NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

Note 1: DESCRIPTION OF PLAN- (continued)

Notwithstanding the foregoing, participants shall have a fully vested interest in their employer contribution, deferred and rollover accounts upon death, total and permanent disability, or retirement upon attainment of age 65.

Upon termination of employment of participants who were not fully vested in their employer accounts, the non-vested portion of their employer accounts shall be segregated in a separate account, until the participants have a period of break in service of five years or they receive a distribution of the vested portion of their accounts, if earlier. If the former participants are not re-employed by Company or an affiliated company before they have a period of break in service of five years or receive such a distribution, the non-vested portion of their employer accounts, so segregated, shall be forfeited. Total forfeited amounts allocated to individual accounts were $1,283 and $2,266 for 2014 and 2013, respectively.

E. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participants' Loans Receivable Fund. Loans must be repaid within 5 years, unless the loan is used to acquire a principal residence. The loans are secured by the balance in the participant's principal account and bear a reasonable rate of interest. NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-

A. The accompanying financial statements have been prepared on the accrual basis of accounting. In accordance with the policy of stating investments at fair value, net unrealized appreciation or depreciation for the year is reflected in the statement of changes in net assets available for benefits.

B. In preparing the financial statements in conformity with accounting principles generally accepted in the United States, the plan administrator is required to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, and also the reported amounts of changes in net assets during the reporting periods. Actual results could differ from those estimates and assumptions.

C. Investments are stated at fair value based upon quoted market prices, if available. Market interest rate, investment interest rate and present value calculations, as applicable, are considered in determining fair value when quoted market prices are not available. The moving average cost basis is used in determining the cost of investments sold. Participant loans receivable are valued at the amount borrowed less principal repayments.

D. Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest.

E. Benefits are recorded when paid.

F. Subsequent events were evaluated through July 16, 2015 which is the date the financial statements were available to be issued.

Note 3: RISKS AND UNCERTAINTIES-

The Plan provides for various investments in debt and equity securities. Investments in securities are generally exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

In accordance with the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA (29 CFR 2520.103-8), the examination and report of an independent public accountant need not extend to any statement or information prepared and certified by a bank or an insurance carrier that is regulated. The plan administrator has accordingly elected this method of compliance. Accordingly, all information shown on the statements of net assets available for benefits and the statement of changes in net assets available for benefits was prepared from reports certified by the trustee, Fidelity Management Trust Company, except for amounts relating to contributions and distributions, and has not been audited by the Plan's independent auditors.

Note 6: FAIR VALUE MEASUREMENTS-

A. The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE 6: FAIR VALUE MEASUREMENTS- (continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

B. The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded (Level 1 Fair Value Measurement).

Note 7: TAX STATUS-

The Internal Revenue Service issued a determination letter dated March 31, 2008, stating that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC) as of January 30, 2006. The plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. Furthermore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt for the years ended December 31, 2014 and 2013.

Note 8: TRANSACTION WITH PARTIES-IN-INTEREST-

The Plan's investments in mutual funds held by the trustee are considered to be party-in-interest transactions. The Fidelity Money Market Trust Retirement Money Market Portfolio is held by the trustee. Also the Participants' Loans Receivable Fund represents party-in-interest transactions.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

Note 1: DESCRIPTION OF PLAN- (continued)

Notwithstanding the foregoing, participants shall have a fully vested interest in their employer contribution, deferred and rollover accounts upon death, total and permanent disability, or retirement upon attainment of age 65.

Upon termination of employment of participants who were not fully vested in their employer accounts, the non-vested portion of their employer accounts shall be segregated in a separate account, until the participants have a period of break in service of five years or they receive a distribution of the vested portion of their accounts, if earlier. If the former participants are not re-employed by Company or an affiliated company before they have a period of break in service of five years or receive such a distribution, the non-vested portion of their employer accounts, so segregated, shall be forfeited. Total forfeited amounts allocated to individual accounts were $1,283 and $2,266 for 2014 and 2013, respectively.

E. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participants' Loans Receivable Fund. NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-

A. The accompanying financial statements have been prepared on the accrual basis of accounting. In accordance with the policy of stating investments at fair value, net unrealized appreciation or depreciation for the year is reflected in the statement of changes in net assets available for benefits.

B. In preparing the financial statements in conformity with accounting principles generally accepted in the United States, the plan administrator is required to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, and also the reported amounts of changes in net assets during the reporting periods. Actual results could differ from those estimates and assumptions.

C. Investments are stated at fair value based upon quoted market prices, if available. Market interest rate, investment interest rate and present value calculations, as applicable, are considered in determining fair value when quoted market prices are not available. The moving average cost basis is used in determining the cost of investments sold. Participant loans receivable are valued at the amount borrowed less principal repayments.

D. Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest.

E. Benefits are recorded when paid.

F. Subsequent events were evaluated through July 16, 2015 which is the date the financial statements were available to be issued.

Note 3: RISKS AND UNCERTAINTIES-

The Plan provides for various investments in debt and equity securities. Investments in securities are generally exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 5: INFORMATION CERTIFIED BY THE TRUSTEE-

In accordance with the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA (29 CFR 2520.103-8), the examination and report of an independent public accountant need not extend to any statement or information prepared and certified by a bank or an insurance carrier that is regulated. The plan administrator has accordingly elected this method of compliance. Accordingly, all information shown on the statements of net assets available for benefits and the statement of changes in net assets available for benefits was prepared from reports certified by the trustee, Fidelity Management Trust Company, except for amounts relating to contributions and distributions, and has not been audited by the Plan's independent auditors.

Note 6: FAIR VALUE MEASUREMENTS-

A. The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

PLAN EIN: 36-2978786

PLAN NUMBER: 002

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE 6: FAIR VALUE MEASUREMENTS- (continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

B. The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded (Level 1 Fair Value Measurement).

Note 7: TAX STATUS-

The Internal Revenue Service issued a determination letter dated March 31, 2008, stating that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (IRC) as of January 30, 2006. The plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. Furthermore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt for the years ended December 31, 2014 and 2013.

Note 8: TRANSACTION WITH PARTIES-IN-INTEREST-

The Plan's investments in mutual funds held by the trustee are considered to be party-in-interest transactions. The Fidelity Money Market Trust Retirement Money Market Portfolio is held by the trustee. Also the Participants' Loans Receivable Fund represents party-in-interest transactions.
