INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
HOP Energy, LLC 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of HOP Energy, LLC 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2014, is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of HOP Energy, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1996. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by HOP Energy, LLC (the "Plan Sponsor"). Vanguard Fiduciary Trust Company (the "Trustee") serves as the trustee to the Plan.

Eligibility

Nonunion employees of the Plan Sponsor are eligible to participate in the Plan on the first day of the month following their date of hire. Also, certain union employees are eligible to participate in the Plan as defined in the Plan agreement.

Contributions

Participants may contribute an amount not less than 1% but no more than 75% of their compensation, as defined in the Plan agreement, subject to Internal Revenue Service ("IRS") limitations. The Plan provides for an automatic deferral election equal to 2% of compensation for new employees as they become eligible. Participants may elect a different percentage or elect not to make deferral contributions into the Plan. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a money market fund, and various mutual funds as investment options for participants.

The Plan Sponsor's matching contributions are in an amount equal to 50% of the first 6% of compensation that a participant contributes to the Plan. Plan Sponsor contributions are invested directly in the investment options as directed by the participant.

Participant Accounts

Individual accounts are maintained for each plan participant to reflect the participant's contributions, the Plan Sponsor's matching contribution, and Plan income or loss. Income and losses are allocated by funds based on the ratio of a participant's account invested in a particular fund to all participants' investment in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lessor of $50,000 or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's accounts and bear interest at a rate commensurate with market rates for similar loans. For the years ended December 31, 2014 and 2013, interest rates on outstanding loans ranged from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions over a period of five years or less, unless the withdrawal was for the purchase of a primary residence, in which case the period can be extended to 10 years. A participant cannot have more than two loans outstanding at any time.

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. Vesting in the Plan Sponsor's matching contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

Years of Service Completed	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Participants who attain the age of 65 while still employed with the Plan Sponsor are 100% vested in the Plan Sponsor's matching contributions.

Payments of Benefits

Upon termination of service due to death, disability, retirement, or separation, a participant or participant's beneficiary will be entitled to receive a lump-sum amount equal to the value of the vested interest in the participant's account balance. Participants with a vested account balance of greater than $1,000 who had a severance of employment not due to death may elect to receive their distribution prior to the time they attain age 65. Otherwise, those benefits shall be held by the Trustee and distributed once the participant attains the age of 65. Distributions are subject to the applicable provisions of the Plan agreement.

Forfeited Accounts

Forfeitures of nonvested accounts are available to be used by the Plan Sponsor to reduce future employer matching contributions or to pay for the Plan's administrative expenses.

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $50,810 and $22,659 respectively. Also, in 2014 and 2013, employer contributions and administrative expenses were reduced by $- and $28,041, respectively, from forfeited nonvested accounts.

Administrative Expenses

The Plan is responsible for the payment of administrative expenses. Transaction fees for loan transactions are paid by the participants by reducing the account balances of those participants initiating the transactions. For the years ended December 31, 2014 and 2013, administrative expenses totaled $34,202 and $35,001, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Refer to Note 3 for additional details regarding the Plan's valuation methods. The fully benefit-responsive retirement savings trust is stated at fair value and then adjusted to be presented on a contract value basis in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Benefits Paid to Participants

Benefits are recorded when paid.

New Accounting Pronouncement

In May 2015, the FASB issued Accounting Standard Update ("ASU") 2015-07, *Fair Value Measurement* (Topic 820). The new guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy. The update also eliminates the requirement to make certain disclosures for all investments, that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the net asset value per share practical expedient. This guidance will be effective for the Plan's year ending December 31, 2015.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through July 22, 2015, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. FAIR VALUE MEASUREMENTS

Assets measured at fair value are based on one or more of the three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach*. Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach*. Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach*. Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

3. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2014 and 2013:

Description	Level 1	Level 2	Level 3	Total at December 31, 2014	Valuation Technique
Mutual funds:					
Balanced funds	$ 17,551,815	$ -	$ -	$ 17,551,815	(a)

Description	Level 1	Level 2	Level 3	Total at December 31, 2013	Valuation Technique
Mutual funds:					
Balanced funds	$ 12,770,440	$ -	$ -	$ 12,770,440	(a)
Index funds	8,437,382	-	-	8,437,382	(a)
Bond fund	2,202,130	-	-	2,202,130	(a)
Growth funds	3,070,607	-	-	3,070,607	(a)
Domestic stock funds	2,272,040	-	-	2,272,040	(a)
Int'l stock funds	490,767	-	-	490,767	(a)
Total mutual funds	29,243,366	-	-	29,243,366	
Money market fund	821,747	-	-	821,747	(a)
Common collective trust	-	4,672,659	-	4,672,659	(b)
Total investments - fair value	$ 30,065,113	$ 4,672,659	$ -	$ 34,737,772	

In determining fair value, the fair value hierarchy prioritizes the inputs to valuation methods and techniques used to measure fair value. Valuation techniques should maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used for the years ending December 31, 2014 or 2013.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2014 and 2013:

Mutual funds - are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

3. FAIR VALUE MEASUREMENTS (CONTINUED)

Money market fund - shares in the short-term money market fund are valued at cost plus accrued interest, which approximates fair value. Units of this fund can be redeemed on a daily basis at their net asset value and have no redemption restrictions. This fund seeks to invest primarily in short-term U.S. Treasury securities, including repurchase agreements collateralized by U.S. Treasury securities.

Common collective trust - the fair value of investment in a common/collective trust is valued at net asset value ("NAV") as reported by the sponsoring financial institution. The NAV is determined by reference to the value of the underlying assets owned by the common/collective trust, minus its liabilities, and then divided by the number of units outstanding. (Note 4).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. During the years ended December 31, 2014 and 2013, there were no transfers between levels of the fair value hierarchy.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan invests in the Vanguard Retirement Savings Trust Master Trust (the "Trust"), which was established for the collective investment of tax-exempt pension and profit sharing plans primarily in investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts that are selected by Vanguard Fiduciary Trust Company.

Contract value is the relevant measurement attribute for that portion of the net assets of the Trust that are considered to be fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment in the Trust is required to be reported on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Trust, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2014 and 2013, was $- and $4,672,659, respectively. Inputs used to determine the crediting interest rate include each contract's portfolio market value, current yield to maturity, duration, and market value relative to contract value. Such interest rates are reviewed on a quarterly basis for resetting. At December 31, 2013, the average yield by the Trust was 2.06%. The average yield earned with an adjustment to reflect the actual interest credited to participants was 1.56% at December 31, 2013. The weighted average interest crediting rate was 1.37% at December 31, 2013. As of December 31, 2014, the Plan no longer invests in the Trust.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (CONTINUED)

Certain events can limit the ability of the Plan to transact at contract value with the issuers of the investment contracts in the Trust. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The investment contracts do not permit the issuers to terminate the agreement prior to the scheduled maturity date.

5. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2014 and 2013, and for the years then ended, included in the Plan's financial statements and supplementary schedule, that was prepared by, or derived from, information prepared by the Trustee, and furnished to the Plan administrator. The Plan administrator has obtained certification from the Trustee that such information is complete and accurate.

Net appreciation in fair value	$ 1,298,177	$ 4,502,713
Interest income on notes receivable from participants	$ 26,679	$ 31,259

6. TAX STATUS

The Plan obtained its latest determination letter, dated April 2, 2014, in which the IRS stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC").

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to taxing examinations for years prior to 2011.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

8. RELATED-PARTY TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Plan Sponsor.

The Plan invests in shares of registered investment companies and in a common collective trust managed by an affiliate of the Trustee. Transactions in such investments qualify as party-in-interest transactions. Fees paid to such party amounted to $35,483 and $36,821 for the years ended December 31, 2014 and 2013, respectively.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to Form 5500 as of December 31:

	2014	2013
Net assets available for benefits per the financial statements	$ 34,399,688	$ 35,339,966

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
HOP Energy, LLC 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of HOP Energy, LLC 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2014, is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of HOP Energy, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1996. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by HOP Energy, LLC (the "Plan Sponsor"). Vanguard Fiduciary Trust Company (the "Trustee") serves as the trustee to the Plan.

Eligibility

Nonunion employees of the Plan Sponsor are eligible to participate in the Plan on the first day of the month following their date of hire. Also, certain union employees are eligible to participate in the Plan as defined in the Plan agreement.

Contributions

Participants may contribute an amount not less than 1% but no more than 75% of their compensation, as defined in the Plan agreement, subject to Internal Revenue Service ("IRS") limitations. The Plan provides for an automatic deferral election equal to 2% of compensation for new employees as they become eligible. Participants may elect a different percentage or elect not to make deferral contributions into the Plan. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a money market fund, and various mutual funds as investment options for participants.

The Plan Sponsor's matching contributions are in an amount equal to 50% of the first 6% of compensation that a participant contributes to the Plan. Plan Sponsor contributions are invested directly in the investment options as directed by the participant.

Participant Accounts

Individual accounts are maintained for each plan participant to reflect the participant's contributions, the Plan Sponsor's matching contribution, and Plan income or loss. Income and losses are allocated by funds based on the ratio of a participant's account invested in a particular fund to all participants' investment in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lessor of $50,000 or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's accounts and bear interest at a rate commensurate with market rates for similar loans. For the years ended December 31, 2014 and 2013, interest rates on outstanding loans ranged from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions over a period of five years or less, unless the withdrawal was for the purchase of a primary residence, in which case the period can be extended to 10 years. A participant cannot have more than two loans outstanding at any time.

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. Vesting in the Plan Sponsor's matching contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

Years of Service Completed	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Participants who attain the age of 65 while still employed with the Plan Sponsor are 100% vested in the Plan Sponsor's matching contributions.

Payments of Benefits

Upon termination of service due to death, disability, retirement, or separation, a participant or participant's beneficiary will be entitled to receive a lump-sum amount equal to the value of the vested interest in the participant's account balance. Participants with a vested account balance of greater than $1,000 who had a severance of employment not due to death may elect to receive their distribution prior to the time they attain age 65. Otherwise, those benefits shall be held by the Trustee and distributed once the participant attains the age of 65. Distributions are subject to the applicable provisions of the Plan agreement.

Forfeited Accounts

Forfeitures of nonvested accounts are available to be used by the Plan Sponsor to reduce future employer matching contributions or to pay for the Plan's administrative expenses.

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $50,810 and $22,659 respectively. Also, in 2014 and 2013, employer contributions and administrative expenses were reduced by $- and $28,041, respectively, from forfeited nonvested accounts.

Administrative Expenses

The Plan is responsible for the payment of administrative expenses. Transaction fees for loan transactions are paid by the participants by reducing the account balances of those participants initiating the transactions. For the years ended December 31, 2014 and 2013, administrative expenses totaled $34,202 and $35,001, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Refer to Note 3 for additional details regarding the Plan's valuation methods. The fully benefit-responsive retirement savings trust is stated at fair value and then adjusted to be presented on a contract value basis in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Benefits Paid to Participants

Benefits are recorded when paid.

New Accounting Pronouncement

In May 2015, the FASB issued Accounting Standard Update ("ASU") 2015-07, *Fair Value Measurement* (Topic 820). The new guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy. The update also eliminates the requirement to make certain disclosures for all investments, that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the net asset value per share practical expedient. This guidance will be effective for the Plan's year ending December 31, 2015.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through July 22, 2015, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. FAIR VALUE MEASUREMENTS

Assets measured at fair value are based on one or more of the three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach*. Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach*. Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach*. Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

3. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2014 and 2013:

Description	Level 1	Level 2	Level 3	Total at December 31, 2014	Valuation Technique
Mutual funds:					
Balanced funds	$ 17,551,815	$ -	$ -	$ 17,551,815	(a)

Total investments - fair value	$ 30,065,113	$ 4,672,659	$ -	$ 34,737,772	

In determining fair value, the fair value hierarchy prioritizes the inputs to valuation methods and techniques used to measure fair value. Valuation techniques should maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used for the years ending December 31, 2014 or 2013.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2014 and 2013:

Mutual funds - are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

3. FAIR VALUE MEASUREMENTS (CONTINUED)

Money market fund - shares in the short-term money market fund are valued at cost plus accrued interest, which approximates fair value. Units of this fund can be redeemed on a daily basis at their net asset value and have no redemption restrictions. This fund seeks to invest primarily in short-term U.S. Treasury securities, including repurchase agreements collateralized by U.S. Treasury securities.

Common collective trust - the fair value of investment in a common/collective trust is valued at net asset value ("NAV") as reported by the sponsoring financial institution. The NAV is determined by reference to the value of the underlying assets owned by the common/collective trust, minus its liabilities, and then divided by the number of units outstanding. (Note 4).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. During the years ended December 31, 2014 and 2013, there were no transfers between levels of the fair value hierarchy.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan invests in the Vanguard Retirement Savings Trust Master Trust (the "Trust"), which was established for the collective investment of tax-exempt pension and profit sharing plans primarily in investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts that are selected by Vanguard Fiduciary Trust Company.

Contract value is the relevant measurement attribute for that portion of the net assets of the Trust that are considered to be fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment in the Trust is required to be reported on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Trust, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2014 and 2013, was $- and $4,672,659, respectively. Inputs used to determine the crediting interest rate include each contract's portfolio market value, current yield to maturity, duration, and market value relative to contract value. Such interest rates are reviewed on a quarterly basis for resetting. At December 31, 2013, the average yield by the Trust was 2.06%. The average yield earned with an adjustment to reflect the actual interest credited to participants was 1.56% at December 31, 2013. The weighted average interest crediting rate was 1.37% at December 31, 2013. As of December 31, 2014, the Plan no longer invests in the Trust.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (CONTINUED)

Certain events can limit the ability of the Plan to transact at contract value with the issuers of the investment contracts in the Trust. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The investment contracts do not permit the issuers to terminate the agreement prior to the scheduled maturity date.

5. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2014 and 2013, and for the years then ended, included in the Plan's financial statements and supplementary schedule, that was prepared by, or derived from, information prepared by the Trustee, and furnished to the Plan administrator. The Plan administrator has obtained certification from the Trustee that such information is complete and accurate.

Net appreciation in fair value	$ 1,298,177	$ 4,502,713
Interest income on notes receivable from participants	$ 26,679	$ 31,259

6. TAX STATUS

The Plan obtained its latest determination letter, dated April 2, 2014, in which the IRS stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC").

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to taxing examinations for years prior to 2011.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

8. RELATED-PARTY TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Plan Sponsor.

The Plan invests in shares of registered investment companies and in a common collective trust managed by an affiliate of the Trustee. Transactions in such investments qualify as party-in-interest transactions. Fees paid to such party amounted to $35,483 and $36,821 for the years ended December 31, 2014 and 2013, respectively.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to Form 5500 as of December 31:

	2014	2013
Net assets available for benefits per the financial statements	$ 34,399,688	$ 35,339,966

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
HOP Energy, LLC 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of HOP Energy, LLC 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2014, is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of HOP Energy, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1996. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by HOP Energy, LLC (the "Plan Sponsor"). Vanguard Fiduciary Trust Company (the "Trustee") serves as the trustee to the Plan.

Eligibility

Nonunion employees of the Plan Sponsor are eligible to participate in the Plan on the first day of the month following their date of hire. Also, certain union employees are eligible to participate in the Plan as defined in the Plan agreement.

Contributions

Participants may contribute an amount not less than 1% but no more than 75% of their compensation, as defined in the Plan agreement, subject to Internal Revenue Service ("IRS") limitations. The Plan provides for an automatic deferral election equal to 2% of compensation for new employees as they become eligible. Participants may elect a different percentage or elect not to make deferral contributions into the Plan. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a money market fund, and various mutual funds as investment options for participants.

The Plan Sponsor's matching contributions are in an amount equal to 50% of the first 6% of compensation that a participant contributes to the Plan. Plan Sponsor contributions are invested directly in the investment options as directed by the participant.

Participant Accounts

Individual accounts are maintained for each plan participant to reflect the participant's contributions, the Plan Sponsor's matching contribution, and Plan income or loss. Income and losses are allocated by funds based on the ratio of a participant's account invested in a particular fund to all participants' investment in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lessor of $50,000 or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's accounts and bear interest at a rate commensurate with market rates for similar loans. For the years ended December 31, 2014 and 2013, interest rates on outstanding loans ranged from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions over a period of five years or less, unless the withdrawal was for the purchase of a primary residence, in which case the period can be extended to 10 years. A participant cannot have more than two loans outstanding at any time.

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. Vesting in the Plan Sponsor's matching contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

Years of Service Completed	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Participants who attain the age of 65 while still employed with the Plan Sponsor are 100% vested in the Plan Sponsor's matching contributions.

Payments of Benefits

Upon termination of service due to death, disability, retirement, or separation, a participant or participant's beneficiary will be entitled to receive a lump-sum amount equal to the value of the vested interest in the participant's account balance. Participants with a vested account balance of greater than $1,000 who had a severance of employment not due to death may elect to receive their distribution prior to the time they attain age 65. Otherwise, those benefits shall be held by the Trustee and distributed once the participant attains the age of 65. Distributions are subject to the applicable provisions of the Plan agreement.

Forfeited Accounts

Forfeitures of nonvested accounts are available to be used by the Plan Sponsor to reduce future employer matching contributions or to pay for the Plan's administrative expenses.

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $50,810 and $22,659 respectively. Also, in 2014 and 2013, employer contributions and administrative expenses were reduced by $- and $28,041, respectively, from forfeited nonvested accounts.

Administrative Expenses

The Plan is responsible for the payment of administrative expenses. Transaction fees for loan transactions are paid by the participants by reducing the account balances of those participants initiating the transactions. For the years ended December 31, 2014 and 2013, administrative expenses totaled $34,202 and $35,001, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Refer to Note 3 for additional details regarding the Plan's valuation methods. The fully benefit-responsive retirement savings trust is stated at fair value and then adjusted to be presented on a contract value basis in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Benefits Paid to Participants

Benefits are recorded when paid.

New Accounting Pronouncement

In May 2015, the FASB issued Accounting Standard Update ("ASU") 2015-07, *Fair Value Measurement* (Topic 820). The new guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy. The update also eliminates the requirement to make certain disclosures for all investments, that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the net asset value per share practical expedient. This guidance will be effective for the Plan's year ending December 31, 2015.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through July 22, 2015, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. FAIR VALUE MEASUREMENTS

Assets measured at fair value are based on one or more of the three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach*. Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach*. Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach*. Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

3. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2014 and 2013:

Description	Level 1	Level 2	Level 3	Total at December 31, 2014	Valuation Technique
Mutual funds:					
Balanced funds	$ 17,551,815	$ -	$ -	$ 17,551,815	(a)

Mutual funds:					
Balanced funds	$ 12,770,440	$ -	$ -	$ 12,770,440	(a)
Index funds	8,437,382	-	-	8,437,382	(a)
Bond fund	2,202,130	-	-	2,202,130	(a)
Growth funds	3,070,607	-	-	3,070,607	(a)

Money market fund	821,747	-	-	821,747	(a)
Common collective trust	-	4,672,659	-	4,672,659	(b)
Total investments - fair value	$ 30,065,113	$ 4,672,659	$ -	$ 34,737,772	

In determining fair value, the fair value hierarchy prioritizes the inputs to valuation methods and techniques used to measure fair value. Valuation techniques should maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used for the years ending December 31, 2014 or 2013.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2014 and 2013:

Mutual funds - are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

3. FAIR VALUE MEASUREMENTS (CONTINUED)

Money market fund - shares in the short-term money market fund are valued at cost plus accrued interest, which approximates fair value. Units of this fund can be redeemed on a daily basis at their net asset value and have no redemption restrictions. This fund seeks to invest primarily in short-term U.S. Treasury securities, including repurchase agreements collateralized by U.S. Treasury securities.

Common collective trust - the fair value of investment in a common/collective trust is valued at net asset value ("NAV") as reported by the sponsoring financial institution. The NAV is determined by reference to the value of the underlying assets owned by the common/collective trust, minus its liabilities, and then divided by the number of units outstanding. (Note 4).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. During the years ended December 31, 2014 and 2013, there were no transfers between levels of the fair value hierarchy.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan invests in the Vanguard Retirement Savings Trust Master Trust (the "Trust"), which was established for the collective investment of tax-exempt pension and profit sharing plans primarily in investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts that are selected by Vanguard Fiduciary Trust Company.

Contract value is the relevant measurement attribute for that portion of the net assets of the Trust that are considered to be fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment in the Trust is required to be reported on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Trust, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2014 and 2013, was $- and $4,672,659, respectively. Inputs used to determine the crediting interest rate include each contract's portfolio market value, current yield to maturity, duration, and market value relative to contract value. Such interest rates are reviewed on a quarterly basis for resetting. At December 31, 2013, the average yield by the Trust was 2.06%. The average yield earned with an adjustment to reflect the actual interest credited to participants was 1.56% at December 31, 2013. The weighted average interest crediting rate was 1.37% at December 31, 2013. As of December 31, 2014, the Plan no longer invests in the Trust.

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (CONTINUED)

Certain events can limit the ability of the Plan to transact at contract value with the issuers of the investment contracts in the Trust. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The investment contracts do not permit the issuers to terminate the agreement prior to the scheduled maturity date.

5. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2014 and 2013, and for the years then ended, included in the Plan's financial statements and supplementary schedule, that was prepared by, or derived from, information prepared by the Trustee, and furnished to the Plan administrator. The Plan administrator has obtained certification from the Trustee that such information is complete and accurate.

Net appreciation in fair value	$ 1,298,177	$ 4,502,713
Interest income on notes receivable from participants	$ 26,679	$ 31,259

6. TAX STATUS

The Plan obtained its latest determination letter, dated April 2, 2014, in which the IRS stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC").

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to taxing examinations for years prior to 2011.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

8. RELATED-PARTY TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Plan Sponsor.

The Plan invests in shares of registered investment companies and in a common collective trust managed by an affiliate of the Trustee. Transactions in such investments qualify as party-in-interest transactions. Fees paid to such party amounted to $35,483 and $36,821 for the years ended December 31, 2014 and 2013, respectively.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to Form 5500 as of December 31:

	2014	2013
Net assets available for benefits per the financial statements	$ 34,399,688	$ 35,339,966
Add: adjustment from contract value to fair value for fully benefit-responsive investment contract	-	133,012
Net assets available for benefits per Form 5500	$ 34,399,688	$ 35,472,978

The following is a reconciliation of increase in net assets as reflected in the accompanying financial statements to the Plan's Form 5500 for the years ended December 31:

	2014	2013
Increase (decrease) in net assets per the financial statements	$ (940,278)	$ 4,361,582
Change in adjustment from contract value to fair value for fully benefit-responsive investment contract	(133,012)	(133,236)
Increase (decrease) in net assets per Form 5500	$ (1,073,290)	$ 4,228,346
