Note 1: Description of Plan

The following description of Samuel Engineering, Inc.'s (the Company) 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who are age 21 or older. Participants may enter the Plan on the first quarterly entry date after meeting the participation requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustee and plan administrator are responsible for oversight of the Plan. The trustee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the trustee and plan administrator.

Contributions

Each year, participants may contribute pretax annual compensation to the Plan, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, domestic and international stocks, and short-term and fixed securities in pooled separate accounts, and guaranteed investment contracts as investment options for participants. Contributions are automatically invested in a designated balance fund until changed by the participant. The Company may make discretionary profit sharing contributions based on certain formulas as defined in the Plan. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary profit sharing contribution, (b) Plan earnings or losses, (c) forfeitures of terminated participants' nonvested accounts, and (d) charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provide from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after 3 years of credited service.

Note 1: Description of Plan, continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at rates determined periodically by the loan administrator which are commensurate with local prevailing rates for similar financing from commercial institutions. Principal and interest are paid ratably through monthly payroll deductions. Each participant can have only two loans outstanding at a time and may only take out one loan during any one year. During the year ended December 31, 2014, the Plan issued 8 loans to participants. At December 31, 2014 and 2013, balances of notes receivable from participants totaled $231,114 and $134,581, respectively.

Payment of Benefits

On termination of service due to death, disability, retirement, or withdrawal from the Plan, a participant may elect to receive a lump-sum cash payment, one of various annuity contracts, or a direct rollover to another qualified retirement plan, in an amount equal to the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

In accordance with Plan provisions, forfeitures may first be used to pay administrative expenses, and the remaining will be reallocated to participant accounts. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $20,718 and $28,953, respectively. These amounts will be reallocated to participants in the same manner as employer contributions after paying administrative expenses. At December 31, 2014 and 2013, $0 and $12,092 were reallocated to participants, respectively.

Administration of Plan Assets

Contributions are held and managed by Principal Financial Group, the custodian, who invests cash received, allocates interest and dividend income, and makes distributions to participants. Employees of the Company perform certain administrative functions for the Plan. Such employees do not receive compensation from the Plan.

Note 2: Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through July 17, 2015, the date at which the financial statements were available to be issued.

Note 2: Summary of Significant Accounting Policies, continued

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment from contract value to fair value. The statement of changes in net assets available for benefits is prepared using fair value for the investment contract. The Plan has no fully benefit-responsive investment contracts at December 31, 2014 and 2013.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant ceases to make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and a the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note 2: Summary of Significant Accounting Policies, continued

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Company has evaluated subsequent events through July 17, 2015, the date at which the financial statements were available to be issued, and determined that no events have occurred that required disclosure.

Note 3: Fair Values of Financial Instruments

The Plan's investments are reported at fair value in the accompanying statements of net asset available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are based upon quoted market prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Note 3: Fair Values of Financial Instruments, continued

Level 2 Fair Value Measurements

Level 2 securities consist of pooled separate accounts that invest in mutual funds, domestic stocks, international stocks, short-term securities, and fixed securities. The fair value of the mutual funds and domestic and international stocks are publically quoted pricing inputs (Level 1). The remaining securities have observable Level 2 pricing inputs from quoted prices for similar assets in active or non-active markets. Both are used in determining the net asset value (NAV) which is not publicly quoted, but are certified by the custodian.

Level 3 Fair Value Measurements

Level 3 securities consist of guaranteed investment contracts. The fair market value of the contracts is the value paid when the funds are withdrawn. Prior to their maturity if the applicable interest rate is equal to or less than the interest rate on the account, the fair market value is equal to the contract value. If the applicable interest rate is greater than the interest rate on the account the fair market value is the contract value reduced by a percentage equal to the difference between the applicable interest rate and the interest rate on the account multiplied by the number of years until the maturity date. The adjustment to reduce contract value to fair value for financial statement presentation was $18,500 and $15,340 for the years ended December 31, 2014 and 2013, respectively.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

	Fair Value	Level 1	Level 2	Level 3
Separate accounts				
Balanced/Asset	$ 2,876,092	$ -	$ 2,876,092	$ -
Small/Mid U.S. Equity	1,778,833	-	1,778,833	-
Large U.S. Equity	1,482,361	-	1,482,361	-
Fixed Income	1,139,246	-	1,139,246	-
Short-Term Fixed Income	893,959	-	893,959	-
International Equity	848,408	-	848,408	-
Investment contracts	840,204	-	-	840,204
Total assets	$ 9,859,103	$ -	$ 9,018,899	$ 840,204

Note 3: Fair Values of Financial Instruments, continued

Fair value measurements for assets recorded at fair value on a recurring basis at December 31, 2013 are as follows:

	Fair Value	Level 1	Level 2	Level 3
Separate accounts				
Balanced/Asset	$ 2,586,099	$ -	$ 2,586,099	$ -
Small/Mid U.S. Equity	1,848,241	-	1,848,241	-
Large U.S. Equity	1,108,800	-	1,108,800	-
International Equity	856,212	-	856,212	-
Short-Term Fixed Income	743,271	-	743,271	-
Fixed Income	506,026	-	506,026	-
Investment contracts	733,637	-	-	733,637
Total assets	$ 8,382,286	$ -	$ 7,648,649	$ 733,637

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the guaranteed investment contract with the insurance company for the years ending December 31, 2014 and 2013:

	2014	2013
Beginning balance	$ 733,637	$ 621,729
Total losses	(3,159)	(13,160)
Interest credited	7,012	6,496
Purchases	218,614	249,763
Issuances and settlements	(115,900)	(131,191)
Ending balance	$ 840,204	$ 733,637
The amount of total gains or losses for the year included in changes in net assets available for benefits attributable to the changes in unrealized gains or losses relating to assets held at year end	($ 3,160)	($ 13,160)

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2014 and 2013, are reported in net appreciation in fair value of investments. Unrealized gains/(losses) from the guaranteed investment contract are reported in the statement of changes in net assets available for benefits in their own lines.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2014 and 2013, there were no significant transfers into or out of Level 3.

Note 3: Fair Values of Financial Instruments, continued

The following table represents the significant unobservable inputs and the ranges of values for those inputs used to measure fair value of the Plan's Level 3 financial instruments using the income approach.

Instrument	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contract	Interest rate on account	0.36% - 1.68%
	5 year rate through 2018	0.72% - 1.97%

Note 4: Investments

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $465,817 for the pooled separate accounts and $3,853 for the guaranteed investment contracts.

The following presents investments that represent 5% or more of the Plan's net assets:

	2014	2013
Principal Life Time 2020, 42,849 and 35,400 shares	$ 969,413	$ 759,553

	$ 6,762,423	$ 5,008,808

Note 5: Guaranteed Investment Contract With Custodian

The custodian maintains group annuity contracts for retirement plans, or guaranteed investment contracts. These contracts provide a guaranteed interest rate for a specified period of time as determined by the Plan, all contracts are 5 years and range in maturity from December 31, 2015 through 2018. The interest rate credited to the contract is the rate in effect on the day when each deposit is directed to the account. To simplify reporting to plan participants, all rates credited during the 12-month deposit year are averaged into a single composite rate. The guaranteed interest accounts promise contract value for a benefit

Note 5: Guaranteed Investment Contract With Custodian, continued

event; however, there is a surrender charge when funds are withdrawn prior to their maturity, and the guaranteed interest accounts are considered non-benefit responsive.

The guaranteed interest contracts issued by the custodian are backed by a general account that does not have specific underlying assets assigned. The contracts are maintained in pooled accounts and credited with actual earnings and charged for participant withdrawals and administrative expenses. Because most transactions are executed using contract value without adjustment, contract value is the relevant measurement attribute for the nest assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 7: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not been amended since receiving the determination letter.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator and sponsor believe the Plan's tax position would be upheld under examination. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by tax authorities; however there are currently no audits of any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 8: Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and securities managed by Principal Financial Group. Principal Financial Group is the custodian and executes transactions as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amount to $34,860 for the year ended December 31, 2014. This party-in-interest transaction is exempt from the prohibited transaction rules of ERISA.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10: Reconciliation of Financial Statements to Form 5500
