NOTES TO FINANCIAL STATEMENTS

K. W. ZELLERS & SON, INC. PROFIT-SHARING PLAN

Note 1. Description of the Plan

The following brief description of K. W. Zellers & Son, Inc. Profit-Sharing Plan (Plan) is provided for general information only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a profit-sharing plan available to all employees of K. W. Zellers & Son, Inc. (Company) who have completed one year of service (750 hours) and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan is funded by employer profit-sharing contributions as determined annually at the discretion of the Board of Directors of the Company. These contributions are limited to the maximum amount deductible for income tax purposes.

Participant Accounts

Each participant's account is credited with the Company's profit-sharing contributions, Plan investment income, and participant forfeitures as prescribed by the Plan document. Participant accounts are invested in various investment options at the discretion of the Plan's trustee. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in participant accounts is based on years of continuous service. A participant's vested percentage is determined under the following schedule. A participant attaining normal retirement age is 100% vested in their participant account without regard to continuous service.

Years of service	Vested percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeited Accounts

Forfeited nonvested accounts are allocated to participants in the same manner as Company profit-sharing contributions. Forfeitures are eligible for reallocation after the first consecutive one-year break in service of the former employee.

Payment of Benefits

Upon the retirement, termination, disability or death of a participant, all amounts attributable to the participant's account (profit-sharing contributions by the Company and forfeitures and income allocable to such amounts) will become payable to the participant or beneficiary upon completion of an application for payment. Benefits may be received either in a lump-sum payment or installment payments for a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and the participant's designated beneficiary.

NOTES TO FINANCIAL STATEMENTS

K. W. ZELLERS & SON, INC. PROFIT-SHARING PLAN

Note 2. Significant Accounting Policies

The accompanying statements reflect the application of certain accounting policies described in this note.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor, custodian and trustee. See Note 5 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Recordkeeping fees and certain other administrative expenses are paid by the Company.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Recent Accounting Pronouncement

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position.

NOTES TO FINANCIAL STATEMENTS

K. W. ZELLERS & SON, INC. PROFIT-SHARING PLAN

Note 2. Significant Accounting Policies (Continued)

The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events through July 21, 2015, which is the date the financial statements were available to be issued.

Note 3. Investments

All investment information including investments held as of December 31, 2014 and 2013, interest and dividend income and net appreciation in fair value of investments for the year ended December 31, 2014, included in the Plan's financial statements and supplemental schedules, was prepared by or derived from information provided by KeyBank National Association and Huntington Bank. The plan administrator has obtained certifications from the custodian and trustee that the information provided to the plan administrator by the custodian and trustee related to the investments is complete and accurate, with the exception of the adjustment to fair value of the common collective trust, which is reported at contract value by the custodian. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investments.

Investments that represent 5% or more of the Plan's net assets as of December 31 are as follows:

	2014	2013
E.B. Large Cap Core Equity Fund	\$ 1,411,136	\$ 1,680,157

Benefits payable to persons who have withdrawn from participation in the earnings and operations of the Plan are included in net assets available for benefits. At December 31, 2013 there was \$168,898 in benefits payable. At December 31, 2014, there were no benefits payable.

Note 5. Fair Value Measurements

The Financial Accounting Standards Board topic *Fair Value Measurements and Disclosures* provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money Market Fund: Valued at the market value of its underlying investments.

Fixed Income & Equity Mutual Funds: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts and Guaranteed Investment Contract: Valued at the NAV of units of the investment. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

During 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

Fair Value of Investments in Entities that Use NAV

Note 5. Fair Value Measurements (Continued)

- (a) This class includes a common collective trust which seeks long-term growth of capital by investing in a diversified portfolio of common stocks and securities convertible into common stocks. The trust will primarily invest in the equity securities of large publicly held companies, including investment in a broad cross section of economic and industry sectors. A combination of value and growth-oriented investment strategies are used. The fund's net assets are invested in approximately 99% common stock and 1% money market funds. The fair value of the investment in this class has been estimated using the net asset value per share of the underlying investments.
- (b) This class includes guaranteed investment contracts. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fund's net assets consist of approximately 88% investment contracts and 12% short-term investments. The fair value of investment(s) in this class has been estimated using the net asset value per share of the underlying investment(s).

Note 6. Related-Party Transactions

Plan investments are managed by KeyBank National Association, custodian of the Plan (see Note 3). Therefore, these transactions qualify as party-in-interest transactions. Management fees for these funds are paid by the respective funds and reduce the return earned on the funds.

Note 7. Income Tax Status and Matters

Effective January 1, 2002, the Plan adopted a non-standardized form of a prototype plan sponsored by Huntington Bank. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination, including the resolution of appeals or litigation processes, if any. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8. Plan Amendment and Termination

The Board of Directors of the Company has the right to amend the Plan if it determines that it is necessary and desirable to do so. Further, although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
