Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Retirement Committee
Diesel Injection Service Company, Inc. Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Diesel Injection Service Company, Inc. Retirement Plan (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2012, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information in Note C, which was certified by PNC Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Independent Auditor's Report (Continued)

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Supplementary Information

The supplemental Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions as of and for the year ended December 31, 2013, are required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Emphasis of Matter

As discussed in Note J to the financial statements, during 2015, Plan management made the determination that employer contributions were understated. Accordingly, the employer contributions receivable and related employer contributions per the accompanying statement of net assets available for benefits and the statement of changes in net assets available for benefits have been restated for the amount of the change as of and for the year ended December 31, 2013.

Diesel Injection Service Company, Inc. Retirement Plan
Notes to Financial Statements
December 31, 2013 and 2012

Note A - Description of Plan

The following description of the Diesel Injection Service Company, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined benefit pension plan covering substantially all employees of Diesel Injection Service Company, Inc. (the "Company") and other related entities who have adopted the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employees participate in the Plan on the entry date (January 1) immediately following the completion of six months of service and attainment of age 20 ½. Employees are entitled to annual pension benefits beginning at normal retirement age (65) equal to the greater of: (a) 35% of final average monthly compensation plus 15% of final average monthly compensation in excess of covered compensation, reduced proportionately for less than 30 years of credited service; (b) the sum of (i) accrued benefit as of December 31, 1993, plus (ii) 1 and 5/30% of average monthly compensation plus 15/30% of average monthly compensation in excess of covered compensation, times service after 1993 (with maximum service of 30 years minus the service at December 31, 1993); (c) non-highly compensated employees who were participants on January 1, 1991, the benefit calculated under the pre 1990 formula, assuming 1989 compensation remained constant. The Plan permits early retirement for employees who have attained age 55 and completed 10 years of service. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If employees terminate before rendering 5 years of service, they forfeit the right to receive their accumulated plan benefits. Employees may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, or they may elect to receive their benefits as a life annuity payable monthly from retirement.

Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Note B - Summary of Significant Accounting Policies

1. Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Accounting Standards Codification ("ASC") as produced by the Financial Accounting Standards Board ("FASB") is the sole source of authoritative U.S. GAAP.
2. Use of Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements (Continued)
December 31, 2013 and 2012

Note B - Summary of Significant Accounting Policies (Continued)

3. Funding Policy: The Company's funding policy is to make annual contributions to the Plan, as determined by the Plan's independent actuary, designed generally to fund current service costs on a current basis. The net investment income serves to reduce contributions that would otherwise be required for the defined level of benefits under the Plan. Amounts forfeited by any participant through termination of employment are used to reduce future contributions to the Plan and do not increase the benefits which other participants would otherwise receive under the Plan. The Company's contributions for the years ended December 31, 2013 and 2012 comply with the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

4. Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.
5. Payments of Benefits: Benefits are recorded when paid.
6. Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Note B - Summary of Significant Accounting Policies (Continued)

6. Actuarial Present Value of Accumulated Plan Benefits (Continued): The actuarial valuation as of December 31, 2012 was prepared using the unit credit actuarial cost method and based upon the following significant assumptions:

Mortality:	2013 PPA combined static annuitant and nonannuitant mortality tables
Retirement Age:	65
Interest Rate:	2013 three segment yield curve

For the December 31, 2012 valuation, the interest rate assumption has been changed to use a three segment yield curve applicable for the 2013 Plan year as required by the Pension Protection Act ("PPA"). The mortality table has been changed to the table required by the PPA for 2013. These changes resulted in an increase in the present value of accumulated plan benefits of \$902,355.

7. Subsequent Events: Subsequent events for the Plan have been considered through the date of the Independent Auditor's Report which represents the date the financial statements were available to be issued.

Note C - Information Certified by the Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, PNC Bank, the trustee of the Plan, has certified to the completeness and accuracy of all investment information reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, the Schedule of Assets (Held at End of Year) at December 31, 2013, and the related investment information reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2013 and 2012, and Schedule of Reportable Transactions for the year ended December 31, 2013.

Note D - Investments

Partnership interests	21,481	(6,206)
	<u>\$ 902,475</u>	<u>\$ 455,928</u>

Note E - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Cash equivalents and mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. government securities, common stocks and partnership interests: Valued at the closing price reported on the active market on which the individual securities are traded.

Mortgage notes: Valued at the outstanding principal balance which approximates fair value.

Note E - Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis at December 31, 2013:

Note F - Related Party Transactions

Certain administrative services are provided by the Company at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Company.

Certain Plan investments are invested in funds managed by PNC Bank. PNC Bank is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest. The Plan paid fees to PNC Bank totaling \$32,042 during the 2013 Plan year.

Diesel Injection Service Company, Inc. Retirement Plan
Notes to Financial Statements (Continued)
December 31, 2013 and 2012

Note G - Income Tax Status

The Plan has obtained its latest determination letter on July 9, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note H - Priorities Upon Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Benefits that former employees or their beneficiaries have been receiving for at least three years, that employees eligible to retire for that three-year period would have been receiving if they had retired.
- Other vested benefits subject to guarantee by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. governmental agency) up to the applicable limitations (discussed below).
- All other vested benefits.
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note I - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect amounts reported in the financial statements.

Contributions to the Plan are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note J - Restatement

During 2015, Plan management made the determination that an employer contribution receivable should have been recorded at December 31, 2013 of \$400,000. Accordingly, the employer contributions receivable and related employer contributions per the accompanying statement of net assets available for benefits and statement of changes in net assets available for benefits have been restated for the amount as of and for the year ended December 31, 2013.

	<u>As Originally Reported</u>	<u>Adjustment</u>	<u>As Restated</u>

Actuarial Cost Method	Accrued Benefit (Unit Credit)	Projected Unit Credit	Accrued Benefit (Unit Credit)
Asset Valuation Method	See Below	See Below	Market Value

Accrued Benefit (Unit Credit)

The funding target is equal to the sum of the individual accrued liabilities for all participants. The individual's accrued liability is the present value of the benefit accrued in prior plan years. The target normal cost is the present value of benefits accruing in the plan year. Experience gains and losses are included in the calculation of the funding target and are amortized as part of the shortfall amortization.

Projected Unit Credit

Under this method, the actuarial accrued liability is calculated for each participant as the actuarial present value of the portion of the projected benefit earned to date calculated by applying the plan's benefit formula to service for all plan years before the current plan year and the average earnings projected to retirement or other termination date. The normal cost is the portion of the accrued liability allocated to the current plan year.

Actuarial Value of Assets

The Actuarial Value of Assets is a 24-month average determined in accordance with Notice 2009-22. Actuarial Value of Assets must fall within 90% to 110% of market value. The assumed rate of return for determining the actuarial value of assets is the lesser of 7.00% or the segment rate specified in Notice 2009-22.

SCHEDULE SB PART V - SUMMARY OF PLAN PROVISIONS

PLAN NAME: Diesel Injection Service Co., Inc. Retirement Plan

EIN: 61-0607327

PLAN NUMBER: 001

EFFECTIVE DATE AND PLAN YEAR

The plan was established effective January 1, 1971, with the latest plan restatement effective January 1, 2013, The plan year ends on each December 31, which coincides with the Employer's fiscal year.

ELIGIBILITY

Each employee who is expected to complete at least 1,000 hours during a 12-month period is eligible to become a participant in the plan on the January 1 immediately following his completion of six months of service and attainment of age 20½. Employees who are not expected to complete at least 1,000 hours during a 12-month period will nonetheless be eligible to become a participant in the plan if they actually complete at least 1,000 hours during a 12-month period. Other employees not eligible to become participants in the plan include certain leased employees, specific categories of persons excluded by an adopting employer of the plan, persons who become employees of the employer due to merger or acquisition unless approved for eligibility by the Board of the employer, and persons who perform services on experimental projects or who are on special assignment.

SERVICE

Service credited for benefit and vesting purposes means the number of plan years in which the employee completes at least 1,000 hours of service, subject to certain break in service rules.

COMPENSATION

Compensation for plan purposes means total cash compensation which is subject to withholding for Federal income tax purposes. A participant's annual compensation for plan purposes is limited as required under Code Section 401(a)(17).

SCHEDULE SB PART V - SUMMARY OF PLAN PROVISIONS

PLAN NAME: Diesel Injection Service Co., Inc. Retirement Plan

EIN: 61-0607327

PLAN NUMBER: 001

NORMAL RETIREMENT

Condition

The normal retirement date is the first day of the calendar month coincident with or next following the participant's 65th birthday.

Benefit

The normal retirement benefit, 1/12th of which is payable monthly for the life of the participant, with the first 60 payments guaranteed, is equal to the greater of (a), (b) or (c) below:

- a) 35% of average earnings plus 15% of average earnings in excess of the current Covered Compensation for the participant, reduced 1/30th for each year of benefit service less than 30.
- b) The sum of:
 - i. The participant's accrued benefit as of December 31, 1993, plus
 - ii. 1.1667% of average earnings plus 0.50% of average earnings in excess of the current Covered Compensation for the participant multiplied by benefit service after December 31, 1993 limited to 30 years less benefit service as of December 31, 1993.
- c) for non-highly compensated employees who were participants in the plan on January 1, 1991, the benefit calculated under the pre-1990 benefit formula, assuming that 1989 compensation remained constant.

"Average earnings" is the average annual compensation of a participant for the five consecutive, complete calendar years that produce the highest average out of the final ten calendar years of service.

"Covered Compensation" is the average of the taxable wage bases for the 35 years ending with the year the participant attains Social Security retirement age, rounded as permitted by the IRS.

PLAN NAME: Diesel Injection Service Co., Inc. Retirement Plan

EIN: 61-0607327

PLAN NUMBER: 001

ACCRUED BENEFIT

The accrued benefit is the monthly benefit with payments beginning at normal retirement that has been earned due to compensation and benefit service as of any determination date. The accrued benefit is payable for the life of the participant, with the first 60 payments guaranteed, and is computed in the same manner as for normal retirement, using the participant's average earnings and benefit service as of the date of determination, and Covered Compensation determined by assuming the current taxable wage base will remain constant for all future years.

EARLY RETIREMENT

Condition

A participant may retire early after he has attained age 55 and completed 10 years of service.

Benefit

The deferred benefit, to commence at the participant's normal retirement date, is equal to the participant's accrued benefit determined as of his early retirement date.

Upon request, the participant's benefit may commence at any time after his termination of employment. If the benefit is to commence immediately, the deferred benefit is reduced by 1/180th for each of the first 60 months and by 1/360th for each additional month by which the participant's date of benefit commencement precedes his normal retirement date.

SCHEDULE SB PART V - SUMMARY OF PLAN PROVISIONS

PLAN NAME: Diesel Injection Service Co., Inc. Retirement Plan

EIN: 61-0607327

PLAN NUMBER: 001

LATE RETIREMENT

Condition

A participant may choose to postpone his retirement beyond his normal retirement date.

Benefit

The participant's benefit, commencing on the first day of the month following his actual date of retirement, shall be the greater of the actuarial equivalent of the benefit the participant would have received at his normal retirement date, and the benefit computed using the participant's compensation and benefit service earned as of his actual retirement date. A participant actively working beyond normal retirement may receive a distribution of vested benefits accrued as of the January 1 prior to distribution.

DEATH BEFORE RETIREMENT

Condition

In the event of the death of a participant after becoming eligible for a vested benefit under the plan, and while either (i) actively employed by the employer, or (ii) on deferred vested status but prior to receiving any retirement benefits, a death benefit shall be payable to the participant's surviving spouse.

SCHEDULE SB PART V - SUMMARY OF PLAN PROVISIONS

PLAN NAME: Diesel Injection Service Co., Inc. Retirement Plan

EIN: 61-0607327

PLAN NUMBER: 001

Benefit

The monthly benefit is payable on the first day of the calendar month following the participant's date of death or the earliest date the participant could have elected benefit payments to commence, whichever is later, and continues for the lifetime of the surviving spouse. The benefit is equal to 50% of the benefit the participant would have received if the participant had terminated employment the day before his death (or on his actual date of termination if earlier), had lived to the benefit commencement date, and elected an immediate joint and 50% to survivor benefit.

DISABILITY RETIREMENT

Condition

If a participant who has completed 10 years of service becomes totally and permanently disabled, as determined by medical evidence or by the Social Security Administration, he will be entitled to retire and receive a disability retirement benefit commencing on his normal retirement date.

Benefit

The disability retirement benefit, commencing at the participant's normal retirement date, is computed in the same manner as for normal retirement, assuming the participant continues to accrue service until his normal retirement, and to earn compensation at the rate in effect during the year prior to his date of disability.

Upon request, the participant's benefit may commence at any time after his termination of employment. If the benefit is to commence immediately, the deferred benefit is reduced by $1/180^{\text{th}}$ for each of the first 60 months and $1/360^{\text{th}}$ for each of the next 60 months by which the participant's date of benefit commencement precedes his normal retirement date, and actuarially thereafter.

EIN: 61-0607327

PLAN NUMBER: 001

TERMINATION OF EMPLOYMENT AFTER 5 OR MORE YEARS OF VESTING SERVICE

Condition

If a participant terminates his employment after completing 5 or more years of vesting service, he is entitled to a deferred vested benefit with payment commencing on his normal retirement date.

Benefit

The amount of the benefit is computed as the participant's accrued benefit as of the date of termination. A participant shall be 100% vested when he attains normal retirement age.

OTHER TERMINATION OF EMPLOYMENT

If employment is otherwise terminated before retirement, no benefits are provided under the plan.

TOP-HEAVY STATUS

If in any year the plan is determined to be top-heavy, the following provisions will take effect:

- A minimum accrued benefit will be determined for each participant equal to 2% of the average earnings, multiplied by the participant's years of service during which the plan is top-heavy, limited to 10 such years.
- Participants will become vested in their accrued benefits according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
2	20%
3	40%
4	60%
5 or more years	100%

OPTIONAL MODES OF BENEFIT PAYMENTS

Subject to the applicable plan conditions, a participant may select an optional method of benefit payment, in lieu of the prescribed life income, with the first 60 payments guaranteed, which is actuarially equivalent thereto. The purpose of the optional method is to permit retirement income payments with no payments guaranteed, to provide a continued life income to a surviving beneficiary after the death of the participant (for example, 50% or 100% of the participant's actuarially reduced retirement income from the plan), or to provide payment in a single sum (if less than \$5,000 or past age 65). However, if no option is elected and the participant is married at the date the benefit commences, the monthly benefit will automatically be paid in the form of a 50% joint and survivor annuity.

OPTIONAL MODES OF BENEFIT PAYMENTS

If the actuarial equivalent single sum amount due a terminated participant is less than \$5,000, such amount shall be distributed to the participant in lieu of any other benefits under the plan.

ACTUARIAL EQUIVALENCE

Actuarial equivalent values shall be computed based on the 1970 Group Annuity Mortality Table, and an interest rate of 6%. Single sum calculations payable on or after December 31, 2002 shall be determined using a fixed blend of 50% of the male and 50% of the female unloaded mortality rates underlying the 1994 Group Annuity Reserving Table, projected to 2002, and the 30-year U.S. Treasury rate in effect as of the second calendar month preceding the plan quarter in which payment is made.

CONTRIBUTIONS TO THE PLAN

The employer contributes actuarially determined amounts to finance the plan benefits. No contributions by participating employees are required.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
