To the Trustees of the
Arrow Gear Company Incentive Savings Plan

We have audited the financial statements of Arrow Gear Company Incentive Savings Plan (the Plan) for the year ended December 31, 2014, and have issued our report thereon dated July 10, 2015. As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated February 4, 2015. Professional standards also require that we communicate to you the following information related to our audit:

SIGNIFICANT AUDIT FINDINGS

Qualitative Aspects of Accounting Practices

Management is responsible for selection and use of appropriate accounting policies. The significant accounting policies of the Plan are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed significantly during 2014. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statement was:

- The market value of the investments at December 31, 2014.

The financial statement disclosures are neutral, consistent and clear.

DIFFICULTIES ENCOUNTERED IN PERFORMING THE AUDIT

We encountered no significant difficulties in dealing with management in performing and completing our audit.

CORRECTED AND UNCORRECTED MISSTATEMENTS

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. We found no misstatements during the audit.

DISAGREEMENTS WITH MANAGEMENT

For purposes of this letter, professional standards define a disagreement with management as a financial, accounting, reporting or auditing matter, whether or not resolved to our satisfaction that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

MANAGEMENT REPRESENTATIONS

We have requested certain representations from management that are included in the management representation letter dated July 10, 2015.

MANAGEMENT CONSULTATION WITH OTHER INDEPENDENT ACCOUNTANTS

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion", on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

OTHER MATTERS

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of you and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

OTHER AUDIT FINDINGS OR ISSUES

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditor. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

ARROW GEAR COMPANY
INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

(1) SUMMARY DESCRIPTION OF PLAN:

The following description of the Arrow Gear Company (the Company) Incentive Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The financial statements were available to be issued on July 10, 2015, with subsequent events being evaluated through this date.

General -

The Plan is a 401(k) plan covering all full-time, eligible employees of the Company who have completed 500 hours of service during any six-month period, are age twenty-one or older, and elect to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions -

Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 25% of the deferral that a participant contributes to the Plan, up to $4,800 for union and non-union employees. Contributions are subject to certain IRS limitations.

Participant Accounts -

Each participant shall have an income deferral contribution account and an employer contribution account. These accounts are credited with the participant's contribution and an allocation of a) the Employer's contribution and b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. A participant is 100% vested after five years of continued service.

Forfeited Accounts -

Forfeited balances of terminated participants' non-vested accounts are used to reduce employer contributions and/or administrative expenses. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $5,444 and $4,156, respectively.

(1) SUMMARY DESCRIPTION OF PLAN: (Continued)

Investment Options -

Upon enrollment in the Plan, a participant may direct contributions in any of eighteen investment options. Participants may change their investment options at any time during the year.

Participant Notes Receivable -

Participants may borrow up to an amount equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms may not exceed five years, unless it is for the purchase of a primary residence, in which case it is 15 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Interest rates applicable to all outstanding loans are in the range of 4.25% to 5.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits -

On termination of service, a participant may elect to receive either a lump sum amount equal to the value of his/her vested account balance, or annual installments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and his designed beneficiary. Participants may elect to defer payment of their benefit until a later date (if the value of the vested benefit is greater than $5,000).

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting -

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition -

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices that represent the net asset value of shares held by the Plan at year end.

Payments of Benefits -

Benefits are recorded when paid.

Estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Expenses -

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(3) INVESTMENT CONTRACTS:

The Plan has a deposit contract with Principal Trust Company (Principal). Principal maintains the contributions in participant directed accounts. The accounts are credited with actual earnings on the underlying investments and charged for Plan withdrawals.

(4) INVESTMENTS:

Appreciation or depreciation in the market value of an investment held both at the beginning and end of the year is equal to the difference between the market value at the beginning and end of the year. Appreciation or depreciation in the market value of an investment acquired during the year and held at the end of the year is equal to the difference between the cost and the market value of the investment at the end of the year.

Gain or loss recognized from the disposition of an investment held at the beginning of the year is equal to the difference between the market value of the disposed asset at the beginning of the year and the proceeds from disposition. Gain or loss realized from the disposition of an investment acquired during the year is equal to the difference between the cost and the proceeds from disposition.

The Plan's investments were made up of participant accounts that were invested with Principal Trust Company. The following table presents the fair market value of those investments as of December 31, 2014 and 2013 that represents 5% or more of the Plan's net assets.

(4) INVESTMENTS: (Continued)

The Plan's investments (including investments bought, sold and held during the year) for the year ended December 31, 2014, appreciated in value as follows:

Mutual funds	$	615,588
Guaranteed investment contracts		87,287

(5) FAIR VALUE MEASUREMENTS:

The Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1:

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2:

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3:

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed Investment Contracts: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

(5) FAIR VALUE MEASUREMENTS: (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014

(5) FAIR VALUE MEASUREMENTS: (Continued)

Level 3 Gains and Losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2014 and 2013:

	Level 3 Assets Guaranteed investment contracts	
	2014	2013
Balance, beginning of year	$ 4,186,201	$ 4,286,406
Realized gains	87,287	92,664
Unrealized gains relating to instruments still held at the reporting date	-	214,320
Purchases, sales, issuances, and settlements (net)	(280,075)	(407,189)
Balance, end of year	$ 3,993,413	$ 4,186,201

(6) INVESTMENT CONTRACT:

The Plan has a benefit-responsive investment contract with Principal Financial Group (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 was $3,993,413. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are revised on a quarterly basis for resetting.

(6) INVESTMENT CONTRACT: (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2014	2013
Average yields -		
Based on actual earnings	2.00%	2.25%
Based on interest rate credited to participants	2.00%	2.25%

(7) ADMINISTRATION COSTS:

The Employer has chosen to absorb certain costs of administering the Plan.

(8) PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account.

(9) TAX STATUS:

The Plan has adopted a Principal Trust Company Prototype Plan, which has received a favorable opinion letter from the Internal Revenue Service (IRS) stating that the written form of the prototype plan is acceptable under Section 401(a) of the Internal Revenue Code (IRC) and that any employer adopting this prototype plan document will be considered to have a plan qualified under Section 401(a) of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification.

The Plan administrator believes the Plan has been operated in compliance with the applicable requirements of the IRC and, therefore, the Plan and the related trust are exempt from taxation. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

(10) CERTIFIED INVESTMENTS:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Trust Company (the Trustee of the Plan).

(11) RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(12) PARTIES-IN-INTEREST:

Certain Plan investments are shares of mutual funds managed by Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Participants covered under the Plan are considered to be parties-in-interest. Participant notes receivable in the amounts of $413,694 and $432,981 at December 31, 2014 and 2013, respectively, are considered to be party-in-interest investments.
