Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Universal Technology Corporation Employee Stock Ownership as of September 30, 2014 and 2013, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF THE PLAN:

The following description of the Universal Technology Corporation Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, which became effective October 1, 2001, is a non-contributory defined contribution plan covering substantially all employees of Universal Technology Corporation (the "Sponsor") who have attained age 21 and have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2004, the Plan purchased shares of common stock from the Sponsor using the proceeds from a note payable issued to the Sponsor. The stock is held in a trust established under the Plan. As the Plan made each debt payment, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code. The loan was fully repaid during the year ended September 30, 2009; accordingly, all of the shares have been allocated to eligible participants in accordance with the plan document.

Contributions

Contributions to the Plan are made annually in an amount determined by the Board of Directors of the Sponsor. While the Plan currently has no outstanding debt, the Sponsor has agreed to make contributions to the Plan in amounts, which together with any dividends paid by the Sponsor to the Plan, are sufficient to enable the Plan to pay all principal and interest on any outstanding debt. Additional contributions may be made at the sole discretion of the Board of Directors.

Diversification

Participants nearing retirement age have the opportunity to transfer a portion of the value of their investment in Sponsor stock into investments which are more diversified. Employees after having participated in the Plan for at least 10 years and having reached age 55, have the option of transferring up to 25% of the value of eligible shares from their account to the Sponsor's 401(k) Plan. Employees may also transfer another 25% of their account upon reaching age 60. During 2014 and 2013, participants elected to transfer \$88,992 and \$86,968, respectively, to the sponsor's 401(k) Plan.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of the Sponsor's contribution, investment earnings and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Sponsor as of the last day of the plan year will receive an allocation.

Vesting

Upon completion of three years of service, a participant is 100% vested. According to the Plan, a year is defined as 1,000 hours of service.

Payment of benefits

Upon termination of service a participant may elect to receive a lump-sum payment or installments over a specified period of time in the amount equal to the value of the participant's vested interest in his or her account.

Administrative expenses

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan. The Sponsor has elected to pay costs associated with plan administration.

Forfeitures

Forfeitures are allocated to eligible participants based on relative compensation. Forfeitures of terminated participants' non-vested cash accounts totaled \$1,008 and \$1,248 during 2014 and 2013, respectively, and were allocated amongst the remaining participants in accordance with the Plan Document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation in fair value of investments represents realized gains and losses on investments sold during the year and unrealized gains and losses on investments held at the end of the year. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded upon distribution. There were no benefits pending payment at September 30, 2014, or 2013.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through July 10, 2015, the date on which the financial statements were available to be issued.

3. INVESTMENTS:

The following presents investments that represent 5% or more of the Plan's net assets at September 30:

	<u>2014</u>	<u>2013</u>
Universal Technology Corporation Common Stock	\$ 7,159,740	6,317,464

4. FAIR VALUE MEASUREMENTS:

Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified term (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at September 30, 2014 and 2013:

The fair value of the Universal Technology Corporation common stock held by the plan is valued at fair value based on an independent appraisal. This appraisal was based upon a combination of the asset and income valuation techniques. The appraiser took into account projected cash flow, return on assets, return on equity and the estimated fair value of the Company's assets and liabilities. Because the determination of fair value involves subjective judgments, and given the inherent uncertainty related to capitalization rates, discount rates and other factors, the estimated fair value may differ from values that would be determined by negotiation between willing parties and the difference in such values could be material.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2014 and 2013:

<u>Description</u>	<u>Fair Value Measurements at Reporting Date Using</u>			
	<u>Total</u>	<u>(Level 1)</u>	<u>(Level 2)</u>	<u>(Level 3)</u>
<u>September 30, 2014</u>				
Universal Technology Corporation				
Common Stock	\$ 7,159,740	-	-	7,159,740
<u>September 30, 2013</u>				
Universal Technology Corporation				
Common Stock	\$ 6,317,464	-	-	6,317,464

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended September 30, 2014 and 2013:

	<u>Universal Technology Corporation Common Stock</u>
Balance on September 30, 2012	\$ 6,715,531
Unrealized losses	(263,645)
Realized gains	545,675
Proceeds from sales	<u>(680,097)</u>
Balance on September 30, 2013	6,317,464
Unrealized gains	852,213
Realized gains	42,753
Proceeds from sales	<u>(52,690)</u>
Balance on September 30, 2014	<u><u>\$ 7,159,740</u></u>

5. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their respective account balances.

6. CONCENTRATIONS:

The Plan owns approximately 43 percent of the common shares of the Sponsor, a company that provides technology, engineering and consulting services to the defense industry. The investment in shares of the Sponsor's stock are stated at fair value as determined annually by an independent appraisal. As the common stock represents the majority of the Plan's investments, the Plan is subject to significant risk of concentration in this investment. In addition, periodically during the year the Plan has cash deposits in excess of federally insured limits. The Plan has not experienced any losses in such accounts and the plan administrator believes it is not exposed to any significant credit risk with its cash on deposit at financial institutions.

7. TAX STATUS:

The IRS has determined and informed the Sponsor by a letter dated September 25, 2013, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's trustees believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. RELATED PARTY TRANSACTIONS:

Certain shares held by the Plan were purchased from shareholders of the Sponsor who also participate in the Plan. The Internal Revenue Code restricts these shareholders and their family members from participating in any allocation of such shares. During 2014, the Plan sold 47 shares back to the sponsor, received \$52,690 and realized a gain of \$42,753. During 2013, the Plan sold 636 shares back to the sponsor, received \$680,097 and realized a gain of \$545,675.
