1. DESCRIPTION OF THE PLAN:

The following brief description of the Jack's Aquarium & Pets Salary Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, with a profit sharing provision, covering all employees (except union and non-resident aliens) who have attained the age of 19 and completed three months of employment for Jack Brenner Investments, Inc. dba Jack's Aquarium & Pets (the "Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan termination

The company was acquired by Pet Valu on December 19, 2014. The plan was terminated on December 18, 2014 and all participants would be enrolling in the Pet Valu plan. As a result all participant balances will be fully disbursed on April 17, 2015 with all participants becoming fully vested as of the termination date.

Contributions

Each year, participants may contribute up to the maximum percentage and dollar limits permissible under Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. At its discretion, the Sponsor can elect to make matching contributions, as well as non-elective contributions to the Plan. The matching contribution was 50% up to the first 4% of employee deferrals for the years ended December 31, 2014 and 2013.

Participant accounts

Each participant's account is credited with the participant's contributions, Sponsor matching contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants became fully vested on December 18, 2014.

Payment of benefits

Upon termination of service, death, disability or retirement, a distribution shall be made to the participant or beneficiary in a single lump sum payment or substantially equal annual, or more frequent installments over a period not to exceed the joint life of the participant and beneficiary. A participant who has incurred a hardship, as approved by the administrator, may elect in writing to make a hardship cash withdrawal, subject to Plan provisions.

Notes receivable from participants

The Plan does not allow for loans.

Forfeitures

Forfeitures may be used to either reduce administrative expenses or reduce future employer contributions. Forfeitures used to reduce employer contributions and administrative expenses for the years ended December 31, 2014 and 2013, totaled \$2,940 and \$1,771, respectively. The Plan had \$1,618 and \$4,827 of forfeitures available at December 31, 2014 and 2013, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

As a result of the termination, the Plan changed its basis of accounting from the accrual basis to the liquidation basis. There were no material changes to the financial statements as a result of this change in accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through June 18, 2015, the date on which the financial statements were available to be issued.

3. INVESTMENTS:

With the exception of the financial data related to the James Balanced: Golden Rainbow Fund, all financial data related to investments used in preparation of the statements of net assets available for benefits and statements of changes in net assets available for benefits as of and for the years ended December 31, 2014 and 2013, and the supplemental schedule of assets (held at year end) as of December 31, 2014 have been certified as to accuracy and completeness by the Plan's trustee, John Hancock Life Insurance Company.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end registered investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Group annuity contract: Group annuity contracts do not have a readily determinable fair value. The Plan, as permitted by accounting principles generally accepted in the United States of America, has valued its interest in the group annuity contract based on the net asset value reported by the investment manager, which is based on the fair value of the underlying securities. These securities consist primarily of registered investment companies and money market funds. The registered investment companies are valued at the published net asset value of shares held by the Plan at year end. Money market funds are valued at the net asset value of \$1, which is the price in active markets for identical assets.

5. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain expenses are paid by the Plan to third party administrator of the Plan. These transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the administrative services amounted to \$6 and \$65 for the years ended December 31, 2014 and 2013, respectively. The Sponsor pays directly any other fees related to the Plan's operation.

6. TAX STATUS:

The Sponsor has obtained a favorable determination letter for the Plan and related trust from the Internal Revenue Service dated October 29, 2008, for qualification under applicable sections of the Internal Revenue Code (IRC). Although, the plan has been amended since receiving the determination letter, the plan sponsor and the plan administrator believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain positions that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. RISK AND UNCERTAINTIES:

The Plan invests in various sub accounts through a group annuity contract managed by John Hancock Life Insurance Company. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. SUBSEQUENT EVENTS:

As discussed in Note 1 to the financial statements, the Plan's trustees approved the termination of the Plan effective December 18, 2014. As a result all Plan assets were disbursed on April 17, 2015.
