Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Participants and Trustees of
Sound Retirement Trust

Report on the Financial Statements

We have audited the accompanying financial statements of Sound Retirement Trust (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2014 and 2013; the related statements of changes in net assets available for benefits for the years then ended; and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, which includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also

includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to about present fairly, in all material respects, information regarding Sound Retirement Trust's net assets available for benefits as of September 30, 2014, and changes therein for the year then ended and its financial status as of September 30, 2013, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 16 to the financial statements, the Board of Trustees of the Plan voted to merge the Plan with the Washington Meat Industry Pension Trust (the Washington Meat plan), effective June 30, 2014. As part of the same transaction, the UFCW Consolidated Pension Plan assumed certain assets and liabilities related to certain current and former participants of the Washington Meat plan. Those assets and liabilities were transferred, effective July 1, 2014. Our opinion is not modified with respect to these matters.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting - The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation, Transactions and Income Recognition -

General - Investments are carried at fair value, which is determined, presented and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *Fair Value Measurements and Disclosures*. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumptions about inputs that market participants would use in pricing the investments developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels, based on the inputs, as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active, quoted prices for similar investments in active markets or model-based valuations for which all significant assumptions are observable and can be corroborated by observable market data.

Level 3 - Valuations based on unobservable inputs that are supported by little or no market activity and are significant to the overall fair value measurement. Values are determined using proprietary pricing models, discounted cash flow models that include the investment entities' own judgments and estimations, or some other pricing method using unobservable inputs.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Inputs and Valuation Methods - In determining fair value, FASB ASC 820 allows various valuation approaches. The specific methods used for each of the Plan's investment classes are presented below.

Cash and cash equivalents: The value of temporary cash held in short-term investment funds is based on quoted prices for similar assets in active markets (Level 2).

U.S. Government and Government Agency and Foreign Government obligations: The fair value of U.S. Government and Government Agency and Foreign Government obligations is generally based on quoted market prices in active markets (Level 1). When quoted prices are not available, valuation is determined using a market-based model in which valuation consideration is given to yield or price of comparable securities, coupon rate, maturity, credit quality and dealer-provided prices (Level 2).

Corporate debt securities: The fair value of corporate debt securities that are not traded in active markets is generally determined based on a model that uses inputs such as interest-rate yield curves, which are similar to the valued obligations in terms of issuer, maturity and seniority (Level 2).

Equity securities, preferred stock and mutual funds: The fair value of equity securities and preferred stock is generally based on quoted market prices in active markets (Level 1). When quoted prices are not available, valuation is determined from dealer-provided prices based on a model where consideration is given to recent transactions and comparable securities (Level 2).

Common/collective trusts and 103-12 investment entities: The common/collective trusts and 103-12 investment entities are valued based on the net asset value per unit of the fund as reported each valuation date. The underlying assets may be valued based on quoted market prices, independent pricing services, amortized cost net asset value, or by dealers making a market for certain securities (Level 2).

Limited partnerships and other privately held investments: Limited partnerships and other privately held investments are valued using net asset value, which approximates fair value. Net asset value of these funds is based on the underlying assets' fair values, which include a combination of quoted market prices and estimated fair values determined by the general partners and managers of the partnerships and other private equity investments using the most recent net asset values or capital account information available, independent appraisals, significant judgments, and various mathematical models and methodologies (Level 2 or 3).

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Real estate investment trust: The Plan's investment in RREEF America REIT II (RREEF), a real estate investment trust, is a pooled account consisting of a managed real estate portfolio composed of multi-family, industrial, retail and office properties in metropolitan areas within the continental United States. The underlying investments are carried at estimated fair value as determined by the investment manager based on independent appraisals (Level 3).

Collateral held for securities on loan and obligation to return collateral under securities lending agreement: Cash collateral for securities on loan has been reinvested in various types of debt securities whereby values are determined using a model-based approach (Level 2). Similarly, the value of the obligation to return the collateral held for securities on loan is determined using a model-based approach (Level 2).

Futures contracts and options: Futures contracts and options are valued at their fair value as determined in good faith in accordance with the procedures adopted by the investment manager. Such procedures include obtaining quotes from pricing agents and utilizing pricing models based on available market data (Level 2).

Swap agreements: Swap agreements are recorded on the contract date. Amounts payable or receivable under the swap agreements are included on the statements of net assets available for benefits as a receivable from or payable to the swap counterparty. Because no market quotations are readily available, swap agreements are valued at estimated fair value as determined by the investment manager, utilizing pricing models based on available market data (Level 2).

Valuation Methods, Consistency - The valuation techniques used in the accompanying financial statements have been consistently applied.

Transactions and Income Recognition - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contributions Receivable - Employer contributions due and not paid prior to the year-end are recorded as employer contributions receivable. An allowance for uncollectible accounts is considered unnecessary and is not provided. Contributions due as a result of payroll compliance examinations have not been recorded as a receivable because collectability is uncertain. Therefore, delinquent contributions are recorded when received.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Withdrawal Contributions Income and Receivable - Withdrawal contributions income is recognized when the withdrawal liability amount has been assessed. An allowance for uncollectible accounts is deemed necessary when collectability of a particular assessment is uncertain.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the accrued benefits that participants have. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present active participants or their beneficiaries.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amount and requires disclosure in the financial statements. Actual results could vary from the estimates that were used.

Risks and Uncertainties - The actuarial present value of accumulated Plan benefits is calculated based on certain assumptions pertaining to interest rates, participant demographics and other assumptions, all of which are subject to change. It is possible that changes in these assumptions in the near term would be material to the disclosure to the financial statements of the actuarial present value of accumulated Plan benefits.

The Plan invests in equity securities, corporate debt securities, a real estate investment trust, futures, swaps, limited partnerships and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty with respect to changes in the value of investments, it is possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Reclassification - Based on updated information provided by the investment manager, the Plan's investment in Definitive Guardian Fund, Ltd. has been reclassified from another privately held investment to a 103-12 investment entity.

NOTE 2. DESCRIPTION OF THE PLAN

The Plan became effective October 1, 1965, as a result of collective bargaining between the Retail Clerks International Association, Local Union No. 1105 and Food Industry, Inc. The Plan was revised April 1, 2009, and restated effective October 1, 2014. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit pension plan covering eligible employees under the collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Vesting - Participants are entitled to a vested benefit if they have five or more years of credited future service and/or credited past service (provided they have at least one year of credited future service).

Pension Benefits - Participants will be eligible for a normal retirement benefit when they have obtained age 65 and have earned five years of credited service or have reached their fifth anniversary of participation (without a permanent break in service) under the Plan. Participants are entitled to a monthly benefit for each year of credited past service (as defined in the Plan) plus a percentage of the contributions made on the participants' behalf (representing future service). The Plan permits early retirement at ages 55–62 when participants have earned five years of credited service (without a permanent break in service) of which at least one year is credited future service. The amount of the early retirement pension is reduced from the amount of the regular pension as stated in the Plan. Participants may elect to receive their benefits through various options.

Death and Disability Benefits - A death benefit is payable to the surviving spouse of a deceased participant if he or she has earned at least five years of credited service (without a permanent break in service) of which at least one year is credited future service. Active employees under age 65 who become totally and permanently disabled are eligible to receive a disability pension if they have earned at least five years of credited service (without a permanent break in service) of which at least one year is credited future service. The credited future service must have been earned in the two Plan years just prior to the Plan year in which the participant becomes disabled. In addition, the participant must not be receiving an early retirement pension in order to receive a disability pension.

NOTE 3. PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect; however, the right to discontinue the Plan is reserved to the Trustees. Termination shall not permit any part of the Plan assets to be used for, or diverted to, purposes other than the exclusive benefit of the pensioners, beneficiaries and participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations.

Whether or not a particular participant will receive full benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at that time and the priority of those benefits.

In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits, and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of Plan amendments in effect for less than five years. Some benefits may be fully or partially provided, while other benefits may not be provided at all.

NOTE 4. TAX STATUS

The Plan obtained its latest determination letter, dated January 22, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements under Section 401(a) of the Internal Revenue Code and was, therefore, exempt from federal income taxes under the provisions of Section 501(a). The Plan's administrator believes that, to the best of its knowledge, the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require management to evaluate the tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5. ACTUARIAL INFORMATION

The actuarial valuation of the Plan was made by Rael & Letson and Cheiron, the consulting actuaries, as of September 30, 2013. Information in the report included the following:

Actuarial present value of accumulated Plan benefits	
Vested benefits	
Paticipants and beneficiaries currently receiving benefits	$ 1,064,148,643
Other participants	1,181,075,449
Total vested benefits	2,245,224,092
Non-vested benefits	61,552,725
Total actuarial present value of accumulated Plan benefits	$ 2,306,776,817

As reported by the actuaries, the changes in the actuarial present value of accumulated Plan benefits for the year ended September 30, 2013, were as follows:

Actuarial present value of accumulated Plan benefits at beginning of year	$ 2,233,971,081
Increase (decrease) during the year attributable to:	
Benefits accumulated and actuarial experience	20,248,503
Increase for interest	163,816,469
Benefits paid	(99,502,982)
Plan amendment	(11,756,254)
Net increase	72,805,736
Actuarial present value of accumulated Plan benefits at end of year	$ 2,306,776,817

The computations of the actuarial present value of accumulated Plan benefits were made as of October 1, 2013. The Plan was amended to remove subsidized early retirement and COLA increases on pre-September 1, 2003, benefit accruals for all participants who have incurred a one-year break in service. These changes were part of the updated rehabilitation plan. The effects of this benefit decrease are included in the computations above.

NOTE 5. ACTUARIAL INFORMATION (CONT'D)

The method used in the valuation was the unit credit method. The significant actuarial assumptions used are as follows:

Mortality:

Healthy: RP-2000 Blue Collar combined tables projected to 2021 with projection scale AA and setback one year for both males and females.

Disabled: Revenue Ruling 96-7 Disabled Mortality Tables for males and females.

Interest: 7.50%, compounded annually.

Retirement age: For active members in the Retail Clerk and Retail Drug plans:

	Rate of Retirement	
Retirement Age	Retail Clerk	Retail Drug
55–58	3.0%	3.0%
59	3.0	2.0
60	7.0	2.0
61	12.4	25.0
62	23.0	20.0
63	20.0	20.0
64	22.0	50.0
65	30.0	100.0
66	20.0	100.0
67–69	15.0	100.0
70 & older	100.0	100.0

For vested terminated members with vested rights:

Deferred Retirement Age	Years of Service	Percentage
62	Less than 30	100.0%
55	30 or more	100.0

Expenses: Administrative expenses are estimated for each year based on the expense level in the prior year. For 2013 and 2012, expenses were assumed to be $3,607,000 and $3,502,000, payable at the beginning of the year.

The above actuarial assumptions are based on the presumption that the Plan will continue. Pension benefits in excess of the present assets of the Plan are dependent upon contributions received under collective bargaining agreements with employers and on income from investments.

NOTE 5. ACTUARIAL INFORMATION (CONT'D)

Because information on the accumulated Plan benefits at September 30, 2014, and the changes therein for the year then ended are not included above, these financial statements do not purport to present a complete presentation of the financial status of the Plan as of September 30, 2014, and the changes in its financial status for the year then ended, but only present the net assets available for benefits and the changes therein as of and for the year ended September 30, 2014. The complete financial status is presented as of September 30, 2013.

NOTE 6. PENSION PROTECTION ACT OF 2006

As of October 1, 2013 and 2012, the Plan was certified by its actuaries to be in critical status within the meaning of the Pension Protection Act of 2006 (the PPA). Under the PPA, if a pension plan enters critical status, the Trustees of the Plan are required to adopt a rehabilitation plan and establish steps and benchmarks to improve the Plan's funding status. On December 16, 2010, the Trustees adopted a rehabilitation plan (which consists of a preferred schedule and a default schedule) and have since made updates to the rehabilitation plan designed to emerge from critical status by October 1, 2023. The rehabilitation plan requires specific contribution rate increases while not increasing current benefit formulas and benefit reductions allowed by the PPA, including the elimination of subsidized early retirement benefits, post-retirement cost-of-living adjustments that were payable on pre-August 2003 accruals will not be provided, certain pre-retirement death benefits and the elimination of the five-year certain guarantee form of benefit for single participants.

The most recent version of the rehabilitation plan, updated in June 2014, reflected the merger of the Washington Meat Industry Pension Trust (the Washington Meat plan) into the Plan, effective June 30, 2014, and the transfer of liabilities and assets related to certain current and former participants of the Washington Meat plan to the UFCW Consolidated Pension Plan, effective July 1, 2014.

NOTE 7. FUNDING POLICY

The funding policy of the Plan is to maintain a balance such that Plan resources will fund Plan obligations. Plan resources include accumulated Plan assets plus expected future contributions and investment income. Plan obligations include benefit payments to current and future retirees and beneficiaries and expected expenses from Plan assets.

The bargaining agreement presently calls for contributions by participating employers for covered employees. Contributions received by the Plan are deposited in a trust account from which they are invested on behalf of the Plan. Any benefits provided by the Plan are paid directly from net assets available for Plan benefits.

NOTE 7. FUNDING POLICY (CONT'D)

The Plan's actuary has advised that the minimum funding requirements of ERISA are being met as of October 1, 2013 and 2012.

NOTE 8. INVESTMENTS

The following summary presents the fair value for each of the Plan's investment categories:

	September 30, 2014	September 30, 2013

NOTE 10. FINANCIAL INSTRUMENTS

As part of the total investment strategy, and to meet the primary objectives established by the Trustees, several of the Plan's investment managers utilize derivative financial instruments.

Risks associated with derivatives vary widely, but generally may be categorized as market risk and credit risk. Market risk is defined as that risk associated with fluctuations in market prices. Credit risk is defined as that risk associated with an entity not paying.

Some of the Plan's investment managers enter into options, futures, swaps and forward-currency-exchange contracts.

An option is a contract that grants the right, but not the obligation, to exercise a specific purchase or sales transaction at a stated exercise price.

A futures contract is a standardized agreement between two parties to buy and sell an asset at a set price on a future date. The Plan enters into financial futures contracts for the purpose of hedging its existing portfolio securities, or securities the Plan intends to purchase, against fluctuations in fair value caused by changes in prevailing interest rates or as substitutes for cash securities permitted under the relative account guidelines. Upon entering into a financial futures contract, the Plan is required to pledge to the broker an amount in cash, United States government securities or other assets equal to a certain percentage of the contract amounts (initial margin deposit).

Subsequent payments, known as "variation margin," are made or received by the Plan each day, depending on the daily fluctuations in the fair value of the underlying security. The Plan recognizes an unrealized gain or loss equal to the daily variation margin. Should market conditions move unexpectedly, the Plan may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. When the contract is closed, the Plan recognizes a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The use of futures transactions involves the risk of imperfect correlation in movements in the price of futures contracts, interest rates and the underlying hedged assets. The variation margin receivable/payable is included in accrued investment income on the statements of net assets available for benefits.

Credit default swaps (CDS) entered into by the Plan typically represent the exchange by a counterparty with the Plan of a commitment to provide credit protection for a commitment to receive interest at a fixed rate based on the potential risk of default of the relevant underlying issuer. Receiving credit protection from a counterparty tends to decrease the Plan's exposure to the underlying instrument held by the Plan. Such contracts may have a term of one to seven years, but typically require periodic interim settlement in cash. CDS are marked to market daily based on prices obtained from independent broker/dealers, and changes in value, as well as the accrual of the periodic coupon income, are recorded as unrealized appreciation or depreciation. Gains and losses on CDS agreements are realized upon termination of the swap contract and the periodic payments.

NOTE 10. FINANCIAL INSTRUMENTS (CONT'D)

The Plan has entered into interest rate swap (IRS) agreements. Through such transactions, the parties agree to pay, on specific dates, either a fixed or floating rate of interest on the contract amount. Risks in these transactions involve both the risk of counterparty non-performance under the terms of the contract and the risk associated with changes in the market value of the swaps.

The Plan entered into certain total return swap (TRS) agreements. In a TRS, the counterparties swap an asset or pool of assets in exchange for periodic cash flows. The TRS is structured such that the total return of cash flows plus capital appreciation (depreciation) is exchanged.

The Plan has also entered into foreign-currency-forward contracts to protect its investments in foreign securities from price declines caused by changes in currency exchange rates. A foreign-currency-forward contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the value of the original contracts and the value upon closing such contracts is included in net realized gain or loss on foreign currency transactions. Fluctuations in the value of open foreign-currency-forward contracts are recorded as unrealized gains and losses.

The Plan may sell a security it does not own (known as selling short) in anticipation of a decline in the fair value of that security. When the Plan sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which the short sale was made. A gain, limited to the price at which the Plan sold the security short, or a loss, unlimited in size, will be recognized upon termination of the short sale.

At September 30, 2014 and 2013, the Plan pledged U.S. Treasury bills and other government agency securities with a market value of approximately $6,600,000 and $3,800,000, respectively, to cover initial margin requirements on open futures contracts.

NOTE 11. SECURITIES LENDING AGREEMENT

The Plan participates in a securities lending program with State Street Bank (the Agent) and loans a portion of its investment portfolio to approved borrowers. The Agent receives collateral generally consisting of cash, government securities and agency obligations, and letters of credit from borrowers on behalf of the Plan in connection with such loans. The Agent invests the cash collateral in a pooled investment fund consisting of U.S.-dollar-denominated securities or short-term instruments managed under agreed-upon guidelines that specify types of securities, credit quality and maturity. Initial collateral levels are not less than 102% of the market value of borrowed securities that are United States denominated or not less than 105% if the borrowed securities are not United States denominated.

The fair value of the securities on loan was $24,656,177 and $42,747,712 at September 30, 2014 and 2013, respectively. The cash collateral received for securities on loan was $25,225,655 and $43,758,243 at September 30, 2014 and 2013, respectively. As presented on the statements of changes in net assets available for benefits, the unrealized gains on the reinvested collateral for the year ended September 30, 2014 and 2013, were $42,003 and $70,407, respectively.

	September 30, 2014	September 30, 2013
Securities on loan		
U.S. Government and Government Agency obligations	$ 2,239,584	$ 13,669,994
Corporate debt securities	14,005,785	14,460,331
Equity securities	8,410,808	14,617,387
	24,656,177	42,747,712

The value of the collateral held is monitored daily by the Agent. The borrowers are required to deliver additional collateral when necessary so that the total collateral held by the Agent for all loans to those borrowers will at least equal the market value of all borrowed securities. The borrowers are required to pay the Agent the equivalent of all distributions made by the issuer of the borrowed securities during the term of the loan in an amount equal to what the Plan would have received had the securities not been loaned and had the distribution been paid directly to the Plan. The Agent credits to the Plan's account the amount of such equivalent cash payments subject to the Agent's receipt of such amounts from the relevant borrowers.

In the case of cash collateral received, the Plan's net revenue for lending its securities consists of the aggregate income derived from the investments of cash collateral during the period, reduced by aggregate rebate fees accrued to borrowers and reasonable expenses. In the case of non-cash collateral received, the Plan's net revenue for lending its securities consists of loan fees paid by borrowers, reduced by reasonable expenses.

NOTE 11. SECURITIES LENDING AGREEMENT (CONT'D)

The Plan pays fees to the Agent for administering the securities lending program. Income earned on the collateral is included in interest income in the accompanying statements of changes in net assets available for benefits. Rebate fees accrued to borrowers and the fees paid to the Agent are also included in interest income. The risk of loss of principal value of any investment of cash collateral lies with the Plan. The risk that income from cash collateral supporting any loan will be insufficient to pay accrued rebate fees owed to the borrowers is shared ratably between the Plan and the Agent. The risk of any loss of income from the investment of cash collateral is borne by the Plan.

NOTE 12. WITHDRAWAL LIABILITY

The Plan complies with the provisions of the Multiemployer Pension Plan Amendment Act of 1980 (MEPPA), which requires imposition of withdrawal liability on a contributing employer that partially or totally withdraws from the Plan. As applicable, a portion of the Plan's unfunded vested liability would be allocated to a withdrawing employer based on certain comparisons of the employer's contributions to the Plan compared to total Plan contributions.

Employers who withdrew during the 2003 through 2013 Plan years have been assessed withdrawal liability.

As of September 30, 2013 and 2012, the Plan's unfunded present value of vested benefits for withdrawal liability purposes was approximately $1,590,354,000 and $1,506,059,000, respectively. As a result, employers withdrawing from the Plan in 2013 and 2012 Plan years would be subject to withdrawal liability unless the amount of the liability is considered *de minimis*.

NOTE 13. MAJOR EMPLOYERS

During the years ended September 30, 2014 and 2013, approximately 71% of contributions was received from three employers.

NOTE 14. RELATED PARTIES

The Plan is related through common trustees and shares expenses with the Sound Health and Wellness Trust and the Sound Health and Wellness Retiree Trust.

The third-party administrator of the Plan is also a contributing employer. Contributions by the third-party administrator were $435,819 and $425,589, respectively, for the years ended September 30, 2014 and 2013.

{a} This class includes investments in common/collective trusts that invest in domestic equities, international equities, commodities and other collective funds. The investment managers adopt a strategy in order to track or exceed the following indices: Standard & Poor's 500 index, MSCI All Country World Index (ACWI) Ex-U.S., and the S&P Goldman Sachs Commodity Index.

{b} This class of investments includes three investments in 103-12 investment entities that focus on fixed income (Definitive Guardian Fund) and a diversified portfolio of assets that have different biases to economic conditions (All Weather Portfolio and PanAgora Risk Parity Multi-Asset Fund). The fixed-income-focused fund's objective is to invest in various fixed-income instruments and derivative securities traded primarily in the United States with a primary focus on municipal bonds. The All Weather Portfolio seeks long-term annual targeted returns of approximately 5% to 7% above cash (90-day Treasury Bills), and the targeted risk is expected to be approximately 10%. The PanAgora Risk Parity Multi-Asset Fund seeks to generate more attractive absolute risk-adjusted returns than other approaches to asset allocation through a combination of better beta allocation and tactical portfolio management. The strategy is flexible in nature. As such, portfolios can be managed at volatility levels ranging from as low as 5% to as high as 15%.

NOTE 15. INVESTMENTS IN CERTAIN ENTITIES THAT CALCULATE NET ASSET VALUE (CONT'D)

{c} This class of investments is a limited partnership that is considered to be a private equity investment in a fund of funds. The master fund invests in financial and commodity markets through the allocation of its assets to one or more selected collective investment vehicles or separate portfolios to be managed by trading advisers.

{d} This class of investments consists of limited partnerships that are considered private equity investments. The managers in this class utilize various investment strategies in order to achieve superior returns and capital appreciation. Investments may be made directly by the limited partnership or indirectly through a fund-of-funds investment structure. Strategies utilized by these managers include privately negotiated instruments, investments in middle-market business, investments in communications and energy-related companies, companies that manufacture goods or provide services, natural resources, venture capital opportunities, and domestic and international equity and equity-related investments.

{e} This class of investments consists of a limited partnership for which the objective is to seek efficiently to deliver exposure to a broadly diversified set of global risk premia covering equities, government bonds, commodities and credit while incorporating an active tactical overlay. This includes exposures to global-developed and emerging stocks, developed government bonds, emerging stocks, developed government bonds, high-yield and investment-grade credit spreads, mortgage spreads and commodities, among other exposures.

{f} This class of investments consists of two limited partnerships that invest in domestic and international infrastructure-related projects. One of the partnerships maintains a diversified portfolio of global infrastructure investments in the target sub-sectors, such as energy, transportation, water, communication and social infrastructure, with varied maturities such that the fund will achieve returns of 10% per annum over rolling three-year periods. The other partnership invests in a broad range of infrastructure and infrastructure-related assets located primarily in member countries of the OECD with a primary focus on the United States, Canada, Western Europe and Australia. These assets may include, without limitation: (a) toll roads, bridges and tunnels, (b) oil and gas pipelines, (c) electricity transmission and facilities, (d) contracted power-generation assets, (e) communication assets, (f) water distribution and waste water collection and processing assets, (g) railway lines and rapid rail links, (h) seaports, and (i) airports.

{g} This class of investments consists of two limited partnerships that utilize multiple strategies. One of the partnerships has adopted non-traditional or alternative investment strategies, investing primarily in offshore investment funds, investment partnerships and pooled investment vehicles. The other partnership allocates to six

primary sub-strategies, including hedged equity, credit, event, relative value, multi-strategy, macro and commodity. Allocations to these sub-strategies will shift dynamically over time, depending upon investment outlook.

{h} This class of investments consists of three limited partnerships that invest in various types of fixed-income securities directly or indirectly through other investment vehicles. The strategies used by the limited partnerships include investments in distressed debt, bank loans, bonds and notes, securities related to companies experiencing financial stress and other collateralized obligations.

{i} This class of investments consists of two limited partnerships that seek to generate current income and long-term capital appreciation through the ownership and management of a geographically diversified portfolio of multi-family rental properties.

{j} This class of investments consists of three hedge funds. One of the funds seeks to produce absolute returns, net of expenses, above the performance of the return of the one-month Libor Rate, by investing in certain assets and related derivatives to employ a "long-short" credit strategy. The second fund aims to generate consistent absolute return by investing its assets with a diversified group of investment managers through managed account structures or in the private investment funds sponsored by investment managers. The third fund was created to acquire participation interests in certain portfolio funds or illiquid portions of the portfolio fund and certain illiquid securities from another fund managed by the same investment manager.

{k} This investment class consists of one privately held investment with a fixed-income strategy that invests all or substantially all of its assets in a master fund. The fund and the master fund's investment objective is to provide risk-adjusted total return through investment in high-yield instruments, including, without limitation, investing in the global loan and high-yield bond markets.

{l} This investment class consists of a single feeder fund in a master fund structure. The master fund invests in other limited partnerships and commodity pools with a number of different strategies. The top strategies are opportunistic relative value, fund arbitrage, long-short and trade claims.

{m} This investment class consists of a single real estate investment trust that invests in a portfolio of low-risk equity investments in income-producing real estate to generate attractive, predictable investment returns, while maximizing the total return to shareholders through cash dividends and appreciation in the value of the REIT shares.

NOTE 16. PLAN MERGER

On June 25, 2014, the Trustees entered into a merger agreement to merge the Washington Meat Industry Pension Trust into the Plan. The effective date of the merger was June 30, 2014, and the transferred net assets have been recognized in the accounts of the Plan, as follows:

Investments - at fair value	$ 257,610,978
Cash	10,114,979
Employer contributions receivable	832,413
Withdrawal liability receivable	113,532
Prepaid expenses	702,779
Accrued income receivable	33,759
Due from broker for securities sold	1,012,545
Accounts payable	(253,422)
Due to broker for securities purchased	(744,000)
	$ 269,423,563

The present value of accumulated Plan benefits related to the merger, measured as of June 30, 2013, totaled $514,926,629. As of June 30, 2014, this present value was $516,575,502.

As part of the same transaction, the Washington Meat Industry Pension Trust accumulated benefits for current and former employees of the Kroger Company and assets were spun off to the UFCW Consolidated Pension Plan. The present value of accumulated Plan benefits that were spun off, measured as of June 30, 2014, totaled $129,957,175. Based on the terms of the transfer agreement, a preliminary asset transfer amount of $50,671,735 was made to the UFCW Consolidated Pension Plan on July 1, 2014. A final transfer amount of $7,526,334 will be made to the UFCW Consolidated Pension Plan on June 30, 2015. This amount has been recorded as due to other plan on the statement of net assets available for benefits at September 30, 2014.

Benefit commences no earlier than the date the participant would have reached age 55.
FORMS OF ANNUITY PAYMENTS	
Normal Form:	For Married Participants: An actuarially reduced benefit payable as a 50% Joint & Survivor Annuity. For Unmarried Participants: A life annuity. (Prior to January 1, 2011, this was a life annuity with 60 months guaranteed.)[1]
Optional Forms:	50% Joint & Survivor Option 75% Joint & Survivor Option 100% Joint & Survivor Option Lump Sum Option – only if value is less than $5,000
OTHER	
Credited Service	Retail Clerks: A year of credited service is earned if participant works at least 500 hours. Retail Drug: A year of credited service is earned if participant works at least 500 hours, and partial credit can be earned for more than 90 but less than 500 hours worked in a year.
Break-in-Service Rules	Retail Clerks: A one-year break-in-service is incurred if the participant works less than 435 hours in a plan year. Retail Drug: A one-year break-in-service is incurred if the participant works less than 90 hours in a plan year. A permanent break-in-service is incurred if the participant has 5 consecutive break-in-service years.

[1] 60 month guarantee still applies to benefits earned prior to 2011 if employer has not yet adopted a Rehabilitation Plan Schedule.

SUMMARY OF PLAN PROVISIONS
(CONTINUED)

Schedule of Contribution Rates	For purposes of projecting contributions for the 2013/2014 plan year, it was assumed that the average contribution rate of 44.6¢ base and 9.9¢ supplemental are payable to Retail Clerks employees and 26.5¢ base and 20.9¢ supplemental are payable to Retail Drug employees. These rates were 44.8¢ base and 9.9¢ supplemental for Retail Clerks employees and 25.9¢ base and 21.1¢ supplemental for Retail Drug employees for the 2012/2013 plan year. For the employees under agreements which had not yet picked a Rehabilitation Plan schedule, the appropriate surcharges were assumed. For the employees under agreements which had bargained in the Preferred Schedule of the Rehabilitation Plan, additional employer supplemental contributions rates of 5¢ per year starting January 2011 and an additional 1¢ per year starting January 1, 2014 were assumed. As of this valuation, no agreements had bargained in the Default Schedule of the Rehabilitation Plan.

CHANGES SINCE PRIOR VALUATION	Effective May 1, 2013, the following provisions were adopted that have annual effects: - Terminated vested participants since September 16, 2010 and future terminated vested participants that retire from that status have the subsidy removed from early retirement factors and the COLA does not apply to the pre-9/1/2003 benefit. - Participants over age 54 with 30 years of service as of September 16, 2010 were provided a limited window (that expired 9/1/2013) in which to retire and receive the subsidized early retirement subsidies. - Terminated vested participants are allowed to restore the early retirement subsidies if they return to active service and work at least 500 hours in 2 consecutive plan years. - Effective June 30, 2014, the Washington Meat Industry Plan was merged into this Plan with provisions as specified in the next attachment.

ILLUSTRATION SUPPORTING ACTUARIAL CERTIFICATION OF STATUS[1]

As the plan was in Critical Status in the prior year, the following projection is used to test the emergence of the Plan from Critical Status. Pursuant to Internal Revenue Code Section 432(e)(4)(B), the 5-year extensions are reflected. The PPA Certification letter showing the Plan is in Critical Status for this plan year is attached, and the Plan's Funding Standard Account Credit Balance projection is as follows:

September 30, 2013	156,114,523
September 30, 2014	176,304,857

Re: Annual Certification of Plan Status under Internal Revenue Code §432(b) and Employee Retirement Income Security Act of 1974 §305(b) for the Retail Clerks Pension Trust

Dear Board of Trustees:

CERTIFICATION

As required by Section 432(b)(3) of the Internal Revenue Code ("Code") and Section 305(b)(3) of the Employee Retirement Income Security Act of 1974 ("ERISA"), we certify for the Plan Year beginning October 1, 2013, that the Retail Clerks Pension Trust ("Plan") is in Critical Status, as that term is defined in Section 432 of the Code and Section 305 of ERISA and taking into account the proposed regulations.

To the best of our knowledge, this report is complete and accurate and has been prepared in accordance with the requirements of Section 432 of the Code, Section 305 of ERISA, generally recognized and accepted actuarial principles and practices which are consistent with the Code of Professional Conduct and applicable Actuarial Standards of Practice, and that as Members of the American Academy of Actuaries, we meet the Qualification Standards to render the opinions contained herein.

This report only certifies the condition of the Plan under Code Section 432 and ERISA Section 305 and should be used only for that purpose. In preparing this report, we have relied without audit, on information supplied by the administrator's office staff and the Board of Trustees. This information includes, but is not limited to, Plan provisions, employee data, financial information, and expectations of future industry activity. This report was prepared exclusively for the Board of Trustees of the Retail Clerks Pension Trust for a specific and limited purpose. It is not for the use or benefit of any third party for any purpose. Any third party recipient of Cheiron's work product who desires professional guidance should not rely upon Cheiron's work product, but should engage qualified professionals for advice appropriate to its own specific needs. This letter does not address any contractual or legal issues. We are not attorneys and our firms do not provide any legal services or advice.

The attached appendices show the results for the statutory tests and describe the methodologies and assumptions used to perform the tests.

APPENDIX I

EMERGENCE FROM CRITICAL STATUS TEST

Critical status based on failure to meet Emergence Criteria – The Plan will be certified as Critical if it meets both of the following tests:	**Condition Met?**
1 The Plan was in critical status for the immediately preceding plan year.	YES
2 The Plan is projected to have an accumulated funding deficiency for the plan year or any of the 9 succeeding plan years, without regard to the use of the shortfall funding method but taking into account any extensions of the amortization periods under section 431(d).	YES

This test reflects the provisions of section 432(e)(4)(B) and section 305(e)(4)(B) and the proposed regulations issued in April 2008 by the Internal Revenue Service.

The projected funding standard account is based on the methods and assumptions set out in Appendix III, as well as the plan provisions shown in Appendix IV. In addition, the projection of future contributions is based on the Trustees' estimate of future industry activity multiplied by the contribution rates contained in the collective bargaining agreements under which the Plan is maintained.

APPENDIX III – METHODOLOGY AND ASSUMPTIONS

Actuarial Basis

A. Unit Credit Actuarial Cost Method

The cost method used for valuation of liabilities used for this valuation is the unit credit method. This is one of a family of valuation methods known as an accrued benefits method. The chief characteristic of an accrued benefits method is that the funding pattern follows the pattern of benefit accrual. Under the unit credit actuarial cost method, the normal cost for an individual is determined as that portion of each Participant's benefit attributable to service expected to be earned in the upcoming plan year. The normal cost is adjusted by actual versus expected contributions for schedule MB purposes. The actuarial liability, which is determined for each Participant as of each valuation date, represents the actuarial present value of the Participant's current accrued benefit as of the valuation date.

One of the significant effects of this funding method is that, depending on the demographics of the population, the unit credit method tends to produce lower costs in the early years. There is a possibility that as the population ages the annual cost could increase over time. Currently, it is assumed that the average age of the active population remains constant.

B. Asset Valuation Method

The actuarial value of assets is determined by using a five-year schedule recognition method, where deferred income is based on actual returns on a market basis versus expected returns on the prior year's actuarial value. The actuarial asset value will be calculated using the Fund's actual cash flows and the expected long-term rate of return on assets. The expected asset is then subtracted from the market value. One fifth of this value is then added to the expected asset value to arrive at the preliminary smoothed value of assets. If this preliminary value is within a 3% corridor around the market value at any valuation date, then the actuarial value of assets is set to market value.

In no event is the actuarial value of the assets either less than 80% or more than 120% of the market value.

Merged assets from the Retail Drug Trust are treated as if the same method had been put in place retroactively to October 1, 2004. Permission to use the Retail Clerks asset smoothing method on Retail Drug plan assets was also granted by the IRS in another letter dated October 30, 2009.

The Plan's Board of Trustees elected funding relief under §431(b)(8) of the Code and §304(b)(8) of ERISA, to expand the applicable corridor limits to permit the actuarial value of plan assets to be as much as 130 percent of the market value of assets on October 1, 2009.

APPENDIX III – METHODOLOGY AND ASSUMPTIONS (Continued)

Actuarial Assumptions

A. Mortality:

Males	RP-2000 Blue Collar Combined Male Mortality Table projected to 2021 using Scale AA with a 1-year setback
Females	RP-2000 Blue Collar Combined Female Mortality projected to 2021 using Scale AA with a 1-year setback
Disableds	Revenue Ruling 96-7 disabled mortality tables for males and females
RPA 94 Current Liability	For all classifications, we used IRS 2012 Static Mortality Table for males and females.

B. Termination:

Termination of Clerks employees from participation in the Plan is discounted in accordance with a scale based on service. The following termination rates are illustrative:

	Rate of Termination	
Yrs of svc	**Male**	**Female**
1	27.00%	23.00%
5	15.30%	13.50%
10	13.05%	9.50%
15	9.60%	7.75%
20	7.60%	6.50%

Termination of Retail Drug employees from participation in the plan is discounted in accordance with a scale based on age. The following termination rates are illustrative:

Age	**Both Male & Female**
20	21.77%
25	19.14%
30	16.51%
35	13.88%
40	11.25%
45	8.43%
50	5.06%
55	1.73%
60	0.16%

Withdrawal rates for Retail Drug employees younger than 55 are increased by 10% for the first 5 years of service.

C. Disability:

Determination retirements are anticipated in accordance with a scale based on age. The following disability rates are illustrative:

Age	Incidence of Disability
25	0.03%
35	0.03%
45	0.09%
55	0.43%

D. Investment Return:

7.5% per annum net of investment expenses.
The RPA 94 Current Liability rate is 3.88%.

E. Retirement Age:

For active members in the Clerks plan:

Age	Rate of Retirement
55-59	3.0%
60	7.0%
61	12.4%
62	23.0%
63	20.0%
64	22.0%
65	30.0%
66	20.0%
67-69	15.0%
70 & older	100.0%

For active members in the Retail Drug plan:

Age	Rate of Retirement
55-58	3.0%
59-60	2.0%
61	25.0%
62-63	20.0%
64	50.0%
65 & older	100.0%

For all inactive members with vested rights:

Age	Service	Rate of Retirement
62	Less than 30	100.0%
55	30 or more	100.0%

F. Restoration of Early Retirement Subsidy

Participants who have incurred a one-year break in service in a plan year that begins on or after October 1, 2010 lose their early retirement subsidy on accrued benefits earned prior to the break in service. Participants are able to earn back the early retirement subsidy by returning back to covered employment and earning 500 or more hours in covered employment in each of two consecutive plan years. It is assumed that 20% of current and future terminated vested participants will restore their early retirement subsidies prior to retirement.

G. Late Retirement Behavior:

Active participants working beyond age 65 and terminated vested Retail Drug employees who have not accrued a benefit after October 1, 2008 are valued as receiving an actuarial increase in their retirement benefit.

All other terminated vested participants, who are older than 65, are assumed to elect retroactive retirement and to receive a lump sum of all missed payments together with 5% interest. In addition, terminated vested participants, who are older than 90, are assumed to have zero liability.

H. Cost of Living Increases:

Cost of living increases of 2% per year are anticipated after benefit payments commence. This applies only to benefits earned under the Retail Clerks plan prior to September 1, 2003 and to participants who were not classified as an active participant in the 2010 Rehabilitation Plan or who have not incurred a one-year break in service in a plan year that begins on or after October 1, 2010.

I. Expenses

Operating expenses are estimated for the coming year on the basis of the expenses paid in the previous year with an assumption to adjust for future expectations. The operating expense for the 2012-13 plan year is assumed to be $3,502,000, payable at the beginning of the year. These expenses are assumed to increase by 3% in each future plan year.

J. Expected Employment Level:

Total covered hours worked under the Plan are assumed to be 1,550 for Clerks employees and 1,600 for Drug employees.

K. Future Service:

Active participants in the Clerks plan are expected to work 1,450 hours per year.
Active participants in the Retail Drug plan are expected to work 1,600 hours per year.

L. Marital Status:

85% of non-retired participants are assumed to be married. Husbands are assumed to be four years older than wives.

M. Unknown Data:

If birth date is unknown, active participants and terminated vested participants are assumed to be the average age of the participants within the same status and the same plan, Retail Clerks or Retail Drug.

N. Benefits Not Included in the Liabilities:

To the best of our knowledge, all benefits have been included in the liabilities.

O. Adoption Rate of the Rehabilitation Plan

The Retail Clerks Pension Trust originally adopted a Rehabilitation Plan effective December 16, 2010. It was last updated on June 19, 2013. Since the provisions of the Rehabilitation Plan are still being integrated into the various bargaining agreements, for the October 1, 2012 valuation, it was assumed that approximately 4% of the active liability was valued with the normal form of benefit in effect before the adoption of the original Rehabilitation Plan. For the October 1, 2013 PPA certification, based on the most recent information this percentage was lowered to 2% as of the certification date. It was also assumed that 74% of the liability for active participants reflects the Preferred Schedule of the updated Rehabilitation Plan.

P. Changes in Assumptions:

Terminated vested participants older than age 90 are assumed to have zero liability.

The adoption rate of the Rehabilitation Plan has been increase from 90% to 96% as of the October 1, 2012 valuation date to reflect the portion of employers that have adopted the Rehabilitation Plan as of the valuation date. For purposes of the projections, we reflected that an additional 2% had adopted the initial Rehabilitation Plan by the October 1, 2013 certification date and that 74% had adopted the updated Rehabilitation Plan.

The RPA current liability interest rate was changed from 4.41% to 3.88% in order to remain in the required corridor. The RPA current liability mortality table has been updated as prescribed by the IRS.

APPENDIX IV – SUMMARY OF MAJOR PLAN PROVISIONS

A. Effective Date of Plan:

October 1, 1965

B. Pension Benefit at Normal Retirement:

Age Requirement — Attainment of age 65

Credit Service Requirement — Five years

Benefit for Clerks — The monthly amount is:

a. 5.98 for each year of credited past service prior to the contribution date, plus

b. 7.10% of the contributions made on the participant's behalf until October 1, 2002, 6.34% from October 1, 2002 through August 31, 2003 and 3.0% (after reduction by the supplemental rate) beginning September 1, 2003.

The maximum number of years of credited past service for a participant is determined according to the effective date of coverage as follows:

Effective Date of Coverage	Maximum Credited Past Service
10/1/65 to 9/30/82	20 years
10/1/82 to 9/30/83	18 years
10/1/83 to 9/30/84	16 years
10/1/84 to 9/30/85	14 years
10/1/85 to 9/30/86	12 years
10/1/86 and later	10 years

Benefit for Retail Drug — The monthly amount is 3.0% times 5/7 of employer contributions made on the participant's behalf after October 1, 2008, after reduction by the supplemental rate.

C. Pension Benefit at Early Retirement:

Age Requirement	55 Former Retail Drug plan members may retire for purposes of their pre-merger benefit only, at any age with 30 years of credited service.
Credit Service Requirement	Five years, including at least one year of future service.
Benefit	Same as regular pension to which the employee would be entitled, reduced to account for the longer period of benefit payments. The reduction is ½ of 1% for each month that the retiring employee is younger than age 63, but not younger than age 60; and ⅓ of 1% for each month younger than age 60. See item G for alternative reduction factors applied to those who retire from a terminated vested status.
Alternative for Clerks Only	For benefits accrued through August 31, 2003, same as regular pension to which the employee would be entitled, provided the employee retires at age 55 or older with at least 30 years of credited service, or age 63 with at least five years of credited service. See item G for alternative reduction factors applied to those that retire from terminated vested status.
Former Retail Drug	For former Retail Drug plan participants, the benefit will not be less than the former Drug plan accrued benefit as of the merger date, reduced using early retirement factors available in that plan.

D. Pension Benefit at Late Retirement:

Age Requirement	Beyond 65 (or Normal Retirement Age if later)
Credit Service Requirement	Five years
Benefit	Normal retirement pension plus annual additions equal to the greater of the formula accrual or an actuarial increase on the previous year's benefit. Participants also have the option to retroactively retire to the later of their normal retirement date or the date they cease work. In this case, retroactive payments will be made along with accumulated interest.
Former Retail Drug Participants	Actuarial increases for former Retail Drug plan participants will not result in a benefit that is less valuable than the former Retail Drug plan accrued benefit as of the merger date increased using the late retirement increase factors from the Retail Drug plan.

E. Disability Pension:

Age Requirement	None
Credited Service Requirement	Five years including at least one year of future service, and as a result of actual employment, earned at least one year of credited service in the two consecutive plan years preceding the date of disability.
Other Requirements	Totally and permanently disabled.
Benefit	Same as regular pension to which the employee would be entitled without any actuarial reduction.

F. Partial Pension:

For employees who have earned at least five years of combined credited service under this plan and related pension plans, provided they have earned the required future service credits.

G. Deferred Vested Benefit:

Age Requirement	None
Credited Service Requirement	Five years, including at least one year of future service.
Benefit	Same as regular pension accrual, payable commencing at normal retirement age.
Early Retirement	For benefits accrued prior to a one-year break in service that begin in a plan year on or after October 1, 2010, benefits will be reduced by 2/3 of 1% for each month that the members retires before age 65 up to 60 months and 5/12 of 1% thereafter. Subsequent to the break in service and before retirement, if the participant earns 500 or more hours in covered employment in each of two consecutive plan years, benefits will be payable per item C.

H. Variable Benefit Adjustment:

Benefits accrued through August 31, 2003 to Clerks participants only, will receive the following adjustments in retirement. (Those accrued after September 1, 2003 will not.)

Pension payments are to be adjusted annually to reflect increases (or decreases) in the Bureau of Labor Statistics Consumer Price Index. The maximum cumulative adjustment is limited to 2% per year (increase or decrease) from the date of retirement.

For all participants who were not classified as an active participant in the 2010 Rehabilitation Plan or who have incurred a one-year break in service in a plan year that begins on or after October 1, 2010, the post-retirement cost-of-living increases will not be provided per the Rehabilitation Plan.

I. Normal Retirement Age:

65, or if later, the age after the fifth anniversary of participation

J. Pre-Retirement Death Benefit:

50% Spouse Benefit

Age Requirement	None
Credited Service Requirement	Five years
Other Requirement	Married
Pension Amount	50% of the benefit the employee would have received had he or she terminated employment on his/her date of death, survived to his/her earliest retirement age, and elected the 50% spouse option. Benefit commences no earlier than the date the employee would have reached age 55.

K. Benefit Form:

All retirements are paid in the form of a 50% joint and survivor annuity unless this form is rejected by the employee. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor coverage. If rejected or not married, benefits are payable for the life of the employee (prior to January 1, 2011, the employee also received 60 payments guaranteed) or in any other available optional form elected by the employee in an actuarially equivalent amount. The 60-month guarantee was eliminated on benefits earned after 2010. Under the Preferred Schedule of the Rehabilitation Plan, this guarantee will not apply to benefits earned prior to 2011 for those that retire on or after 2010.

L. Post-Retirement Death Benefit:

Benefits payable upon death after retirement are governed by the form of payment elected at retirement.

M. Credit Service Schedule:

Commencing October 1, 1977, an employee who works at least 500 hours in a plan year received one year of credited service.

For former Retail Drug plan employees, service can be accrued for less than 500 hours in a year, in accordance with the partial year schedule in existence in the former plan.

N. Break in Service Rules:

One Year Break in Service	An employee incurs a one-year break in service if he or she fails to work at least 435 hours in a plan year. Former Retail Drug plan employees will not incur a break unless they work fewer than 90 hours in a plan year.
Permanent	A non-vested employee incurs a permanent break in service if he or she has consecutive one-year breaks in service (including at least one after September 30, 1986) and the number of consecutive one-year breaks in service equals or exceeds five. At this time, all his/her accumulated credited service and accrued benefits are canceled.

O. Participation Rules:

Participation	An employee becomes a "participant" on the first day of the calendar month after he or she first works one hour in covered employment.
Termination of Participation	A participant who incurs a one-year break in service ceases to be a participant as of the last day of the plan year which constituted the one-year break in service, unless he or she has retired or attained vested rights.

P. Schedule of Contribution Rates:

For the purposes of projecting contributions, it was assumed that the average contribution rate of 44.8¢ base and 9.9¢ supplemental are payable to Clerks employees and 25.9¢ base and 21.1¢ supplemental are payable to Drug employees. For the employees under agreements which had not yet picked a Rehabilitation Plan schedule, the appropriate surcharges were assumed. For the employees under agreements which had bargained in the Preferred Schedule of the Rehabilitation Plan, additional employer supplemental contributions were assumed.

Q. Plan Year:

Covers the 12-month period extending from October 1 of a given year to September 30 of the following year.

R. Summary of Changes in Plan Provisions Since the Last Valuation:

Removal of COLA provisions on the pre August 30, 2013 benefit accruals and removal of subsidized early retirement reduction factors were extended all participants who have incurred a one-year break in service in a plan year that begins on or after October 1, 2010. Formerly, these reductions only applied to those in a terminated vested status as of December 16, 2010. The removal of subsidized early retirement reduction factors will occur for post 2013 terminated vested members as employers adopt the most recent version of the Rehabilitation Plan.

JUSTIFICATION FOR CHANGE IN ACTUARIAL ASSUMPTIONS

The current liability interest rate was changed from 3.88% to 3.62% due to a change in the allowable interest rate range, and the current liability mortality table was updated as required.

The adoption rate of the original Rehabilitation Plan was increased from 96% to 98% to reflect the portion of employers that have adopted the original Rehabilitation Plan as of the valuation date.

The adoption rate of the amended Rehabilitation Plan was assumed to be 74%, with 20% of current and future vested terminated participants returning to work and working sufficient hours to get the subsidized early retirement factors restored.

STATEMENT OF ACTUARIAL ASSUMPTIONS / METHODS

METHODOLOGY:	
Asset Valuation	The actuarial value of assets is determined by using a five-year schedule recognition method, where deferred income is based on actual returns on a market basis versus expected returns on the prior year's actuarial value. The actuarial asset value is calculated using the Fund's actual cash flows and the expected long-term rate of return on assets. The expected asset value is then subtracted from the market value. One fifth of this difference is then added to the expected asset value to arrive at the preliminary smoothed value of assets. If this preliminary value is within a 3% corridor around the market value at any valuation date, then the actuarial value of assets is set equal to market value. In no event is the actuarial value of assets either less than 80% or more than 120% of the market value. Merged assets from the Retail Drug Trust are treated as if the same method had been put in place retroactively to October 1, 2004. Permission to use the Retail Clerk's asset smoothing method on Retail Drug plan assets was also granted by the IRS in a letter dated October 30, 2009. The Fund's Board of Trustees elected funding relief under §431(b)(8) of the Code and §304(b)(8) of ERISA to expand the applicable corridor limits to permit the actuarial value of plan assets to be as much as 130% of the market value of assets on October 1, 2009.
Actuarial Cost Method (Statutory Basis)	Unit Credit Cost Method - Under this method, we determine the present value of all benefits earned through the valuation date. An individual's normal cost is the present value of the benefit expected to be earned in the valuation year. The total accrued liability is the sum of the individual present values for all participants. The Unfunded Accrued Liability is the difference between the accrued liability and the assets of the Trust. If the assets exceed the accrued liability, the Plan is in a surplus position. This method requires that each year's contributions be applied first to the normal cost, and the balance of the contributions applied to amortize the Unfunded Accrued Liability. The normal cost is adjusted at the close of the plan year to reflect the actual level of contributions received during that plan year.
Actuarial Cost Method (Benefit Restoration Basis)	Entry Age Normal Method - Entry Age is the current age minus years of Credited Service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service, with Normal Cost determined as if the current plan provisions had always been in effect.

Active Participant	Worked at least 435 hours in covered employment if a Retail Clerks employee and 90 hours if a Retail Drug employee.
Future Employment	Active Retail Clerks participants are expected to work 1,450 hours per year. Active Retail Drug participants are expected to work 1,600 hours per year.
Expected Employment Level	Total covered hours worked under the Trust are assumed to be 1,550 for Retail Clerk employees, and 1,600 for Retail Drug employees.
Adoption Rate of the Rehabilitation Plan	For plan changes resulting from the adoption of the Rehabilitation Plan of the Sound Retirement Trust which became effective September 16, 2010, it is assumed that approximately 98% of the liability for active participants reflects the Preferred Schedule of the Rehabiliation Plan. The remaining 2% of the active liability was valued with the normal form of benefit in effect before the adoption of the Rehabilitation Plan. For plan changes resulting from the adoption of the Rehabiliation Plan of the Sound Retirement Trust which became effective May 1, 2013, it is assumed that approximately 74% of the liability for active participants reflects the Preferred Schedule of the Rehabilitation Plan. The remaining 26% of the active liability was valued under the plan provisions in effect before the adoption change of the Rehabilitation Plan. All other changes of the Rehabilitation Plan were reflected in this valuation.
Return to Work	20% of current and future vested terminated participants are assumed to return to work and work sufficient hours to get the subsidized early retirement factors reinstated.
Missing Data	If not specified, participants are assumed to be female and the same age as the average of particpants with the same status code.

CHANGES SINCE PRIOR VALUATION	The current liability interest rate was changed from 3.88% to 3.62% due to a change in the allowable interest rate range, and the current liability mortality table was updated as required. The adoption rate of the original Rehabilitation Plan was increased from 96% to 98% to reflect the portion of employers that have adopted the original Rehabilitation Plan as of the valuation date. The adoption rate of the amended Rehabilitation Plan was assumed to be 74%, with 20% of current and future vested terminated participants returning to work and working sufficient hours to get the subsidized early retirement factors restored.

Summary of Rehabiliation Plan

The Rehabilitation Plan was first effective December 16, 2010, and was updated on June 19, 2013 and then again on June 25, 2014 (copies of the two Rehabilitation Plan updates are attached to this summary). The current Rehabilitation Plan contains multiple contribution schedules to reflect:

- the merger of the Washington Meat Industry Pension Plan into the Sound Retirement Trust,
- the transfer of liabilities and assets relating to Kroger's participants in the Washington Meat Trust to the UFCW Consolidated Pension Fund,
- the benefit reductions that were effective January 1, 2011, and
- the additional benefit reductions that were effective October 1, 2013.

The first year of the Rehabilitation Period is October 1, 2013 and the Rehabilitation Plan is designed to enable the Trust to emerge from critical status by October 1, 2023.

Updates to the Rehabiliation Plan

The Rehabilitation Plan was last updated June 25, 2014 to update contribution schedules to reflect the merger of the Washington Meat Industry Pension Trust into this Trust as of June 30, 2014 and the transfer of liabilities and assets relating to Kroger's participants in the Washington Meat Trust to the UFCW Consolidated Pension Fund effective July 1, 2014. These changes are designed to enable the Trust to emerge from critical status by October 1, 2023.

Scheduled Progress

The Plan is making scheduled progress and projected to not have a funding deficiency as of October 1, 2023 and the subsequent nine Plan years.

REHABILITATION PLAN OF THE SOUND RETIREMENT TRUST

(also known as THE RETAIL CLERKS PENSION TRUST)

Adopted December 14, 2010
Revised and Adopted September 22, 2011
Updated June 19, 2013

INTRODUCTION

The Pension Protection Act of 2006 (the "PPA") created new funding classifications for multiemployer pension plans. These funding classifications impose requirements on the Board of Trustees (the "Board") to improve the funding levels of the Sound Retirement Trust (the "Trust"). On December 14, 2010, the Trust's actuaries certified that the Trust was in critical status for the Plan Year beginning October 1, 2010. Once the Trust entered critical status, PPA required the Board to implement a rehabilitation plan (the "Rehabilitation Plan") designed to enable the Trust to emerge from critical status by October 1, 2023. The initial version of this Rehabilitation Plan was effective December 16, 2010. In response to the law's annual update requirement, the revisions contained in this update were adopted at the March 28, 2013 and June 19, 2013 meetings of the Board.

This Rehabilitation Plan does not reduce the level of a Participant's accrued benefit as of January 1, 2011 payable on the Normal Retirement Date. The benefits of the Trust's retirees and beneficiaries with benefit commencement dates prior to January 1, 2011 also are not be affected by this Rehabilitation Plan.

Unless otherwise expressly indicated herein, all capitalized terms used in this Rehabilitation Plan and the Schedules have the same definition assigned to such capitalized term by the governing documents of the Trust.

REHABILITATION PLAN AND COMPLIANCE

This Rehabilitation Plan consists of two schedules, the Preferred Schedule and the Default Schedule (collectively, the "Schedules"). The Schedules set forth modifications to future benefits and contribution rates required under the Rehabilitation Plan. The Trust's participating Employers and Unions (the "Bargaining Parties") were required to adopt either the Preferred Schedule or the Default Schedule. Regardless of when the bargaining parties adopted, the Board adopted certain terminated vested reductions that were effective February 1, 2011 for those Participants deemed to be in a terminated vested status as of December 16, 2010. On March 28, 2013, the Board modified the terminated vested benefit reductions.

Under the PPA, participating Employers are required to pay to the Trust an automatic surcharge in addition to the contributions otherwise required under each Employer's collective bargaining agreement until the Bargaining Parties adopt either the Preferred Schedule or the Default Schedule. Commencing with February 2011 hours, the surcharge was five percent (5%) of the

required contributions, and the surcharge increased to ten percent (10%) (i.e., an additional five (5%) percent) beginning with October 2011 hours. Participants do not accrue any benefits on either surcharge. These surcharge contributions are due at the same time that the regular contributions are due to the Trust. If a contributing Employer fails to pay the surcharge, the surcharge payment is treated as a delinquent contribution pursuant to ERISA Section 515.

All collective bargaining agreements that expire on or after October 1, 2010, that are agreed to, renewed or extended on or after February 1, 2011, must comply with the Rehabilitation Plan. The Board has the sole and absolute authority to amend, construe, and apply the provisions of the Rehabilitation Plan, including the Schedules (as defined below); provided, however, pursuant to ERISA Section 305(e)(3)(B)(iii), the schedule of contribution rates provided by the Board to the Bargaining Parties, and which are adopted by the Bargaining Parties, shall remain in effect for the duration of that collective bargaining agreement.

CONTRIBUTION REDUCTIONS PROHIBITED

Beginning on December 1, 2010 and lasting through September 30, 2013 (the Rehabilitation Plan Adoption Period), the Trust may not accept a collective bargaining agreement and/or participation agreement that provides for a reduction in the level of contributions for any Participants, a suspension of contributions with respect to any period of service, or any new direct or indirect exclusion of younger or newly hired employees from participation in the Trust.

PLAN AMENDMENT RESTRICTIONS

Beginning on December 14, 2010, the Trust's plan document may not be amended so as to be inconsistent with the Rehabilitation Plan, or to increase benefits, including future benefit accruals, unless the Trust's actuary certifies that the benefit increase is paid for with contributions not contemplated by the Rehabilitation Plan, and that after taking into account the benefit increases, the Trust is still reasonably expected to emerge from Critical status by October 1, 2023; provided however, that no such amendment to increase benefits shall be permitted during the Rehabilitation Plan Adoption Period, except as required by law.

BENEFIT REDUCTIONS REQUIRED BY PPA

ELIMINATION OF LEVEL INCOME OPTION FORM OF PAYMENT

As of December 16, 2010, the level income option form of payment will no longer be available to new retirees.

OTHER BENEFIT REDUCTIONS EFFECTIVE JANUARY 1, 2011

ELIMINATION OF NON QJSA DEATH BENEFITS

For deaths on or after December 16, 2010, the only pre-retirement death benefits that will be payable are those required to meet the definition of a Qualified Joint & Survivor Annuity.

ELIMINATION OF FIVE-YEAR CERTAIN GUARANTEE IN FORM OF PAYMENT

As of January 1, 2011, the five-year certain guarantee that applies to those electing the Normal Form of Benefits for single participants will be eliminated for benefits earned on or after January 1, 2011.

PREFERRED SCHEDULE

This is the Preferred Schedule for the Sound Retirement Trust Rehabilitation Plan. The Preferred Schedule will apply to participating Employers and Unions that have adopted it, and to the terminated vested Participants described below:

A. Contributions Rate Increases

With respect to bargaining agreements expiring on or after Jan. 1, 2011 and prior to May 1, 2013, or which adopt a Schedule during this period, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 1. With respect to bargaining agreements expiring on or after May 1, 2013 or which adopt a Schedule on or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 2.

The initial rate increase cannot be made retroactive unless the amount of the increase is greater than the surcharge it replaces. If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the adoption of the relevant Schedule.

B. Reductions in Benefits

As of the contract effective date, the 5-year certain guarantee on the normal form of payment for single participants will not apply to benefits earned prior to January 1, 2011.

In addition, for terminated vested participants:

(1) Effective February 1, 2011, certain benefits (described below) will no longer be available to those considered to be in terminated vested status as of December 16, 2010,[1] regardless of when this Schedule is adopted by the Bargaining Parties.

For Participants in terminated vested status as defined in this Paragraph (1):

- Subsidized early retirement benefits will be effectively eliminated;
- The post-retirement cost-of-living adjustments ("COLAs") that were payable on pre-August 2003 accruals will not be provided;
- There will be no pre-retirement death benefits other than those required to meet the definition of a Qualified Joint & Survivor Annuity; and
- The 5-year certain guarantee on the normal form of payment for single participants will not apply.

(2) The benefits described below will not be provided to any vested Participant who incurs a One-Year Break in Service in a Plan Year that begins on or after October 1, 2010 and before September 30, 2012 and is not in pay status on or before September 1, 2013, regardless of when this updated Schedule is adopted by the Bargaining Parties. These Participants shall be considered "terminated vested Participants" and for these Participants:

- Subsidized early retirement benefits will be eliminated; and

[1] Under the initial Rehabilitation Plan, a Participant is deemed to be in "terminated vested status" if he or she:
1. Is not in payment status on December 16, 2010,
2. Was vested as of September 30, 2010,
3. Earned less than 435 covered hours of service during the plan year ending September 30, 2010, and
4. Had no contributory hours during the period October 1, 2010 through December 16, 2010.

- The post-retirement COLAs that were payable on pre-August 2003 benefit accruals will not be provided.

(3) With respect to bargaining agreements expiring on or after May 1, 2013, or for Bargaining Parties that adopt a Schedule on or after that date, the benefit changes described in these Paragraphs (1)-(2) will apply to any Participant who incurs a One-Year Break in Service during a Plan Year that begins after September 30, 2012 (thus becoming a terminated vested Participant). For this purpose, a terminated vested Participant is considered to be covered by the bargaining agreement under which he or she earned the last hour of service in Covered Employment.

(4) Notwithstanding Paragraphs (1) – (3), any terminated vested Participant who had their subsidized early retirement benefits eliminated as described above may restore the subsidized early retirement benefits that were eliminated by returning to active employment with a contributing employer and accruing at least 500 hours of service in Covered Employment in two consecutive Plan Years. If the participant again becomes a terminated vested Participant, he or she would again lose the subsidy on benefits earned prior to the most recent one-year break in service. The restored subsidies will only apply in the event that the Participant retires before incurring a "one-year break in service."

(5) Notwithstanding Paragraph (1), a Participant who was deemed to be in terminated vested status as of December 16, 2010 in accordance with Paragraph (1), who had attained at least age 54 and had 30 years of service as of that date who elects a retirement effective date of September 1, 2013 or earlier shall be eligible for subsidized early retirement benefits regardless of whether the Participant returns to Covered Employment.

DEFAULT SCHEDULE

This Default Schedule will apply to Bargaining Parties that adopt this Schedule or who have failed to adopt the Preferred Schedule (a) within 180 days following the expiration of the Bargaining Parties' collective bargaining agreement that was in effect at the time the Trust entered critical status or (b) the date of this notice, whichever is later.

A. Contribution Rate Increases

The Default Plan requires a single contribution increase. The amount of the contribution increase depends on the effective date of adoption or implementation as follows:

If effective in 2011, in the amount of $0.51, beginning with January 2011 hours.

If adopted as effective with January 2012 hours in the amount of $0.51.
If adopted as effective with January 2013 hours in the amount of $0.51.

If adopted as effective with January 2014 hours in the amount of $0.80.

If adopted as effective with January 2015 hours in the amount of $0.87.

If adopted as effective with January 2016 hours in the amount of $0.95.

If adopted as effective with January 2017 hours in the amount of $1.03.

If adopted as effective with January 2018 hours in the amount of $1.12.

If adopted as effective with January 2019 hours in the amount of $1.22.

If adopted as effective with January 2020 hours in the amount of $1.33.

If adopted as effective with January 2021 hours in the amount of $1.44.

If adopted as effective with January 2022 hours in the amount of $1.56.

If adopted as effective with January 2023 hours in the amount of $1.70.

If the effective date of the Default Schedule is a date other than with the January hours, the above rates will be actuarially adjusted to reflect the actual effective date of the Schedule.

B. Reductions in Benefits

On and after the date on which the Default Schedule is applicable:

- a Participant will accrue benefits under the Plan in an amount that produces a monthly benefit (payable as a single life annuity commencing at the Participant's Normal Retirement Date) equal to the lesser of (i) their current accrual rate under the Trust's plan document or (ii) 1% times the total contribution made on behalf of that participant during the Plan Year, exclusive of the Default Plan contribution increase shown above.

- all early retirement subsidies for benefits earned after such date are eliminated, and

- no disability benefits for disabilities incurred after such date will be payable.

The Trustees agree and acknowledge that their adoption of the Default Schedule in this unique context is not intended and should not be construed as establishing any precedent or taking any position with regard to the issue of what benefit cuts must (or may) be included in a default schedule under the PPA. Accordingly, the Default Schedule (and the fact of its adoption) shall not be used as evidence in any future arbitration or litigation concerning the benefit cuts required (or permitted) in a default schedule under the PPA.

ANNUAL REVIEW AND UPDATE

The Board of Trustees shall annually review the Rehabilitation Plan with its actuaries and confirm that annual standards are being met. Following such review, the Board of Trustees shall annually update the Rehabilitation Plan as required by the PPA. Since the requirement for a Rehabilitation Plan is for the Plan to emerge from critical status by the end of the Rehabilitation Period, the primary standard that the Trustees expect to measure against each year is whether the Plan is still projected to emerge from critical status by the end of the Rehabilitation Period. Notwithstanding any annual updates to the Rehabilitation Plan, a Schedule of contribution rates provided by the Board of Trustees and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

REHABILITATION PLAN OF THE SOUND RETIREMENT TRUST

(formerly known as THE RETAIL CLERKS PENSION TRUST)

Adopted December 14, 2010
Revised and Adopted September 22, 2011
Updated June 19, 2013
Updated June 25, 2014

INTRODUCTION

The Pension Protection Act of 2006 (the "PPA") created new funding classifications for multiemployer pension plans. These funding classifications impose requirements on the Board of Trustees of the Sound Retirement Trust (the "Board") to improve the funding levels of the Sound Retirement Trust (the "Trust"). On December 14, 2010, the Trust's actuaries certified that the Trust was in critical status for the Plan Year beginning October 1, 2010. Once the Trust entered critical status, PPA required the Board to implement a rehabilitation plan for the Trust (the "Rehabilitation Plan") designed to enable the Trust to emerge from critical status by October 1, 2023. The initial version of this Rehabilitation Plan was effective December 16, 2010. In response to the law's annual update requirement, the revisions contained in this update were adopted at the March 28, 2013 and June 19, 2013 meetings of the Board. The Trustees adopted this updated version at the June 25, 2014 meeting of the Board to reflect the merger of the Washington Meat Industry Pension Trust ("Washington Meat Trust") into the Trust as of June 30, 2014 and the transfer of liabilities and assets relating to Kroger's participants in the Washington Meat Trust to the UFCW Consolidated Pension Fund effective July 1, 2014.

This Rehabilitation Plan does not reduce the level of a Participant's accrued benefit as of January 1, 2011 payable on the Normal Retirement Date. The benefits of the Trust's retirees and beneficiaries with benefit commencement dates prior to January 1, 2011 also are not affected by this Rehabilitation Plan.

Unless otherwise expressly indicated herein, all capitalized terms used in this Rehabilitation Plan and the Schedules have the same definition assigned to such capitalized term by the governing documents of the Trust.

REHABILITATION PLAN AND COMPLIANCE

This Rehabilitation Plan consists of the Preferred Schedule and the Default Schedule (collectively, the "Schedules"). The Schedules set forth modifications to future benefits and contribution rates required under the Rehabilitation Plan. The Trust's participating Employers and Unions (the "Bargaining Parties") are responsible, through collective bargaining, for adopting the Preferred Schedule or the Default Schedule. Regardless of whether the bargaining parties adopt a Schedule immediately, or sometime in the future, the Board adopted certain terminated vested reductions that were effective February 1, 2011 for those Participants deemed

to be in a terminated vested status as of December 16, 2010. On March 28, 2013, the Board modified the terminated vested benefit reductions.

Under the PPA, participating Employers are required to pay to the Trust an automatic surcharge in addition to the contributions otherwise required under each Employer's collective bargaining agreement until the Bargaining Parties adopt either the Preferred Schedule or the Default Schedule. Commencing with February 2011 hours, the surcharge was five percent (5%) of the required contributions, and the surcharge increased to ten percent (10%) (i.e., an additional five (5%) percent) beginning with October 2011 hours. Participants do not accrue any benefits on either surcharge. These surcharge contributions are due at the same time that the regular contributions are due to the Trust. If a contributing Employer fails to pay the surcharge, the surcharge payment is treated as a delinquent contribution pursuant to ERISA Section 515.

All collective bargaining agreements that expire on or after October 1, 2010, that are agreed to, renewed or extended on or after February 1, 2011, must comply with the Rehabilitation Plan. The Board has the sole and absolute authority to amend, construe, and apply the provisions of the Rehabilitation Plan, including the Schedules described in the Appendix; provided, however, pursuant to ERISA Section 305(e)(3)(B)(iii), the schedule of contribution rates provided by the Board to the bargaining parties, and which are adopted by the bargaining parties, shall remain in effect for the duration of that collective bargaining agreement.

CONTRIBUTION REDUCTIONS PROHIBITED

Beginning on December 1, 2010 and lasting through September 30, 2013 (the Rehabilitation Plan Adoption Period), the Trust was not permitted to accept a collective bargaining agreement and/or participation agreement that provides for a reduction in the level of contributions for any Participants, a suspension of contributions with respect to any period of service, or any new direct or indirect exclusion of younger or newly hired employees from participation in the Trust.

PLAN AMENDMENT RESTRICTIONS

Beginning on December 14, 2010, the Trust's plan document may not be amended so as to be inconsistent with the Rehabilitation Plan, or to increase benefits, including future benefit accruals, unless the Trust's actuary certifies that the benefit increase is paid for with contributions not contemplated by the Rehabilitation Plan, and that after taking into account the benefit increases, the Trust is still reasonably expected to emerge from Critical status by October 1, 2023; provided however, that no such amendment to increase benefits shall be permitted during the Rehabilitation Plan Adoption Period, except as required by law.

BENEFIT REDUCTIONS REQUIRED BY PPA

ELIMINATION OF LEVEL INCOME OPTION FORM OF PAYMENT

As of December 16, 2010, the level income option form of payment will no longer be available to new retirees.

OTHER BENEFIT REDUCTIONS

ELIMINATION OF NON QJSA DEATH BENEFITS

For deaths on or after December 16, 2010, the only pre-retirement death benefits that will be payable are those required to meet the definition of a Qualified Joint & Survivor Annuity.

ELIMINATION OF FIVE-YEAR CERTAIN GUARANTEE IN FORM OF PAYMENT

As of January 1, 2011, the five-year certain guarantee that applies to those electing the Normal Form of Benefits for single participants will be eliminated for benefits earned on or after January 1, 2011.

BENEFIT REDUCTIONS UNDER WASHINGTON MEAT TRUST

Prior to the merger, the Washington Meat Trust was subject to a separate Rehabilitation Plan that adopted certain_benefit reductions under the Washington Meat Trust. Those benefit reductions continue to apply with respect to the benefits accrued under the Washington Meat Trust through the date of the Merger, June 30, 2014.

BENEFIT REDUCTIONS UNDER THE SOUND RETIREMENT TRUST

As of the contract effective date, the 5-year certain guarantee on the normal form of payment for single participants will not apply to benefits earned prior to January 1, 2011.

In addition, for terminated vested Participants:

(1) Effective February 1, 2011, certain benefits (described below) are no longer be available to those considered to be in terminated vested status as of December 16, 2010,[1] regardless of when this Schedule is adopted by the Bargaining Parties.

For Participants in terminated vested status as defined in this Paragraph (1):

- Subsidized early retirement benefits are effectively eliminated;
- The post-retirement cost-of-living adjustments ("COLAs") that were payable on pre-August 2003 accruals will not be provided;
- There will be no pre-retirement death benefits other than those required to meet the definition of a Qualified Joint & Survivor Annuity; and

---

[1] Under the initial Rehabilitation Plan, a Participant is deemed to be in "terminated vested status" if he or she:
1. Is not in payment status on December 16, 2010,
2. Was vested as of September 30, 2010,
3. Earned less than 435 covered hours of service during the plan year ending September 30, 2010, and
4. Had no contributory hours during the period October 1, 2010 through December 16, 2010.

- The 5-year certain guarantee on the normal form of payment for single participants will not apply.

(2) The benefits described below will not be provided to any vested Participant who incurred a One-Year Break in Service in a Plan Year that began on or after October 1, 2010 and before September 30, 2012 and was not in pay status on or before September 1, 2013, regardless of when this updated Schedule is adopted by the Bargaining Parties. These Participants shall be considered "terminated vested Participants" and for these Participants:

- Subsidized early retirement benefits are eliminated; and

- The post-retirement COLAs that were payable on pre-August 2003 benefit accruals will not be provided.

(3) With respect to bargaining agreements expiring on or after May 1, 2013, or for Bargaining Parties that adopt a Schedule on or after that date, the benefit changes described in these Paragraphs (1)-(2) will apply to any Participant who incurs a One-Year Break in Service during a Plan Year that begins after September 30, 2012 (thus becoming a terminated vested Participant). For this purpose, a terminated vested Participant is considered to be covered by the bargaining agreement under which he or she earned the last hour of service in Covered Employment.

(4) Notwithstanding Paragraphs (1) – (3), any terminated vested Participant who had their subsidized early retirement benefits eliminated as described above may restore the subsidized early retirement benefits that were eliminated by returning to active employment with a contributing employer and accruing at least 500 hours of service in Covered Employment in two consecutive Plan Years. If the participant again becomes a terminated vested Participant, he or she would again lose the subsidy on benefits earned prior to the most recent one-year break in service. The restored subsidies will only apply in the event that the Participant retires before incurring a "one-year break in service."

(5) Notwithstanding Paragraph (1), a Participant who was deemed to be in terminated vested status as of December 16, 2010 in accordance with Paragraph (1), who had attained at least age 54 and had 30 years of service as of that date who elected a retirement effective date of September 1, 2013 or earlier shall be eligible for subsidized early retirement benefits regardless of whether the Participant returns to Covered Employment.

PREFERRED SCHEDULE

Attached to this Plan as an Appendix is the Preferred Schedule for the Rehabilitation Plan as amended with respect to bargaining agreements covering the Sound Retirement Trust. The Preferred Schedule will apply to participating Employers and Unions that have adopted it based on their contract area, and the benefit changes will apply to the affected Participants as described below:

DEFAULT SCHEDULE

Attached to this Plan is the Default Schedule that will apply to Bargaining Parties that adopt this Schedule or who have failed to adopt the Preferred Schedule under the Appendix (a) within 180 days following the expiration of the Bargaining Parties' collective bargaining agreement that was in effect at the time the Trust entered critical status or (b) the date of this notice, whichever is later. Under the Default Schedule, the following benefit changes shall apply:

Reductions in Benefits

On and after the date on which the Default Schedule to the Trust is applicable to a contributing Employer:

- a Participant employed by such contributing Employer will accrue benefits under the Plan in an amount that produces a monthly benefit (payable as a single life annuity commencing at the Participant's Normal Retirement Date) equal to the lesser of (i) their current accrual rate under the Trust's plan document or (ii) 1% times the total contribution made on behalf of that participant during the Plan Year, exclusive of the Default Schedule contribution increases shown in the Appendix.

- all early retirement subsidies for benefits earned after such date are eliminated, and

- no disability benefits for disabilities incurred after such date will be payable.

The Trustees agree and acknowledge that their adoption of the Default Schedule in this unique context is not intended and should not be construed as establishing any precedent or taking any position with regard to the issue of what benefit cuts must (or may) be included in a default schedule under the PPA. Accordingly, the Default Schedule (and the fact of its adoption) shall not be used as evidence in any future arbitration or litigation concerning the benefit cuts required (or permitted) in a default schedule under the PPA.

PREFERRED SCHEDULE POST-MERGER

Effective June 30, 2014, the Washington Meat Trust merged into the Trust. For any employers with bargaining agreements in bargaining areas requiring contributions to the Washington Meat Trust as of the effective date of the merger and are contributing to the Sound Retirement Trust effective July 1, 2014, the applicable Preferred Schedule contribution rate increases for collective bargaining agreements expiring on and after July 1, 2014 is in the Appendix to this Rehabilitation Plan. With respect to collective bargaining agreements already in effect prior to July 1, 2014 and which adopted a schedule under the Washington Meat Trust rehabilitation plan, that schedule remains in effect for the duration of the collective bargaining agreement. Benefit reductions under the Rehabilitation Plan adopted by the Board of Trustees of the Washington Meat Trust have not changed and continue to apply to employees of former Washington Meat Trust employers who participated in the Washington Meat Trust.

ANNUAL REVIEW AND UPDATE

The Board of Trustees shall annually review the Rehabilitation Plan with its actuaries and confirm that annual standards are being met. Following such review, the Board of Trustees shall annually update the Rehabilitation Plan as required by the PPA. Since the requirement for a Rehabilitation Plan is for the Plan to emerge from critical status by the end of the Rehabilitation Period, the primary standard that the Trustees expect to measure against each year is whether the Plan is still projected to emerge from critical status by the end of the Rehabilitation Period. Notwithstanding any annual updates to the Rehabilitation Plan, a Schedule of contribution rates provided by the Board of Trustees and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

APPENDIX

EMPLOYER BARGAINING AGREEMENTS* COVERING ONLY SOUND RETIREMENT TRUST - PREFERRED SCHEDULE

* For retail grocery stores, this Appendix applies to all employees in stores in bargaining agreement areas (e.g., Spokane) in which both the grocery and meat department employees (if any) have historically participated in the Sound Pension Trust (i.e., meat department employees were NOT covered under the former Washington Meat Industry Pension Trust).

This is the Preferred Schedule for Employers that have bargaining agreements with an obligation to contribute to the Sound Retirement Trust. This Preferred Schedule will apply to participating Employers and Unions that have adopted it as follows:

With respect to bargaining agreements that expired on or after Jan. 1, 2011 and prior to May 1, 2013, or which adopted this Schedule during this period, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 1.

With respect to bargaining agreements expiring on or after May 1, 2013, or which adopt this Schedule on or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 2.

The initial rate increase cannot be made retroactive unless the amount of the increase is greater than the surcharge it replaces. If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the adoption of the relevant Schedule.

APPENDIX

SOUND RETIREMENT TRUST EMPLOYER BARGAINING AGREEMENTS DEFAULT SCHEDULE

This Default Schedule will apply to Employers that have bargaining agreements with an obligation to contribute to the Sound Retirement Trust and that adopt this Schedule or who have failed to adopt the Preferred Schedule under this Appendix within 180 days following the expiration of the Bargaining Parties' collective bargaining agreement that was in effect at the time the Trust initially entered critical status.

The Default Schedule requires a single contribution increase. The amount of the contribution increase depends on the effective date of adoption or implementation of the Default Schedule as follows:

If effective in 2011, in the amount of $0.51, beginning with January 2011 hours.

If adopted as effective with January 2012 hours in the amount of $0.51.

If adopted as effective with January 2013 hours in the amount of $0.51.

If adopted as effective with January 2014 hours in the amount of $0.80.

If adopted as effective with January 2015 hours in the amount of $0.87.

If adopted as effective with January 2016 hours in the amount of $0.95.

If adopted as effective with January 2017 hours in the amount of $1.03.

If adopted as effective with January 2018 hours in the amount of $1.12.

If adopted as effective with January 2019 hours in the amount of $1.22.

If adopted as effective with January 2020 hours in the amount of $1.33.

If adopted as effective with January 2021 hours in the amount of $1.44.

If adopted as effective with January 2022 hours in the amount of $1.56.

If adopted as effective with January 2023 hours in the amount of $1.70.

If the effective date of the Default Schedule is a date other than with the January hours, the above rates will be actuarially adjusted to reflect the actual effective date of the Default Schedule.

In addition to the supplemental contributions for bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014, this Preferred Schedule allows for the Accruing Contribution rate to be reduced to not less than 45% of the Accruing Contribution level in effect on June 30, 2014, and calls for elimination of the 60% pre-Rehabilitation Plan supplemental funding contribution.

APPENDIX

EMPLOYERS PREVIOUSLY PARTICIPATING ONLY IN THE FORMER WASHINGTON MEAT TRUST

PREFERRED SCHEDULE

This is a Preferred Schedule for the Sound Retirement Trust Rehabilitation Plan applicable to Employers in bargaining agreement areas that were required to make contributions only to the Washington Meat Trust and did not have an obligation to contribute to the Sound Retirement Trust prior to July 1, 2014. This Preferred Schedule will apply to participating Employers and Unions that have adopted it as follows:

With respect to bargaining agreements expiring on or after July 1, 2014 or which adopt this Schedule before or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in the table below.

Effective:	Cumulative % Increase Over 06/30/2010 Rate
July hours 2014	81.4%
July hours 2015	120.8%
July hours 2016	160.2%
July hours 2017	199.6%
July hours 2018	239.0%
July hours 2019	278.4%
July hours 2020	317.8%
July hours 2021	357.2%
July hours 2022	396.6%
July hours 2023	436.0%

If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the following the expiration of the collective bargaining agreement.

In addition to the supplemental contributions for bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014, this Preferred Schedule requires that the Accruing Contribution rate not be reduced and that the 60% pre-Rehabilitation Plan supplemental funding contribution remain in place.

The Accruing Contribution rate will be treated as follows:

- 55% of the Accruing Contribution rate in effect as of June 30, 2014 shall be treated as a supplemental contribution and shall not generate Regular Pension benefits, and
- the remainder of the negotiated Accruing Contribution rate shall earn Regular Pension benefits pursuant to Section 3.03 of the Sound Retirement Trust.

Attachment to: 2013 Schedule R (Form 5500), Summary of Rehabiliation Plan
Plan Name: Sound Retirement Trust
Employer ID: 91-6069306
Plan Number: 001

Summary of Rehabiliation Plan

The Rehabilitation Plan was first effective December 16, 2010, and was updated on June 19, 2013 and then again on June 25, 2014 (copies of the two Rehabilitation Plan updates are attached to this summary). The current Rehabilitation Plan contains multiple contribution schedules to reflect:

- the merger of the Washington Meat Industry Pension Plan into the Sound Retirement Trust,
- the transfer of liabilities and assets relating to Kroger's participants in the Washington Meat Trust to the UFCW Consolidated Pension Fund,
- the benefit reductions that were effective January 1, 2011, and
- the additional benefit reductions that were effective October 1, 2013.

The first year of the Rehabilitation Period is October 1, 2013 and the Rehabilitation Plan is designed to enable the Trust to emerge from critical status by October 1, 2023.

Updates to the Rehabiliation Plan

The Rehabilitation Plan was last updated June 25, 2014 to update contribution schedules to reflect the merger of the Washington Meat Industry Pension Trust into this Trust as of June 30, 2014 and the transfer of liabilities and assets relating to Kroger's participants in the Washington Meat Trust to the UFCW Consolidated Pension Fund effective July 1, 2014. These changes are designed to enable the Trust to emerge from critical status by October 1, 2023.

Scheduled Progress

The Plan is making scheduled progress and projected to not have a funding deficiency as of October 1, 2023 and the subsequent nine Plan years.

REHABILITATION PLAN OF THE SOUND RETIREMENT TRUST

(formerly known as THE RETAIL CLERKS PENSION TRUST)

Adopted December 14, 2010
Revised and Adopted September 22, 2011
Updated June 19, 2013
Updated June 25, 2014

INTRODUCTION

The Pension Protection Act of 2006 (the "PPA") created new funding classifications for multiemployer pension plans. These funding classifications impose requirements on the Board of Trustees of the Sound Retirement Trust (the "Board") to improve the funding levels of the Sound Retirement Trust (the "Trust"). On December 14, 2010, the Trust's actuaries certified that the Trust was in critical status for the Plan Year beginning October 1, 2010. Once the Trust entered critical status, PPA required the Board to implement a rehabilitation plan for the Trust (the "Rehabilitation Plan") designed to enable the Trust to emerge from critical status by October 1, 2023. The initial version of this Rehabilitation Plan was effective December 16, 2010. In response to the law's annual update requirement, the revisions contained in this update were adopted at the March 28, 2013 and June 19, 2013 meetings of the Board. The Trustees adopted this updated version at the June 25, 2014 meeting of the Board to reflect the merger of the Washington Meat Industry Pension Trust ("Washington Meat Trust") into the Trust as of June 30, 2014 and the transfer of liabilities and assets relating to Kroger's participants in the Washington Meat Trust to the UFCW Consolidated Pension Fund effective July 1, 2014.

This Rehabilitation Plan does not reduce the level of a Participant's accrued benefit as of January 1, 2011 payable on the Normal Retirement Date. The benefits of the Trust's retirees and beneficiaries with benefit commencement dates prior to January 1, 2011 also are not affected by this Rehabilitation Plan.

Unless otherwise expressly indicated herein, all capitalized terms used in this Rehabilitation Plan and the Schedules have the same definition assigned to such capitalized term by the governing documents of the Trust.

REHABILITATION PLAN AND COMPLIANCE

This Rehabilitation Plan consists of the Preferred Schedule and the Default Schedule (collectively, the "Schedules"). The Schedules set forth modifications to future benefits and contribution rates required under the Rehabilitation Plan. The Trust's participating Employers and Unions (the "Bargaining Parties") are responsible, through collective bargaining, for adopting the Preferred Schedule or the Default Schedule. Regardless of whether the bargaining parties adopt a Schedule immediately, or sometime in the future, the Board adopted certain terminated vested reductions that were effective February 1, 2011 for those Participants deemed

to be in a terminated vested status as of December 16, 2010. On March 28, 2013, the Board modified the terminated vested benefit reductions.

Under the PPA, participating Employers are required to pay to the Trust an automatic surcharge in addition to the contributions otherwise required under each Employer's collective bargaining agreement until the Bargaining Parties adopt either the Preferred Schedule or the Default Schedule. Commencing with February 2011 hours, the surcharge was five percent (5%) of the required contributions, and the surcharge increased to ten percent (10%) (i.e., an additional five (5%) percent) beginning with October 2011 hours. Participants do not accrue any benefits on either surcharge. These surcharge contributions are due at the same time that the regular contributions are due to the Trust. If a contributing Employer fails to pay the surcharge, the surcharge payment is treated as a delinquent contribution pursuant to ERISA Section 515.

All collective bargaining agreements that expire on or after October 1, 2010, that are agreed to, renewed or extended on or after February 1, 2011, must comply with the Rehabilitation Plan. The Board has the sole and absolute authority to amend, construe, and apply the provisions of the Rehabilitation Plan, including the Schedules described in the Appendix; provided, however, pursuant to ERISA Section 305(e)(3)(B)(iii), the schedule of contribution rates provided by the Board to the bargaining parties, and which are adopted by the bargaining parties, shall remain in effect for the duration of that collective bargaining agreement.

CONTRIBUTION REDUCTIONS PROHIBITED

Beginning on December 1, 2010 and lasting through September 30, 2013 (the Rehabilitation Plan Adoption Period), the Trust was not permitted to accept a collective bargaining agreement and/or participation agreement that provides for a reduction in the level of contributions for any Participants, a suspension of contributions with respect to any period of service, or any new direct or indirect exclusion of younger or newly hired employees from participation in the Trust.

PLAN AMENDMENT RESTRICTIONS

Beginning on December 14, 2010, the Trust's plan document may not be amended so as to be inconsistent with the Rehabilitation Plan, or to increase benefits, including future benefit accruals, unless the Trust's actuary certifies that the benefit increase is paid for with contributions not contemplated by the Rehabilitation Plan, and that after taking into account the benefit increases, the Trust is still reasonably expected to emerge from Critical status by October 1, 2023; provided however, that no such amendment to increase benefits shall be permitted during the Rehabilitation Plan Adoption Period, except as required by law.

BENEFIT REDUCTIONS REQUIRED BY PPA

ELIMINATION OF LEVEL INCOME OPTION FORM OF PAYMENT

As of December 16, 2010, the level income option form of payment will no longer be available to new retirees.

OTHER BENEFIT REDUCTIONS

ELIMINATION OF NON QJSA DEATH BENEFITS

For deaths on or after December 16, 2010, the only pre-retirement death benefits that will be payable are those required to meet the definition of a Qualified Joint & Survivor Annuity.

ELIMINATION OF FIVE-YEAR CERTAIN GUARANTEE IN FORM OF PAYMENT

As of January 1, 2011, the five-year certain guarantee that applies to those electing the Normal Form of Benefits for single participants will be eliminated for benefits earned on or after January 1, 2011.

BENEFIT REDUCTIONS UNDER WASHINGTON MEAT TRUST

Prior to the merger, the Washington Meat Trust was subject to a separate Rehabilitation Plan that adopted certain_benefit reductions under the Washington Meat Trust. Those benefit reductions continue to apply with respect to the benefits accrued under the Washington Meat Trust through the date of the Merger, June 30, 2014.

BENEFIT REDUCTIONS UNDER THE SOUND RETIREMENT TRUST

As of the contract effective date, the 5-year certain guarantee on the normal form of payment for single participants will not apply to benefits earned prior to January 1, 2011.

In addition, for terminated vested Participants:

(1) Effective February 1, 2011, certain benefits (described below) are no longer be available to those considered to be in terminated vested status as of December 16, 2010,[1] regardless of when this Schedule is adopted by the Bargaining Parties.

For Participants in terminated vested status as defined in this Paragraph (1):

- Subsidized early retirement benefits are effectively eliminated;
- The post-retirement cost-of-living adjustments ("COLAs") that were payable on pre-August 2003 accruals will not be provided;
- There will be no pre-retirement death benefits other than those required to meet the definition of a Qualified Joint & Survivor Annuity; and

---

[1] Under the initial Rehabilitation Plan, a Participant is deemed to be in "terminated vested status" if he or she:
1. Is not in payment status on December 16, 2010,
2. Was vested as of September 30, 2010,
3. Earned less than 435 covered hours of service during the plan year ending September 30, 2010, and
4. Had no contributory hours during the period October 1, 2010 through December 16, 2010.

- The 5-year certain guarantee on the normal form of payment for single participants will not apply.

(2) The benefits described below will not be provided to any vested Participant who incurred a One-Year Break in Service in a Plan Year that began on or after October 1, 2010 and before September 30, 2012 and was not in pay status on or before September 1, 2013, regardless of when this updated Schedule is adopted by the Bargaining Parties. These Participants shall be considered "terminated vested Participants" and for these Participants:

- Subsidized early retirement benefits are eliminated; and

- The post-retirement COLAs that were payable on pre-August 2003 benefit accruals will not be provided.

(3) With respect to bargaining agreements expiring on or after May 1, 2013, or for Bargaining Parties that adopt a Schedule on or after that date, the benefit changes described in these Paragraphs (1)-(2) will apply to any Participant who incurs a One-Year Break in Service during a Plan Year that begins after September 30, 2012 (thus becoming a terminated vested Participant). For this purpose, a terminated vested Participant is considered to be covered by the bargaining agreement under which he or she earned the last hour of service in Covered Employment.

(4) Notwithstanding Paragraphs (1) – (3), any terminated vested Participant who had their subsidized early retirement benefits eliminated as described above may restore the subsidized early retirement benefits that were eliminated by returning to active employment with a contributing employer and accruing at least 500 hours of service in Covered Employment in two consecutive Plan Years. If the participant again becomes a terminated vested Participant, he or she would again lose the subsidy on benefits earned prior to the most recent one-year break in service. The restored subsidies will only apply in the event that the Participant retires before incurring a "one-year break in service."

(5) Notwithstanding Paragraph (1), a Participant who was deemed to be in terminated vested status as of December 16, 2010 in accordance with Paragraph (1), who had attained at least age 54 and had 30 years of service as of that date who elected a retirement effective date of September 1, 2013 or earlier shall be eligible for subsidized early retirement benefits regardless of whether the Participant returns to Covered Employment.

PREFERRED SCHEDULE

Attached to this Plan as an Appendix is the Preferred Schedule for the Rehabilitation Plan as amended with respect to bargaining agreements covering the Sound Retirement Trust. The Preferred Schedule will apply to participating Employers and Unions that have adopted it based on their contract area, and the benefit changes will apply to the affected Participants as described below:

DEFAULT SCHEDULE

Attached to this Plan is the Default Schedule that will apply to Bargaining Parties that adopt this Schedule or who have failed to adopt the Preferred Schedule under the Appendix (a) within 180 days following the expiration of the Bargaining Parties' collective bargaining agreement that was in effect at the time the Trust entered critical status or (b) the date of this notice, whichever is later. Under the Default Schedule, the following benefit changes shall apply:

Reductions in Benefits

On and after the date on which the Default Schedule to the Trust is applicable to a contributing Employer:

- a Participant employed by such contributing Employer will accrue benefits under the Plan in an amount that produces a monthly benefit (payable as a single life annuity commencing at the Participant's Normal Retirement Date) equal to the lesser of (i) their current accrual rate under the Trust's plan document or (ii) 1% times the total contribution made on behalf of that participant during the Plan Year, exclusive of the Default Schedule contribution increases shown in the Appendix.

- all early retirement subsidies for benefits earned after such date are eliminated, and

- no disability benefits for disabilities incurred after such date will be payable.

The Trustees agree and acknowledge that their adoption of the Default Schedule in this unique context is not intended and should not be construed as establishing any precedent or taking any position with regard to the issue of what benefit cuts must (or may) be included in a default schedule under the PPA. Accordingly, the Default Schedule (and the fact of its adoption) shall not be used as evidence in any future arbitration or litigation concerning the benefit cuts required (or permitted) in a default schedule under the PPA.

PREFERRED SCHEDULE POST-MERGER

Effective June 30, 2014, the Washington Meat Trust merged into the Trust. For any employers with bargaining agreements in bargaining areas requiring contributions to the Washington Meat Trust as of the effective date of the merger and are contributing to the Sound Retirement Trust effective July 1, 2014, the applicable Preferred Schedule contribution rate increases for collective bargaining agreements expiring on and after July 1, 2014 is in the Appendix to this Rehabilitation Plan. With respect to collective bargaining agreements already in effect prior to July 1, 2014 and which adopted a schedule under the Washington Meat Trust rehabilitation plan, that schedule remains in effect for the duration of the collective bargaining agreement. Benefit reductions under the Rehabilitation Plan adopted by the Board of Trustees of the Washington Meat Trust have not changed and continue to apply to employees of former Washington Meat Trust employers who participated in the Washington Meat Trust.

ANNUAL REVIEW AND UPDATE

The Board of Trustees shall annually review the Rehabilitation Plan with its actuaries and confirm that annual standards are being met. Following such review, the Board of Trustees shall annually update the Rehabilitation Plan as required by the PPA. Since the requirement for a Rehabilitation Plan is for the Plan to emerge from critical status by the end of the Rehabilitation Period, the primary standard that the Trustees expect to measure against each year is whether the Plan is still projected to emerge from critical status by the end of the Rehabilitation Period. Notwithstanding any annual updates to the Rehabilitation Plan, a Schedule of contribution rates provided by the Board of Trustees and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

The initial rate increase cannot be made retroactive unless the amount of the increase is greater than the surcharge it replaces. If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the adoption of the relevant Schedule.

APPENDIX

SOUND RETIREMENT TRUST EMPLOYER BARGAINING AGREEMENTS DEFAULT SCHEDULE

This Default Schedule will apply to Employers that have bargaining agreements with an obligation to contribute to the Sound Retirement Trust and that adopt this Schedule or who have failed to adopt the Preferred Schedule under this Appendix within 180 days following the expiration of the Bargaining Parties' collective bargaining agreement that was in effect at the time the Trust initially entered critical status.

The Default Schedule requires a single contribution increase. The amount of the contribution increase depends on the effective date of adoption or implementation of the Default Schedule as follows:

If effective in 2011, in the amount of $0.51, beginning with January 2011 hours.

If adopted as effective with January 2012 hours in the amount of $0.51.

If adopted as effective with January 2013 hours in the amount of $0.51.

If adopted as effective with January 2014 hours in the amount of $0.80.

If adopted as effective with January 2015 hours in the amount of $0.87.

If adopted as effective with January 2016 hours in the amount of $0.95.

If adopted as effective with January 2017 hours in the amount of $1.03.

If adopted as effective with January 2018 hours in the amount of $1.12.

If adopted as effective with January 2019 hours in the amount of $1.22.

If adopted as effective with January 2020 hours in the amount of $1.33.

If adopted as effective with January 2021 hours in the amount of $1.44.

If adopted as effective with January 2022 hours in the amount of $1.56.

If adopted as effective with January 2023 hours in the amount of $1.70.

If the effective date of the Default Schedule is a date other than with the January hours, the above rates will be actuarially adjusted to reflect the actual effective date of the Default Schedule.

APPENDIX

SOUND TRUST AND WASHINTON MEAT TRUST EMPLOYER – KROGER

PREFERRED SCHEDULE EFFECTIVE JULY 1, 2014

This is a Preferred Schedule for the Sound Retirement Trust Rehabilitation Plan. This Preferred Schedule will apply to Employers affiliated with The Kroger Company and Unions that have adopted it as follows:

With respect to bargaining agreements expiring on or after July 1, 2014 or which adopted this Schedule during October 2013 or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in the table below.

If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the expiration of the collective bargaining agreement.

For bargaining agreements covering Sound Retirement Trust participants as of June 30, 2014:

Effective:	
January hours 2014	$0.21
January hours 2015	$0.27
January hours 2016	$0.33
January hours 2017	$0.39
January hours 2018	$0.45
January hours 2019	$0.51
January hours 2020	$0.57
January hours 2021	$0.63
January hours 2022	$0.69
January hours 2023	$0.75

For bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014:

Effective:	
July hours 2014	$0.00

In addition to the supplemental contributions for bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014, this Preferred

Schedule allows for the Accruing Contribution rate to be reduced to not less than 45% of the Accruing Contribution level in effect on June 30, 2014, and calls for elimination of the 60% pre-Rehabilitation Plan supplemental funding contribution.

APPENDIX

SOUND TRUST AND WASHINGTON MEAT TRUST EMPLOYER BARGAINING AGREEMENTS* – NON-KROGER

***For retail grocery stores, this Appendix applies to all employees in stores in bargaining agreement areas (e.g., King County) in which the meat department employees had been covered under the former Washington Meat Industry Pension Trust.**

PREFERRED SCHEDULE EFFECTIVE JULY 1, 2014

This is a Preferred Schedule for the Sound Retirement Trust Rehabilitation Plan applicable to Employers in bargaining agreement areas that required contributions to both the Sound Retirement Trust and Washington Meat Trust. This Preferred Schedule will apply to participating Employers and Unions that have adopted it as follows:

With respect to bargaining agreements expiring on or after July 1, 2014 or which adopted this Schedule during October 2013 or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in the table below.

If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the expiration of the collective bargaining agreement.

For bargaining agreements covering Sound Retirement Trust participants as of June 30, 2014:

In addition to the supplemental contributions for bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014, this Preferred Schedule allows for the Accruing Contribution rate to be reduced to not less than 45% of the Accruing Contribution level in effect on June 30, 2014, and calls for elimination of the 60% pre-Rehabilitation Plan supplemental funding contribution.

APPENDIX

EMPLOYERS PREVIOUSLY PARTICIPATING ONLY IN THE FORMER WASHINGTON MEAT TRUST

PREFERRED SCHEDULE

This is a Preferred Schedule for the Sound Retirement Trust Rehabilitation Plan applicable to Employers in bargaining agreement areas that were required to make contributions only to the Washington Meat Trust and did not have an obligation to contribute to the Sound Retirement Trust prior to July 1, 2014. This Preferred Schedule will apply to participating Employers and Unions that have adopted it as follows:

With respect to bargaining agreements expiring on or after July 1, 2014 or which adopt this Schedule before or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in the table below.

Effective:	Cumulative % Increase Over 06/30/2010 Rate
July hours 2014	81.4%
July hours 2015	120.8%
July hours 2016	160.2%
July hours 2017	199.6%
July hours 2018	239.0%
July hours 2019	278.4%
July hours 2020	317.8%
July hours 2021	357.2%
July hours 2022	396.6%
July hours 2023	436.0%

If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the following the expiration of the collective bargaining agreement.

In addition to the supplemental contributions for bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014, this Preferred Schedule requires that the Accruing Contribution rate not be reduced and that the 60% pre-Rehabilitation Plan supplemental funding contribution remain in place.

The Accruing Contribution rate will be treated as follows:

- 55% of the Accruing Contribution rate in effect as of June 30, 2014 shall be treated as a supplemental contribution and shall not generate Regular Pension benefits, and
- the remainder of the negotiated Accruing Contribution rate shall earn Regular Pension benefits pursuant to Section 3.03 of the Sound Retirement Trust.

REHABILITATION PLAN OF THE SOUND RETIREMENT TRUST

(also known as THE RETAIL CLERKS PENSION TRUST)

Adopted December 14, 2010
Revised and Adopted September 22, 2011
Updated June 19, 2013

INTRODUCTION

The Pension Protection Act of 2006 (the "PPA") created new funding classifications for multiemployer pension plans. These funding classifications impose requirements on the Board of Trustees (the "Board") to improve the funding levels of the Sound Retirement Trust (the "Trust"). On December 14, 2010, the Trust's actuaries certified that the Trust was in critical status for the Plan Year beginning October 1, 2010. Once the Trust entered critical status, PPA required the Board to implement a rehabilitation plan (the "Rehabilitation Plan") designed to enable the Trust to emerge from critical status by October 1, 2023. The initial version of this Rehabilitation Plan was effective December 16, 2010. In response to the law's annual update requirement, the revisions contained in this update were adopted at the March 28, 2013 and June 19, 2013 meetings of the Board.

This Rehabilitation Plan does not reduce the level of a Participant's accrued benefit as of January 1, 2011 payable on the Normal Retirement Date. The benefits of the Trust's retirees and beneficiaries with benefit commencement dates prior to January 1, 2011 also are not be affected by this Rehabilitation Plan.

Unless otherwise expressly indicated herein, all capitalized terms used in this Rehabilitation Plan and the Schedules have the same definition assigned to such capitalized term by the governing documents of the Trust.

REHABILITATION PLAN AND COMPLIANCE

This Rehabilitation Plan consists of two schedules, the Preferred Schedule and the Default Schedule (collectively, the "Schedules"). The Schedules set forth modifications to future benefits and contribution rates required under the Rehabilitation Plan. The Trust's participating Employers and Unions (the "Bargaining Parties") were required to adopt either the Preferred Schedule or the Default Schedule. Regardless of when the bargaining parties adopted, the Board adopted certain terminated vested reductions that were effective February 1, 2011 for those Participants deemed to be in a terminated vested status as of December 16, 2010. On March 28, 2013, the Board modified the terminated vested benefit reductions.

Under the PPA, participating Employers are required to pay to the Trust an automatic surcharge in addition to the contributions otherwise required under each Employer's collective bargaining agreement until the Bargaining Parties adopt either the Preferred Schedule or the Default Schedule. Commencing with February 2011 hours, the surcharge was five percent (5%) of the

required contributions, and the surcharge increased to ten percent (10%) (i.e., an additional five (5%) percent) beginning with October 2011 hours. Participants do not accrue any benefits on either surcharge. These surcharge contributions are due at the same time that the regular contributions are due to the Trust. If a contributing Employer fails to pay the surcharge, the surcharge payment is treated as a delinquent contribution pursuant to ERISA Section 515.

All collective bargaining agreements that expire on or after October 1, 2010, that are agreed to, renewed or extended on or after February 1, 2011, must comply with the Rehabilitation Plan. The Board has the sole and absolute authority to amend, construe, and apply the provisions of the Rehabilitation Plan, including the Schedules (as defined below); provided, however, pursuant to ERISA Section 305(e)(3)(B)(iii), the schedule of contribution rates provided by the Board to the Bargaining Parties, and which are adopted by the Bargaining Parties, shall remain in effect for the duration of that collective bargaining agreement.

CONTRIBUTION REDUCTIONS PROHIBITED

Beginning on December 1, 2010 and lasting through September 30, 2013 (the Rehabilitation Plan Adoption Period), the Trust may not accept a collective bargaining agreement and/or participation agreement that provides for a reduction in the level of contributions for any Participants, a suspension of contributions with respect to any period of service, or any new direct or indirect exclusion of younger or newly hired employees from participation in the Trust.

PLAN AMENDMENT RESTRICTIONS

Beginning on December 14, 2010, the Trust's plan document may not be amended so as to be inconsistent with the Rehabilitation Plan, or to increase benefits, including future benefit accruals, unless the Trust's actuary certifies that the benefit increase is paid for with contributions not contemplated by the Rehabilitation Plan, and that after taking into account the benefit increases, the Trust is still reasonably expected to emerge from Critical status by October 1, 2023; provided however, that no such amendment to increase benefits shall be permitted during the Rehabilitation Plan Adoption Period, except as required by law.

BENEFIT REDUCTIONS REQUIRED BY PPA

ELIMINATION OF LEVEL INCOME OPTION FORM OF PAYMENT

As of December 16, 2010, the level income option form of payment will no longer be available to new retirees.

OTHER BENEFIT REDUCTIONS EFFECTIVE JANUARY 1, 2011

ELIMINATION OF NON QJSA DEATH BENEFITS

For deaths on or after December 16, 2010, the only pre-retirement death benefits that will be payable are those required to meet the definition of a Qualified Joint & Survivor Annuity.

ELIMINATION OF FIVE-YEAR CERTAIN GUARANTEE IN FORM OF PAYMENT

As of January 1, 2011, the five-year certain guarantee that applies to those electing the Normal Form of Benefits for single participants will be eliminated for benefits earned on or after January 1, 2011.

PREFERRED SCHEDULE

This is the Preferred Schedule for the Sound Retirement Trust Rehabilitation Plan. The Preferred Schedule will apply to participating Employers and Unions that have adopted it, and to the terminated vested Participants described below:

A. Contributions Rate Increases

With respect to bargaining agreements expiring on or after Jan. 1, 2011 and prior to May 1, 2013, or which adopt a Schedule during this period, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 1. With respect to bargaining agreements expiring on or after May 1, 2013 or which adopt a Schedule on or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 2.

The initial rate increase cannot be made retroactive unless the amount of the increase is greater than the surcharge it replaces. If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the adoption of the relevant Schedule.

B. Reductions in Benefits

As of the contract effective date, the 5-year certain guarantee on the normal form of payment for single participants will not apply to benefits earned prior to January 1, 2011.

In addition, for terminated vested participants:

(1) Effective February 1, 2011, certain benefits (described below) will no longer be available to those considered to be in terminated vested status as of December 16, 2010,[1] regardless of when this Schedule is adopted by the Bargaining Parties.

For Participants in terminated vested status as defined in this Paragraph (1):

- Subsidized early retirement benefits will be effectively eliminated;
- The post-retirement cost-of-living adjustments ("COLAs") that were payable on pre-August 2003 accruals will not be provided;
- There will be no pre-retirement death benefits other than those required to meet the definition of a Qualified Joint & Survivor Annuity; and
- The 5-year certain guarantee on the normal form of payment for single participants will not apply.

(2) The benefits described below will not be provided to any vested Participant who incurs a One-Year Break in Service in a Plan Year that begins on or after October 1, 2010 and before September 30, 2012 and is not in pay status on or before September 1, 2013, regardless of when this updated Schedule is adopted by the Bargaining Parties. These Participants shall be considered "terminated vested Participants" and for these Participants:

- Subsidized early retirement benefits will be eliminated; and

[1] Under the initial Rehabilitation Plan, a Participant is deemed to be in "terminated vested status" if he or she:
1. Is not in payment status on December 16, 2010,
2. Was vested as of September 30, 2010,
3. Earned less than 435 covered hours of service during the plan year ending September 30, 2010, and
4. Had no contributory hours during the period October 1, 2010 through December 16, 2010.

- The post-retirement COLAs that were payable on pre-August 2003 benefit accruals will not be provided.

(3) With respect to bargaining agreements expiring on or after May 1, 2013, or for Bargaining Parties that adopt a Schedule on or after that date, the benefit changes described in these Paragraphs (1)-(2) will apply to any Participant who incurs a One-Year Break in Service during a Plan Year that begins after September 30, 2012 (thus becoming a terminated vested Participant). For this purpose, a terminated vested Participant is considered to be covered by the bargaining agreement under which he or she earned the last hour of service in Covered Employment.

(4) Notwithstanding Paragraphs (1) – (3), any terminated vested Participant who had their subsidized early retirement benefits eliminated as described above may restore the subsidized early retirement benefits that were eliminated by returning to active employment with a contributing employer and accruing at least 500 hours of service in Covered Employment in two consecutive Plan Years. If the participant again becomes a terminated vested Participant, he or she would again lose the subsidy on benefits earned prior to the most recent one-year break in service. The restored subsidies will only apply in the event that the Participant retires before incurring a "one-year break in service."

(5) Notwithstanding Paragraph (1), a Participant who was deemed to be in terminated vested status as of December 16, 2010 in accordance with Paragraph (1), who had attained at least age 54 and had 30 years of service as of that date who elects a retirement effective date of September 1, 2013 or earlier shall be eligible for subsidized early retirement benefits regardless of whether the Participant returns to Covered Employment.

DEFAULT SCHEDULE

This Default Schedule will apply to Bargaining Parties that adopt this Schedule or who have failed to adopt the Preferred Schedule (a) within 180 days following the expiration of the Bargaining Parties' collective bargaining agreement that was in effect at the time the Trust entered critical status or (b) the date of this notice, whichever is later.

A. Contribution Rate Increases

The Default Plan requires a single contribution increase. The amount of the contribution increase depends on the effective date of adoption or implementation as follows:

If effective in 2011, in the amount of $0.51, beginning with January 2011 hours.

If adopted as effective with January 2012 hours in the amount of $0.51.
If adopted as effective with January 2013 hours in the amount of $0.51.

If adopted as effective with January 2014 hours in the amount of $0.80.

If adopted as effective with January 2015 hours in the amount of $0.87.

If adopted as effective with January 2016 hours in the amount of $0.95.

If adopted as effective with January 2017 hours in the amount of $1.03.

If adopted as effective with January 2018 hours in the amount of $1.12.

If adopted as effective with January 2019 hours in the amount of $1.22.

If adopted as effective with January 2020 hours in the amount of $1.33.

If adopted as effective with January 2021 hours in the amount of $1.44.

If adopted as effective with January 2022 hours in the amount of $1.56.

If adopted as effective with January 2023 hours in the amount of $1.70.

If the effective date of the Default Schedule is a date other than with the January hours, the above rates will be actuarially adjusted to reflect the actual effective date of the Schedule.

B. Reductions in Benefits

On and after the date on which the Default Schedule is applicable:

- a Participant will accrue benefits under the Plan in an amount that produces a monthly benefit (payable as a single life annuity commencing at the Participant's Normal Retirement Date) equal to the lesser of (i) their current accrual rate under the Trust's plan document or (ii) 1% times the total contribution made on behalf of that participant during the Plan Year, exclusive of the Default Plan contribution increase shown above.

- all early retirement subsidies for benefits earned after such date are eliminated, and

- no disability benefits for disabilities incurred after such date will be payable.

The Trustees agree and acknowledge that their adoption of the Default Schedule in this unique context is not intended and should not be construed as establishing any precedent or taking any position with regard to the issue of what benefit cuts must (or may) be included in a default schedule under the PPA. Accordingly, the Default Schedule (and the fact of its adoption) shall not be used as evidence in any future arbitration or litigation concerning the benefit cuts required (or permitted) in a default schedule under the PPA.

ANNUAL REVIEW AND UPDATE

The Board of Trustees shall annually review the Rehabilitation Plan with its actuaries and confirm that annual standards are being met. Following such review, the Board of Trustees shall annually update the Rehabilitation Plan as required by the PPA. Since the requirement for a Rehabilitation Plan is for the Plan to emerge from critical status by the end of the Rehabilitation Period, the primary standard that the Trustees expect to measure against each year is whether the Plan is still projected to emerge from critical status by the end of the Rehabilitation Period. Notwithstanding any annual updates to the Rehabilitation Plan, a Schedule of contribution rates provided by the Board of Trustees and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

EXPLANATION OF CREDIT BALANCE/FUNDING DEFICIENCY DISCREPANCY

On June 30, 2014, the Washington Meat Industry Pension Trust (EIN: 91-6134141; PIN: 001) merged into the Sound Retirement Trust. Also, effective July 1, 2014, assets, liabilities, and Funding Standard Account bases attributable to Kroger participants were spun off to the UFCW Consolidated Retirement Fund (EIN: 58-6101602 ; PIN:001). As a result, the Funding Standard Account credit balance reported on line 9m includes the July 1, 2014 remaining Washington Meat Industry Pension Trust balance and a partial year of the Washington Meat Industry Pension Trust Funding Standard Account charges and credits following Revenue Procedure 2000-40. The monthly contributions reported in line 3(b) and 9g include all contributions received by the merged Trust.

In March of this year the Sound Retirement Trust filed a request with the IRS for ruling on three items that relate to the merger and spinoff:

1. Change of asset method to treat the WA Meat assets the same as the existing smoothing method used by Sound,
2. Treatment of the merger in accordance with Revenue Procedure 2000-40 Section 4.08 (but without the requirement that the surviving plan use an automatic approval asset smoothing method), and
3. The ability to treat the spinoff (using techniques described in Revenue Ruling 81-212) as having occurred solely from the WA Meat plan, prior to the merger into Sound.

The first item applies solely to the plan year beginning October 1, 2014 but items 2 & 3 apply to the 2013 Funding Standard Account. We have prepared the entries to the Schedule MB and the attached disclosure of bases assuming the request will ultimately be approved.

Items shown in lines 9a-f, 9h and 9j reflect only the Sound information. This is because the Meat plan used a different funding method and valuation liability interest rate and was not part of the plan at the October 1, 2103 plan year start. Item 9i reflects interest on 9f, 9g and 9h and includes an adjustment for the Washington Meat Merger to make the FSA balance. The balance item is the net adjustment for Washington Meat 7/1/2014 FSA balance, partial year Normal Cost, amortization charges and credits, as well as net interest. Item 9m includes the amount of credit balance brought into the Sound plan at year end in accordance with the procedures outlined in Revenue Procedure 2000-40 Section 4.08. The components of the second partial year funding standard account which gives rise to this addition and the Schedule MB entries are as follows:

This unusual format of combining the inputs has been used to avoid any errors being reported in the automatic filing system.

The pages that follow show the relevant supporting details for the September 30, 2014 credit balance reconciliation as reported to the IRS (to Larry Isaacs) on June 29, 2015 with respect to our Revenue Procedure 2000-41 Method Change Filing. The Washington Meat methods, assumptions and provisions that follow are from the July 1, 2013 valuation report produced by The Segal Company.

Mortality Rates:

Healthy: RP-2000 Combined Healthy Blue Collar Table, set back two years.

Disabled: RP-2000 Combined Healthy Blue Collar Table, set forward three years.

The above healthy mortality table adjusted by a 1-year age setback, reasonably anticipates the projected mortality experience of the Plan as of the measurement date. The additional setback is a provision made for future mortality improvement.

Description of Weighted Average Retirement Age: Age 60.9, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in this actuarial valuation.

Retirement Age for Inactive Vested Participants: 60

Future Benefit Accruals: 1,700 hours per year per active participant.

Unknown Data for Participants: Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.

Definition of Active Participants: Active participants are defined as those with at least 360 hours in the most recent Plan Year, excluding those who have retired as of the valuation date.

Exclusion of Inactive Vested Participants: Inactive participants over age 70 excluded from the valuation.

Percent Married: 85% for males and 65% for females.

Age of Spouse: Females four years younger than males.

Benefit Election: 50% of future pensioners are assumed to elect the 50% Spouse Option and the other 50% are assumed to elect the Single Life Annuity (with five-year guarantee, if available).

EIN 91-6134141/ PN 001

Net Investment Return:	7.25%
Annual Administrative Expenses:	$850,000, payable monthly, (equivalent to $818,543 payable at the beginning of the year).
Actuarial Value of Assets:	The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual and the projected market return, and is recognized over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value. Due to the PRA 2010 election, the unrecognized return for the year ended June 30, 2009 is recognized over a ten-year period instead of five.
Actuarial Cost Method:	Entry Age Normal Actuarial Cost Method. Entry Age is the current age minus years of Credited Service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service, with Normal Cost determined as if the current benefit accrual rate had always been in effect.
Benefits Valued:	Unless otherwise indicated, includes all benefits summarized in Exhibit VIII.
Current Liability Assumptions:	
Interest	3.61%, within the permissible range prescribed under IRC Section 431(c)(6)(E)
Mortality	Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1: RP-2000 tables projected forward to the valuation year plus seven years for annuitants and 15 years for nonannuitants
Justification for Change in Actuarial Assumptions (Schedule MB, line 11):	For purposes of determining current liability, the current liability interest rate was changed due to a change in the permissible range and recognizing that any rate within the permissible range satisfies the requirements of IRC Section 431(c)(6)(E) and the mortality tables were changed in accordance with IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1.

EXHIBIT VIII

Summary of Plan Provisions
(Schedule MB, line 6)

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Plan Year:	July 1 through June 30
Pension Credit Year:	July 1 through June 30
Plan Status:	Ongoing plan
Normal Retirement:	
Age and Service Requirements	65 and 5 years or fifth anniversary of participation.
Amount	The monthly amount is $6.00 for each year of Past Service earned prior to the Contribution Date (25 years maximum); plus $5.00 per year of Future Service earned between July 1, 1958 through June 30, 1960; plus $10.00 per year of Future Service earned between July 1, 1960 and June 30, 1967; plus 5.60% of the contributions received on the participant's behalf for service rendered from July 1, 1967 through September 30, 2004, plus 2.15% of contributions for service from October 1, 2004 through October 31, 2007; plus 1.35% of the contributions for service rendered thereafter. In addition, benefits earned between July 1, 1967 and July 1, 1975 are increased by 30%, and benefits earned between July 1, 2001 and July 1, 2004 are increased by 50%. Only 10/13 of contributions received from September 30, 2004 through October 31, 2007 are credited toward benefit accruals. After October 31, 2007, only 10/16 of contributions that are not part of the Rehabilitation Plan Schedules are credited toward benefits accruals. Contribution increases under the Rehabilitation Plan are not counted towards benefit accruals.

EIN 91-6134141/ PN 001

Early Retirement:	
Age and Service Requirements	55 and 5 years
Amount	Accrued Normal Retirement Pension amount, reduced 6% for each year that the retiring participant is younger than age 63 but not younger than age 60; and reduced an additional 4% for each year younger than age 60. For inactive members as of July 1, 2010 or active members covered under the Preferred Schedule of the Rehabilitation Plan, the Early Retirement benefit is reduced from age 65, using the plan's actuarial equivalence basis (UP84,7%). For members under the Default Schedule, future accruals are actuarially reduced from age 65.
Rule of 85:	
Age and Service Requirements	Age plus service total at least 85.
Amount	Accrued Normal Retirement Pension amount. For members covered under the Preferred Schedule of the Rehabilitation Plan, the Rule of 85 benefit is only available for those retiring from active status and the amount is the greater of (a) the unreduced accrued benefit as of July 1, 2010 or (b) the unsubsidized Early Retirement benefit. This Rule of 85 is not available to inactive vested members as of July 1, 2010. The Rule of 85 is not available on future accruals for those under the Default Schedule.
Disability Retirement:	
Age and Service Requirements	5 years, regardless of age
Other Requirements	Totally disabled, and must have been an active participant at the time disability occurred. Not available to those under the Default Schedule.
Amount	Normal Retirement Pension amount.
Partial Pension:	This pension is available to participants who have earned at least five years of combined credited service under this plan and related pension plans, provided they have earned the required Future Service credits.

EIN 91-6134141/ PN 001

Vested Rights:	
Age and Service Requirements	5 years, regardless of age.
Amount	Normal Retirement Pension amount accrued, payable commencing at Normal Retirement Age or (on a reduced basis) as early as age 55.
Normal Retirement Age:	65 or, if later, after the fifth anniversary of participation.
Spouse's Death Benefit:	
Age and Service Requirements	5 years, regardless of age.
Amount	50% of the benefit that the participant would have received had he or she retired on a 50% Spouse Pension the day before death. If the participant was younger than age 55 at the time of death, payments will be deferred to the date when the participant would have attained that age.
Pre-retirement Death Benefits:	
Age and Service Requirements	5 years, regardless of age.
Amount	A lump sum payment to the Designated Beneficiary equal to 75% of the contributions made on the participant's behalf, subject to a maximum benefit payment of $10,000. At Spouse's option, this benefit is payable to the spouse in lieu of the Spouse's Death Benefit. This benefit was eliminated for those who are inactive vested participants as of July 1, 2010 and to those covered under the Preferred or Default Schedule of the Rehabilitation Plan.
Post-Retirement Death Benefits:	If married, pension benefits are paid in the form of a 50% joint and survivor annuity unless this form is rejected by the participant and spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor coverage. If not rejected, and the spouse predeceases the participant, the participant's benefit amount in some instances may "pop-up" and subsequently be increased to the unreduced amount payable had the joint and survivor coverage been rejected. If rejected, or if not married, benefits are payable for the life of the participant (with 60 payments guaranteed, if available) without reduction, or in any other available optional form elected by the participant in an actuarially equivalent amount.

EIN 91-6134141/ PN 001

Optional Forms of Payment:	➢ Five Year Certain and Life Thereafter Option (the 5-year guarantee period is not available to those who were inactive vested members as of July 1, 2010 or to those covered under the Preferred Schedule of the Rehabilitation Plan and not available on future accruals to those under the Default Schedule). ➢ 100% Spouse Option (not available to those who were inactive vested members as of July 1, 2010 or to those covered under the Preferred Schedule of the Rehabilitation Plan and not available on future accruals to those under the Default Schedule). ➢ 75% Spouse Option (the "pop-up" feature is not available to those who were inactive vested members as of July 1, 2010 or to those covered under the Preferred Schedule of the Rehabilitation Plan and not available on future accruals to those under the Default Schedule). ➢ 50% Spouse Option (the "pop-up" feature is not available to those who were inactive vested members as of July 1, 2010 or to those covered under the Preferred Schedule of the Rehabilitation Plan and not available on future accruals to those under the Default Schedule).
Credited Service Schedule:	Commencing July 1, 1967, a participant who works at least 360 hours in a Plan Year receives one year of Credited Service.
Participation:	Participation occurs on the first day of the month for which employer contributions are made or owed.
Break in Service Rules:	
One Year Break	A Participant incurs a One Year Break in Service upon failure to work at least 360 hours in a Plan Year.
Permanent Break	A non-vested Participant incurs a Permanent Break in Service if the number of consecutive One Year Breaks in Service is at least five. At this time, all the accumulated credited service and accrued benefits are canceled.
Schedule of Contribution Rates:	As of July 1, 2013, contribution rates for benefit accrual purposes ranged from $0.05 to $1.76 per hour, with an average rate of $0.80 per hour. Prior to the implementation of the Rehabilitation Plan, additional contribution equal to 60% of the credited contributions were payable. The extra contributions do not count towards benefits accruals. In addition, contribution increases under the Rehabilitation Plan do not count towards benefit accruals.

Rehabilitation Plan Schedules:

The Trustees have adopted a Rehabilitation Plan with the following two schedules:

Under the Preferred Schedule, the following benefits were changed:

- the subsidies under the Early Retirement benefit are eliminated,
- the Rule of 85 benefit is reduced to the greater of (a) the unreduced accrued benefit as of July 1, 2010 or (b) the unsubsidized Early Retirement benefit.
- all joint and life annuity subsidies are eliminated,
- the "pop-up" feature from the joint and life annuities is eliminated,
- the five-year guarantee period from the Life Annuity is eliminated, and
- the lump sum Pre-Retirement Death Benefit is eliminated

Under the Default Schedule, the following benefits were changed. All reductions apply to future accruals, except for the Disability Retirement and Pre-Retirement Death Benefit.

- the subsidies under the Early Retirement benefit are eliminated,
- the Rule of 85 pension is eliminated,
- all joint and life annuity subsidies are eliminated,
- the "pop-up" feature from the joint and life annuities is eliminated,
- the five-year guarantee period from the Life option is eliminated,
- the Disability Retirement is eliminated, and
- the lump sum Pre-Retirement Death Benefit is eliminated

Plan Amendments:

This valuation reflects the Rehabilitation Plan schedules that have been renegotiated into the CBAs by the valuation date. The impact of any schedule changes during the year is recognized as a plan amendment in the Funding Standard Account.

DOCUMENTATION REGARDING PROGRESS UNDER REHABILITATION PLAN

The Rehabilitation Plan was first effective December 16, 2010, and was updated on June 19, 2013 and then again on June 25, 2014 (Board adoption date); September 9, 2014 is when the Rehabilitation document was finalized. Copies of the two Rehabilitation Plan updates are attached to this summary. The current Rehabilitation Plan contains multiple contribution schedules to reflect:

- the merger of the Washington Meat Industry Pension Plan into the Sound Retirement Trust,
- the transfer of liabilities and assets relating to Kroger's participants in the Washington Meat Trust to the UFCW Consolidated Pension Fund,
- the benefit reductions that were effective January 1, 2011, and
- the additional benefit reductions that were effective October 1, 2013.

The first year of the Rehabilitation Period is October 1, 2013 and the Rehabilitation Plan is designed to enable the Trust to emerge from critical status by October 1, 2023.

Scheduled Progress

The Plan is making scheduled progress and projected to not have a funding deficiency as of October 1, 2023 and the subsequent nine Plan years taking into account the scheduled adoption of the Rehabilitation Plan by the bargaining parties.

REHABILITATION PLAN OF THE
SOUND RETIREMENT TRUST

(also known as THE RETAIL CLERKS PENSION TRUST)

Adopted December 14, 2010
Revised and Adopted September 22, 2011
Updated June 19, 2013

INTRODUCTION

The Pension Protection Act of 2006 (the "PPA") created new funding classifications for multiemployer pension plans. These funding classifications impose requirements on the Board of Trustees (the "Board") to improve the funding levels of the Sound Retirement Trust (the "Trust"). On December 14, 2010, the Trust's actuaries certified that the Trust was in critical status for the Plan Year beginning October 1, 2010. Once the Trust entered critical status, PPA required the Board to implement a rehabilitation plan (the "Rehabilitation Plan") designed to enable the Trust to emerge from critical status by October 1, 2023. The initial version of this Rehabilitation Plan was effective December 16, 2010. In response to the law's annual update requirement, the revisions contained in this update were adopted at the March 28, 2013 and June 19, 2013 meetings of the Board.

This Rehabilitation Plan does not reduce the level of a Participant's accrued benefit as of January 1, 2011 payable on the Normal Retirement Date. The benefits of the Trust's retirees and beneficiaries with benefit commencement dates prior to January 1, 2011 also are not be affected by this Rehabilitation Plan.

Unless otherwise expressly indicated herein, all capitalized terms used in this Rehabilitation Plan and the Schedules have the same definition assigned to such capitalized term by the governing documents of the Trust.

REHABILITATION PLAN AND COMPLIANCE

This Rehabilitation Plan consists of two schedules, the Preferred Schedule and the Default Schedule (collectively, the "Schedules"). The Schedules set forth modifications to future benefits and contribution rates required under the Rehabilitation Plan. The Trust's participating Employers and Unions (the "Bargaining Parties") were required to adopt either the Preferred Schedule or the Default Schedule. Regardless of when the bargaining parties adopted, the Board adopted certain terminated vested reductions that were effective February 1, 2011 for those Participants deemed to be in a terminated vested status as of December 16, 2010. On March 28, 2013, the Board modified the terminated vested benefit reductions.

Under the PPA, participating Employers are required to pay to the Trust an automatic surcharge in addition to the contributions otherwise required under each Employer's collective bargaining agreement until the Bargaining Parties adopt either the Preferred Schedule or the Default Schedule. Commencing with February 2011 hours, the surcharge was five percent (5%) of the

required contributions, and the surcharge increased to ten percent (10%) (i.e., an additional five (5%) percent) beginning with October 2011 hours. Participants do not accrue any benefits on either surcharge. These surcharge contributions are due at the same time that the regular contributions are due to the Trust. If a contributing Employer fails to pay the surcharge, the surcharge payment is treated as a delinquent contribution pursuant to ERISA Section 515.

All collective bargaining agreements that expire on or after October 1, 2010, that are agreed to, renewed or extended on or after February 1, 2011, must comply with the Rehabilitation Plan. The Board has the sole and absolute authority to amend, construe, and apply the provisions of the Rehabilitation Plan, including the Schedules (as defined below); provided, however, pursuant to ERISA Section 305(e)(3)(B)(iii), the schedule of contribution rates provided by the Board to the Bargaining Parties, and which are adopted by the Bargaining Parties, shall remain in effect for the duration of that collective bargaining agreement.

CONTRIBUTION REDUCTIONS PROHIBITED

Beginning on December 1, 2010 and lasting through September 30, 2013 (the Rehabilitation Plan Adoption Period), the Trust may not accept a collective bargaining agreement and/or participation agreement that provides for a reduction in the level of contributions for any Participants, a suspension of contributions with respect to any period of service, or any new direct or indirect exclusion of younger or newly hired employees from participation in the Trust.

PLAN AMENDMENT RESTRICTIONS

Beginning on December 14, 2010, the Trust's plan document may not be amended so as to be inconsistent with the Rehabilitation Plan, or to increase benefits, including future benefit accruals, unless the Trust's actuary certifies that the benefit increase is paid for with contributions not contemplated by the Rehabilitation Plan, and that after taking into account the benefit increases, the Trust is still reasonably expected to emerge from Critical status by October 1, 2023; provided however, that no such amendment to increase benefits shall be permitted during the Rehabilitation Plan Adoption Period, except as required by law.

BENEFIT REDUCTIONS REQUIRED BY PPA

ELIMINATION OF LEVEL INCOME OPTION FORM OF PAYMENT

As of December 16, 2010, the level income option form of payment will no longer be available to new retirees.

OTHER BENEFIT REDUCTIONS EFFECTIVE JANUARY 1, 2011

ELIMINATION OF NON QJSA DEATH BENEFITS

For deaths on or after December 16, 2010, the only pre-retirement death benefits that will be payable are those required to meet the definition of a Qualified Joint & Survivor Annuity.

ELIMINATION OF FIVE-YEAR CERTAIN GUARANTEE IN FORM OF PAYMENT

As of January 1, 2011, the five-year certain guarantee that applies to those electing the Normal Form of Benefits for single participants will be eliminated for benefits earned on or after January 1, 2011.

PREFERRED SCHEDULE

This is the Preferred Schedule for the Sound Retirement Trust Rehabilitation Plan. The Preferred Schedule will apply to participating Employers and Unions that have adopted it, and to the terminated vested Participants described below:

A. Contributions Rate Increases

With respect to bargaining agreements expiring on or after Jan. 1, 2011 and prior to May 1, 2013, or which adopt a Schedule during this period, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 1. With respect to bargaining agreements expiring on or after May 1, 2013 or which adopt a Schedule on or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 2.

The initial rate increase cannot be made retroactive unless the amount of the increase is greater than the surcharge it replaces. If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the adoption of the relevant Schedule.

B. Reductions in Benefits

As of the contract effective date, the 5-year certain guarantee on the normal form of payment for single participants will not apply to benefits earned prior to January 1, 2011.

In addition, for terminated vested participants:

(1) Effective February 1, 2011, certain benefits (described below) will no longer be available to those considered to be in terminated vested status as of December 16, 2010,[1] regardless of when this Schedule is adopted by the Bargaining Parties.

For Participants in terminated vested status as defined in this Paragraph (1):

- Subsidized early retirement benefits will be effectively eliminated;
- The post-retirement cost-of-living adjustments ("COLAs") that were payable on pre-August 2003 accruals will not be provided;
- There will be no pre-retirement death benefits other than those required to meet the definition of a Qualified Joint & Survivor Annuity; and
- The 5-year certain guarantee on the normal form of payment for single participants will not apply.

(2) The benefits described below will not be provided to any vested Participant who incurs a One-Year Break in Service in a Plan Year that begins on or after October 1, 2010 and before September 30, 2012 and is not in pay status on or before September 1, 2013, regardless of when this updated Schedule is adopted by the Bargaining Parties. These Participants shall be considered "terminated vested Participants" and for these Participants:

- Subsidized early retirement benefits will be eliminated; and

[1] Under the initial Rehabilitation Plan, a Participant is deemed to be in "terminated vested status" if he or she:
1. Is not in payment status on December 16, 2010,
2. Was vested as of September 30, 2010,
3. Earned less than 435 covered hours of service during the plan year ending September 30, 2010, and
4. Had no contributory hours during the period October 1, 2010 through December 16, 2010.

- The post-retirement COLAs that were payable on pre-August 2003 benefit accruals will not be provided.

(3) With respect to bargaining agreements expiring on or after May 1, 2013, or for Bargaining Parties that adopt a Schedule on or after that date, the benefit changes described in these Paragraphs (1)-(2) will apply to any Participant who incurs a One-Year Break in Service during a Plan Year that begins after September 30, 2012 (thus becoming a terminated vested Participant). For this purpose, a terminated vested Participant is considered to be covered by the bargaining agreement under which he or she earned the last hour of service in Covered Employment.

(4) Notwithstanding Paragraphs (1) – (3), any terminated vested Participant who had their subsidized early retirement benefits eliminated as described above may restore the subsidized early retirement benefits that were eliminated by returning to active employment with a contributing employer and accruing at least 500 hours of service in Covered Employment in two consecutive Plan Years. If the participant again becomes a terminated vested Participant, he or she would again lose the subsidy on benefits earned prior to the most recent one-year break in service. The restored subsidies will only apply in the event that the Participant retires before incurring a "one-year break in service."

(5) Notwithstanding Paragraph (1), a Participant who was deemed to be in terminated vested status as of December 16, 2010 in accordance with Paragraph (1), who had attained at least age 54 and had 30 years of service as of that date who elects a retirement effective date of September 1, 2013 or earlier shall be eligible for subsidized early retirement benefits regardless of whether the Participant returns to Covered Employment.

DEFAULT SCHEDULE

This Default Schedule will apply to Bargaining Parties that adopt this Schedule or who have failed to adopt the Preferred Schedule (a) within 180 days following the expiration of the Bargaining Parties' collective bargaining agreement that was in effect at the time the Trust entered critical status or (b) the date of this notice, whichever is later.

A. Contribution Rate Increases

The Default Plan requires a single contribution increase. The amount of the contribution increase depends on the effective date of adoption or implementation as follows:

If effective in 2011, in the amount of $0.51, beginning with January 2011 hours.

If adopted as effective with January 2012 hours in the amount of $0.51.
If adopted as effective with January 2013 hours in the amount of $0.51.

If adopted as effective with January 2014 hours in the amount of $0.80.

If adopted as effective with January 2015 hours in the amount of $0.87.

If adopted as effective with January 2016 hours in the amount of $0.95.

If adopted as effective with January 2017 hours in the amount of $1.03.

If adopted as effective with January 2018 hours in the amount of $1.12.

If adopted as effective with January 2019 hours in the amount of $1.22.

If adopted as effective with January 2020 hours in the amount of $1.33.

If adopted as effective with January 2021 hours in the amount of $1.44.

If adopted as effective with January 2022 hours in the amount of $1.56.

If adopted as effective with January 2023 hours in the amount of $1.70.

If the effective date of the Default Schedule is a date other than with the January hours, the above rates will be actuarially adjusted to reflect the actual effective date of the Schedule.

B. Reductions in Benefits

On and after the date on which the Default Schedule is applicable:

- a Participant will accrue benefits under the Plan in an amount that produces a monthly benefit (payable as a single life annuity commencing at the Participant's Normal Retirement Date) equal to the lesser of (i) their current accrual rate under the Trust's plan document or (ii) 1% times the total contribution made on behalf of that participant during the Plan Year, exclusive of the Default Plan contribution increase shown above.

- all early retirement subsidies for benefits earned after such date are eliminated, and

- no disability benefits for disabilities incurred after such date will be payable.

The Trustees agree and acknowledge that their adoption of the Default Schedule in this unique context is not intended and should not be construed as establishing any precedent or taking any position with regard to the issue of what benefit cuts must (or may) be included in a default schedule under the PPA. Accordingly, the Default Schedule (and the fact of its adoption) shall not be used as evidence in any future arbitration or litigation concerning the benefit cuts required (or permitted) in a default schedule under the PPA.

ANNUAL REVIEW AND UPDATE

The Board of Trustees shall annually review the Rehabilitation Plan with its actuaries and confirm that annual standards are being met. Following such review, the Board of Trustees shall annually update the Rehabilitation Plan as required by the PPA. Since the requirement for a Rehabilitation Plan is for the Plan to emerge from critical status by the end of the Rehabilitation Period, the primary standard that the Trustees expect to measure against each year is whether the Plan is still projected to emerge from critical status by the end of the Rehabilitation Period. Notwithstanding any annual updates to the Rehabilitation Plan, a Schedule of contribution rates provided by the Board of Trustees and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

REHABILITATION PLAN OF THE SOUND RETIREMENT TRUST

(formerly known as THE RETAIL CLERKS PENSION TRUST)

Adopted December 14, 2010
Revised and Adopted September 22, 2011

Updated June 25, 2014

INTRODUCTION

The Pension Protection Act of 2006 (the "PPA") created new funding classifications for multiemployer pension plans. These funding classifications impose requirements on the Board of Trustees of the Sound Retirement Trust (the "Board") to improve the funding levels of the Sound Retirement Trust (the "Trust"). On December 14, 2010, the Trust's actuaries certified that the Trust was in critical status for the Plan Year beginning October 1, 2010. Once the Trust entered critical status, PPA required the Board to implement a rehabilitation plan for the Trust (the "Rehabilitation Plan") designed to enable the Trust to emerge from critical status by October 1, 2023. The initial version of this Rehabilitation Plan was effective December 16, 2010. In response to the law's annual update requirement, the revisions contained in this update were adopted at the March 28, 2013 and June 19, 2013 meetings of the Board. The Trustees adopted this updated version at the June 25, 2014 meeting of the Board to reflect the merger of the Washington Meat Industry Pension Trust ("Washington Meat Trust") into the Trust as of June 30, 2014 and the transfer of liabilities and assets relating to Kroger's participants in the Washington Meat Trust to the UFCW Consolidated Pension Fund effective July 1, 2014.

This Rehabilitation Plan does not reduce the level of a Participant's accrued benefit as of January 1, 2011 payable on the Normal Retirement Date. The benefits of the Trust's retirees and beneficiaries with benefit commencement dates prior to January 1, 2011 also are not affected by this Rehabilitation Plan.

Unless otherwise expressly indicated herein, all capitalized terms used in this Rehabilitation Plan and the Schedules have the same definition assigned to such capitalized term by the governing documents of the Trust.

REHABILITATION PLAN AND COMPLIANCE

This Rehabilitation Plan consists of the Preferred Schedule and the Default Schedule (collectively, the "Schedules"). The Schedules set forth modifications to future benefits and contribution rates required under the Rehabilitation Plan. The Trust's participating Employers and Unions (the "Bargaining Parties") are responsible, through collective bargaining, for adopting the Preferred Schedule or the Default Schedule. Regardless of whether the bargaining parties adopt a Schedule immediately, or sometime in the future, the Board adopted certain terminated vested reductions that were effective February 1, 2011 for those Participants deemed

to be in a terminated vested status as of December 16, 2010. On March 28, 2013, the Board modified the terminated vested benefit reductions.

Under the PPA, participating Employers are required to pay to the Trust an automatic surcharge in addition to the contributions otherwise required under each Employer's collective bargaining agreement until the Bargaining Parties adopt either the Preferred Schedule or the Default Schedule. Commencing with February 2011 hours, the surcharge was five percent (5%) of the required contributions, and the surcharge increased to ten percent (10%) (i.e., an additional five (5%) percent) beginning with October 2011 hours. Participants do not accrue any benefits on either surcharge. These surcharge contributions are due at the same time that the regular contributions are due to the Trust. If a contributing Employer fails to pay the surcharge, the surcharge payment is treated as a delinquent contribution pursuant to ERISA Section 515.

All collective bargaining agreements that expire on or after October 1, 2010, that are agreed to, renewed or extended on or after February 1, 2011, must comply with the Rehabilitation Plan. The Board has the sole and absolute authority to amend, construe, and apply the provisions of the Rehabilitation Plan, including the Schedules described in the Appendix; provided, however, pursuant to ERISA Section 305(e)(3)(B)(iii), the schedule of contribution rates provided by the Board to the bargaining parties, and which are adopted by the bargaining parties, shall remain in effect for the duration of that collective bargaining agreement.

CONTRIBUTION REDUCTIONS PROHIBITED

Beginning on December 1, 2010 and lasting through September 30, 2013 (the Rehabilitation Plan Adoption Period), the Trust was not permitted to accept a collective bargaining agreement and/or participation agreement that provides for a reduction in the level of contributions for any Participants, a suspension of contributions with respect to any period of service, or any new direct or indirect exclusion of younger or newly hired employees from participation in the Trust.

PLAN AMENDMENT RESTRICTIONS

Beginning on December 14, 2010, the Trust's plan document may not be amended so as to be inconsistent with the Rehabilitation Plan, or to increase benefits, including future benefit accruals, unless the Trust's actuary certifies that the benefit increase is paid for with contributions not contemplated by the Rehabilitation Plan, and that after taking into account the benefit increases, the Trust is still reasonably expected to emerge from Critical status by October 1, 2023; provided however, that no such amendment to increase benefits shall be permitted during the Rehabilitation Plan Adoption Period, except as required by law.

BENEFIT REDUCTIONS REQUIRED BY PPA

ELIMINATION OF LEVEL INCOME OPTION FORM OF PAYMENT

As of December 16, 2010, the level income option form of payment will no longer be available to new retirees.

OTHER BENEFIT REDUCTIONS

ELIMINATION OF NON QJSA DEATH BENEFITS

For deaths on or after December 16, 2010, the only pre-retirement death benefits that will be payable are those required to meet the definition of a Qualified Joint & Survivor Annuity.

ELIMINATION OF FIVE-YEAR CERTAIN GUARANTEE IN FORM OF PAYMENT

As of January 1, 2011, the five-year certain guarantee that applies to those electing the Normal Form of Benefits for single participants will be eliminated for benefits earned on or after January 1, 2011.

BENEFIT REDUCTIONS UNDER WASHINGTON MEAT TRUST

Prior to the merger, the Washington Meat Trust was subject to a separate Rehabilitation Plan that adopted certain_benefit reductions under the Washington Meat Trust. Those benefit reductions continue to apply with respect to the benefits accrued under the Washington Meat Trust through the date of the Merger, June 30, 2014.

BENEFIT REDUCTIONS UNDER THE SOUND RETIREMENT TRUST

As of the contract effective date, the 5-year certain guarantee on the normal form of payment for single participants will not apply to benefits earned prior to January 1, 2011.

In addition, for terminated vested Participants:

(1) Effective February 1, 2011, certain benefits (described below) are no longer be available to those considered to be in terminated vested status as of December 16, 2010,[1] regardless of when this Schedule is adopted by the Bargaining Parties.

For Participants in terminated vested status as defined in this Paragraph (1):

- Subsidized early retirement benefits are effectively eliminated;
- The post-retirement cost-of-living adjustments ("COLAs") that were payable on pre-August 2003 accruals will not be provided;
- There will be no pre-retirement death benefits other than those required to meet the definition of a Qualified Joint & Survivor Annuity; and

---

[1] Under the initial Rehabilitation Plan, a Participant is deemed to be in "terminated vested status" if he or she:
1. Is not in payment status on December 16, 2010,
2. Was vested as of September 30, 2010,
3. Earned less than 435 covered hours of service during the plan year ending September 30, 2010, and
4. Had no contributory hours during the period October 1, 2010 through December 16, 2010.

- The 5-year certain guarantee on the normal form of payment for single participants will not apply.

(2) The benefits described below will not be provided to any vested Participant who incurred a One-Year Break in Service in a Plan Year that began on or after October 1, 2010 and before September 30, 2012 and was not in pay status on or before September 1, 2013, regardless of when this updated Schedule is adopted by the Bargaining Parties. These Participants shall be considered "terminated vested Participants" and for these Participants:

- Subsidized early retirement benefits are eliminated; and

- The post-retirement COLAs that were payable on pre-August 2003 benefit accruals will not be provided.

(3) With respect to bargaining agreements expiring on or after May 1, 2013, or for Bargaining Parties that adopt a Schedule on or after that date, the benefit changes described in these Paragraphs (1)-(2) will apply to any Participant who incurs a One-Year Break in Service during a Plan Year that begins after September 30, 2012 (thus becoming a terminated vested Participant). For this purpose, a terminated vested Participant is considered to be covered by the bargaining agreement under which he or she earned the last hour of service in Covered Employment.

(4) Notwithstanding Paragraphs (1) – (3), any terminated vested Participant who had their subsidized early retirement benefits eliminated as described above may restore the subsidized early retirement benefits that were eliminated by returning to active employment with a contributing employer and accruing at least 500 hours of service in Covered Employment in two consecutive Plan Years. If the participant again becomes a terminated vested Participant, he or she would again lose the subsidy on benefits earned prior to the most recent one-year break in service. The restored subsidies will only apply in the event that the Participant retires before incurring a "one-year break in service."

(5) Notwithstanding Paragraph (1), a Participant who was deemed to be in terminated vested status as of December 16, 2010 in accordance with Paragraph (1), who had attained at least age 54 and had 30 years of service as of that date who elected a retirement effective date of September 1, 2013 or earlier shall be eligible for subsidized early retirement benefits regardless of whether the Participant returns to Covered Employment.

PREFERRED SCHEDULE

Attached to this Plan as an Appendix is the Preferred Schedule for the Rehabilitation Plan as amended with respect to bargaining agreements covering the Sound Retirement Trust. The Preferred Schedule will apply to participating Employers and Unions that have adopted it based on their contract area, and the benefit changes will apply to the affected Participants as described below:

DEFAULT SCHEDULE

Attached to this Plan is the Default Schedule that will apply to Bargaining Parties that adopt this Schedule or who have failed to adopt the Preferred Schedule under the Appendix (a) within 180 days following the expiration of the Bargaining Parties' collective bargaining agreement that was in effect at the time the Trust entered critical status or (b) the date of this notice, whichever is later. Under the Default Schedule, the following benefit changes shall apply:

Reductions in Benefits

On and after the date on which the Default Schedule to the Trust is applicable to a contributing Employer:

- a Participant employed by such contributing Employer will accrue benefits under the Plan in an amount that produces a monthly benefit (payable as a single life annuity commencing at the Participant's Normal Retirement Date) equal to the lesser of (i) their current accrual rate under the Trust's plan document or (ii) 1% times the total contribution made on behalf of that participant during the Plan Year, exclusive of the Default Schedule contribution increases shown in the Appendix.

- all early retirement subsidies for benefits earned after such date are eliminated, and

- no disability benefits for disabilities incurred after such date will be payable.

The Trustees agree and acknowledge that their adoption of the Default Schedule in this unique context is not intended and should not be construed as establishing any precedent or taking any position with regard to the issue of what benefit cuts must (or may) be included in a default schedule under the PPA. Accordingly, the Default Schedule (and the fact of its adoption) shall not be used as evidence in any future arbitration or litigation concerning the benefit cuts required (or permitted) in a default schedule under the PPA.

PREFERRED SCHEDULE POST-MERGER

Effective June 30, 2014, the Washington Meat Trust merged into the Trust. For any employers with bargaining agreements in bargaining areas requiring contributions to the Washington Meat Trust as of the effective date of the merger and are contributing to the Sound Retirement Trust effective July 1, 2014, the applicable Preferred Schedule contribution rate increases for collective bargaining agreements expiring on and after July 1, 2014 is in the Appendix to this Rehabilitation Plan. With respect to collective bargaining agreements already in effect prior to July 1, 2014 and which adopted a schedule under the Washington Meat Trust rehabilitation plan, that schedule remains in effect for the duration of the collective bargaining agreement. Benefit reductions under the Rehabilitation Plan adopted by the Board of Trustees of the Washington Meat Trust have not changed and continue to apply to employees of former Washington Meat Trust employers who participated in the Washington Meat Trust.

ANNUAL REVIEW AND UPDATE

The Board of Trustees shall annually review the Rehabilitation Plan with its actuaries and confirm that annual standards are being met. Following such review, the Board of Trustees shall annually update the Rehabilitation Plan as required by the PPA. Since the requirement for a Rehabilitation Plan is for the Plan to emerge from critical status by the end of the Rehabilitation Period, the primary standard that the Trustees expect to measure against each year is whether the Plan is still projected to emerge from critical status by the end of the Rehabilitation Period. Notwithstanding any annual updates to the Rehabilitation Plan, a Schedule of contribution rates provided by the Board of Trustees and relied upon by bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

APPENDIX

EMPLOYER BARGAINING AGREEMENTS* COVERING ONLY SOUND RETIREMENT TRUST - PREFERRED SCHEDULE

* For retail grocery stores, this Appendix applies to all employees in stores in bargaining agreement areas (e.g., Spokane) in which both the grocery and meat department employees (if any) have historically participated in the Sound Pension Trust (i.e., meat department employees were NOT covered under the former Washington Meat Industry Pension Trust).

This is the Preferred Schedule for Employers that have bargaining agreements with an obligation to contribute to the Sound Retirement Trust. This Preferred Schedule will apply to participating Employers and Unions that have adopted it as follows:

With respect to bargaining agreements that expired on or after Jan. 1, 2011 and prior to May 1, 2013, or which adopted this Schedule during this period, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 1.

With respect to bargaining agreements expiring on or after May 1, 2013, or which adopt this Schedule on or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in Table 2.

The initial rate increase cannot be made retroactive unless the amount of the increase is greater than the surcharge it replaces. If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the adoption of the relevant Schedule.

APPENDIX

SOUND RETIREMENT TRUST EMPLOYER BARGAINING AGREEMENTS DEFAULT SCHEDULE

This Default Schedule will apply to Employers that have bargaining agreements with an obligation to contribute to the Sound Retirement Trust and that adopt this Schedule or who have failed to adopt the Preferred Schedule under this Appendix within 180 days following the expiration of the Bargaining Parties' collective bargaining agreement that was in effect at the time the Trust initially entered critical status.

The Default Schedule requires a single contribution increase. The amount of the contribution increase depends on the effective date of adoption or implementation of the Default Schedule as follows:

If effective in 2011, in the amount of $0.51, beginning with January 2011 hours.

If adopted as effective with January 2012 hours in the amount of $0.51.

If adopted as effective with January 2013 hours in the amount of $0.51.

If adopted as effective with January 2014 hours in the amount of $0.80.

If adopted as effective with January 2015 hours in the amount of $0.87.

If adopted as effective with January 2016 hours in the amount of $0.95.

If adopted as effective with January 2017 hours in the amount of $1.03.

If adopted as effective with January 2018 hours in the amount of $1.12.

If adopted as effective with January 2019 hours in the amount of $1.22.

If adopted as effective with January 2020 hours in the amount of $1.33.

If adopted as effective with January 2021 hours in the amount of $1.44.

If adopted as effective with January 2022 hours in the amount of $1.56.

If adopted as effective with January 2023 hours in the amount of $1.70.

If the effective date of the Default Schedule is a date other than with the January hours, the above rates will be actuarially adjusted to reflect the actual effective date of the Default Schedule.

APPENDIX

SOUND TRUST AND WASHINTON MEAT TRUST EMPLOYER – KROGER

PREFERRED SCHEDULE EFFECTIVE JULY 1, 2014

This is a Preferred Schedule for the Sound Retirement Trust Rehabilitation Plan. This Preferred Schedule will apply to Employers affiliated with The Kroger Company and Unions that have adopted it as follows:

With respect to bargaining agreements expiring on or after July 1, 2014 or which adopted this Schedule during October 2013 or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in the table below.

If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the expiration of the collective bargaining agreement.

For bargaining agreements covering Sound Retirement Trust participants as of June 30, 2014:

Effective:	
January hours 2014	$0.21
January hours 2015	$0.27
January hours 2016	$0.33

January hours 2020	$0.57
January hours 2021	$0.63
January hours 2022	$0.69
January hours 2023	$0.75

For bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014:

Effective:	
July hours 2014	$0.00

In addition to the supplemental contributions for bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014, this Preferred

Schedule allows for the Accruing Contribution rate to be reduced to not less than 45% of the Accruing Contribution level in effect on June 30, 2014, and calls for elimination of the 60% pre-Rehabilitation Plan supplemental funding contribution.

APPENDIX

SOUND TRUST AND WASHINGTON MEAT TRUST EMPLOYER BARGAINING AGREEMENTS* – NON-KROGER

July hours 2023	$1.00

In addition to the supplemental contributions for bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014, this Preferred Schedule allows for the Accruing Contribution rate to be reduced to not less than 45% of the Accruing Contribution level in effect on June 30, 2014, and calls for elimination of the 60% pre-Rehabilitation Plan supplemental funding contribution.

APPENDIX

EMPLOYERS PREVIOUSLY PARTICIPATING ONLY IN THE FORMER WASHINGTON MEAT TRUST

PREFERRED SCHEDULE

This is a Preferred Schedule for the Sound Retirement Trust Rehabilitation Plan applicable to Employers in bargaining agreement areas that were required to make contributions only to the Washington Meat Trust and did not have an obligation to contribute to the Sound Retirement Trust prior to July 1, 2014. This Preferred Schedule will apply to participating Employers and Unions that have adopted it as follows:

With respect to bargaining agreements expiring on or after July 1, 2014 or which adopt this Schedule before or after that date, the Preferred Schedule requires the additional employer supplemental contribution rates set forth in the table below.

Effective:	Cumulative % Increase Over 06/30/2010 Rate
July hours 2014	81.4%
July hours 2015	120.8%
July hours 2016	160.2%
July hours 2017	199.6%
July hours 2018	239.0%
July hours 2019	278.4%
July hours 2020	317.8%
July hours 2021	357.2%
July hours 2022	396.6%
July hours 2023	436.0%

If a bargaining agreement is reopened prior to its scheduled expiration date, the parties may provide for a deferred effective date for the supplemental contributions, provided that in no event shall such supplemental contributions be deferred by more than a total of six months following the following the expiration of the collective bargaining agreement.

In addition to the supplemental contributions for bargaining agreements that covered Meat Participants under the former Washington Meat Trust as of June 30, 2014, this Preferred Schedule requires that the Accruing Contribution rate not be reduced and that the 60% pre-Rehabilitation Plan supplemental funding contribution remain in place.

The Accruing Contribution rate will be treated as follows:

- 55% of the Accruing Contribution rate in effect as of June 30, 2014 shall be treated as a supplemental contribution and shall not generate Regular Pension benefits, and
- the remainder of the negotiated Accruing Contribution rate shall earn Regular Pension benefits pursuant to Section 3.03 of the Sound Retirement Trust.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
