Note 1 - Description of the Plan and Significant Accounting Policies

The following description of the Colorado Rockies 401(k) Savings and Investment Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established July 16, 1993 under the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended in 2002, 2005, 2006, 2009, 2010, and 2012. The Plan's investments are held by Great-West Trust Company, LLC ("Great-West"). On April 18, 2014, the Plan changed trustees from Frontier Trust Company ("Frontier") to Great-West. The change in trustees resulted in the Plan adopting a new Plan document with substantially the same provisions as the previous document. The Plan is available to substantially all non-union employees of the Colorado Rockies Baseball Club, Ltd. (the "Club") who are age 21 years or older and have completed one year of service, as defined by the Plan agreement. Upon meeting eligibility requirements, an employee may enter the Plan on January 1, April 1, July 1, or October 1 following his or her anniversary date.

In 2003, the Plan was revised to specifically exclude employees of Event Services, LLC. In 2012, the Plan was restated to define the eligibility computation period for the first year as the anniversary of the employee's hire date; subsequent periods are based on the Plan year. In 2012, the Plan was also restated to specifically exclude employees working in Puerto Rico.

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. Actual results could differ significantly from these estimates.

Contributions

Participants may make before-tax contributions from 1% to 50% of their annual compensation, not to exceed \$17,500 in 2014 as limited by the Internal Revenue Service ("IRS"), which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Additional catch-up contributions, not to exceed \$5,500 in 2014, are available to any participant who is age 50 or older and has made the maximum contributions for the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions.

Employees are eligible to contribute on an after-tax basis through payroll deductions from 1% to 50% of eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of contributions and any earnings are tax-free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by the IRS or the Plan-imposed limit of 50% of annual compensation.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

The Club may make a discretionary contribution, which is determined and approved by the Club. For the year ended December 31, 2014, the Club approved a matching contribution on a dollar-for-dollar basis of the first 2% of the participant's contributions and 50% of the participant's contributions in excess of 2% and up to 4%, not to exceed \$1,500 per employee. Matching contributions were \$304,024 for the year ended December 31, 2014.

Participants' Accounts

Each participant's account is credited or charged with the participant's contributions, an allocation of the Club's contributions, expenses, and Plan earnings or losses. Allocations are based upon Plan earnings or losses and account balances, as defined in the Plan document. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are vested immediately in their contributions, employer contributions, expenses, and earnings or losses thereon.

Participant Loans Receivable

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balances and may not have more than one loan outstanding at a time. Participants are not permitted to borrow from the portion of their account balances representing Roth deferrals. The loans are secured by the balances in the participants' accounts and bear interest at 5.25%, which is commensurate with local prevailing rates, as determined by the Plan administrator, and mature at various dates through September 2043. Loans have a maximum term of five years, unless such loan is for the purchase of the participant's primary residence, in which case the repayment period may not exceed 30 years from the date of the loan origination. Principal and interest is paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost plus accrued interest.

Payment of Benefits

Upon death, disability, normal retirement, or termination of service, a participant is entitled to receive a distribution of the participant's account balance. A participant may have the distribution paid through a lump-sum distribution, transferred directly to an individual retirement account established for the participant, or transferred to another retirement plan account that the participant has in another qualified retirement plan. Participant accounts with balances less than \$1,000 may be immediately paid through a lump-sum upon a distribution event. Account balances more than \$1,000 but not more than \$5,000 will be rolled over to an individual retirement account if distribution instructions are not received by the participant following communication. The Plan allows for hardship withdrawals if certain criteria are met. Benefits are recorded as distributions to participants when paid.

Investment Valuation and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The Plan invests in a fully benefit-responsive group annuity contract. Consistent with current accounting standards, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by generally accepted accounting principles, the statements of net assets available for benefits present the fair value of the investment. No adjustment of the investment from fair value to contract value was required as contract value approximated the fair value as of December 31, 2014.

The valuation technique used to measure fair value of the guaranteed investment contract (Level 2) is a discounted cash flow valuation methodology where the interest rate for the guaranteed investment contract is reset at least annually and correlates closely with historical crediting rates.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties (continued)

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events requiring recognition or disclosure in the financial statements.

Note 2 - Investments

Great-West and Frontier have certified in writing to the Plan administrator that the fair value of investments and loans at amortized cost as of December 31, 2014 and 2013, respectively, and the income earned or lost thereon for the year ended December 31, 2014, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustees, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule.

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

COLORADO ROCKIES 401(k) SAVINGS AND INVESTMENT PLAN

Notes to Financial Statements

Note 4 - Group Annuity Contract

The Plan has entered into a fully benefit-responsive guaranteed group annuity contract with Great-West. Contributions to the contract purchase a contractual or guaranteed amount of future benefits. The guarantees and returns of the contract are backed by the claims-paying ability of Great-West. The contract is included in the financial statements at fair value as of December 31, 2014, as reported to the Plan by Great-West, which approximates contract value. Contract value represents contributions made under the contract, plus interest, less participant withdrawals. Within the contract, the Plan holds fully benefit-responsive accounts. Fully benefit-responsive accounts have no liquidity restrictions.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan's average yield and crediting interest rate in the contract was 1.23% for the year ended December 31, 2014; the rate is set on a quarterly basis. The Plan did not hold the contract as of December 31, 2013. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long-term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions.

Note 5 - Income Taxes

The Plan did not obtain a Plan-specific determination letter, as it operates with the trustee's determination letter, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Administration of the Plan

The Plan maintains an account funded by participant balances to pay certain recordkeeping and advisory fees related to the Plan. During the year ended December 31, 2014, \$55,463 was deposited to the account and \$48,737 was paid from the account. At December 31, 2014, the balance of this account was \$16,329 and is included in the accompanying statements of net assets available for benefits under the caption group annuity contract. The Club may cover certain expenses of the Plan as considered necessary. Plan participants are responsible for certain transaction costs, such as loan origination costs.

COLORADO ROCKIES 401(k) SAVINGS AND INVESTMENT PLAN

Notes to Financial Statements

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Club has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 8 - Parties-in-Interest Transactions

The Plan provides for loans to participants who are parties-in-interest. A Plan investment is a group annuity contract (Note 4), which is managed by Great-West. Great-West is the asset trustee, as defined by the Plan; therefore, this transaction qualifies as party-in-interest. These transactions are exempt from the prohibited transaction rules.
