INDEPENDENT AUDITOR'S REPORT

To the Trustees of the
EDO Corporation Employee Investment Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of EDO Corporation Employee Investment Plan, which comprise the statements of net assets available for benefits as of July 31, 2014 and December 31, 2013, and the related statement of changes in net assets available for benefits for the period of January 1, 2014 through July 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Principal Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of July 31, 2014 and December 31, 2013 and for the period of January 1, 2014 through July 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

Effective July 31, 2014 the Plan has been merged into the Exelis Salaried Investment and Savings Plan.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following brief description of EDO Corporation Employee Investment Plan (Plan) is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Effective July 31, 2014 the Plan has been merged into the Exelis Salaried Investment and Savings Plan.

General

The Plan is a defined contribution plan covering employees of EDO Corporation (Company) and is subject to the provisions for the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Employees generally become eligible for participation on the first month following a full month of service with 100% vesting upon completion of 36 months of service.

The Plan is a profit sharing plan intended to satisfy all requirements of Section 401(a) of the Internal Revenue Code (Code) and includes a cash or deferred arrangement intended to satisfy the requirements of Section 401(k) of the Code.

Plan Amendments and Merger

Effective December 31, 2009, the Plan was frozen with respect to eligibility to participate and contributions. In addition, as of December 31, 2009, all participants are fully vested.

During the 2014 plan year, the Board of Trustees approved a merger whereby the Plan will merge all its assets and liabilities into the Exelis Salaried Investment and Savings Plan (Exelis ISP). This action was agreed to in concept by the Board of Trustees of both Plans and the merger was executed on July 31, 2014.

Contributions

As noted above, effective December 31, 2009, the Plan was frozen with respect to eligibility and contributions.

Benefits

The purpose of the Plan is to provide retirement benefits to employees of the Company who made contributions to the Plan through a salary reduction agreement. The Plan was adopted to provide an opportunity for participating employees to benefit from tax-deferred savings in accordance with Section 401(k) of the Code, in addition to any benefits otherwise provided by the Plan.

Note 1 - Description of Plan (Continued)

Distributions Under the Plan

Participants are entitled to receive a distribution of their vested interest in their account upon termination of employment other than by reason of death. In the event of the participant's death, the beneficiary or beneficiaries of the participant are entitled to receive a distribution of the participant's vested interest in the Plan.

Vesting

As of December 31, 2009, all participants were fully vested as noted above.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Under the terms of the Plan, participants may borrow from their accounts up to \$50,000 or 50%, whichever is less, of their vested balances. The interest rate charged by the Plan is based on the prime rate plus 1%, as published in the Wall Street Journal on the first business day of the month in which the loan is originated, and remains the same throughout the term of the loan. General purpose loan terms range from one to sixty months. If the loan is used in the purchase of a primary residence, the loan term can be for a period of up to one hundred eighty months. Participants may have two loans outstanding at the time. As of July 31, 2014, all loans were transferred out of the Plan and into the Exelis Salaried Investment and Savings Plan.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment income (loss) derived from registered investment companies, common collective trust and pooled separate accounts, including unrealized and realized gains and losses and dividend income, are respectively included in separate line items for each investment type in the accompanying financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivables from participants are recorded as a distribution based upon terms of the plan document.

Distributions

Distributions to participants are recorded when paid.

Administrative Expenses

The Company pays certain administrative expenses on behalf of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events and transactions through July 6, 2015, the date the financial statements were available to be issued.

Note 3 - Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets available for benefits.

	December 31,	
	2014	2013
Dodge & Cox Balanced Fund	\$ -	\$ 24,220,244
Fidelity Contra Fund	-	18,590,692
Neuberger Berman Genesis Asset	-	22,037,330
PIMCO Total Return Fund	-	26,443,244
Principal Large-Cap S&P 500 Index	-	24,279,507
Principal Stable Value Fund	-	93,492,587

As stated in Note 9, the common collective trust, which is deemed to be fully benefit-responsive, is stated at fair value on the statements of net assets available for benefits, with a corresponding adjustment to contract value. The contract value of this investment at December 31, 2013 was \$92,926,707.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated June 1, 1995, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation.

The Plan obtained its latest determination letter on September 24, 2013, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Code. The Plan Sponsor and Administrator believe that the Plan is being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of July 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2011.

EDO CORPORATION EMPLOYEE INVESTMENT PLAN
Notes to Financial Statements
July 31, 2014 and December 31, 2013

Note 6 - Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and amounts reported in the statements of net assets available for benefits.

Note 7 - Related Party Transactions

Certain Plan investments are shares of pooled separate accounts managed by Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$31,415 for the period of January 1, 2014 through July 31, 2014.

Note 8 - Investment Contract

The Plan has purchased a common collective trust investment with Principal, which holds the benefit-responsive investment contract. The contract is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at fair value. The adjustment from fair value to contract value is based on the contract value as reported to the Plan by Principal Trust Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fair value of the investment contract at December 31, 2013 is \$93,492,587.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Principal Trust Company. The plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

Note 9 - Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the trustee has certified that the following data included in the accompanying financial statements as of July 31, 2014 and December 31, 2013, and for the period of January 1, 2014 through July 31, 2014 is complete and accurate.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Note 10 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification (ASC) 820, Fair Market Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within its hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

EDO CORPORATION EMPLOYEE INVESTMENT PLAN
Notes to Financial Statements
July 31, 2014 and December 31, 2013

Note 10 - Fair Value Measurements (Continued)

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Registered investment companies:

Registered investment companies, which include mutual funds, are valued at the daily closing price as reported by the fund. The registered investment companies held by the Plan are deemed to be actively traded.

Common collective trust:

The common collective trust is valued at the net asset value (NAV) as determined by the custodian of the funds. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the investments in the trust, less any liabilities. Transactions may occur daily. As of December 31, 2013, the Plan had no unfunded capital commitments with respect to its investments in the funds. The funds are subject to restrictions on withdrawals. Withdrawals needed for benefit payments and loan advances of the Plan are generally permitted daily. Withdrawals for other purposes may require twelve-month advance notice to the funds. At its discretion, the funds may affect these withdrawals prior to the end of the twelve-month period.

Pooled separate accounts:

The pooled separate accounts are valued at the net asset value (NAV) as determined by the custodian of the funds. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the investments, less any liabilities. Transactions may occur daily. As of December 31, 2013, the Plan had no unfunded capital commitments with respect to its investments in the funds, nor did they have any withdrawal restrictions from the funds.

Note 10 - Fair Value Measurements (Continued)

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2013.

	Total Fair Value	Level 1	Level 2	Level 3

Change in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets. For the year ended December 31, 2013, there were no significant transfers in or out of Levels 1, 2, or 3.
