On April 2, 2012, Medco Health Solutions, Inc. (Medco), the parent company of the Employer, and Express Scripts, Inc. (ESI) merged. As a result of the merger, Medco and ESI each became wholly-owned subsidiaries of Express Scripts Holding Company (the Parent) and former Medco and ESI stockholders became owners of stock in the Parent. See Note 5.

Various portions of United BioSource Corporation were sold by the Parent during 2013. A significant number of participants in the Plan were employees of the divested entities. Account balances related to affected participants were transferred to the respective plans of the acquiring entities during 2013.

Evidera 401(k) Plan	\$17,647,754
Bracket Global LLC 401(k) Plan	16,642,600
Envision Pharma, Inc. 401(k) Plan	<u>9,636,399</u>
Total Transfers to Other Plans	<u>\$43,926,753</u>

The majority of participants employed by entities remaining under ownership of the Parent were provided the option to enroll in the 401(k) plan sponsored by the Parent. These participants' account balances through the date they enrolled in the Express Scripts, Inc. 401(k) Plan remained with the Plan, but no further contributions were made to the Plan for these participants. The Board of Directors of United BioSource Corporation executed a resolution to merge the Plan into and with the Express Scripts, Inc. 401(k) Plan on September 30, 2014. On September 30, 2014, the Plan's assets were transferred and the Plan and related trust ceased to exist.

Plan Termination: The Employer has exercised its right under the Plan to discontinue its contributions and terminate the Plan subject to the provisions of ERISA. All participants became 100% vested in their accounts.

Contributions: Each year, Plan participants were permitted to authorize the Employer to contribute to the Plan up to 90% of their eligible annual compensation, subject to the maximum annual amount permitted under the Internal Revenue Code (IRC). Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also make rollover contributions from amounts representing distributions from other qualified plans.

The Plan Agreement provided for safe-harbor matching contributions equal to 100% of the first 3% of compensation each participant contributed to the Plan, plus 50% of each participant's elective deferrals in excess of 3% but not in excess of 5% of the participant's compensation.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

The Employer could make discretionary additional matching contributions in an amount not to exceed 6% of each participant's elective deferrals. No discretionary additional matching contributions were made to the Plan for the period ended September 30, 2014.

Participants directed the investment of their contributions, as well as those made by the Employer, into various investment options offered by the Plan.

Participant Accounts: Each participant's account was credited with the participant's contributions and an allocation of Employer matching contributions and Plan earnings. Participant accounts could also be charged with an allocation of certain administrative expenses of the Plan. Allocations were based on participant earnings or account balances, or specific participant transactions, as defined in the Plan Agreement. The benefit to which a participant was entitled was the benefit which could be provided from the participant's vested account.

Vesting and Forfeitures: Participants were vested immediately in their contributions and Employer safe-harbor matching contributions, plus actual earnings thereon. Prior to January 1, 2010, vesting in the Employer's matching and discretionary contributions, plus actual earnings thereon, was based on years of service. A participant became 20% vested after one year of service, increasing by 20% per additional year, with full vesting after five years of credited service.

At September 30, 2014 and December 31, 2013, forfeited nonvested accounts of terminated participants totaled \$105,230 and \$87,658, respectively. These accounts were available to reduce future Employer contributions. During 2014, forfeited nonvested balances amounted to \$17,564. The forfeiture account balance at September 30, 2014, was transferred to the Express Scripts, Inc. 401(k) Plan when the Plan terminated and assets were transferred.

Notes Receivable from Participants: Participants could borrow from their account a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The repayment terms of the notes could not exceed five years, except for the purchase of the participant's principal residence, for which the terms could exceed five years per the Plan Agreement. The notes were secured by the balance in the participant's account and bore interest at rates which were commensurate with prevailing rates as determined by the Plan Administrator. For the period ended September 30, 2014, the interest rate was 3.25% and total interest charged was \$9,451. Principal and interest were paid ratably through regular payroll deductions.

Benefits: Upon the occurrence of a distributable event due to separation from service by termination, death, disability, or retirement, as defined by the Plan Agreement, a participant could elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in his or her account, an annuity or periodic installments as defined by the Plan. For termination of service for other reasons, a participant could receive the value of the vested interest in his or her account automatically as a lump-sum distribution. If the participant's vested interest in the value of his or her termination benefit was less than \$1,000, the termination benefit was paid in a lump sum cash payment. Participants could elect to defer payment for vested amounts greater than \$1,000.

In-service distributions were permitted after a participant attained age 59 ½, in the event of certain financial hardships as described in the Plan Agreement, and in the event of disability. Participants receiving a hardship withdrawal could not contribute to the Plan for six months from the date of withdrawal.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States (GAAP) requires the Plan's management to make estimates and assumptions which affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition: The Plan's investments were reported at fair value. Fair value is the price which would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's GRC determined the Plan's valuation policies utilizing information provided by the Plan's investment advisor, custodian, insurer, and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable were stated at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. No allowance for credit losses was recorded as of September 30, 2014 or December 31, 2013. If a participant ceased to make repayments and the Plan Administrator deemed the note receivable from the participant to be in default, the balance of the note receivable from the participant was reduced and a benefit payment was recorded per the Plan Agreement.

Payment of Benefits: Benefits were recorded when paid.

Plan Expenses: Administrative expenses for maintaining the Plan could be paid by the Employer or the Plan, at the Employer's discretion. Certain administration fees were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation (depreciation) in fair value of investments.

Tax Status: The Plan had adopted a prototype plan document whose sponsor had received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating the prototype plan document was designed in accordance with the applicable sections of the IRC. Although the Plan and the prototype plan document had been amended since receiving the opinion letter, the Plan Administrator believes the Plan was designed in compliance with the applicable requirements of the IRC.

The Plan Administrator submitted an application to the IRS Employee Plans Compliance Resolution System utilizing the Voluntary Compliance Program provisions in order to adopt retroactive amendments to the Plan which were not timely adopted by the Plan or by various plans merged into the Plan. The submission was approved by the IRS in a letter dated March 18, 2014. Therefore, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt.

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position which more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in process. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan categorized its assets and liabilities measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gave the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input which was significant to the fair value measurement.

Valuation techniques used needed to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices observable for the asset or liability, and inputs derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Following is a description of the valuation methodology used by the Plan for investment assets measured at fair value on a recurring basis. There have been no changes in the methodology used at September 30, 2014 and December 31, 2013.

Registered Investment Companies: Valued at the published net asset value, as reported by each fund, of the shares held by the Plan at the reporting date.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

At September 30, 2014, the Plan had no assets or liabilities. The following is a summary, by major nature and risks class within Level 1 of the fair value hierarchy, of the Plan's assets measured at fair value on a recurring basis as of December 31, 2013:

	Level 1
Registered investment companies:	
Domestic equity	\$15,753,209
Fixed income	3,178,593

Money market	2,239,826
Target retirement date	<u>13,217,558</u>
 Total Assets at Fair Value	 <u>\$38,258,817</u>

As of December 31, 2013, the Plan did not hold any investments classified as Level 2 or 3 and had no other assets and no liabilities measured at fair value on a recurring basis.

NOTE 4 - INVESTMENT INFORMATION CERTIFIED BY TRUSTEE

All investment information disclosed in the accompanying financial statements and related notes has not been audited, but was obtained or derived from information provided to the Plan Administrator by the Plan's trustee. The Plan's investment information has been prepared and certified as complete and accurate as of September 30, 2014 and December 31, 2013 and for the period ended September 30, 2014 by DWS Trust Company, the Trustee, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan has no investments as of September 30, 2014. The following is a summary of the Plan's investments as of December 31, 2013:

NOTE 5 - PLAN AMENDMENTS

As the result of the sales of certain portions of the Employer, as discussed in Note 1, the Plan Agreement was amended during 2013. Employees of divested entities were excluded from eligibility in the Plan and became fully vested in all contributions effective on the respective transaction date.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions included those with fiduciaries or employees of the Plan, any person who provided services to the Plan, an employer whose employees were covered by the Plan, an employee organization whose members were covered by the Plan, a person who owned 50% or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments were managed by an affiliate of DWS Trust Company, the trustee of the Plan; therefore, transactions in these investments qualified as exempt party-in-interest transactions under ERISA. The Trustee also received indirect fees from investments which were deducted from investment returns.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS (CONTINUED)

The Employer provided certain accounting, administrative and investment management services to the Plan for which it received no compensation.

Notes receivable from participants were permitted party-in-interest transactions.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan's investment securities were exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible changes in the values of investment securities could occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets per Form 5500 at December 31, 2013:

Net assets available for benefits per the financial statements	\$38,707,553

Net assets per Form 5500	<u>\$38,527,753</u>

Loans deemed distributions for tax purposes	(31,376)
Participant loan offsets recorded in prior years	<u>9,105</u>
Net loss per Form 5500	<u>\$ (3,897,605)</u>

NOTE 9 - SUBSEQUENT EVENTS

The Plan Administrator has evaluated the financial statements for subsequent events occurring through July 9, 2015, the date the financial statements were available to be issued.
