MIDWEST GROUNDCOVERS 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the Midwest Groundcovers 401(k) Plan (Plan) is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, which is responsible for their integrity and objectivity.

GENERAL

The Plan provides a deferral of compensation for its participants. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to guaranteed interest accounts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the guaranteed interest and stable value fund accounts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

PAYMENT OF BENEFITS

Upon termination of service, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

2. DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering employees who have 6 months of service, 500 or more hours of service in a service period, (a service period is 6 months long), and are age twenty-one or older.

Contributions - Each year, participants may contribute from 1% to 20% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company can not contribute to the Plan. Contributions are subject to IRS limitations.

Participant Accounts - Each participant's account is credited with the participant's contributions and earnings less any administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting and Forfeitures - Participants are immediately vested in their contributions plus actual earnings thereon. There were no forfeitures during the years ended December 31, 2014 and 2013.

Investment Options - Upon enrollment in the Plan, a participant may direct employee contributions in any percentage increment into the investment options as allowed under the Plan.

Administrative Expenses - Substantially all administrative expenses are paid by the employer. These expenses include insurance, auditing, actuarial and legal expenses. The expenses that are paid from Plan assets will be shared by all participants on either a pro-rata or on an equal dollar basis.

3. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan is involved in a contract with Principal Financial Group (Principal). Principal maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals, as well as the participants' pro-rata portion of administrative expenses. The account is included in the financial statements at fair value, as reported to the Plan by Principal. Fair value represents contributions made to the contract plus earnings, less Plan withdrawals. The stable value fund is fully-benefit responsive while the guaranteed interest accounts are not fully-benefit responsive.

The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender charge when funds are withdrawn prior to their maturity.

4. RELATED PARTIES

The plan sponsor is Midwest Groundcovers, LLC, which is a related party.

The Plans investments are managed by Principal Financial Group. Principal Financial

4. RELATED PARTIES (continued)

Group is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

5. INVESTMENTS

FASB ASC 820 establishes a framework for measuring the fair value of investments. That framework provides a fair value hierarchy that prioritizes the inputs to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Valued using a pricing service, Interactive Data Corporation, (IDC). The underlying securities trade at quoted market prices, however the net asset value (NAV) of a separate account is not publicly quoted. The US Property Separate account holdings include real estate, unconsolidated real estate joint ventures and debt which are classified within level 3 of the hierarchy.

Guaranteed interest accounts: The guaranteed interest accounts with an insurance company are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest accounts is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

5. INVESTMENTS (continued)

Information regarding the guaranteed interest accounts as of December 31, 2014 is as follows:

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Rate or Range of Rates
Guaranteed interest	$ 15,864	Assumed proceeds at discontinuation	Composite guaranteed rate	0.12% - 1.55%
			Current rate on 12/31/14	0.72% - 1.17%

Information regarding the guaranteed interest accounts as of December 31, 2013 is as follows:

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Rate or Range of Rates
Guaranteed interest	$ 40,605	Assumed proceeds at discontinuation	Composite guaranteed rate	0.11% - 1.71%
			Current rate on 12/31/13	0.61% - 1.27%

Stable Value Fund: Valued at contract value which is based on contributions plus earnings, less participant withdrawals and administrative expenses.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in value by $262,505 and $695,638, respectively, as follows:

	2014	2013
Pooled separate accounts	$ 261,608	$ 694,854
Stable value fund	952	857
Guaranteed interest accounts	(55)	(73)
	$ 262,505	$ 695,638

5. INVESTMENTS (continued)

6. STABLE VALUE FUND

In 2012, the Plan entered into a fully benefit-responsive investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The investment contact is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk to the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013, was $127,164 and $108,497, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.41%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan or (d) the failure of the trust to qualify for exemption from federal income taxes or any required

6. STABLE VALUE FUND (continued)

prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the Plan participants are probable of occurring.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2014	2013
Based on actual earnings	1.44%	1.24%
Based on interest rate credited to participants	1.48%	1.28%

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts.

8. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan's Trustee certified the investment activity including investment balances, investment earnings, and investment transactions for the years ending December 31, 2014 and 2013.

Investments at fair value:

	2014	2013
Guaranteed Interest	$ 15,864	$ 40,605
Stable Value Fund	127,164	108,497
Pooled Separate Accounts	4,048,777	3,827,516
Total	$ 4,191,805	$ 3,976,618

9. TAX STATUS

The Internal Revenue Service has determined and informed the Plan by a letter dated December 15, 1992, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has adopted FASB ASC 740-10-25, *Accounting for Uncertainty in Income Taxes.* The Plan will record a liability for uncertain tax positions when it is more likely than not that a tax position would not be sustained if examined by a taxing authority. The Plan continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax laws and new authoritative rulings.

9. TAX STATUS (continued)

The Plan's evaluation on December 31, 2014 and 2013, revealed no uncertain tax positions that would have a material impact on the financial statements. The 2011 through 2013 tax years remain subject to examination by the IRS. The Plan does not believe that any reasonably possible changes will occur within the next twelve months that will have a material impact on the financial statements.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:
