DEFIANCE METAL PRODUCTS COMPANY
401(k) PLAN AND TRUST

Notes to Financial Statements
Years Ended September 30, 2014 and 2013

Note 1 – Description of Plan

The following description of the Defiance Metal Products Company 401(k) Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for complete information about the Plan.

General

The Plan, as amended and restated effective April 1, 2014, is a defined contribution plan covering eligible employees, as defined in the Plan document, of Defiance Metal Products Company (the Company and Plan Administrator). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions (as applicable), a portion of administrative expenses (as applicable), and an allocation of Plan earnings and losses. The allocation of Plan earnings and losses are based on each participant's account balance and the participant's investment choices, as defined in the Plan document.

The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participant's account. Participants direct the investment of their account balances into the investment options offered by the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Terms of the loan are specified within the individual promissory note, in accordance with the Plan document. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest not to exceed the maximum rate permitted by law. Principal and interest are paid through payroll deductions.

Contributions

Participants may elect to defer up to 100% of compensation, as defined in the Plan document. Unless electing otherwise, newly eligible employees will be auto enrolled at an initial pre-tax contribution of 3% and increase by 1% each year after up to 10%, as further defined in the Plan document. Participant deferrals may not exceed the maximum allowable contribution under applicable laws. The Company may make discretionary matching and profit sharing contributions at the option of the Company's Board of Directors. The amount of additional contributions, if any, is at the sole discretion of the Company.

Note 1 – Description of Plan (continued)

Payment of Benefits

Benefits are payable in the form of a lump sum payment.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after five years of credited service. As identified in the Plan document, if the participant terminated employment prior to 2002, the participant was vested after seven years.

Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to reduce employer contributions. Unallocated forfeitures at September 30, 2014 and 2013 were \$52,628 and \$15,376, respectively. Forfeitures totaling \$50,510 were used to fund employer contributions in 2014 (\$29,031 in 2013).

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the entire interest in each participant's account is fully vested and distributed to participants.

Administrative Expenses

Administrative costs, as rendered by parties-in-interest, are paid by the Company (for audit and other services) or by the Plan (for loan fees and administrative costs related to terminated participants).

Note 2 – Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments are recorded upon distribution.

Note 2 – Summary of Accounting Policies (continued)

Basis of Accounting (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis. This applies even when the investment contracts are not held directly by the plan but are underlying assets in a common/collective trust (CCT) investment held by the plan.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used. The Plan's investments are held by Ascensus, for the year ended September 30, 2014, and Fidelity Management Trust Company, for the year ended September 30, 2013, the Plan's Trustees.

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at the net asset value.

Common/collective trust funds represent investments with various investment managers. Units held in CCTs, including stable value funds, are fair valued at the unit value as reported by the investment managers. CCTs are not available in an exchange and active market; however, the fair value is determined based on the underlying investments as traded in an exchange and active market. The Plan holds shares of The Fidelity Managed Income Portfolio.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Note 2 – Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Participant contributions are recorded when the Company makes payroll deductions from Plan participants gross pay. The Company contributions are accrued in the period in which they become obligations.

Notes Receivable from Participants

Notes receivable from participants represent outstanding loans and are measured at their unpaid principal balance plus accrued interest.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at September 30, 2014 and 2013, net appreciation (depreciation) in fair value of mutual fund investments, net gain from common/collective trust, interest and dividends for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustees.

Note 4 - Fair Value Measurement

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets and liabilities;
- Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 7 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2008 that the Prototype Non-Standardized Profit Sharing Plan with CODA (the prototype plan of the Trustees upon which the Plan is based) qualifies under Section 401(a) of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. Subsequent to this ruling the Plan was amended. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Subsequent Events

Management has evaluated subsequent events through July 15, 2015, the date the financial statements were available to be issued, and determined that no additional events have occurred that require recognition or disclosure.
