LITECONTROL CORPORATION PROFIT-SHARING THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2014

1. DESCRIPTION OF PLAN

The following description of the Litecontrol Profit-Sharing Thrift Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - Litecontrol Corporation (the "Company") established a profit-sharing thrift plan for the benefit of its employees on December 1, 1984. The Plan was restated on December 16, 2013. The Plan contains a salary reduction feature under Internal Revenue Code Section (IRC) 401(k). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On April 16, 2014, Litecontrol Corporation was acquired by a subsidiary of Hubbell, Inc. On May 16, 2014, a decision was made to merge the Plan into Hubbell Incorporated Employee Savings and Investment Plan for Collectively Bargained Employees and Hubbell Incorporated Employee Savings and Investment Plan (Hubbell) effective on September 30, 2014. As a result, all investments were transferred from the Plan into the Hubbell Plans on September 30, 2014.

Eligibility - All eligible employees of the Company may elect to participate in the Plan on the first day of each calendar month after completion of one (1) year of service and attaining age twenty-one (21). A year of service is defined as completing 1,000 hours of service in a twelve-month period.

Participant contributions - Participants may contribute a percentage of their annual pre-tax compensation to the Plan subject to certain limitations allowable under Section 401(k) of the IRC. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offered twenty (24) mutual funds and one (1) stable value fund held in a common collective trust fund as investment options for participants.

Employer contributions - Upon entering the Plan, each employee receives a \$100 initial contribution by the employer. In addition, the employer may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participant's elective deferrals. Each year, the employer will determine the formula for the discretionary matching contribution. Additional discretionary non-elective matching contributions may be contributed at the option of the Company. For the nine months ended September 30, 2014, discretionary matching contributions were equal to 50% of elective deferrals that did not exceed 6% of eligible compensation.

(Continued)

1. DESCRIPTION OF PLAN (Continued)

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of the (a) Company's discretionary matching and non-elective matching contributions and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are, at all times, fully vested in both their employee and employer contributions, including any earnings thereon.

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or fifty percent (50%) of their account balance. The loans are secured by the balance in the participant's account. The loan's interest rate is set at 2 percent above the prime rate, as defined. Principal and interest is paid ratably through weekly and bi-weekly payroll deductions.

Payment of benefits - On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Benefit payments will be made as soon as administratively feasible in a single lump sum payment for terminated participants with an account balance below \$5,000. The plan allows for in service distributions to participants who have reached age 59 ½. Certain participants determined by the Plan administrator to be in a case of financial hardship may withdraw all or a portion of their participant contributions in accordance with the Plan agreement.

Forfeiture and asset holding accounts - Forfeitures are created when a distribution payment to a participant or their beneficiary is not made due to their being unable to be located or deceased, and the value of their account does not exceed \$1,000. If a participant's deferred compensation together with any elective deferrals under another qualified plan cumulatively exceeds the limitation imposed by Section 402(g) of the IRC for the taxable year, the excess amounts shall be treated as forfeitures.

On December 16, 2013, the Plan assets were transferred to a new Trustee. As a result during the blackout period, investment income earned by the Plan was held in an asset holding account. As of September 30, 2014, the Plan had \$7,616 in unallocated investment income, which was transferred to Hubbell. As of December 31, 2013, the Plan had \$145,861 in unallocated investment income.

Subsequent events - The Plan has evaluated subsequent events through July 9, 2015, the date of the Independent Auditor's Report, which is the date the financial statements of the Plan were available to be issued.

2. SUMMARY OF ACCOUNTING POLICIES

A summary of the Plan's accounting policies that affect the more significant elements of the financial statements is stated below.

Basis of accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for the collective trust invested in fully benefit-responsive investment contracts.

Use of estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by investment advisers, custodians and the collective trust. See Note 3 for discussion of fair value measurements. All Plan investments were transferred to Hubbell before the close of business on September 30, 2014.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. SUMMARY OF ACCOUNTING POLICIES (Continued)

Payments of benefits - Benefits are recorded when paid.

Administrative expenses - Except for administrative and investment advisory expenses associated with investments, all expenses associated with the administration of the Plan are paid by the Company at their discretion, with the exception of certain participant transaction fees charged to the accounts of participants initiating the transaction.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the nine months ended September 30, 2014 and the year ended December 31, 2013.

3. FAIR VALUE MEASUREMENTS (Continued)

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Collective trust fund - Valued at the NAV of units of a collective trust invested in a stable value investment contract. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment adviser reserves the right to temporarily delay withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly business manner. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Cash equivalents	\$ 872			\$ 872
Mutual funds:				
Mid/small US company funds	702,058			702,058
Large US company funds	3,326,691			3,326,691
Bond/fixed income funds	2,541,820			2,541,820
International funds	1,055,447			1,055,447
Total mutual funds	7,626,016			7,626,016
Collective trust fund – stable value fund (a)		\$1,361,495		1,361,495
Total assets at fair value	\$7,626,888	\$1,361,495		\$8,988,383

(a) Transfer from level 3 to level 2 was \$1,359,049 because the fair value of the units in the collective trust fund is based on net asset value with daily redemption rights.

3. FAIR VALUE MEASUREMENTS (Continued)

Unrealized gains (losses) from the collective trust fund are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013.

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund – Putnam Stable Value Fund	\$1,361,495	N/A	Daily	---

4. INVESTMENTS

The following investments represent five percent (5%) or more of the Plan's net assets available for benefits at December 31, 2013:

Putnam Income R5	\$1,584,974
Putnam Stable Value Fund, at contract value	1,343,875
Putnam Equity Income R5	1,123,964
ING Corporate Leaders 100 A	655,328
Alliancebern High Income K	595,170

5. FINANCIAL INFORMATION CERTIFIED BY TRUSTEE

The following is a summary description of the unaudited information regarding the Plan, included in the Plan's financial statements, which was prepared by Putnam Fiduciary Trust Company, the trustee of the Plan, and furnished to the plan administrator.

The plan administrator has obtained certification from the trustee that such information is complete and accurate as of September 30, 2014 and December 31, 2013, and for the nine months ended September 30, 2014.

- Statements of Net Assets Available for Benefits – all investment related items and amounts and for notes receivable from participants.
- Statement of Changes in Net Assets Available for Benefits – all investment related items and amounts and interest on notes receivable from participants.

6. PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a complete or partial termination of the Plan, the accounts of all participants affected thereby shall become fully vested (100%) and non-forfeitable to the extent of the current value under the trust fund. The plan administrator shall direct the trustee to distribute the trust fund in accordance with the distribution provisions of the Plan.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain shares of mutual funds and a collective trust fund were managed by Putnam Fiduciary Trust Company, the trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid to the trustee for the nine months ended September 30, 2014 were \$2,019.

The plan administrator and certain employees of the Company, who are also participants of the Plan, perform administrative services at no cost to the Plan.

8. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 18, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

(Continued)

8. TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to internally monitor tax positions taken by the Plan to determine whether any are uncertain. A tax position is taken if it is determined that the position will “more-likely-than-not” be sustained upon examination by a taxing authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2014, there were no uncertain positions taken or expected to be taken that would require the recognition of a liability or asset or disclosure in the financial statements. The Plan is not currently subject to audits for any tax periods. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2011.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. ADMINISTRATIVE EXPENSES

Investment contract related expenses, participant transaction fees, and other administrative and investment advisory expenses incurred by the Plan were \$38,058 for the nine months ended September 30, 2014.

11. RECONCILIATION OF DIFFERENCES BETWEEN FINANCIAL STATEMENT ITEMS AND FORM 5500

The following is a reconciliation of contributions per the financial statements for the nine months ended September 30, 2014 to Form 5500:

Contributions per financial statements	\$1,373,315

The following is a reconciliation of the change in net assets per the financial statements for the nine months ended September 30, 2014 to Form 5500:

Net increase in net assets per financial statements	\$413,048
