Millis Transfer, Inc. 401(k) Plan

Notes to Financial Statements

Note 1 Description of Plan

The following description of the Millis Transfer, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established by Millis Transfer, Inc. (the “Company”). The Plan is for the benefit of employees who have completed three months of service and have attained the age of 18. The Plan excludes employees governed by the terms of a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Plan’s Board of Trustees.

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Total contributions may not exceed a dollar limit that is set by law. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company has elected to match 20% if the participant defers 1-5%, 25% if the participant defers 6-10% and 30% if the participant defers 11% or more of the participant’s salary deferrals contributed during the year, to a maximum match of 4.5% of the participant’s compensation. Additional amounts may also be contributed at the option of the Company’s Board of Directors. The Company may not make a contribution to the Plan for any plan year to the extent the contribution would exceed the Participant’s maximum permissible amount.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and Company matching contributions, as well as allocations of the Company’s profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Participants direct the investment of their accounts into various investment options offered by the Plan, which cover a wide range of investment objectives and risk.

Millis Transfer, Inc. 401(k) Plan

Notes to Financial Statements

Note 1 Description of Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting on the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is as follows:

<u>Years of Service</u>	<u>Nonforfeitable Percentage</u>
Less than 2	0
2	20
3	40
4	60
5	80
6 or more	100

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, whichever is less. Loan transactions are treated as a transfer from (to) the investment funds to (from) the participant loan fund. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 10.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in amounts to be in compliance with the required minimum distribution rules. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Amounts may be withdrawn from the Plan after the participant reaches the age of 65 years.

Forfeitures

In accordance with the Plan, forfeitures are used to reduce employer contributions. Forfeitures are the amounts by which the value of a participant's account exceeds his or her vested interest. Forfeitures in the amount of \$83,057 were used to reduce employer contributions in 2014. At December 31, 2014 and 2013 there were \$7,557 and \$9,224, respectively of forfeitures that have not yet been applied to reduce the Company's contributions.

Notes to Financial Statements

Note 2 **Summary of Accounting Policies**

Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis. Benefit payments to retired and terminated participants are recorded when paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value as reported by the fund advisor. The statements of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustments of the investment from fair value to contract value relating to the fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. The investment advisory, distribution, and loan fees are paid by the Plan.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

Millis Transfer, Inc. 401(k) Plan

Notes to Financial Statements

Note 2 Summary of Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Note 3 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Millis Transfer, Inc. 401(k) Plan

Notes to Financial Statements

Note 3 Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the quoted prices which are available in active markets for identical instruments.

Common collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investment held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value as of December 31, 2014 and 2013 :

The Plan's assets are held by the Custodian of the plan. Company contributions are held and managed by the Custodian, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the company or its subsidiaries. No such officer or employee receives compensation from the plan. Administrative expenses for the Custodian's fees are paid by the Plan.

Millis Transfer, Inc. 401(k) Plan

Notes to Financial Statements

Note 6 Tax Status

The Plan adopted a volume submitter 401(k) profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, stating the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 Subsequent Events

Management has evaluated events occurring subsequent to the date of the financial statements through July 7, 2015, the date which the financial statements were available to be issued.
