Note 1 – Description of Plan

The following description of Rico Industries, Inc. 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was established by Rico Industries, Inc. (the "Company") on February 23, 1967. The Plan was amended in its entirety and restated on January 1, 2009 when the company adopted a volume submitter plan with Charles Schwab Trust Company. Also on January 1, 2009, the Company executed a separate amendment to elect the Enhanced Matching Contribution Formula which is one of the ADP Safe Harbor methods described in the Plan document. The Safe Harbor amendment was effective for the Plan year commencing January 1, 2009 and for each Plan year thereafter. The most recent Plan amendment was effective September 25, 2013 and provides participants with the option to separately elect to defer up to 80% of any cash bonus/commission to be paid by the Company during the Plan Year.

Effective January 1, 2015, the plan was amended and restated in its entirety. The restatement provides for auto-enrollment and changed the threshold for distribution consent from vested account balances exceeding $1,000 to vested account balances exceeding $5,000. The restatement also incorporated prior amendements.

Plan Management and Administration

The Plan administrator and his management designees control and manage the operation and administration of the Plan. Charles Schwab Bank is the trustee of the Plan and Alliance Pension Consultants, LLC serves as the record keeper of the Plan.

Eligibility

All non-union employees of the Company are eligible for participation in the Plan on the first day of the quarter coincident with or next following three months of service and attaining age 21.

Contributions

Each year, participants may contribute up to 80% of pretax annual compensation, as defined in the Plan, up to the Internal Revenue Service ("IRS") limits. Participants may also make voluntary after-tax contributions and rollover balances from other qualified retirement plans. Participants who have attained age 50 before the end of the Plan year may elect to defer additional amounts ("catch-up contributions") to the Plan.

The Company has elected to make safe harbor contributions equal to the sum of 100% of the Participant's elective deferrals, that are not in excess of 4% of the participant's compensation The safe harbor contributions are funded each payroll. The Company may also elect to make additional discretionary matching or profit sharing contributions as determined annually. The Company did not make any discretionary contributions in 2014.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Note 1 – Description of Plan (Continued)

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's safe harbor contribution, discretionary match contribution, discretionary profit sharing contribution, and allocations of the Plan's investment earnings. Participant accounts are reduced by withdrawals and allocations of Plan investment losses and expenses. Allocations are based on participant compensation, participant contributions, or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested in their elective deferrals and employer safe harbor contributions plus actual earnings thereon. Company discretionary match and profit sharing contributions vest in accordance with the vesting schedule defined in the Plan Agreement. Full vesting of Company discretionary contributions is attained after six years of service or in the event of total and permanent disability or upon death.

Forfeited Accounts

Forfeitures can be used to:

1. reinstate a previously forfeited account balance, as defined by the Plan document.
2. to satisfy a contribution of a previous omission of an eligible employee.
3. to pay any administrative expenses of the Plan.

The remaining forfeitures, if any, shall be allocated in the following manner:

4. Forfeitures attributable to discretionary matching contributions or non-elective contributions shall be used to reduce employer contributions for the year.

At December 31, 2014, forfeited non-vested accounts totaled $102. In 2013, there were no forfeited non-vested account balances.

Payment of Benefits

Upon termination of service, death, disability, or the attainment of age 59 ½**,** a participant or their beneficiaries may elect to receive benefits in the form of a lump-sum payment equal to the value of the participants' vested interest in his or her account, or installment payments as defined in the Plan Agreement. The Plan also provides for hardship distributions.

Notes Receivable From Participants

Participants may obtain loans from Plan assets based on individual account balances not to exceed the lesser of $50,000 or one-half of their vested balance. The minimum loan amount allowed is $500. A loan is secured by the balance in the participant's account. Interest is charged at a rate equal to a similar loan with a professional lender in the same geographic locale. Principal and interest payments are paid ratably through payroll deductions.

Note 1 – Description of Plan (Continued)

Rollover Contributions
Participants may contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Plan Expenses: Loan origination fees associated with notes receivable to participants, distribution fees associated with distributions to participants, and the Plan's investment management fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. All other expenses of the Plan are paid by the Company.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review
Subsequent events were evaluated through July 21, 2015 which is the date the financial statements were available to be issued.

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest with no allowance for credit losses and the notes are collateralized by the participants' account balances. Interest income is recognized as earned.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Note 3 – Fair Value Measurement

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs have the highest priority, and Level 3 inputs have the lowest priority. The three levels of the fair value hierarchy under ASC 820, *Fair Value Measurements and Disclosures*, are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges.

Note 5 – Certified Financial Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"). Accordingly, the trustee of the Plan certifies that the following information included in the financial statements and supplemental schedules is complete and accurate:

• Investments, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.

• Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.

• Schedule H, line 4i – schedule of assets (held at end of year) – December 31, 2014.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 6 –Parties-In-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds a money fund managed by the Plan's trustee and therefore, this investment is considered a party-in-interest investment. Notes receivable from participants are also considered transactions with parties-in-interest.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan. The Company pays certain professional fees for the administration and audit of the Plan.

Note 7 – Tax Status

The Plan uses a volume submitter plan document sponsored by Sungard Business Systems LLC ("Sungard"). Sungard received an opinion letter from the IRS, dated March 31, 2014, which states that the volume submitter plan document satisfies the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended from the originally adopted plan, the Company and the plan administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the plan is qualified and the related trust is tax-exempt.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.
