Eligible employees may enter the Plan immediately after meeting the eligibility requirements. The Plan excludes non-resident aliens, part time/temporary/seasonal employees, visiting scientists and interns. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Plan Amendment. Effective January 1, 2014, the Plan was amended to exclude residents of Puerto Rico and to update the Plan's nondiscretionary trustees.

Contributions. The following types of contributions are allowable under the Plan:

- Pre-Tax and Roth Deferral Contributions – Participants may contribute a percentage of their annual compensation, as defined in the Plan document, as a pre-tax deferral contribution or after-tax Roth deferral contribution, subject to limitations. A participant's total deferral contribution cannot exceed \$17,500 (\$23,000 if 50 or older) in calendar year 2014.
- Safe Harbor Non-Elective Employer Contributions – The Employer makes a safe harbor non-elective Employer contribution to eligible participants in an amount equal to 6% of each participant's compensation.
- Rollover Contributions – Certain amounts distributed to participants from other qualified employee benefit plans may be rolled into the Plan.

All contributions are allocated to the Plan's investment funds at the direction of the participants.

Participant Accounts. Each participant's account is credited with the participant's contributions (pre-tax deferrals, Roth deferrals and rollovers, if any) and an allocation of (a) the Employer's contribution (safe harbor non-elective), (b) fund earnings or losses, and (c) administrative expenses, if any. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options. Participants may direct their investments into an unallocated insurance contract or various registered investment companies.

Notes Receivable from Participants. Upon incurring a financial hardship, as defined, participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (i) \$50,000 or (ii) 50% of their vested account balance. Loan terms range from 12 months up to a maximum of 5 years. A longer term is available if the loan is being used to acquire a principal residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest equal to the Prime Rate plus 1% at the date the loan is granted. Principal and interest payments are paid ratably through payroll deductions.

Vesting. Participants are 100% vested at all times in all accounts.

Payment of Benefits. Benefits to participants or beneficiaries generally are payable as a lump sum equal to the value of their vested account balance upon retirement, disability, death or termination of the participant. Participants may also elect to rollover their account balance into another qualified retirement plan or Individual Retirement Account. Additionally, participants may request in-service withdrawals of certain portions of their accounts upon attaining age 59½, or upon incurring a financial hardship, as defined.

Note 2 – Summary of Significant Accounting Policies

Use of Estimates and Basis of Accounting. The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts. No adjustment of the fully benefit-responsive investment contracts from fair value to contract value is necessary as fair value approximates contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and insurance company. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Realized and unrealized gains and losses are shown in the accompanying financial statements as net appreciation in fair value of investments and are determined based on the difference between fair value at the beginning of the year (or date purchased during the year) and selling price or year end fair value.

Benefit Payments. Benefits are recorded when paid.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Included in administrative expenses are withdrawal charges and quarterly contract charges for recordkeeping services. Investment related expenses are included in net investment income.

Subsequent Events. Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through June 12, 2015, which is the date the financial statements were available to be issued.

Note 4 – Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

NEON, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 4 – Fair Value Measurements (continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2014 and 2013. The following is a description of the valuation methodologies used for assets measured at fair value:

- Registered investment companies are valued at the quoted net asset value ("NAV") of shares held by the Plan at year end; and
- Unallocated insurance contracts are valued at fair value, which approximates contract value, by the insurance company by using a discounted cash flow valuation methodology where the interest rate for this portfolio investment contract is reset at least as frequently as annually (see Note 5).

Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan's Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Unobservable inputs are assessed through review of contract terms (for example, crediting interest rates).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no significant transfers in or out of levels 1, 2 or 3.

Note 5 – Investment Contract with Insurance Company

In 2009, the Plan entered into a benefit-responsive investment contract with Great-West Life & Annuity Insurance Company ("Great-West"). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013, was \$504,745 and \$424,763, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. The methodology for calculating the crediting interest rate is based on the earnings of Great-West's underlying assets in their entire medium-long term new portfolio compared to the minimum crediting interest rate, 0% as stated in the contract, and prevailing market conditions. Such interest rates are reviewed on a quarterly basis for resetting.

Note 5 – Investment Contract with Insurance Company (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include:

1. Declaration of a Contribution Cessation Date: Either Great-West or the Plan Sponsor may request a Contribution Cessation Date upon a 90 day written request to the other party. In the event a Contribution Cessation Date is declared by either party (i) no further contributions will be made under the terms of the investment contract and (ii) no new participant accounts will be established. Furthermore, on the Contribution Cessation Date, the Plan Sponsor may elect a Cessation Option in which (i) the Plan Sponsor may direct Great-West to maintain participant's accounts until it is applied to a Payment Option or distributed to a participant or beneficiary or (ii) Great-West will pay the Plan Sponsor the contract value of the investment contracts, however, Great West reserves the right to defer the payment of this amount for a period of 12 months from the Contribution Cessation Date.
2. Contract Termination: Either Great-West or the Plan Sponsor may terminate the investment contract upon a 90 day written request to the other party. In the event of contract termination, a Contract Termination Charge may apply in addition to other contract charges and fees. Contract Termination Charges will apply if the investment contract is terminated prior to Great-West's recovery of any and all Start-Up Costs incurred by Great-West.
3. Plan Termination: In the event of Plan termination, a Contract Termination Charge, as described above, may apply in addition to other contract charges and fees.

The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The average yields earned by the investment contract are as follows:

Average Yields:	2014	2013
Based on actual earnings	1.25%	1.26%
Based on interest rate credited to participants	1.25%	1.26%

Note 6 – Information Certified by the Trustees

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees of the Plan have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, and Note 3;
- Notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013;
- Investment amounts and investment activity, as shown in Note 4;
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014, and Note 3;
- Interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014;
- The investment information in the Schedule of Assets (Held at End of Year) as of December 31, 2014, as shown in the supplemental schedules;
- The investment information in the Schedule of Assets (Acquired and Disposed of Within the Plan Year) for the year ended December 31, 2014, as shown in the supplemental schedules.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 7 – Tax Status

The Company has adopted an Orchard Trust Company Defined Contribution Prototype Plan and Trust Document ("prototype plan"). The prototype plan received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008, which stated that the prototype plan is qualified under the applicable sections of the IRC. Although the Plan and prototype plan have been amended since receiving the IRS opinion letter, the Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified under Section 401(a) of the IRC and the related trust is tax exempt as of December 31, 2014 and 2013. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NEON, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Plan administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination or partial termination, affected participants will become 100% vested in their accounts.

Note 9 – Party-In-Interest Transactions

Certain Plan investments are shares/units of registered investment companies and an unallocated insurance contract account offered by Great-West and Great-West Trust Company, LLC. As Great-West and Great-West Trust Company, LLC are the trustees of the Plan, these transactions qualify as party-in-interest transactions. Additionally, the Plan maintains notes receivable from participants. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 10 – Risks and Uncertainties

The Plan provides for various investment options in an unallocated insurance contract and registered investment companies. Investment securities, in general, are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts presented in the statements of net assets available for benefits.
