SEVENSON ENVIRONMENTAL SERVICES, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. **Description of Plan**

Effective January 1, 1987, Sevenson Environmental Services, Inc. (the "Company") started the Sevenson Environmental Services, Inc. 401(k) Profit Sharing Plan (the "Plan"). The Plan was amended and restated for EGTRRA effective July 27, 2009.

The Company has appointed State Street Bank and Trust Company (State Street) as Trustee of the Plan and the Plan has adopted the Transamerica Retirement Solutions Prototype Defined Contribution Plan (formerly Diversified Retirement Corporation). All assets of the Plan are held and administered by State Street. Transamerica Retirement Solutions is the third party administrator of the Plan.

Employees may enter the Plan, for purposes of salary deferrals and Roth contributions, on the first day of the month coinciding with or next following the completion of three months of service from their date of hire and attainment of age 18. For purposes of employer contributions, employees may enter the Plan on the first day of each quarter following the completion of one year of service and attainment of age 18.

Employees who are leased employees or whose employment is governed by the terms of a collective bargaining agreement are not eligible to participate in the Plan. Employees participating in the Sevenson Prevailing Wage Pension Plan are eligible to participate in the Plan but they are not eligible for employer contributions. The Plan allows other companies to adopt its provisions. Other companies who participate in the Plan are: Waste Stream Technology, Inc., Sevenson Industrial Services, Inc. and Sevenson Environmental Services of PA, Inc.

Note 2. **Summary of Significant Accounting Policies**

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis and present net assets available for benefits and changes in those net assets of the Plan.

Investment Valuation and Income Recognition - Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of the mutual funds are valued based upon the closing price reported on the active markets in which they are traded. The Plan invests in a stable value fund which is a collective trust fund that invests in contracts issued by insurance companies that are designed for stability of principle. The stable value fund is a fully benefit-responsive investment that is valued at contract value. Investment contracts held by a

Note 2. **Summary of Significant Accounting Policies** (Continued)

defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for fully benefit-responsive investments because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value is the invested principal plus accrued interest on investment contracts and balances invested overnight. The blended net crediting rate for 2014 was 1.41% (1.17% - 2013), and the 2014 market yield was 1.46% (1.25% - 2013).

The Statement of Net Assets Available for Plan Benefits presents the fair value of the investment in the stable value fund as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

The accompanying schedule of investments reflects both the fair value as well as the adjustment to contract value for each investment contract deemed fully benefit responsive.

Purchases and sales of the investment funds are recorded on a trade-date basis. Dividends are record on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Estimates - The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Benefits Paid - Benefits are recorded when paid (see Note 5).

Operating Expenses - Investment transactions and advisor fees are paid by the Plan. The Company pays all other operating expenses.

Note 3. **Contributions**

Participants may elect to contribute up to 70% of earnings through pre-tax salary deferrals or after tax Roth contribution up to the maximum annual limitation as provided by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Participant elective contributions and rollover contributions are immediately 100% vested.

The Plan provides for a non-elective employer matching contribution equal to 50% of the salary deferral of each eligible participant who earns less than $30,000. Only salary deferrals of up to 8% of compensation will be considered in applying this provision. The participant must be employed on the last day of the Plan year and have one year of service to be eligible.

Further, the Plan allows additional discretionary employer profit sharing contributions and, to the extent necessary, employer contributions to provide the minimum top heavy contribution. The profit sharing contribution is allocated to participants based upon eligible compensation. Eligible compensation for highly compensated employees will exclude overtime pay and bonus pay.

Employer discretionary profit sharing contributions and matching contributions vest ratably over six years.

Note 4. **Forfeitures**

Forfeitures may be used by the Plan for several purposes such as the payment of Plan expenses. Forfeitures attributable to matching or discretionary profit sharing contributions not used toward the payment of Plan expenses will be used to reduce employer contributions. For the Plan years ending December 31, 2014 and 2013, unallocated forfeitures amounted to $294,086 and $265,111, respectively. The forfeitures were utilized to reduce the December 31, 2014 profit sharing contribution and were allocated to participant accounts in 2015.

Note 5. **Payment of Benefits**

Participants' benefits under the Plan are payable to participants, their beneficiaries, or their estates, upon the severance of employment, normal retirement, disability, death, or hardship. Participants with accounts greater than $5,000 will automatically receive a lump sum payment unless another alternative form of payment is elected. Alternative forms of payment include a life annuity, joint and survivor annuity or monthly installment payments. Vested accounts of terminated or deceased participants that are $1,000 or less can be paid by lump sum at any time without consent. Terminated participants with vested account balances between $1,000 and $5,000 that do not make a timely distribution or direct rollover election will have their account balance automatically rolled over to an IRA administered by Transamerica. Participants may withdraw the amounts in their rollover accounts at any time.

Note 6. **Notes Receivable Participants**

The Plan provides for loans to participants which are repaid through payroll deductions. Loans (i) bear a reasonable rate of interest (currently 4.25% to 9.73%), (ii) are secured by the participant's account, (iii) are available to all participants on a reasonably equivalent basis, (iv) are limited to 50% of the participant's vested account balance, (v) provide for repayment over a period not to exceed five years unless such loan is used to purchase a primary residence and (vi) are limited to an amount not to exceed $50,000.

A loan will not be issued for an amount less than $1,000, and no loan will be issued to a participant with an existing loan outstanding.

Note 7. **Termination**

The employer shall have the right to terminate the Plan. Upon termination, all amounts credited to participants' accounts will become 100% vested. Participants' accounts will be distributed in a manner permitted by the Plan as soon as practicable.

Note 8. **Tax Status**

The Transamerica Retirement Solutions Prototype Plan has not been reviewed by the Internal Revenue Service (IRS) to determine qualification under applicable sections of the Internal Revenue Code (IRC). The Prototype Plan did receive a positive opinion letter from the IRS on March 31, 2008. The opinion relates only to the acceptability of the form of the Plan under the Internal Revenue Code. Although the Plan has not received a determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS and the Department of Labor. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 9. **Investments**

The Plan offers fourteen diverse mutual fund investments and a stable value collective investment fund that is designed for stability of principal.

Schedule of investments that represent 5% or more of Plan assets:

Note 11. **Fair Value Measurements**

Financial Accounting Standard Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end. The NAV is the closing price reported on the active market on which the securities are traded. Mutual funds are classified as Level 1 investments.

Note 11. **Fair Value Measurements** *(Continued)*

Stable value collective investment fund: The stable value fund (SVF) is a collective trust fund that invests in contracts issued by insurance companies or other institutions and is valued daily based upon the value of the underlying investment contracts. The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. Individual assets of the synthetic investment contract are generally valued at representative quoted market prices. Short-term securities, if any, are stated at amortized cost, which approximates market value. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the Trustee, which determines valuations using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. Accrued interest, if any, on the underlying investments is added to the fair value of the investments for presentation purposes. The SVF has an investment objective to maintain a stable net asset value with predictability of returns. The SVF is a Level 2 investment as per the fund's audited financial statements.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Total	(Level 1)	(Level 2)	(Level 3)
Mutual Funds:	$ 54,269,575	$ 54,269,575	$ -	$ -
SVF	8,983,308	-	8,983,308	-
Totals:	$ 63,252,883	$ 54,269,575	$ 8,983,308	$ -

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Total	(Level 1)	(Level 2)	(Level 3)
Mutual Funds:	$ 52,610,217	$ 52,610,217	$ -	$ -
SVF	8,270,243	-	8,270,243	-
Totals:	$ 60,880,460	$ 52,610,217	$ 8,270,243	$ -

Note 12. **Subsequent Events**

The Plan has evaluated subsequent events through June 24, 2015, the date the financial statements were available to be issued.

Note 13. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
