Notes to Financial Statements

1. Description of Plan:

The following description of Permclip Products Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering essentially all employees of Permclip Products Corporation (the Sponsor) and its affiliates, IFS Filing Systems LLC and CI Filing Systems LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participants may elect to contribute up to 100% of their annual compensation to the Plan each year, subject to limitations. Additionally, participants age 50 or older may elect to make a catch-up contribution limited to the amount imposed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Sponsor provides matching contributions equal to 100% of the first 3% of participant compensation contributed to the Plan once the participant is over 21 years old and has six months of service as described in the Plan agreement.

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their salary deferral and rollover contributions, plus actual earnings thereon. Vesting in Sponsor contributions and actual earnings thereon is based on years of service, with participants becoming fully vested after six years of credited service.

Investment Options:

Participants direct contributions into various investment options offered by Principal Life Insurance Company and Principal Trust Company (Principal). Participants may change their investment options at any time.

Notes Receivable from Participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Loan terms range from 1 year to 5 years. The loans are secured by the balance in the participant's account and bear interest at a rate based on the rates available for similar loans from commercial lending institutions. Principal and interest is paid ratably through payroll deductions. Participants may not have more than three outstanding loans at any given time.

Payment of Benefits:

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments by way of an annuity arrangement. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts:

Forfeited nonvested accounts are used to reduce future employer contributions. In 2014, employer contributions were reduced by \$835 from forfeited nonvested accounts. There were no forfeited nonvested account totals at December 31, 2014 and 2013.

2. Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Inputs to the valuation methodology for mutual funds are unadjusted quoted market prices for identical assets in active markets. Inputs to the valuation methodology for pooled separate accounts are other significant observable inputs (including quoted prices for similar securities, interest rates, and credit risk). The guaranteed investment contract is stated at fair value, which approximates contract value. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Unrealized appreciation or depreciation on investments is charged or credited to the net assets of the Plan.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the plan document.

Payment of Benefits:

Benefits are recorded when paid.

Plan Expenses:

Certain accounting and administrative expenses are paid by the Sponsor. Expenses relating to investment activity are paid by the Plan.

Subsequent Events:

The Plan has evaluated events and transactions for potential recognition or disclosure in the financial statements through July 22, 2015 (the date the financial statements were available to be issued).

Balance, end of year	<u>\$ 10,603</u>

The Plan maintains a fully benefit-responsive guaranteed investment contract with Principal. Principal maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed option contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the statement of net assets available for benefits at fair value, which approximates contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2014	2013
Average yields:		
Based on actual earnings	0.10%	0.06%
Based on interest rate credited to participants	0.10%	0.06%

4. Financial Information Certified by Principal:

In accordance with Department of Labor Regulation 2520.103-8, the plan administrator has obtained a certified "Statement of Account" from Principal as of December 31, 2014 and 2013 and for the year ended December 31, 2014 that the information below is complete and accurate:

- Statements of Net Assets Available for Benefits – Investments at fair value.
- Statement of Changes in Net Assets Available for Benefits – Investment income.
- Schedule of Assets (Held at End of Year) - all items and amounts, except notes receivable from participants.

5. Plan Termination:

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

6. Tax Status:

The Internal Revenue Service has issued a favorable determination letter regarding the tax-exempt status of the Plan. Accordingly, no provision has been made for income taxes. The Plan believes it is no longer subject to examination by federal or state taxing authorities for years prior to 2011.

7. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
