BLISTEX INC. PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of Blistex Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established in 1955 to allow Blistex Inc. (the "Employer") to share a portion of its profits with its employees, to promote within them the strongest interest in the successful operation of the business, to encourage efficiency in their work, to assure them that they will share in the prosperity of the business, and to provide them with an opportunity for accumulation of funds for retirement. The Plan was restated effective January 1, 2010. The Plan and the Trust, of which it is a part, are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees become eligible on the first day of the Plan year nearest to the date of the satisfaction of the age and service requirements. The Plan is a defined contribution plan covering all eligible classes of employees of the Employer who have one year of service and are age 18 or older.

Contributions

Each year, the Employer contributes a discretionary portion of its current profits to the Plan. These contributions are subject to legal, Plan, and compensation limitations. Furthermore, a participant must be employed on the last day of the year and complete at least 1,000 hours of service with the Employer during the Plan year to receive an allocation of the contribution. The Plan does not permit voluntary or rollover contributions by participants.

Participant Accounts

Each participant's account is credited with a share of the Employer's annual contribution, Plan earnings, and forfeitures of terminated participants' non-vested accounts and charged with an allocation of administrative expenses. Allocations are based on eligible compensation charged with an allocation of account balances as prescribed by the Plan. The benefit to which a participant is entitled is limited to the benefit that can be provided from the participant's vested account balance. The Plan allows participants to direct contributions to any of the provided investment alternatives.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Investment Administration

At December 31, 2014 and 2013, the Plan's assets were held in a trust administered by BMO Retirement Services (BMO), a part of BMO Global Asset Management and a division of the BMO Harris Bank N.A. For the years ended December 31, 2014 and 2013, BMO was Custodian and recordkeeper for the Plan. Overall responsibility for administering the Plan rests with the Plan committee and Trustees of the Plan.

Vesting

Vesting in a participant's account is based on years of continuous service. A participant is 20% vested after two years of credited service and vests 20% per year thereafter, until becoming fully vested after six years of credited service. Notwithstanding the above, a participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Payment of Benefits

Upon retirement, death, disability, or termination of service, a participant may elect to receive a lump-sum amount equal to the vested interest of his/her account. If a participant terminates employment and the participant's account balance does not exceed $5,000, the Plan administrator will authorize the benefit payment without the participant's consent.

Forfeited Accounts

At December 31, 2014 and 2013, there were forfeited non-vested account balances of $93,921 and $53,687 respectively, which were allocated to eligible participants based on Plan provisions subsequent to the years then ended.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis for fully benefit-responsive investment contracts.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Employer, as provided by the Plan document. Expenses paid directly by the Employer, are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investment presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

NOTE 3 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair vale hierarchy are described as follows:

NOTE 3 - FAIR VALUE MEASUREMENTS (continued)

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- *Level 2* - Inputs to the valuation methodology include:

    - Quoted prices for similar assets or liabilities in active markets.
    - Quoted prices for identical or similar assets or liabilities in inactive markets.
    - Inputs other than quoted prices that are observable for the assets or liabilities.
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- *Level 3* - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at the December 31, 2014 and 2013.

- Mutual funds are valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at year-end. Mutual funds are considered Level 1 investments.

- Common/collective trust funds are stated at estimated fair values, which have been determined based on the NAV of units of the funds. Unit values are determined by the company sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. The fair values of these investments are determined by reference to the respective fund's underlying assets, which are primarily traditional and synthetic GIC contracts. The common/collective trust fund does not have a finite life, unfunded commitment relating to these types of investment or significant restrictions on redemption. Common/collective trust funds are considered Level 2 investments.

NOTE 3 - FAIR VALUE MEASUREMENTS (continued)

The following is a description of the nature and risk of the categories of assets by major security types:

Stable return: This asset class seeks to provide a stable rate of return with preservation of principal and liquidity as primary objectives, although there is no guarantee against loss of principal. It also provides a core holding for retirement plans, is diversified, and invests primarily in traditional and synthetic GIC contracts with various crediting rate formulas.

The following table presents the Plan's fair value hierarchy for those assets measured at fair value as of December 31, 2014 and 2013:

	Fair Value Measurements Using

NOTE 6 - TAX STATUS

The Plan adopted a Volume Submitter Profit Sharing Plan effective January 1, 2010, which received a favorable opinion letter from the Internal Revenue Service (IRS) as of March 31, 2008, which stated that the Plan is designed in accordance with applicable sections of the IRC. The Plan also received a favorable determination letter as of September 15, 2010, with respect to the tax-qualified status of the Plan. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 6 - TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Company contributions.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer, and certain others.

The Plan invests in shares of a common/collective trust fund issued by BMO Harris Bank N.A., the Custodian of the Plan. Therefore, this investment qualifies as a party-in-interest investment. Additionally, the Plan paid administrative expenses to BMO Harris Bank N.A. in the amount of $55,872 and $50,928 for the years ended December 31, 2014 and 2013, respectively. These transactions are not considered prohibited transactions by statutory exemption under ERISA regulations.

NOTE 9 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 10 - SUBSEQUENT EVENTS

Effective January 1, 2015, the Plan was restated in accordance with IRS regulations for pre-approved volume submitter plans.

Management evaluated subsequent events through July 8, 2015, the date the financial statements were available to be issued. Events or transactions occurring after December 31, 2014, but prior to July 8, 2015 that provided additional evidence about conditions that existed at December 31, 2015, have been recognized in the financial statements for the year ended December 31, 2014. Events or transactions that provided evidence about conditions that did not exist at December 31, 2014, but arose before the financial statements were available to be issued have not been recognized in the financial statements for the year ended December 31, 2014.
