The Retirement Plan of Retirement System Group Inc. in Pentegra Retirement Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Retirement Plan of Retirement System Group Inc. in Pentegra Retirement Trust (the "Plan"), which comprise the statement of net assets available for benefits as of September 30, 2014 and 2013, and the related statement of changes in net assets available for benefits for the years ended September 30, 2014 and 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by Pentegra Trust Company ("Pentegra") and Bank of New York Mellon ("Mellon"), the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Pentegra held the Plan's investment assets and executed investment transactions from October 1, 2012 to February 3, 2014 and that Mellon held the Plan's investment assets and executed investment transactions from February 3, 2014 to September 30, 2014. The plan administrator has obtained certifications from the trustees as of September 30, 2014 and 2013 and for the years ended September 30, 2014 and 2013, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) and Schedule H, Line 4(j) - Schedule of Reportable Transactions, as of or for the year ended September 30, 2014, are required by the DOL's Rules and Regulations for Reporting and Disclosures under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

The Retirement Plan of Retirement System Group Inc. in Pentegra Retirement Trust

Notes to Financial Statements

September 30, 2014 and 2013

1. Employer Company

Retirement System Group, Inc. and its subsidiaries were operated as a wholly owned subsidiary of RS Group Holdings, Inc. The subsidiaries were: Retirement System Consultants, Inc., Retirement System Investors, Inc., Retirement System Distributors, Inc., RS Group Trust Co. and RSG Insurance Agency, Inc. All employees of Retirement System Group, Inc. and its subsidiaries (collectively, the "RS Group") were eligible to participate in the Plan.

In August 2008, Pentegra Retirement Services (the "Employer Company") acquired Retirement Systems Group, Inc. Pentegra now acts as the plan sponsor and Employer Company of the RS Group.

2. Description of the Plan

The following brief description of The Retirement Plan of Retirement System Group Inc. in Pentegra Retirement Trust, (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement, copies of which are available to plan participants, for more complete information.

General

The Plan is a defined benefit plan, which covers substantially all employees of the RS Group, and provides for retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 ("ERISA"). The Employer Company contributes amounts needed to provide assets sufficient to meet the benefits to be paid to plan participants.

Benefit Curtailment

Upon the recommendation of management, the RS Group froze plan benefit accruals and plan participation effective March 31, 2003 ("Plan Freeze Date"). On January 29, 2003 an amendment to the Plan was adopted to provide that effective as of the Plan Freeze Date: (i) there will be no new enrollments in the Plan and (ii) there will be no further benefit accruals under the Plan.

Eligibility

All salaried employees of the RS Group who had attained the age of 21 and completed one year of service prior to the Plan Freeze Date, were eligible to participate in the Plan. The Plan defined a year of service as a computation period in which 1,000 hours of service are completed.

Retirement Dates and Benefits

Normal Retirement

A participant in the Plan prior to October 1, 1988, will be eligible to retire at age 65. Participants in the Plan on or after October 1, 1988, are eligible to retire at the later of age 65 or five years of participation.

The Retirement Plan of Retirement System Group Inc. in Pentegra Retirement Trust

Notes to Financial Statements

September 30, 2014 and 2013

Benefits are calculated based on 2% of average annual earnings, as defined, multiplied by the number of years and any fraction thereof of credited service prior to July 1, 1985, plus 1-2/3% of the participant's average annual earnings multiplied by the credited service subsequent to July 1, 1985, reduced by 1-2/3% of the participant's annual primary social security benefits multiplied by the credited service subsequent to September 30, 1976, up to a maximum of 30 years.

The maximum benefit provided is 60% of average annual earnings, as defined. The normal form of this benefit is a single life annuity.

Early Retirement

The Plan permits early retirement with five consecutive years of credited service and age 60 or if the sum of attained age and vested service, as defined, equals or exceeds 75 years ("Rule of 75").

If the participant's termination of service occurs on or after the attainment of age 62 and the completion of 20 or more years of vested service, the annual benefit shall be an unreduced normal retirement benefit accrued to the date of termination.

If the participant's termination of service occurs prior to the attainment of age 62 but after the completion of 20 or more years of vested service, the annual benefit shall be the normal retirement benefit accrued to the date of termination, reduced by the lesser of 0.4166% for each calendar month benefit payments commence prior to age 62 or the actuarial equivalent of the early retirement benefit that would have been payable if deferred to the normal retirement date.

In all other cases, the annual benefit shall be the normal retirement benefit accrued to date of termination of service, reduced by 0.4166% for each month benefit payments commence prior to normal retirement date, or if the reduction is less, actuarially for commencement of benefits prior to normal retirement date.

The maximum benefit provided is 2% of average annual earnings times credited years of service (maximum of 30 years).

Vested Retirement

Participants are fully vested after five years of vested service, as defined, excluding any service prior to the attainment of age 18. All participants in the Plan are fully vested.

Benefits are determined under the same formula as the normal retirement benefit accrued to date of termination of service, reduced actuarially for commencement of benefits prior to normal retirement date. Benefit payments can commence when the participant would have been eligible for an early retirement benefit.

Disability Retirement

There is no disability retirement provision; however, a participant who is eligible for the Employer Company's long-term disability plan and has completed 10 years of vested service may continue to accrue vested and credited service based on the last rate of pay until normal retirement date, early recovery or death.

Pre-Retirement Death

A participant at date of death while in active service, having an eligible surviving spouse or minor children, and having either attained age 60, met the Rule of 75, or met the eligibility requirements for a vested retirement benefit, will be eligible for pre-retirement death benefits.

The benefit is determined under the same formula as the normal retirement benefit, early or vested retirement benefit, assuming the participant terminated employment at the date of death and elected a 100% Joint and Survivor Benefit. A monthly pre-retirement survivor annuity is paid to and for the life of the surviving spouse or, if there is no surviving spouse or if the surviving spouse subsequently dies, to the eligible children until the youngest child attains age 21.

Contributions

Contributions to the plan are paid by the Employer Company.

3. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of financial statements. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

September 30, 2014 and 2013

Investment Fees

Net investment returns reflect certain fees paid by the investment funds to their affiliated investment advisors, transfer agents, and others as further described in each fund prospectus or other published documents. These fees are deducted prior to allocation of the Plan's investment earnings activity and thus are not separately identifiable as an expense.

The RSI Retirement Trust terminated the public offering of units of beneficial interest in its investment funds and began offering the investment funds on a private placement basis. The Plan is assessed a monthly fee for advisory and related expenses based on a percentage of these investment fund balances which is included in administrative expenses.

Administrative Expenses

All expenses of administering the Plan, including auditing, actuarial and trustee fees, are paid by the Plan unless paid directly by the Employer Company, at its option.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last three years of credited service. The accumulated plan benefits for active employees are based on the highest 36 month average of the final 120 months ending on the Plan Freeze Date. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are attributable to employee service rendered to the Plan Freeze Date.

The Plan's benefit accruals were frozen as of March 31, 2003.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of October 1, 2013. The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of October 1, 2013 is as follows:

Vested benefits:

Participants and beneficiaries currently receiving payments	\$ 3,048,473
Other participants	<u>2,730,434</u>
Total vested benefits	5,778,907

Nonvested benefits:

Total actuarial present value of accumulated plan benefits	<u><u>\$ 5,778,907</u></u>
--	----------------------------

The Retirement Plan of Retirement System Group Inc. in Pentegra Retirement Trust

Notes to Financial Statements

September 30, 2014 and 2013

The changes in the actuarial present value of the accumulated plan benefits for the year ended October 1, 2013 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 5,761,674
Increase (decrease) during the year attributable to:	
Benefits accumulated and gains/losses	32,312
Increase for interest due to decrease in discount period	441,416
Benefits paid	(487,941)
Change in actuarial assumption	<u>31,446</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 5,778,907</u>

Significant assumptions underlying the actuarial computations are as follows:

Discount rate	6.67 percent for 2013
Mortality	2013 combined male and female static mortality tables per IRS regulation. In October 2014, the Society of Actuaries issued new mortality tables (RP-2014). The Plan expects to adopt a modified version of the new tables for its October 1, 2014 valuation. The Plan estimates the actuarial present value of accumulated plan benefits will increase by approximately \$1,206,207 as a result of the change.
Wage base	4 percent
Cost of living adjustment	3 percent
Retirement age	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The assumed rate of interest used to value the present value of accumulated plan benefits changed from 7.01 percent to 6.67 percent resulted in an increase of \$31,446 in actuarial present value of accumulated benefits for the year ended October 1, 2013.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016 with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through July 14, 2015, the date the financial statements were available to be issued.

Reclassification

Certain items in the financial statements have been reclassified to conform with the current year presentation.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money market fund is valued at the quoted net asset value ("NAV") of shares held by the Plan at year end.

The Retirement Plan of Retirement System Group Inc. in Pentegra Retirement Trust

Notes to Financial Statements

September 30, 2014 and 2013

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds are valued based on the NAV per share, without further adjustment. NAV is based on the fair value of the underlying investment.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of September 30, 2014 and 2013:

Pentegra Alternative Assets Investment Fund - primarily invests in a number of professionally managed private funds that hold alternative assets. These may include funds that invest in private equity, commodities, real estate, hedge funds or other alternatives.

5. Funding Policy

The Employer Company's funding policy is to make annual contributions to the Plan as determined by the Plan's actuary in amounts necessary to provide the Plan with assets sufficient to fund participants' benefits by the time they retire. The Plan met the minimum funding requirements established of ERISA for 2014 and 2013.

6. Plan Termination

Although it has not expressed any intention to do so, the Employer Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject of the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), (a U.S. governmental agency), up to the applicable limitations as discussed below.
- c) All other vested benefits, that is, vested benefits not insured by the PBGC.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Employer Company and the level of benefits guaranteed by the PBGC.

Notes to Financial Statements

September 30, 2014 and 2013

8. Related Party Transactions

The Plan's investments in RSI Retirement Trust are administered by Mellon and Pentegra Trust Company, the trustees of the Plan. Contributions were held and managed by the Pentegra Trust Company, who invested cash received, interest, and dividend income and makes distributions to participants for the period October 1, 2013 through February 28, 2014. Contributions are held and managed by Mellon, who invests cash received, interest and dividend income and makes distributions to participants as of September 30, 2014. These transactions qualify as party-in-interest transactions. Administrative expenses totaling \$14,768 and \$16,072 were paid to the trustees by the Plan for the years ended September 30, 2014 and 2013, respectively.

During 2014 and 2013, the Plan was also charged \$30,899 and \$44,248, respectively, for advisory and other services provided to the RSI Trust investment funds.

The Plan's actuary is Pentegra Retirement Services which provides various administrative, reporting and actuarial services to the Plan.

Certain administrative functions of the Plan are performed by officers or employees of the Employer Company. No such officer or employee receives compensation from the Plan.

9. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Employer Company by a letter dated July, 24, 2012 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and, therefore, is not subject to tax under present income tax laws.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and had concluded that as of September 30, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Information Certified by Trustees

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2014. Accordingly, Mellon, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of September 30, 2014, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of September 30, 2014 and Schedule H, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits and supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the period February 3, 2014 to September 30, 2014.

Pentegra has certified to the completeness and accuracy of all related investment activity reported in the Statement of Changes in Net Assets Available for Benefits and supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the period October 1, 2013 to February 1, 2014, and the year ended September 30, 2013.

Notes to Financial Statements

September 30, 2014 and 2013

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits on the financial statements to Form 5500 at September 30, 2013:

Net assets as presented in the financial statements	\$ 5,297,199
Audit fees payable	<u>15,000</u>
Net assets as reported on Form 5500	<u>\$ 5,312,199</u>

The following is a reconciliation of total administrative expenses on the financial statements to Form 5500 for the year ended September 30, 2014:

Total administrative expenses on the financial statements	\$ 63,418
Decrease in audit fees payable	<u>15,500</u>
Total administrative expenses on Form 5500	<u>\$ 78,918</u>

12. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition the Plan holds investments in mutual funds and common collective trust funds. Such investments are subject to various risks, such as interest rate, credit, and market risks. Due to the level of risk associated with the investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

2013 Form 5500 Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (EIN: 13-3745616/PN: 001)

Actuarial Cost Method

Liabilities shown in this report are computed in accordance with the Pension Protection Act of 2006 and subsequent guidance issued by the Internal Revenue Service. The target normal cost is the present value of all benefits that have accrued or have been earned (or that are expected to accrue or to be earned) under the plan during the plan year. The benefits that have been accrued or have been earned (or that are expected to accrue or to be earned) under a plan during a plan year include any increase in benefits during the plan year that is a result of any actual or projected increase in compensation during the current plan year, even if that increase in benefits is with respect to benefits attributable to services performed in a preceding plan year. The funding target of the plan for the plan year is the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year.

The benefits taken into account in determining the funding target and target normal cost are all benefits earned or accrued under the plan, including retirement-type and ancillary benefits. The determination of the funding target and target normal cost is based on plan provisions that are adopted no later than the valuation date for the plan year and that become effective during that plan year.

Assets Two-year smoothed value of plan assets determined in accordance with IRS Notice 2009-22.

Presented below are the principal components of your current plan provisions. For a complete description and definition of plan provisions, always refer to your plan document.

Plan History

The plan was effective October 22, 1940. Effective March 31, 2003 the plan was frozen.

Eligibility Requirements

Plan Participation

Eligible Employee

Effective March 31, 2003 the plan has ceased benefit accruals. After April 1, 2003 no further employees are eligible to participate in the plan.

Normal Retirement (Date)

The first day of the calendar month coincident with or next following the later of the date of attainment of age 65 or 5 years of participation. However, a participant in the plan prior to October 1, 1988 will be eligible at age 65.

Early Retirement

A participant who at time of termination of service has completed 5 consecutive years of Credited Service, and attained age 60, or met the Rule of 75 (attained age plus Vested Service with this Employer and any prior Participating Employer), will be eligible.

Vested Retirement

A participant who at time of termination of service has completed 5 years of Vested Service after age 18 will be eligible.

Disability Retirement

See Disability Retirement Benefit later in this section.

Death Benefit

See Preretirement Death Benefit later in this section.

Definitions

Vested Service

Service from the first day of the month employment begins.

2013 Form 5500 Schedule SB, Part V - Summary of Plan Provisions (EIN: 13-3745616/PN: 001)

Credited Service

Service from date of plan participation. A participant may receive service for employment after age 25, which precedes eligibility to participate, up to a maximum of one year.

A participant in the plan prior to October 1, 1985 but after September 30, 1976 will receive service from date of employment after age 25 (previous minimum age for participation).

A participant in the plan prior to October 1, 1976 will receive service from date of employment.

Credited Service accruals are frozen as of April 1, 2003.

Compensation

Base Earnings including amounts deferred under IRC Sections 125 and 401(k). However, compensation amounts are frozen as of April 1, 2003.

Average Annual Earnings

The average annual Compensation during the 36 consecutive calendar months within the final 120 consecutive calendar months of Credited Service producing the highest average.

Retirement Income

Normal Retirement Benefit

The sum of (i) and (ii) less (iii):

- (i) 2% of Average Annual Earnings times Credited Service (prior to July 1, 1985)
- (ii) 1-2/3% of Average Annual Earnings times Credited Service (after June 30, 1985)
- (iii) 1-2/3% of the Primary Social Security Benefit times Credited Service
(after September 30, 1976, maximum of 30 years)

The maximum benefit provided is 60% of Average Annual Earnings.

Normal Retirement Benefit

The Normal Form of this benefit is a 50% Joint and Survivor for married participants and Straight Life Annuity for single participants. Participants can also elect a 100% Joint and Survivor Benefit or a, 5-Year, 10-Year, 15-Year Period Certain and Life Benefit. Additionally, commencing March 28, 2005, the retirement benefit is payable in the form of a lump sum if it is greater than \$1,000 and less than or equal to \$5,000.

Effective October 28, 1993, any employee whose job is eliminated as a result of the outsourcing of defined contribution administrative operations, may elect to receive his benefit in the form of a single lump sum payment.

2013 Form 5500 Schedule SB, Part V - Summary of Plan Provisions (EIN: 13-3745616/PN: 001)

Early Retirement Benefit

A participant who at time of termination of service has attained age 62 and completed 20 years of Vested Service, an unreduced Normal Retirement Benefit accrued to date of termination of service. The Primary Social Security Benefit is the actual amount available to the participant at the date of termination of service.

A participant who at time of termination of service has completed 20 years of Vested Service, but has not attained age 62, the Normal Retirement Benefit accrued to date of termination of service, reduced 0.4166% for each month benefit payments commence prior to age 62, or if the reduction is less, actuarially for commencement of benefits prior to Normal Retirement Date.

In all other cases, the Normal Retirement Benefit accrued to date of termination of service, reduced 0.4166% for each month benefit payments commence prior to Normal Retirement Date, or if the reduction is less, actuarially for commencement of benefits prior to Normal Retirement Date.

For a participant who at time of termination of service has not attained age 62 and completion of 20 years of Vested Service, the Primary Social Security Benefit is determined based on the compensation in effect as of the date of termination of service, or Average Annual Earnings, if greater, to continue to Normal Retirement Date. However, if the participant would have completed 30 years of Credited Service if they continued employment to Normal Retirement Date, the maximum Primary Social Security Benefit is 50% of such value, times a fraction, the numerator of which is equal to Credited Service to date of termination of service and the denominator of which is equal to Credited Service projected to Normal Retirement Date. In addition, for a participant who at termination of service has completed 20 years of Vested Service and has not attained age 62, the Primary Social Security Benefit is further reduced by .5555% for each calendar month benefit payments commence prior to Normal Retirement Date up to a maximum of 60 months plus .2777% for each calendar month benefit payments commence prior to age 60 up to a maximum of 60 months plus the actuarial reduction for each month benefit payments commence prior to age 55.

The maximum benefit provided is 2% of Average Annual Earnings times Credited Service (maximum of 30 years).

2013 Form 5500 Schedule SB, Part V - Summary of Plan Provisions (EIN: 13-3745616/PN: 001)

Vested Retirement Benefit

The Normal Retirement Benefit accrued to date of termination of service, reduced actuarially for commencement of benefits prior to Normal Retirement Date. Benefit payments can commence when the participant would have been eligible for an Early Retirement Benefit.

The Primary Social Security Benefit is determined in the same manner as an Early Retirement Benefit.

The maximum benefit provided is 2% of Average Annual Earnings times Credited Service (maximum of 30 years).

Disability Retirement Benefit

None provided. However, a participant who is eligible for the Employer's long-term disability plan (LTD) and has completed 10 years of Vested Service may continue to accrue Vested and Credited Service based on the last rate of pay until Normal Retirement Date, early recovery or death.

Preretirement Death Benefit

A participant at date of death while in active service, having an eligible surviving spouse or minor children, and having either attained age 60, met the Rule of 65, or was eligible for a Vested Retirement Benefit, will be eligible.

The Normal, Early or Vested Retirement Benefit, assuming the participant terminated employment at date of death and elected a 100% Joint and Survivor Benefit is payable to the surviving spouse or, if there is no surviving spouse, their children, until the youngest child attains age 21.
