1. Description Of The Plan

The Ralph Korte Enterprises Profit-Sharing/Thrift Plan (the Plan) is a defined contribution plan sponsored by Korte Construction Company (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

The Plan was established January 1, 1985 and has subsequently been amended. All full time employees of the Company, other than individuals represented by a collective bargaining agreement, are eligible the first of the month subsequent to their hire date, if age 21 or older. Temporary employees of the Company, other than individuals represented by a collective bargaining agreement, are eligible the first of the month subsequent to completion of 1,000 hours of service with the Company, if age 21 or older. Each participant's account is credited with the participant's salary deferral contribution and earnings thereon and an allocation of any Company contributions and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants are permitted to direct the investment of their contributions into the available investment funds. Participants can also direct their contributions and any employer matching contributions into a self-directed brokerage account. All employee contributions to the Plan are fully vested and nonforfeitable. Company matching and discretionary contributions are subject to a five-year graded vesting schedule.

Contributions

Participants may elect to contribute from 1% to 60% of eligible compensation, as defined by the Plan. Additionally, participants age 50 and over may make "catch-up contributions." Participants may also make rollover contributions to the Plan, provided such rollover amounts meet the criteria for transfer as established under the Internal Revenue Code (IRC).

Participant deferrals for 2014 and 2013 are net of payments of $3,451 and $7,914, made in 2015 and 2014, respectively, to certain active participants to return excess contributions. These payments are required to satisfy the relevant nondiscrimination provisions of the Plan, and they are included in the Plan's statement of net assets available for benefits as excess contributions payable for the years ended December 31, 2014 and 2013.

During 2014, the Plan was amended to allow the Company to make matching contributions on catch-up contributions.

During 2013, the Plan was amended to provide for automatic enrollment upon meeting eligibility requirements. Participants are automatically enrolled 30 days following the date of eligibility at a default salary deferral of 6% of compensation.

The Plan permits the Company to make matching contributions on amounts up to 6% of eligible compensation deferred by a participant. Effective September 2014, the Company matched 50% of the first 4% of employee compensation deferred and an additional 0.25% for every 1% of employee compensation deferred after that point, up to a maximum of 3% match. The matching contributions for 2014 amounted to $54,819. The Company elected not to make any matching contributions during 2013. Under the provisions of the Plan, the employer is permitted to make additional discretionary contributions, but is not required to do so. There were no additional discretionary contributions made in 2014 or 2013.

During 2014, the Plan Sponsor made a corrective contribution to the Plan. The funds were contributed in response to a misinterpretation of the eligibility requirements of the Plan. The contribution receivable related to the payment amounted to $53,898 at December 31, 2013.

All contributions are subject to applicable limitations. In any event, participants become fully vested upon death, disability, or reaching normal retirement age of 65.

Payment Of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship withdrawals are permitted under the Plan in certain circumstances and are limited to employee contributions and earnings thereon.

Forfeitures

Forfeited benefits are allocated in accordance with the Plan Agreement. Total nonvested forfeited benefits amounted to $22,363 and $20,951 in 2014 and 2013, respectively. The amount of unallocated assets due to forfeitures of nonvested Company contributions totaled $21,800 and $13,376 as of December 31, 2014 and 2013, respectively.

Plan Termination

The Company expects to continue the Plan indefinitely but reserves the right to terminate the Plan in whole or in part subject to the provisions of ERISA. In the event of termination, all participants would become 100% vested in the Company contributions.

Administration

The Plan is administered by the Company. The Company pays certain administrative expenses of the Plan. Investment management fees and certain other expenses are paid by the Plan.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks And Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation And Income Recognition

The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through July 14, 2015, the date which the financial statements were available for issue.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, net appreciation in fair value of investments, interest, dividends, investment expenses for the years then ended, were supplied by Fidelity Management Trust Company (Fidelity). This information, which has not been audited by the Plan's independent auditors, has been certified by Fidelity as complete and accurate.

All investments in the Plan are participant-directed.

The following presents the fair value of investments that represent 5% or more of the Plan's net assets at the end of the respective Plan year:

	December 31,

* Investment does not represent 5% or more of net assets as of the end of the respective Plan year.

During 2014 and 2013, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated (depreciated) in value as follows:

	2014	2013
Mutual funds	**$ 371,513**	$ 2,748,475
Self-directed investments	**30,538**	(56,837)
Net appreciation	**$ 402,051**	$ 2,691,638

4. Fair Value Measurements

The Plan follows accounting standards, which establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trust

Valued using the fair market value of the underlying investments and then adjusted by the issuer to the contract value.

Self-Directed Brokerage Accounts

This category includes common and preferred stocks, mutual funds, and cash and cash equivalents. These investments are valued at the closing price reported on the active market on which the individual securities are traded. Cash equivalents are valued at the NAV of shares held by the Plan at year end.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

There have been no changes in the methodologies used at December 31, 2014 or 2013.

5. Income Tax Status

The Company has adopted the Fidelity Basic Plan Document No. 14 for the years ended December 31, 2014 and 2013. Fidelity has received an opinion letter dated March 31, 2008, in which the Internal Revenue Service (IRS) stated that the standardized plan, as designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since the latest determination letter. However, the Plan Administrator believes that the Plan, as amended, is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes the Plan, as amended, was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's federal tax returns for tax years 2011 and later remain subject to examination by taxing authorities.

6. Party In Interest

Transactions with parties in interest consist of purchases and sales of assets through Fidelity. Management believes the fees paid to Fidelity for brokerage commissions, which are paid by the Company, are based on customary and reasonable rates for such services.
