To the Board of Directors and the Plan Sponsor
Alarm Security Group, LLC 401(k) Retirement Savings Plan

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Alarm Security Group, LLC 401(k) Retirement Savings Plan (the "Plan") as of and for the year ended December 31, 2014, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Our audit did not include all of the procedures required by U.S. generally accepted auditing standards and did not include a consideration of internal control relating to the information summarized in Note C of those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This communication is intended solely for the information and use of management, the Board of Directors, and others within the Plan, and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013**

NOTE A – DESCRIPTION OF PLAN

The Alarm Security Group, LLC 401(k) Retirement Savings Plan (the "Plan") is a defined contribution plan established on February 1, 2003 by Alarm Security Group (the "Company"), based on the prototype Non-standard Profit Sharing Plan of Principal Life Insurance Company. The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 ("ERISA"), as amended.

On February 3, 2014, Plan assets totaling \$5,713,737 were transferred from John Hancock Life Insurance Company, the Plan's former Trustee to Principal Trust Company, the Plan's current Trustee.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Eligibility

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed 1,000 hours of service within one year. Employees are eligible to join the Plan at the beginning of each quarter. Eligible employees are automatically enrolled into the Plan to defer 1% of pay until they formally decline enrollment online.

Contributions

Participants may contribute a minimum of 1% and a maximum of 100% of their annual pre-tax or after-tax (Roth) compensation, as defined in the Plan, not to exceed the maximum allowable amounts under the Internal Revenue Code. Participants who are at least age 50 can make additional contributions as defined under the Internal Revenue Code.

During 2014 and 2013, there were no employer contributions to the plan.

Rollover Contributions

The Plan accepts rollover contributions from retirement funds held by participants outside of this Plan, subject to Plan provisions.

NOTE A – DESCRIPTION OF PLAN, (continued)

Investment Options

The Plan provides for participant-directed investment programs whereby the Plan determines which investment options are available and the participants may choose among the available options. Participants may have their accounts invested in any or a combination of pooled separate accounts. Participants may change their investment options at any time by re-allocating contributions among different investment alternatives. Participants may also transfer contributions into and out of investments provided under the Plan, subject to possible restrictions.

Participant Accounts

Each participant's account is self-directed and is increased by the participant's contributions (including elective deferrals, catch up contributions, after-tax contributions and/or rollover contributions), the Company's contributions, share of any investment earnings, and increases in the value of investments. Participant accounts are reduced by any withdrawals or distributions, investment losses, decreases in values of investments, and share of fees and expenses, as applicable. Allocations are based on participant earnings or account balances, as defined by the Plan provisions. The amount to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Administrative Expenses

Administrative costs, except for certain investment fees and loans fees that are paid out of the related participant accounts, are paid by the Company and have not been included in the accompanying financial statements.

Payment of Benefits

Benefits may be paid from participant accounts at the retirement age of 65, or upon death, disability or termination of employment or upon Plan termination. The taxable portion of a withdrawal is subject to federal and state income taxes and an additional tax if the participant has not reached retirement age, unless the amount is rolled over into another eligible plan or an Individual Retirement Account.

Eligible participants may request an in-service hardship distribution of elective deferrals and vested matching contributions, subject to the Plan's provisions.

NOTE A – DESCRIPTION OF PLAN, (continued)

Notes Receivable From Participants

The Plan allows active participants to borrow from their vested account balances. The minimum loan is \$1,000. Participant loans are limited to the lesser of 50% of their vested account balance or \$50,000 less the highest outstanding loan balance in the prior twelve-month period. Participants may be granted three loans during any one year period, and are permitted to have only one outstanding loan at any time and the loan must be repaid within a five-year period, unless the loan is for the acquisition of a primary residence. Loans are secured by the balance in the participant's account, and bear interest at a rate commensurate with local prevailing rates. The interest rate shall remain fixed throughout the duration of the loan. Principal and interest payments are made through payroll deductions.

Vesting

Participants are immediately vested in their contributions plus actual earnings on elective deferral contributions. All contributions are 100% vested upon attaining normal retirement age, death or disability. Employer contributions not already fully vested when made (i.e. Safe Harbor matching) are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested Interest</u>
1	0%
2	25%
3	50%
4	75%
5 or more	100%

Forfeited Accounts

Forfeitures attributable to matching contributions not required to pay administrative expenses will be applied to reduce Company contributions in the current or next succeeding Plan year.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and in the disclosures of contingent assets and liabilities. Accordingly, actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received upon sale of an asset or paid on transfer of a liability in an orderly transaction between market participants at the measurement date. The noninterest-bearing cash is stated at cost, which equals fair value. An insurance company pooled separate account is when several plans participate in a separate account plan held by the insurance company. The separate account plan's assets are held by the insurance company but are not commingled with the insurance company's general assets. Each plan's share of a pooled separate account is determined on a participation-unit basis. The fair value of participation units in the pooled separate accounts, as estimated by John Hancock Life Insurance Company (U.S.A.) is based on quoted redemption value on the last business day of the year.

Purchases and sales of investments are recorded on a trade date basis. Interest and dividend income is recorded when earned. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Principal Fixed Income Guaranteed Option is a benefit-responsive group annuity contract issued by Principal Life Insurance Company ("Principal Life") with a fixed rate of interest. The Principal Fixed Income Guaranteed Option contract guarantees principal and provides a stated crediting rate backed by Principal Life. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a Stable Value fund. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract.

The Principal Fixed Income Guaranteed Option contract is reported at contract value, which approximates fair value. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. The contract value was \$1,225,307 as of December 31, 2014. A rate of interest contractually guaranteed by Principal Life is credited to participant account balances.

Investment Valuation and Income Recognition – continued

As of December 31, 2014, the net crediting rate was 2%.

Notes Receivable From Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Contributions

Employee contributions are recorded in the period that the Company makes payroll deductions from the participant's earnings. Employer contributions, if any, are made the next plan year after the contribution has been calculated.

Payment of Benefits

Benefit payments to participants are recorded when paid.

NOTE C – INVESTMENTS

All of the investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at year-end, net appreciation (depreciation) in fair value of investments, interest, and dividend income for the year then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the trustees; Principal Trust Company from February 1, 2014 to December 31, 2014, and John Hancock Life Insurance Company from January 1, 2014 to January 31, 2014, and during 2013..

DECEMBER 31, 2014 AND 2013
(continued)

NOTE D – RELATED PARTY TRANSACTIONS

Principal Trust Company is the Plan's current Trustee, as defined by the Plan as of February 1, 2014. Fees paid to Principal Trust Company by the Plan for contract administrative services totaled \$11,164 during the year ended December 31, 2014. John Hancock Life Insurance Company was the trustee from January 1, 2014 to January 31, 2014, and during 2013. Fees paid to John Hancock Life Insurance Company for contract administrative services totaled \$1,388 and \$18,916, respectively for the years ended December 31, 2014 and 2013.

NOTE E – INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined as of March 31, 2008, Principal Life Insurance Co. Non-standardized Profit Sharing Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Proto-type Plan was adopted by the Company on February 1, 2014.

NOTE E – INCOME TAX STATUS, (continued)

The Plan Administrator is not aware of any course of action or series of events that have occurred that might affect the Plan's tax exempt status, and therefore, believes that the Plan and the related trust are tax-exempt. The Company believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE F – PRIORITIES UPON PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to amend the Plan, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances as of the date of termination.

NOTE G – RISKS AND UNCERTAINTIES

The Plan provides for investments in various investment securities that are exposed to various risks such as interest rate, credit risks, and overall market volatility. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

NOTE H – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include a) quoted prices for similar assets or liabilities in active markets; b) quoted prices for identical or similar assets or liabilities in inactive markets; c) inputs other than quoted prices that are observable for the asset or liability; and d) inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Fair value of participation units estimated by Principal Life Insurance Company and John Hancock Life Insurance Company based on the underlying assets which are generally invested in marketable securities.

NOTE H – FAIR VALUE MEASUREMENTS, (continued)

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Noninterest bearing cash: Valued at cost, which approximates fair value.

Money market funds: Valued at the estimated fair value, which equals cost.

Guaranteed insurance contract: Valued at contract value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014
