Retirement and Profit Sharing Plan**

**Notes to Financial Statements**

---

**Note 1. Description of the Plan**

The following description of the CompuNet Clinical Laboratories Retirement and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provision.

**General:** The Plan is a defined contribution plan covering substantially all salaried and hourly wage earning employees of CompuNet Clinical Laboratories, LLC (the Company, Employer or Plan sponsor) who have completed 1,000 hours of service per calendar year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions:** Contributions made to the Plan are comprised of participant and Employer contributions. Participants may direct that up to 60% of the pretax compensation be deducted and contributed to the Plan up to the annual dollar limit set by the Internal Revenue Service (IRS). Per an amendment to the Plan effective January 1, 2002, participants may also contribute amounts representing distributions from other qualified plans. The Company will match up to the first 6% of employee compensation contributed to the Plan at a 50% rate. In addition, the Company makes a 1% mandatory contribution and may make an additional discretionary contribution based upon total annual employee compensation, not to exceed 25% to all participants employed on the last day of the Plan year. The Company elected not to make an additional discretionary contribution during 2014.

**Participant accounts:** Each participant's account is credited with the participant's contributions, the Company's contributions, if any and actual earnings. All amounts in participant accounts are participant directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Forfeited accounts:** Participants who terminate employment prior to being fully vested in Company's contributions forfeit nonvested amounts. At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$4,161 and \$1,695, respectively. These accounts are used to reduce future Employer contributions. In 2014, Employer contributions were reduced by \$5,000 from forfeited nonvested accounts.

**Notes receivable from participants:** Participants may borrow from their vested accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 reduced by the excess, if any, of the highest outstanding balance of Plan loans during the one-year period ending on the day before the loan is made over the outstanding balance of Plan loans on the date the loan is made or 50% of their vested account balance. Loan terms range from 1 - 5 years or up to 25 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined semiannually by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Interest rates on participant loans ranged from 4.25% to 7.75% as of December 31, 2014 and 2013.

**Vesting:** Participants are immediately vested in their contributions plus actual earnings thereon. Employer contributions plus actual earnings thereon become vested to the participant according to the following schedule:

| <u>Years of Vesting Service</u> | <u>Vested<br/>Percentage</u> |
|---------------------------------|------------------------------|
| Less than 1 year                | 0%                           |
| 1 year but less then 2 years    | 25%                          |
| 2 years but less then 3 years   | 50%                          |
| 3 years but less then 4 years   | 75%                          |
| 4 years or more                 | 100%                         |

**Notes to Financial Statements**

---

**Note 1. Description of the Plan (Continued)**

**Administrative expense:** Unless paid by the Employer, all reasonable costs and expenses including legal, accounting and employee communication fees incurred administering the Plan and Trust may be paid from the forfeitures or from the remaining Trust Fund. All such costs and expenses paid from the Trust Fund, unless allocable to the accounts of particular participants, are charged against the accounts of all participants. However, the Company pays substantially all administrative expenses of the Plan. The Plan is not charged for administrative services performed by employees of the Plan sponsor.

**Payment of benefits:** On termination of services, or upon death, disability or retirement, a participant, or their beneficiary in the case of death, may receive a lump-sum payment or installment amounts equal to the value of the account.

**Note 2. Summary of Significant Accounting Policies**

**Basis of presentation:** The accompanying financial statements are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America as more explicitly described in the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

**Investment valuation and income recognition:** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend income.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

**Use of estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Notes receivable from participants:** Notes receivable from participants are measured at their unpaid principal balance plus any accrued by unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document. There were no delinquent loans as of December 31, 2014.

**Subsequent events:** The Plan has evaluated subsequent events for potential recognition and/or disclosure through July 16, 2015, the date the financial statements were available to be issued.

**Note 3. Information Certified by the Plan's Trustee**

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule, as of December 31, 2014 and 2013 and for the year ended December 31, 2014 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 9 and supplemental schedule related to the Plan's assets.

Fidelity Management Trust Company also certified to the completeness and accuracy of \$652,382 of net appreciation in fair value of investments, \$1,864,511 of dividends related to investments and \$6,549 of interest income from notes receivable from participants for the year ended December 31, 2014.

**Note 5. Plan Termination**

**Note 6. Income Tax Status**

The underlying volume submitter plan has received an opinion letter from the IRS dated March 31, 2008, stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code and therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2007-6 and 2005-16, the Plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification.

The Plan was organized as a nonstandardized prototype plan and received an opinion letter from the IRS dated October 9, 2003, stating that the form of the Plan was qualified under Section 401 of the Internal Revenue Code and therefore, the related trust was tax exempt. The Plan was amended during 2009 to comply with IRS regulations and submitted as a volume submitter by Fidelity Management Trust Company on behalf of the Plan. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2011.

**Note 7. Risks and Uncertainties**

The Plan invests in various securities. Investment securities are exposed to various risk such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**Note 8. Transactions with Parties in Interest**

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Fidelity Management Trust Company for recordkeeping services amounted to \$1,592 for the year ended December 31, 2014.

**Note 9. Fair Value Measurements**

The Plan has determined the fair value of certain assets through application of an accounting standard which provides a framework for measuring fair value.

This guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. It requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances. In that regard, this guidance establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

---

**Note 9. Fair Value Measurements (Continued)**

The fair value hierarchy is as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

**Mutual funds:** Valued at the closing price reported on the active market on which the individual securities are traded.

**Common/collective trust:** Valued at the net asset value (NAV) of shares held by the Plan at year end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund and provides the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
