Note 1 - Plan Description

The following description of The Way International 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit plan covering all eligible employees of The Way International (The Way or the "Company"). In order to be eligible for employee contributions, an employee must have completed 1,000 hours of service during (1) the 12-month period following the date of hire or (2) the plan year. To be eligible to enroll in the salary reduction portion of the Plan, an employee must have completed 12 months of service and be credited with 1,000 hours of service. In order to be eligible for an allocation of employer contributions, an employee must have completed eight years of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants can contribute a portion of their compensation as a pretax contribution to the Plan, up to the maximum allowed under the Plan and the Internal Revenue Code.

In 2014 and 2013, The Way made employer-matching contributions of $2 for every $1 that an employee contributed, up to a designated limit based on the employee's years of service. The employee is required to make salary reduction contributions in order to receive an employer contribution.

Participant Accounts - Employee and employer contributions are placed into investment accounts, which are credited with gains and losses daily. Earnings and losses are allocated to each participant's account on the basis of the ratio of the participant's account balance to the total account balances of all participants in the same investment. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately 100 percent vested in employee salary reduction and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. A participant is 100 percent vested after three years of credited service.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions.

Benefit Payments - Upon termination of service due to death, disability, or retirement, the only form of payment is a single lump-sum amount equal to the value of the participant's vested interest in his or her account. The normal retirement age for the Plan is 65. Benefits are recorded when paid.

Note 1 - Plan Description (Continued)

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. Investments in the money market fund are valued at their outstanding balance, which approximates fair value. Mutual funds are stated at fair value based on quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Capital Bank and Trust Company or its affiliates. Capital Bank and Trust Company is the trustee of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 9, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Investment Information

Capital Bank and Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments in end of year net assets are as follows:

	2014	2013
American Funds New Perspective Fund R3	$ 1,957,021	$ 1,856,106
American Funds American Balanced Fund	1,959,775	1,755,037
American Funds Invest Co of America R3	1,975,133	1,719,380
American Funds AMCAP Fund R3	1,777,667	1,555,132
American Funds Growth Fund of America R3	1,498,175	1,383,098
PIMCO Total Return Fund	1,008,914	964,612
American Funds Money Market Fund R3	879,328	827,337

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated May 26, 2011 indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Note 5 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Total	$ 12,172,896	$ 827,337	$ -	$ 13,000,233

Note 5 - Fair Value Measurements (Continued)

(1) The fund invests substantially in U.S. Treasury securities and other securities backed by the full faith and credit of the U.S. government, as well as securities issued by U.S. federal agencies. The fund may also invest in other high-quality money market instruments.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2014 and 2013.
