VALLEY STREAM PAYROLL CORP. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

1. Description of Plan

The following description of the Valley Stream Payroll Corp. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

a. General

The Plan, which was started January 1, 1997, is a defined contribution profit sharing plan, subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan was adopted under the provisions of Section 401(a) of the Internal Revenue Code ("IRC") and includes a cash or deferred arrangement as described in Section 401(k) of the IRC. The Plan covers all employees of the Company who have completed one year of service, have worked at least 1,000 hours during that period and attained 21 years of age. In addition to Valley Stream Payroll Corp., other companies under common ownership are participating employers of the Plan.

b. Contributions

Each year participants may elect to defer a percentage of pretax annual compensation, subject to limitations as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes a discretionary matching contribution provision which is determined on an annual basis. Matching contributions are determined based on either a percentage of salary deferrals formula or a uniform dollar amount. Certain limits on matching contributions are imposed in accordance with the terms of the plan document. The Company may at its discretion, make additional employer contributions which are allocated in accordance with provisions as outlined in the plan document. In 2014, the company did not make any profit sharing contributions to the Plan.

c. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contributions and plan earnings and are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting

Participants are immediately vested in their voluntary contributions and the Company's matching and profit sharing contributions. Participants will be 100% vested in the Company's safe harbor matching contribution after the completion of two years of service.

1. Description of Plan (continued)

e. Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or other form of payment permitted under the Plan. If the vested account balance is less than $5,000, unless the participant consents to a distribution of the vested account balance, the vested benefit will be rolled over to an IRA provider selected by the plan administrator.

f. Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of 50% of the participant's vested account balance or $50,000, reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. The interest rates at December 31, 2014 were between 5.25% and 6%. Principal and interest is paid ratably through payroll deductions.

g. Forfeited Accounts

At December 31, 2014 and 2013, the forfeited non-vested accounts were $0. Forfeitures are used to reduce future employer contributions.

2. Summary of Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid.

2. Summary of Accounting Policies (continued)

e. Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

f. Expenses

Certain expenses of maintaining the plan are paid directly by the Company and are excluded from the financial statements. Certain investment related expenses are included in the net depreciation of the fair value of investments.

3. Investments

The following table presents investments that equal or exceed 5% or more of the Plan's net assets available for benefits at December 31, 2014 and 2013.

	December 31, 2014	December 31, 2013

During 2014, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) depreciated in value by $195,810 as follows:

Mutual funds	$ (195,810)

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing prices as reported by the fund.

5. Information Certified by the Plan's Trustee

The plan management has elected the method of compliance as permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan management instructed the plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Central Bank and Trust Company, the trustee, except for comparing such information certified by the trustee to information included in the plan's financial statements and supplemental Schedule H, line 4i- Schedule of Assets (Held At End of Year)

Investments, at fair value:	2014	2013
Mutual funds	$ 9,347,636	$ 9,242,730

The trustee also certified to the completeness and accuracy of the net investment earnings as shown in the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2014 and 2013, respectively. The certification also includes all investment related information in the accompanying supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014.

6. Party in Interest Transactions and Related-Party Transactions

Plan investments include shares of mutual funds managed by MG Trust Company, LLC. MG Trust Company, LLC is the custodian for the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for investment management services are included in the net depreciation in fair value of investments, since they are paid through revenue sharing arrangements. The Plan Sponsor pays other fees related to the Plan's operation.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Tax Status

The prototype plan sponsor obtained an opinion letter dated August 30, 2001 in which the IRS stated that the Plan and related trust as then designed, were in compliance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been subsequently amended and restated, the Plan administrator believes that Plan is currently designed and operated in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Federal and New York State taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

10. Subsequent Events

The Plan has evaluated subsequent events through July 15, 2015 the date the financial statements were available to be issued.

The Plan changed its record keeper from CPI Qualified Plan Consultants, Inc. to BMO Harris Bank N.A. ("BMO") and adopted a new plan document that amends and restates the Plan, effective April 15, 2015. At the same time BMO was appointed as a directed trustee of the Plan. The change in trustees resulted in new investment options being offered for participant contributions. A "blackout " period began on April 21, 2015 and ended on May 6, 2015 at which time participant's account balances were liquidated, and the proceeds were transferred into the new investment options selected by each participant. The volume submitter profit sharing plan with a cash or deferral arrangement adopted by the Plan received a favorable determination letter from the IRS on January 27, 2015, which stated that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.
