Independent Auditor's Report

We have audited the accompanying financial statements of ICC Profit Sharing Plan & Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the asset information summarized in the notes to the financial statements, which was certified by Reliance Trust Company for the period January 1, 2013 to September 30, 2014 and Fidelity Management Trust Company for the period October 1, 2014 to December 31, 2014, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the trustees as of December 31, 2014 and 2013, and for the years then ended, that the information provided to the Plan administrator by the trustees is complete and accurate.

ICC PROFIT SHARING PLAN & TRUST

Notes to Financial Statements

December 31, 2014 and 2013

Plan Description

The following description of the ICC Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Information Control Company LLC (the Company). Employees who are age 21 or older may enroll in the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year. Nonresident aliens, collective bargaining employees and interns are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). Effective October 1, 2014, Fidelity Management Trust Company (Trustee) succeeded Daily Access Corporation and Reliance Trust Company as the record keeper and Plan trustee.

Contributions

Each year, participants may authorize payroll deductions up to 90% of compensation as before-tax contributions. Contributions may not exceed IRS regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make Roth contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer matching contributions, equal to a discretionary percentage of the participant salary reduction, are made at the discretion of the Company and may vary from year-to-year. The Company made matching contributions of 25% for 2014 and 2013, up to 6% of gross compensation. The Company may also make a discretionary profit sharing contribution. Discretionary profit sharing contributions made by the employer are allocated based on the proportion that each employee's compensation bears to the total compensation of all employees. Contributions are subject to certain limitations.

Effective September 29, 2014, the Plan was amended such that participants are immediately eligible to receive the matching contribution upon satisfying all other eligibility requirements of the Plan, and the Company will fund the matching contribution each payroll period. Prior to September 29, 2014, participants must have been employed with the Company on the last day of the Plan year and also have completed at least 1,000 hours of service in that Plan year in order to be eligible to receive an employer matching contribution.

Participants must be employed with the Company on the last day of the Plan year and also have completed at least 1,000 hours of service in that Plan year in order to be eligible to receive an employer discretionary profit sharing contribution.

Plan Description (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portions of their accounts plus actual earnings thereon is based on years of continuous service and is subject to the following vesting percentage provisions:

Years of Service	Vesting Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of the participant's vested account balance, whichever is less. Loans must be repaid within five years unless the loan is granted to allow the participant to purchase his or her principal residence. The loans are secured by the balance in the participant's account and bear interest commensurate with local prevailing rates and range from 3.25% to 7.50%. Principal and interest are paid ratably through bi-weekly payroll deductions.

Investment Options

A participant may direct contributions in any of the investment funds offered by the Plan. Participants may change their investment options at any time.

Payment of Benefits

Upon termination of employment for any reason, including death or disability, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. A participant is also eligible to receive a distribution from their account upon reaching normal retirement age, which is 65 years of age. The Plan also provides for in-service distributions if certain financial hardship conditions are met or upon reaching age 59½ while employed by the Company.

Plan Description (continued)

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$29,250 and \$25,903, respectively. These accounts will be first used to pay administrative expenses, and then used to reduce future employer matching or discretionary contributions. Forfeitures used to reduce plan expenses were \$10,093 and \$6,905 during 2014 and 2013, respectively. Forfeitures used to reduce employer matching contributions were \$25,582 during 2014. Forfeitures used to reduce employer matching contributions paid in 2014 for Plan year 2013 were \$7,419.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2014, contract value of the fully benefit-responsive investment contract approximated fair value. As of December 31, 2013, the statement of net assets available for benefits presents the fair value of the investment contracts with an adjustment to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

December 31, 2014 and 2013

Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses have been recorded as of December 31, 2014 or 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses are paid by the Plan to the extent not paid by forfeited non-vested accounts or by the Company, as provided by the Plan agreement.

Information Prepared and Certified by the Trustees

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustees of the Plan. Assets that represent 5% or more of the Plan's net assets are separately identified.

Information Prepared and Certified by the Trustees (continued)

The trustees also certified to the completeness and accuracy of \$1,182,747 (including \$1,849 of interest on notes receivable from participants) and \$693,265 of interest and dividend income and \$(163,310) and \$2,541,237 of net (depreciation) appreciation in fair value of investments related to the aforementioned assets for the years ended December 31, 2014 and 2013, respectively.

Investment Contracts in Common / Collective Trusts

In October 2014, the Plan transferred funds from a stable value investment contract, Reliance Trust Company Stable Value Fund Collective Investment Trust, Series 25053 (Met Managed GIC), to another stable value investment contract, Capital Preservation Fund, Institutional Service Pricing (Federated CPF) of the Federated Investors Trust Company, both contracts together referred to as "the Trusts".

The Trusts invest primarily in investment contracts such as traditional guaranteed investment contracts (GICs) and enter into "wrapper" contracts (also known as synthetic GICs). In a traditional GIC, the issuer takes a deposit from the Trusts and purchases investments that are held in the issuer's general account. The issuer is contractually obligated to repay the principal and a specified rate of interest guaranteed to the Trusts. In a synthetic GIC structure, the underlying investments are owned by the Trusts and held in trust for plan participants. The Trusts enter into "wrapper" contracts issued by a third party. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The wrap issuer agrees to pay the Trusts an amount sufficient to cover unitholder redemptions and certain other payments (such as trust expenses), provided all the terms of the wrap contract have been met. Wrappers are normally purchased from issuers rated in the top three long-term rating categories (A- or the equivalent and above).

Because the stable value investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value investment contract. Contract value, as reported by the trustees, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Investment Contracts in Common / Collective Trusts (continued)

The stable value investment contracts do not permit the Company to terminate the agreements prior to the scheduled maturity date.

The following are the average yields for the Met Managed GIC for 2014 and 2013:

	2014	2013
Average yields:		
Based on actual earnings	5.17 %	(1.36%)
Based on interest rate credited to participants	2.49 %	2.45 %

The following are the average yields for the Federated CPF for 2014:

	2014
Average yields:	
Based on actual earnings	0.60 %
Based on interest rate credited to participants	0.60 %

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
- Level 2 inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 are significant unobservable inputs for the asset or liability.

The level of the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

ICC PROFIT SHARING PLAN & TRUST

Notes to Financial Statements

December 31, 2014 and 2013

Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the quoted net asset value of shares held by the Plan at year-end.

Common/Collective Trusts: Valued at contract value, and is based on its beginning balance plus any deposit and credited interest, less any withdrawals, charges or expenses, a measurement which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Tax Status

Effective October 1, 2014, the Company adopted a prototype standardized profit sharing plan with CODA, sponsored by Fidelity, that received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Prior to October 1, 2014, the Company had adopted a prototype standardized profit sharing plan with CODA, sponsored by Daily Access Corporation, that received a favorable opinion letter from the IRS on March 31, 2008. Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

December 31, 2014 and 2013

Party-in-Interest Transactions

Fees paid by the Plan as direct compensation to Daily Access Corporation for recordkeeping services, which qualify as party-in-interest, were \$34,380 and \$45,082 in 2014 and 2013, respectively. Fees paid by the Plan as direct compensation to Fidelity Management Trust Company for recordkeeping services, which qualify as party-in-interest, were \$786 in 2014. Fees paid by the Plan as direct compensation to Stone Hill Fiduciary Management for investment advisory services, which qualify as party-in-interest, were \$15,598 in 2014. Fees paid by the Plan as direct compensation to Everhart Financial Group for investment advisory services, which qualify as party-in-interest, were \$8,890 and \$14,262 in 2014 and 2013, respectively. Fees paid by the Plan as direct compensation to Cambridge Investment Research for investment advisory services, which qualify as party-in-interest, were \$3,459 in 2013.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2014 statement of net assets available for benefits.

Subsequent Events – Date of Management's Evaluation

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date on which the financial statements were available to be issued.
