(1) Description of plan

The following description of the Lion Country Safari, Inc. Florida Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General - The Plan is a defined contribution plan sponsored by Lion Country Safari, Inc. – Florida (the "Company") for the benefits of its full-time employees of who have six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan amendment - Effective February 15, 2014 the Plan was amended and restated by adopting a new prototype plan and changing its trustee and custodian to Frontier Trust Company. As a result of the transition between the custodians, the Plan had a black out period effective February 5, 2014 through February 26, 2014, not allowing investment option changes and requests of new participant notes and distributions. Participants continued to contribute into their accounts during the blackout period. Effective July 24, 2014, Frontier Trust Company changed its name to Ascensus Trust.

Contributions - Participants may contribute from 1% to 15% of pretax annual compensation, as defined in the Plan. Effective February 15, 2014, participant contributions maximum was increased to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may annually determine whether or not it will make a matching contribution to eligible participant accounts. For the years ended October 31, 2014 and 2013, the Company elected to contribute annual matching contributions equal to 12.5% of eligible employee contributions. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant investment account options - The Plan currently offers various mutual funds as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) Description of plan (continued)

Vesting - Participants' contributions plus actual earnings are 100% vested immediately. Employer contributions are subject to the following vesting schedule:

Years of Service	Vested %
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments as defined in the Plan. For termination of service due to other reasons, for accounts with a value of $1,000 or less, participants will receive the value of the vested interest in his or her account as a lump sum distribution and for accounts with a greater value, participants may receive a lump sum or annual installments as defined in the Plan. A participant may also request up to two distributions per year after reaching the age of 59 ½ or a distribution qualifying under certain "hardship" rules as prescribed by the Internal Revenue Service.

Forfeited accounts - At October 31, 2014 and 2013, forfeited nonvested accounts totaled $0 and $23, respectively. These accounts may be used to reduce employer contributions or pay plan expenses. In 2014 and 2013, employer contributions were reduced by $0 and $500, respectively, from forfeited nonvested accounts. In 2014 and 2013, the Plan used approximately $400 and $700, respectively, from forfeited nonvested accounts to pay plan expenses.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

(2) Summary of significant accounting policies (continued)

Basis of accounting (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable. The statements of changes in net assets available for benefits are prepared on a fair value basis.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment custodian. See Note 6 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of October 31, 2014 and 2013. If a participant ceases to make note repayments and the plan administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Unit values - Individual participant accounts for the pooled separate accounts were maintained on a unit value basis. Participants did not have beneficial ownership in the specific underlying securities or other assets in the funds, but did have an interest therein represented by units valued daily. The funds earned dividends and interest which were automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund were converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts were charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

(2) Summary of significant accounting policies (continued)

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

(3) Investment contract with insurance company

The Plan investments at October 31, 2013 and through February 14, 2014 included guaranteed investment accounts with Principal Life Insurance Company ("Principal"). Principal maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As stipulated in the contracts, certain conditions existed that could limit the participants ability to transfer their funds. Therefore, the guaranteed interest account was not considered benefit-responsive and was valued at estimated fair value as reported to the Plan by Principal.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. At October 31, 2013, the average yield and crediting interest rates ranged from 0.49% to 2.77% with maturities ranging from October 31, 2013 through October 31, 2017. The crediting interest rates were based on rates specified by the issuer and were reviewed on an annual basis for resetting.

(4) Investments (continued)

During the years ended October 31, 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Years Ended October 31,	
	2014	2013
Mutual funds	$ 95,270	$ -
Pooled separate accounts	92,871	395,036
Guaranteed interest accounts	431	(431)

(5) Information prepared and certified by the trustee and custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, Inc., as agent for Ascensus Trust, and Principal have certified that the following data included in the accompanying October 31, 2014 and 2013 financial statements and supplemental schedule are complete and accurate:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(6) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820*, Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

(6) Fair value measurements (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 3.

Pooled separate accounts: Valued at the NAV of units of the separate account. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(6) Fair value measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2014 and 2013:

	Investments at Fair Value as of October 31, 2014

* The fair value of the investments in the pooled separate accounts had been estimated using the NAV of the investments. The pooled separate accounts listed in the above chart were redeemed on a daily basis and did not have any redemption restrictions. Additionally, there were no unfunded commitments.

(7) Related party transactions and party-in-interest transactions

During the period February 15, 2014 through October 31, 2014, Ascensus Trust Company (Ascensus Trust) was the Trustee of the Plan. An affiliate of Ascensus Trust, Ascensus provides administrative services to the Plan. Additionally, during 2014 certain recordkeeping functions were provided by The Vanguard Group, who also acts as the fund manager at October 31, 2014. Plan investments through February 14, 2014 were primarily within separate accounts managed by Principal with the exception of the guaranteed investment accounts, which was held in the general account of Principal. Principal was the custodian through February 14, 2014 as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Ascensus Trust, The Vanguard Group, and Principal amounted to $2,743 and $1,786 during the years ended October 31, 2014 and 2013, respectively.

Fees incurred by the Plan for investment management services are included in net appreciation (depreciation), as they are paid through revenue sharing, rather than a direct payment. The Plan sponsor pays directly any other fees related to the Plan's operations.

(8) Tax status

The Internal Revenue Service ("IRS") has determined that the prototype 401(k) plan is designed in accordance with applicable sections of the IRC and informed the trustee of such in a letter dated March 31, 2008. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(9) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

(10) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

(11) Subsequent events

During July 2015, the plan sponsor executed an amended and restated plan adoption agreement that will be effective September 1, 2015. This amendment is to update the plan document to conform to recent IRC updates. Participant accounts will not be materially affected by the amendment.

The Plan has evaluated subsequent events through July 13, 2015 which is the date the financial statements were available to be issued. Except as noted above, no significant matters were identified for disclosure during this evaluation.
