1. Description of The Plan

The following description of the Dahlin Group, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted by Dahlin Group, Inc. (the Company) on January 1, 1989. The Plan is a defined contribution plan covering all employees, age 21 years or older, who meet the Plan's eligibility requirements except for non-resident aliens, employees governed under a collective bargaining agreement, leased employees and summer interns. Participants may contribute to the Plan effective the first day of the month next after meeting eligibility and satisfying the age requirements. Participants must meet the age and service requirements in order to be eligible for Company contributions to the Plan.

Effective January 1, 2010, the Plan was restated to comply with the requirements of the Employee Retirement Income Security Act (ERISA) of 1974 and the Internal Revenue Code (IRC) of 1986, as amended by subsequent legislation.

Effective January 1, 2011, the Company may make profit-sharing contributions for employees who have met the one year of service and are age twenty-one years or older. Profit-sharing contributions are discretionary and are subject to certain limitations.

Effective October 1, 2011, the Plan will permit In-Plan Roth Rollover Contributions in accordance with the provisions of the Plan and the amendment.

Union employees and nonresident aliens are excluded from participation in the Plan unless such agreement expressly provides for participation in the Plan.

Administration

The sponsor of the Plan is Dahlin Group, Inc. (the Company). A third-party record-keeper J.P. Morgan processes and maintains the records of the Plan. J.P. Morgan also serves as custodian of the Plan's participant directed investments.

Contributions

Eligible participants may defer up to 100% of eligible compensation, as defined by the Plan, up to the maximum allowed by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into the various investment options offered by the Plan. The Company contributions are discretionary.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account balances on a daily valuation basis. Allocation among the available funds is at the participant's discretion. Participants may change their investment options at any time. The benefit to which a participant is entitled is limited to the amount of the participant's vested account balance.

Vesting
Participants are vested immediately in their salary deferral, employer matching, safe-harbor and profit-sharing contributions, plus actual earnings thereon.

Break in Service
A participant will incur a break in service during any Plan year in which the participant works less than 501 hours.

Notes Receivable from Participants
Participants may borrow from their accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the vested balance in the participant's account and bear interest at rates which conform with local prevailing rates as determined monthly by the Plan Administrator. Notes must be repaid within five years unless used to purchase a primary residence, in which case, the term of the note will be determined by the Plan Administrator considering maturity dates quoted by representative commercial banks in the local area for a similar loan. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payment of Benefits
Participant contributions can be distributed prior to termination or retirement age for hardship claims, death or disability as defined in the Plan agreement.

On termination of service for account balances less than $1,000, a cash-out distribution will be made at the employer's discretion. For vested account balances greater than $1,000, but not more than $5,000, and the participant fails to elect a lump sum or rollover, the balance shall be rolled over to an Individual Retirement Account at a qualified financial institution. For account balances over $5,000, written consent by the employee is required before distribution can be made.

The normal retirement age under the Plan is 65 years of age.

2. Summary of Accounting Policies

Basis of Accounting
The financial statements are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statement, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Administrative expenses paid by the Plan totaled $2,324 for the year ended December 31, 2014. All other significant Plan expenses were paid by the Company.

Subsequent Events
The Plan has evaluated subsequent events to the statements of net assets available for benefits date of December 31, 2014 through July 13, 2015, which represent the date these financial statements are available to be issued. There were no material events or transaction occurring during this subsequent event reporting period, which requires recognition or disclosure in the financial statements.

3. Investments

The following investments represent 5% or more of the Plan's net assets at December 31:

	2014	2013
American Funds Growth Fund of America R6	$ 2,608,476	$ 2,333,838
American Funds Capital World Growth and Income Fund Class R6	1,565,377	1,479,087
Dodge & Cox Balanced Fund	1,648,206	1,443,724
JP Morgan Mid Cap Equity Fund Select Class	1,948,622	1,685,203
Vanguard 500 Index Fund Signal Class	1,765,323	1,560,008
T. Rowe Price Health Sciences Fund	2,173,558	1,565,060
Vanguard Windsor II Fund Admiral	1,316,002	1,088,628

During 2014, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $658,559.

4. Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds
These mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total

5. Related Party Transactions

Plan investments are managed by J.P. Morgan Chase Bank N.A., the directed trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan, and are specifically exempt from the prohibition of the party-in-interest transactions under ERISA.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and all unallocated amounts shall be allocated to the accounts of all participants.

7. Amounts Allocated to Participants who have Withdrawn

At December 31, 2014, 37 participants with account balances totaling $2,407,538 had withdrawn from participation upon termination, but had not yet received distribution of their vested account balances.

8. Information Certified by the Plan's Custodian

As of December 31, 2014, the Plan's investments are held in safekeeping with J.P. Morgan Chase Bank N.A., the Plan's directed trustee and custodian. Investments are in accordance with the policy set by the Plan's Administrator or by subsequent policy amendments.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, JPMorgan has certified as to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits from March 3, 2014 to December 31, 2014 and the schedule of assets held for investment purposes as of December 31, 2014, and the related investment activity reflected in the statement of changes in assets available for benefits for the period then ended. Verisight Trust Company certified the Plan's assets as of December 31, 2013 and from January 1, 2014 to March 2, 2014 and the related investment activity reflected in the statement of changes in assets available for benefits for the period then ended.

9. Income Tax Status

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan received a favorable determination letter of its amended Plan on March 31, 2008. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Franchise Tax Board. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuation, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

11. Reconciliation of Financial Statements to Form 5500
