NOTE 1 - DESCRIPTION OF PLAN

The following description of the Traditional Medicinals, Inc. Profit Sharing & Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

In 2014, the Company decided to merge the Traditional Medicinals Inc. Employee Stock Ownership Plan ("ESOP Plan") into this plan in accordance with the provisions of ERISA. ESOP Plan shares were purchased by the Company prior to the transfer and cash in the amount of $5,875,697 was transferred into this Plan in September 2014. Participants directed the investment of their amounts transferred into various investment options offered in this plan.

General **-** The Plan is a defined contribution plan which was established on January, 1 1992 by Traditional Medicinals, Inc. ("the Company" or "Plan Administrator") covering all eligible employees of the Company who have completed two months of service as defined in the Plan agreement. Leased and reclassified employees are excluded from plan participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

A Plan Committee ("the Committee") manages the operation and administration of the Plan, including the appropriateness of the Plan's investment offerings and investment performance. A Company employee serves as plan trustee. Plan assets are invested through Ameritas Life Insurance Corporation ("Ameritas Life"), and Minnesota Life Insurance Company ("Minnesota Life"). The Company has contracted with a third-party administrator to process and maintain the records of participant data.

Contributions **-** Each year, participants may contribute an amount of eligible compensation as defined in the Plan, not to exceed the maximum allowed by law. Participants who are age 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum allowed by law. Participants may also contribute amounts representing distributions from other qualified eligible plans.

The Company is allowed to make a discretionary matching contribution and/or a discretionary nonelective contribution to the Plan, as defined in the Plan agreement. These contributions are made to eligible participants subject to completion of at least 1,000 hours of service during the plan year and they must also be employed at the end of the plan year. No Company contribution was made for the year ended September 30, 2014.

Participant Accounts **-** Each participant's account is credited with the participant's contribution, the Company's discretionary matching contribution (if any), and allocations of the Company's discretionary nonelective contribution (if any), plan earnings or losses, and plan expenses as applicable to the Plan. Allocations of the Company's discretionary nonelective contribution are based on participant compensation. Allocations of plan earnings and losses are based on individual participant investment choices. All contributions/investments are participant directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Certain investment and fund fees are charged to the funds and are included in plan investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting **-** Participants are immediately 100% vested in their contributions and rollover amounts, if any, plus actual earnings thereon. Vesting in the Company's discretionary matching and discretionary nonelective contribution portion of their accounts is based on years of service. Participants vest at the rate of 20% after the second year of credited service and are fully vested after six years of service. Participants become fully vested in the event of death, disability, normal retirement age, or plan termination.

Notes Receivable from Participants **-** Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. Two outstanding notes per participant are permitted at any given time. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Outstanding notes receivable from participants as of September 30, 2014 and 2013 carry interest rates which range from 4.25% to 9.25%. Principal and interest is paid ratably through payroll deductions. The notes must be repaid within a five-year period, unless it is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The Plan Administrator establishes the specific terms and conditions of such notes.

Payment of Benefits **-** Upon the satisfaction of certain distributable events, participants or their beneficiaries may elect to receive their vested account balance and are paid in accordance with plan provisions. The Plan allows for automatic distribution of terminated participant balances between $1,000 and $5,000 to an IRA Rollover account.

***Forfeited Accounts* -** Forfeited non-vested accounts may be first be used to pay any administrative expenses. Any remaining forfeitures attributable to nonelective contributions can be allocated as an additional discretionary nonelective contribution. Any remaining forfeitures attributable to matching contributions will be allocated as an additional discretionary matching contribution**.**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

***Basis of Accounting* -** The financial statements of the Plan are prepared on the accrual basis of accounting.

***Use of Estimates* -** The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

***Investment Valuation and Income Recognition* -** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by Ameritas Life and Minnesota Life. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

***Notes Receivable from Participants* -** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of September 30, 2014 and 2013.

***Excess Contributions Payable* -** Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability. As of September 30, 2014 and 2013 there were no material excess contributions payable.

***Plan Expenses* -** Substantially all expenses incurred for administering the Plan are paid by the Company. Participant note fees, plan administrative fees, and

distribution fees are paid by the participants and charged to the accounts as applicable.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through July 14, 2015, the date the financial statements were available to be issued.

NOTE 3 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 - CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by Ameritas Life and Minnesota Life regarding the current value of assets held as of September 30, 2014 and 2013, and transactions entered into during the year ended September 30, 2014, was used in the preparation of the accompanying financial statements and supplemental schedules. The following table includes the fair values of investments which represent 5% or more of the Plan's net assets available for benefits as of September 30:

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows for the year ended September 30, 2014:

Ameritas Life - separate accounts	$160,387
Minnesota Life - separate accounts	174,849
Total	$335,236

NOTE 5 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2014 and 2013.

Ameritas Life Guaranteed Account: The contract value of funds held in the Ameritas Life Guaranteed Account generally represents principal plus accrued interest. The fair value of the funds reflects the relationship between credited rates earned by funds held in the Guaranteed Account and current market rates. Higher credited rates will produce a higher fair value than lower credited rates under similar market interest rate environments. Fair value is determined as the present value of future guaranteed account values and participant benefit withdrawals, assuming an annual benefit withdrawal rate of 9%. Benefit withdrawals are assumed to occur at the end of each calendar year.

Separate Accounts: Units held in separate accounts are valued using the net asset value ("NAV") of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase, and redemption activity in the fund. Accordingly, the unit value for a pooled account is classified within level 2 of the valuation hierarchy. The Plan invests in the custodians' separate accounts, which invest in various types of securities. For the separate accounts there are no unfunded commitments, the units can be redeemed daily, and there is no redemption notice period.

Minnesota Life General Account: Fair value is determined by discounting future cash flows based on current yields of similar investments with comparable durations.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

NOTE 6 - GUARANTEED FUNDS

AMERITAS LIFE GUARANTEED ACCOUNT -

In 2005, the Plan entered into a fully benefit-responsive guaranteed investment account contract with Ameritas Life. Ameritas Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Ameritas Life is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment account. The guaranteed investment account is presented on the face of the statement of net assets available for benefits at fair value which approximates contract value as of as of September 30, 2014 and 2013. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Interest rate guarantees are backed by assets held by the Ameritas Life general account. Credited rates are set based on yields earned on new purchases of fixed income securities for the general account for new deposits each quarter. Subsequent renewal rates are based on the investment performance of the general account at the time of renewal. Credited rates are guaranteed for the

duration of the guaranteed period, and do not vary with the subsequent performance of assets of the general account which back these guarantees.

The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3% percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) the Plan is changed and the Company determines that it is not practicable to continue the provision of benefits under the contract, (2) the Plan is or will be terminated, (3) the Contract Holder, except for unintentional omissions, fails to furnish the Company with the information required under the contract or violates any other provision of the contract, (4) the Company receives notice that the Internal Revenue Service or a Court has made a final determination that the Plan has failed to meet the requirements for qualification, (5) as a result of restrictions, taxes or other requirements imposed by Federal or State legislation or other governmental regulations, or as a result of other economic conditions, the Company determines that it is not economically feasible to continue this class of contracts, (6) the Company provides ninety days advance written notice to the Contract Holder that it is discontinuing this contract and will no longer issue or accept contracts of this class. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring. The contract does not permit the insurance company to terminate the agreement prior to the Schedules maturity date.

The weighted average interest crediting rate is approximately 3.41% as of September 30, 2014 and, 2013.

The approximate average yields earned by the guaranteed account are as follows:

Average yields:	**2014**	**2013**
Based on actual earnings	2.01%	3.17%
Based on interest rate credited to participants	2.01%	3.17%

MINNESOTA LIFE GENERAL ACCOUNT -
General account assets are invested in the general assets of Minnesota Life. General assets are predominately fixed income investments (bonds, mortgages, private placements). A rate is established for contributions that are received in the current contract year. A second rate is established for assets already invested at the beginning of each year. This rate is based on past general account investments made by the Plan adjusted for portfolio turnover and withdrawals for

benefit payments. All benefit payments prior to contract liquidation are made at book value (principal invested plus interest earned). A participant may transfer up to 20% of the participant's general account accumulation value or $2,000, whichever is greater, out of the general account once during any 12 month period. In the case of a contract termination, a market value adjustment and/or liquidation charge may apply to general account assets. The Plan Administrator believes that contract termination is not probable of occurring at this time.

The General account held by a defined-contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The General account is considered not fully benefit-responsive due to transfer provisions in the contract that prevent the contract from meeting the definition of fully benefit-responsive, since the participant is not allowed immediate full access to the General Account balance at contract value in all situations. The fund is reported at contract value which approximates fair value as of September 30, 2014 and 2013.

The weighted average interest crediting rate is approximately 3.00% as of September 30, 2014, and 2013.

The approximate average yields earned by the general account are as follows:

Average yields:	**2014**	**2013**
Based on actual earnings	2.71%	2.56%
Based on interest rate credited to participants	2.71%	2.56%

NOTE 7 - PARTY-IN-INTEREST AND RELATED PARTY TRANSACTIONS

Plan assets are managed by Ameritas Life and Minnesota Life and are considered party-in-interest transactions under ERISA regulations. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 8 - PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 9 - TAX STATUS

The Plan has adopted a prototype plan, which has received an opinion letter dated March 31, 2008 from the IRS. The Plan has been amended since, however, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to fiscal 2011.

NOTE 10 - NONEXEMPT TRANSACTIONS

During December 2013 and February 2014 certain participant contributions in the amount of $92 were not deposited with the custodian on a timely basis in accordance to the DOL regulations, resulting in lost earnings of $4 (prohibited transaction amount) which was deposited into the Plan by the Company in June 2015. The Company made the necessary excise tax filing with the IRS in June 2015.

NOTE 11 - SUSEQUENT EVENT

Effective October 1, 2014, the discretionary nonelective contribution source became 100% vested**.** In addition, the discretionary matching contribution and discretionary nonelective contribution are no longer subject to completion of at least 1,000 hours of service during the plan year and employment at the end of the plan year.
