1. PLAN DESCRIPTION

The following description of the Tolin 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan, which was established effective January 1, 1997, and amended and restated effective August 20, 2009, is a contributory defined contribution plan covering substantially all employees of Tolin Mechanical Systems Co. (the “Company”), whose employment is not covered under a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Plan Merger

Effective October 1, 2014, the Plan merged with and into the Service Logic 401(k) Plan (“Plan Merger”). Eligible employees of the Company became eligible to participate in the Service Logic 401(k) Plan effective October 1, 2014. As a result of the Plan Merger, all assets were liquidated on September 30, 2014 and net assets of approximately \$7,560,000 were transferred out of the Plan and into the Service Logic 401(k) Plan effective October 1, 2014. Contributions to the Plan were no longer allowed after the September 22, 2014 payroll. Beginning on September 23, 2014 and through a date after the Plan Merger, participants were unable to direct or diversify investments, obtain a loan from the Plan, or obtain a distribution from the Plan.

All references to the Plan and its operations in these to Financial Statements relate to the period on or before October 1, 2014.

Custodian and Administration of the Plan

The custodian and recordkeeper of the Plan is the Principal Life Insurance Company (“Custodian” or “Principal”). The administrator of the Plan is the Company. The Custodian holds all assets of the Plan in accordance with the provisions of the Savings Plan and Annuity Contract with the Company. All assets of the Plan are in investment plan accounts of Principal. The Retirement Plan Committee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

1. PLAN DESCRIPTION (CONTINUED)

Eligibility

An individual is eligible to be an active member of the Plan on the earliest of January 1 or July 1 on which the employee meets the following requirements:

- The individual is an employee and 21 years of age.
- The individual has three months of service, as defined in the Plan document.

Contributions

Participants may contribute to the Plan on a pre-tax basis up to 100% of their eligible annual compensation, subject to certain Internal Revenue Code ("IRC") limitations (\$17,500 for 2014). The Plan also allows catch-up contributions for participants 50 or over based on IRC limitations (\$5,500 for 2014). Contributions and earnings thereon are nontaxable until withdrawn from the Plan. The Company may make a discretionary matching contribution to the Plan. For the period from January 1, 2014 to October 1, 2014, the Company's discretionary matching contribution was equal to 50% of the first 4% of the participant's pre-tax contribution.

The Company may make additional discretionary profit sharing contributions at its election, which are allocated to eligible participants with at least 1,000 hours of service during the Plan year and who are employed on the last day of the Plan year. The discretionary profit sharing contribution is allocated to participants based on an integrated formula (integrated with the social security wage base) as allowed by the IRC. The Company did not make a discretionary profit sharing contribution for the period from January 1, 2014 to October 1, 2014.

Vesting

The participant's pre-tax, catch-up and rollover contributions are 100% vested at all times. The Company's discretionary matching and profit sharing contributions vest 20% per year beginning after two years of vesting service (1,000 hours per year) and an additional 20% per year thereafter until fully vested after six years of service. Participants are fully vested upon attaining normal retirement (age 65), early retirement (age 55 and six years of service), becoming disabled (as defined in the Plan document), or death.

Notes to Financial Statements

1. PLAN DESCRIPTION (CONTINUED)

Participants Accounts

Each participant's account is credited with the participant's pre-tax contributions, catch-up contributions, and rollover contributions; the Company's discretionary matching contribution, allocations of the Company's discretionary profit sharing contributions and forfeitures; and an allocation of Plan earnings or losses. Each participant's account is charged with withdrawals and expenses. Investment earnings or losses are allocated to each participant account in the proportion that the balance of each participant's account bears to the total balance of all participants in each fund. Participants may direct the investment of their account balances into various investment options offered by the Plan. Participants can elect to invest in either unallocated insurance contracts or various insurance company pooled separate accounts offered by the Plan.

Participants may make investment election changes at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Distributions to Participants

Upon termination of service due to death, disability, normal retirement (age 65), early retirement (age 55 and 6 years of service) or separation of service, a participant may elect to receive all or any part of their vested account balance paid as a lump-sum distribution, an annuity, leave the account in the Plan, or roll over the vested balance to another qualified retirement plan.

Immediate lump-sum distributions are to be made to terminated participants if the participant's vested account balance is \$1,000 or less. For terminated participants with vested balances greater than \$1,000, but less than \$5,000, if an election to distribute benefits is not made within 60 days following their termination date their vested balance will be rolled into a Personal Retirement Account ("PRA") with Principal.

Certain in-service distributions are allowed at age 59½.

Notes to Financial Statements

1. PLAN DESCRIPTION (CONTINUED)

Notes Receivable from Participants

A participant may, with the consent of the Plan administrator, borrow a minimum of \$1,000 up to 50% of his or her non-forfeitable balance not to exceed \$50,000. The borrowing is secured by the balance in the participant's account and bears an interest rate based on the rates available for similar borrowings from commercial institutions and is fixed for the term of the note. The borrowing is repaid ratably through payroll deductions over a period of five years or less. Only one borrowing may be outstanding at a time, and a participant may not originate more than one new borrowing in a twelve month period.

Forfeitures

Forfeitures may be used to reduce administrative expenses paid by the Plan. Any remaining balance is to be allocated as additional contributions to the accounts of eligible participants following the integrated formula and eligibility criteria used for allocating discretionary profit sharing contributions. The forfeited and non-vested funds account had a balance of \$0 and \$18,278 at October 1, 2014 and December 31, 2013, respectively.

For the period from January 1, 2014 to October 1, 2014 and the year ended December 31, 2013, forfeitures in the amount of \$2,230 and \$4,060, respectively, were used to reduce administrative expenses. For the year ended December 31, 2013, forfeitures in the amount of \$43,040 were reallocated to the accounts of eligible participants in 2014. For the period January 1, 2014 to October 1, 2014, approximately \$21,800 in forfeitures were transferred to the Service Logic Plan upon plan merger.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to ERISA. See Note 1 – *Plan Merger*, for a discussion regarding the merger of the Plan's remaining assets effective October 1, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan’s investments in unallocated insurance contracts and insurance company pooled separate accounts are stated at fair value, as further discussed in Note 4 – *Fair Value Measurements and Disclosures*. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Committee determines the Plan’s valuation policies utilizing information provided by the Custodian.

Interest is recorded when earned on the accrual basis of accounting. Net appreciation (depreciation) in the fair value of investments represents any dividend income, capital gain distributions, realized and unrealized gains, and losses on the investments, as well as any fees charged within the pooled separate accounts. Purchases and sales are recorded on a trade-date basis.

Payments of Benefits

Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid as of October 1, 2014.

Tolin 401(k) Plan

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contributions

Participant contributions and related Company discretionary matching contributions are recognized in the period during which the Company makes payroll deductions from the participant's compensation. Discretionary profit sharing contributions are recognized in the period which the participant's compensation used in the contribution computation was paid.

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. No excess contributions were noted as of October 1, 2014.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses had been recorded as of October 1, 2014 or December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses of the Plan

Expenses of \$14,682 were paid out of the assets of the Plan during 2014. Certain other fees and expenses are charged within the pooled separate accounts and are reflected in the net appreciation or depreciation in fair value of investments. All other expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Tolin 401(k) Plan

Notes to Financial Statements

3. INVESTMENTS

During 2014, the Plan's investments, including gains and losses on investments bought and sold as well as held during the period, appreciated in value as follows:

<i>Period Ended October 1,</i>	2014
Unallocated insurance contracts	\$ 12,789
Insurance company pooled separate accounts	267,409
Net appreciation in fair value of investments	\$ 280,198

The fair value of individual investments that represent 5% or more of the Plan's net assets as of October 1, 2014 and December 31, 2013 are as follows:

	2014	2013
Principal Life Insurance Company Pooled Separate Accounts -		
SAM Balanced Account	\$ -	\$ 1,190,225
SAM Conservative Growth Account	-	690,752
International Small-Cap Account	-	590,110
Short-Term Income Separate Account	-	486,374
U.S. Property Separate Account	-	481,549
Large-Cap Growth II Account	-	458,753

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES

Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets the Plan has the ability to access for identical assets and liabilities. Level 2 inputs are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly (quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable). Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

Tolin 401(k) Plan

Notes to Financial Statements

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES (CONTINUED)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of October 1, 2014 and December 31, 2013.

Insurance Company Pooled Separate Accounts (PSAs): Are valued based on the publicly quoted pricing input which is used in determining the net asset value ("NAV") of the pooled separate account, which is not publicly quoted. The value of each pooled separate account is determined at the close of each business day based on fair value of the underlying assets, which can consist of a single mutual fund or multiple securities. The value of the account is expressed in units or NAV ("unit value"). The unit value is the dollar value of one unit and is determined at the close of each business day by dividing the fair value of the entire account by the total number of units in the account. Contributions to the account increase the number of units. Withdrawals from the account decrease the number of units. The increase or decrease in number of units is determined by dividing the amount of the contribution or withdrawal by the unit value for the day the transaction is made. The value of the participant's account on any date is determined by multiplying the number of units held by the unit value at the close of the business day. The PSAs held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance requirement. The Plan was permitted to redeem investment units at NAV on the measurement date. The PSAs have various investment objectives depending on the investment strategy of the accounts as further summarized by category in the following tables and as provided and available to the plan participants through a variety of participant communications.

Unallocated Insurance Contracts (Guaranteed Interest Accounts or GIAs): The GIAs are non-benefit responsive contracts and are valued at fair value, as determined by Principal based on the amounts participants would receive if they were to withdraw or transfer funds prior to their maturity, market rates and current crediting interest rates, and contractual agreements with Principal. In general, the fair value of the GIAs represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting interest rates. Principal maintains the contributions in a general account which is credited with earnings and charged for withdrawals and administrative expenses. In determining the reasonableness of the methodology, the Retirement Plan Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES (CONTINUED)

At December 31, 2013, the contracts had crediting interest rates of 0.61% to 1.82% with maturity dates from December 31, 2013 through December 31, 2017. The contracts were liquidated on September 30, 2014 and an early withdrawal fee of \$10,954 was charged to the Plan.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

<i>December 31, 2013</i>	Fair Value Measurements

	Unallocated Insurance Contracts

There were no transfers in or out of levels 1, 2, or 3 for the period from January 1, 2014 to October 1, 2014.

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the range of values for those inputs as of December 31, 2013:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of significant input values
Guaranteed Interest Accounts	\$ 307,484	Market Value Adjustment	Composite Guaranteed Rate * Current Rate on 12/31/2013**	0.35% - 1.71%* 0.61% - 1.82%**

* Principal Life Insurance Company rates per the guaranteed annuity contract.

** Fair Value is considered contract value adjusted to take into account the current rates of interest available in the market place, as defined in the contract. Fair value is computed utilizing a combination of the current interest rates based on remaining investment term at the reporting date as well as the interest rate on account.

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified the following data included in the accompanying financial statements and supplemental schedule as complete and accurate:

- Investments as shown in the Statements of Net Assets Available for Plan Benefits as of September 30, 2014 (liquidation date of investments held) and December 31, 2013
- Interest on unallocated insurance contracts, and net appreciation in the fair value of investments, as shown in the Statement of Changes in Net Assets Available for Plan Benefits for the period ended September 30, 2014
- Investment information included in the Notes to Financial Statements

The Plan's independent auditors did not perform any auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements.

6. DEMUTUALIZATION COMPENSATION

On October 26, 2001, Principal completed conversion from a mutual insurance holding company to a stock company. As part of this demutualization process, policyholders received compensation in exchange for their membership interests in the form of an interest in a separate account that is primarily invested in Principal Financial Group, Inc. The compensation was allocated among Plan participants' accounts based on each participant's proportionate share of the total account balance. The participants have the option to allocate these funds to any of the other investment options offered by the Plan or continue investing in the common stock account. However, participants are not permitted to choose the Principal Financial Group, Inc. Stock Account as an investment option. As of October 1, 2014 and December 31, 2013, the balance of the Principal Financial Group, Inc. Stock Account was \$0 and \$15,692, respectively.

7. PARTIES-IN-INTEREST TRANSACTIONS

The Plan invests in units of insurance company pooled separate accounts and unallocated insurance contracts managed by Principal. Principal acts as custodian and recordkeeper for the Plan. In addition, participants could borrow from their accounts (notes receivable from participants). As noted above in Note 6, *Demutualization Compensation*, Principal stock is held in the Principal Financial Group, Inc. In addition, the Plan had a service agreement with Principal. Payments to Principal by the Plan consisted of administrative fees and GIA withdrawal fees totaling \$14,682 for the plan period ended October 1, 2014. Also, Principal receives amounts from fees charged within the insurance company pooled separate accounts. Such transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets per the accompanying financial statements to Form 5500:

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks.

10. INCOME TAX STATUS

On March 31, 2008, the United States Treasury Department advised the Custodian that the form of the Prototype Plan is acceptable under Section 401 of the IRC and therefore exempt from Federal income taxes. Although the Plan has been amended and restated since receiving the determination letter, the Plan administrator and Company management believe that the Plan is designed and is operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date, therefore no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

11. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through July 13, 2015, the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation that require recognition or disclosure in the financial statements.
