Part I Asset and Liability Statement			
1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Report of Independent Auditors

Textron Inc.
Plan Sponsor
Textron Savings Plan

We have audited the accompanying financial statements of Textron Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Textron Savings Plan at December 31, 2014 and 2013, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2014, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Textron Savings Plan
Notes to Financial Statements
December 31, 2014

1. Description of Plan

General

The Textron Savings Plan (the Plan) covers all eligible employees of Textron Inc. (Textron), as defined in the Plan. This Plan description includes policies covering the majority of Plan participants. Certain business and bargaining units have other policies. The Plan invests in the Textron Stock Fund along with mutual funds, Guaranteed Investment Contracts, Common Collective Trusts and Common Stock. The Plan also offers a brokerage feature. The portion that invests in the Textron Stock Fund is an employee stock ownership plan. The remainder of the Plan is a profit-sharing and 401(k) plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and was amended and restated effective January 1, 2013 to reflect recent statutory, regulatory, and other plan changes.

The Plan is currently administered under the terms of a Trust Agreement, dated December 1, 2004 and amended from time to time, with Fidelity Management Trust Company (the Trustee or Fidelity). Fidelity also serves as the Plan's recordkeeper.

Investment Options

Participants may elect to direct their employee contributions to the following funds: Fidelity *Contrafund*® Class K, Fidelity Diversified International Fund Class K, Vanguard Institutional Index Fund Institutional Plus, Fidelity Low-Priced Stock Fund Class K, PIMCO Total Return Institutional, Textron Stock Fund, Textron Managed Income Fund, Vanguard Target Retirement Income Trust I and Vanguard Target Retirement Trust I (with various targeted retirement dates).

Also the Plan offers a self directed brokerage feature, called Fidelity BrokerageLink, which gives participants expanded investment choices by enabling them to select from numerous investment and individual securities that are not otherwise available under the Plan. The values of investments purchased through the Fidelity BrokerageLink were \$65,114,344 and \$43,965,240 as of December 31, 2014 and December 31, 2013, respectively.

Contributions

Participants of the Plan are entitled to elect to contribute up to 40% of their eligible compensation, within the limits prescribed by Section 401(k) of the Internal Revenue Code (the Code). Certain participants may also contribute amounts representing distributions from other qualified employer retirement plans. Participants' pre-tax and after-tax contributions, which are matched 50% on the first 10% of contributions to a max of 5% of eligible compensation by Textron subject to certain ERISA restrictions and plan limits, are recorded when Textron makes payroll deductions from participants' wages.

1. Description of Plan (continued)

Eligible employees are subject to automatic enrollment on the 60th day after their date of hire, if they have not specifically elected to be excluded from the Plan. The automatic enrollment is for 3% of eligible compensation per pay period. An employee who is automatically enrolled may elect to change or suspend their enrollment in the Plan at any time.

Since 2009, Textron has closed most of its defined benefit pension plans to new participants. When new hires join Textron locations that were formerly defined benefit pension eligible locations, these employees are eligible to receive an additional retirement cash contribution to their Plan account of either 2% or 4% (depending on location) of their eligible compensation. These discretionary contributions vest in accordance with the vesting schedule below. The contributions are deposited in the participant account by the end of the first quarter of the following plan year. The amount of the discretionary funding paid in 2015 for the 2014 plan year was \$20,542,568 and the amount paid in 2014 for the 2013 plan year was \$15,386,217. The discretionary contribution is in addition to the matching contribution of 50% on the first 10% up to a max of 5%. These contributions are not considered part of the vested balance eligible for participant loans.

There is also a Retirement Supplement Contribution provided to eligible covered employees at specified locations. For these individuals, Textron will contribute 1% of eligible compensation on a per-pay period basis, whether or not the individual contributes to the Plan. Contributions from employees who receive a retirement supplement are matched 100% up to 4% of eligible salary by Textron subject to certain ERISA restrictions and plan limits, and are recorded when Textron makes payroll deductions from participants' wages. Participants eligible for the retirement supplement are not eligible for the 50% match up to 5% in the Textron Stock Fund. The amount of the discretionary funding paid related to the 2014 and 2013 plan year for the supplemental contribution was approximately \$36,902 and \$36,466, respectively.

Participants who are at least age 50 or who will reach age 50 during the year, are allowed to make additional employee pre-tax contributions (catch-up contributions), above the otherwise applicable limits. In accordance with limits under the federal tax laws, catch-up contributions cannot exceed \$5,500 in 2014 and 2013. After that, the limit may be adjusted from time to time by the Secretary of the Treasury, to reflect inflation. Catch-up contributions are not eligible for Company matching contributions.

Textron makes contributions to the Plan based on actual contribution levels. In addition, Textron may make additional discretionary contributions. All forfeitures arising out of a participant's termination of employment for reasons other than retirement, disability or death are used to reduce future Textron contributions. At December 31, 2014 and 2013, forfeitures totaled \$770,179 and \$679,069, respectively. Forfeitures used during the years ended December 31, 2014 and 2013 to offset the Company match were \$6,700,422 and \$4,474,134, respectively.

December 31, 2014

1. Description of Plan (continued)

Employer matching contributions are made in the form of Textron Stock and invested in the Textron Stock Fund. Employees have the ability to subsequently reallocate matching contributions among any of the investment options offered in the Plan with no restrictions.

Transfers from Other Plans

On March 14, 2014, Textron acquired Beech Holdings, LLC, which included Beechcraft Corporation and other subsidiaries, (collectively "Beechcraft"). As a result, the Beechcraft Plan was frozen on April 6, 2014, the date on which employees of Beechcraft were eligible to participate in the Plan. The Beechcraft Plan was merged into the Textron Savings Plan on August 21, 2014 resulting in a transfer of assets of \$438.0 million.

On December 17, 2013, Textron acquired HD Electric Company and its plan was merged into the Textron Savings Plan on December 16, 2014 resulting in a transfer of assets of \$3.3 million.

On December 6, 2013, Textron acquired OPINICUS Corporation and its plan was merged into the Textron Savings Plan on December 16, 2014 resulting in a transfer of assets of \$1.8 million.

Benefits

In the event a participant ceases to be an employee or becomes totally disabled while employed, all of his or her account, to the extent then vested, shall become distributable. Distributions are in the form of cash unless Textron stock is requested. An account will be distributed in a single payment if the value of the account is less than \$5,000 when the account first becomes distributable. If the value of the account is \$5,000 or more when the account first becomes distributable, a participant is not required to take a distribution immediately. A participant is always vested in the portions of his or her account attributable to his or her own contributions and compensation deferrals. The Plan provides for full vesting of a participant's account in the event of his or her termination of employment, other than for cause, within two years after a change in control of Textron.

Vesting

Textron's contributions vest based on the length of service in the Plan as follows:

Months of Service	Vested Percentage
24 months but less than 36 months	25%
36 months but less than 48 months	50%
48 months but less than 60 months	75%
60 months or more	100%

1. Description of Plan (continued)

Participant Accounts

A separate account is maintained for each participant and is increased by (a) the participant's contributions and compensation deferrals, (b) Textron's matching contribution, and by the pro rata share of additional discretionary contributions made by Textron, if any, including any retirement supplement contributions and (c) plan income (loss), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The participant is entitled to the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Prior to September 1, 2014, active participants, not including directors or executive officers as determined by the plan administrator, were permitted to have one loan outstanding and may borrow a minimum of \$1,000 up to a maximum of the lesser of one-half of their vested balance or \$50,000, less the participant's highest outstanding loan balance during the 12-month period preceding the new loan request. Beginning on September 1, 2014 participants were allowed to take out up to two loans at a time versus the previous one loan outstanding provision. Interest is charged at a rate of Wall Street Journal Prime Rate plus 1%, as of the first business day of the month. A fee is charged to the participant to cover the cost of administration. The loan terms may range from one to five years and are repaid primarily through automatic payroll deductions.

Plan Termination

Textron has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Textron has not expressed any intent to terminate the Plan. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

2. Significant Accounting Policies

Fair Values of Assets

In accordance with the provisions of ASC 820, *Fair Value Measurement*, fair value is measured at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assumptions that market participants would use in pricing the asset or liability (the “inputs”) are prioritized into a three-tier fair value hierarchy. This fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and the lowest priority (Level 3) to unobservable inputs in which little or no market data exists, requiring companies to develop their own assumptions.

Observable inputs that do not meet the criteria of Level 1, which include quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets and liabilities in markets that are not active, are categorized as Level 2. Level 3 inputs are those that reflect Plan estimates about the assumptions market participants would use in pricing the asset or liability, based on the best information available in the circumstances. Valuation techniques for assets and liabilities measured using Level 3 inputs may include methodologies such as the market approach, the income approach or the cost approach, and may use unobservable inputs such as projections, estimates and management’s interpretation of current market data. These unobservable inputs are only utilized to the extent that observable inputs are not available or cost-effective to obtain. There were no transfers between Levels 1, 2 and 3 in 2014 or 2013.

The Textron Stock Fund consists solely of Textron stock, which is valued at its quoted market price, and is considered a Level 1 investment. Common Stock in the Brokerage account is valued at its quoted market price, and is also considered a Level 1 investment.

Mutual Funds and Money Market Funds consist of groups of investments, which may include equity securities, debt securities or other mutual funds. The underlying investments are valued primarily using quoted market prices in active markets (Level 1) and significant other observable inputs (Level 2), but the mutual funds themselves are quoted in an active market, and as a result, they are considered Level 1 investments.

The Common Collective Trust Funds (CCTs) are groups of investments similar to mutual funds. The underlying investments are valued primarily using quoted market prices in active markets (Level 1), however the collective trusts themselves are not quoted in an active market and are therefore considered Level 2 investments. The fair value of these investments has been estimated using the net asset value per share. The Managed Income fund includes a restriction on movement to competing funds for 90 days. Also included in the Common Collective Trust Funds are the underlying investments in the Synthetic GICs, held by the Textron Managed Income Fund, which also have an associated wrap contract.

Textron Savings Plan
Notes to Financial Statements
December 31, 2014

2. Significant Accounting Policies (continued)

The CCT investments have the following objectives for investees:

(a) Blended debt and equity - This category includes securities in a diversified mix of stocks, bonds and short-term investments within one investment option. In general, these funds are age-based and allocate investments between equities and fixed income based on target retirement date.

(b) Domestic Debt Securities – This category includes investments in diversified fixed income securities designed to provide capital preservation and income over a short to intermediate time frame.

U.S. Treasury notes or bonds are traded and quoted on an open market and are valued at their quoted market price, therefore, we have classified these assets as Level 1 investments. The remaining Bonds are traded using brokers which make the market, and price the bonds using published historical transactions for similar securities and a matrix pricing model. These inputs are observable, although the investments are not quoted on an active market. Therefore, the Plan has classified these assets as Level 2 investments.

Traditional Guaranteed Investment Contracts (GICs) are valued using the income approach, by discounting future contractually guaranteed payments using the duration-matched risk free rate plus a spread for each payment, which approximates market rates for new contracts. These inputs are not observable and therefore the GICs are considered a Level 3 investment.

Group Annuity Contracts (GACs) are valued using a derived net asset value per share. These contracts have an associated wrap contract. As the plan does not own the underlying assets within the contract the GACs are considered a Level 3 investment.

Changes in Fair Value for Unobservable Inputs

The table below presents the change in fair value measurements for Guaranteed Investment Contracts that used significant unobservable inputs (Level 3) for the twelve months ended December 31, 2014 and 2013:

Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Guaranteed Investment Contracts, Group Annuity Contracts, and Synthetic Guaranteed Investment Contracts

The Textron Managed Income Fund invests in a variety of stable value products, including traditional guaranteed investment contracts (GICs), group annuity contracts (GAC's) and synthetic GIC's in addition to the Wells Fargo Short Term Investment Fund (Wells Fargo STI) and the Fidelity Managed Income Port II Class Fund (Fidelity MIP). As described in ASC 962, *Plan Accounting—Defined Contribution Pension Plans*, investment contracts held by a defined contribution plan are required to be reported at fair value.

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts (such as the contracts held by the Textron Managed Income Fund) because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the fully benefit-responsive investment contracts and the adjustment from fair value to contract value for fully benefit-responsive investment contracts.

The fair value of investments in GICs was determined based on the discounted cash flows of the future payments. The fair value of Synthetic GICs and GAC's equals the total of the fair value of the underlying assets plus the total wrap rebid value. The fair value of the Plan's units of the Wells Fargo STI and the Fidelity MIP were determined based on the fair value of the funds underlying assets.

2. Significant Accounting Policies (continued)

The GICs, GAC's, and Synthetic GICs represent fully benefit-responsive investments. Contract value represents contributions made under the contract plus interest at the crediting rate payable under such contract less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The issuers guarantee that all qualified participant withdrawals will be at contract value (principal plus accrued interest). There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

Certain events limit the ability of the Plan to transact at contract value with an issuer. In addition to certain Synthetic GICs' termination provisions discussed below, such contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events include the following: material amendments to the Fund's structure or administration; changes to the participating plans' competing investment options including the elimination of equity wash provisions; complete or partial termination of the Fund, including a merger with another fund; the failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; the redemption of all or a portion of the interests in the Fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan; any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Fund or participating plans; the delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

In addition, Synthetic GICs and GACs typically provide for an adjustment to contract value if a security that is part of the underlying assets defaults or otherwise becomes impaired as defined in the wrap contract. In the event of an impairment, generally contract value is decreased by the amortized cost of the impaired security and, if such security is subsequently sold, contract value is increased by the amount of such sales proceeds. As part of the contract entered into in December 2013 for the GACs, the initial credited rate of 2.22% will be applied to the contract value from date of receipt through January 31, 2014. The credited rate for the remainder of 2014 was 2.26%.

GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date. Synthetic GICs generally are evergreen contracts that contain termination provisions. The termination provisions of Synthetic GICs permit the fund's investment manager or issuer to terminate upon notice at any time at market value and provide for automatic termination of the Synthetic GIC if

the contract value or market value of the contract equals zero. The issuer is not excused from paying the excess contract value when the market value equals zero. Synthetic GICs that permit the issuer to terminate at market value generally provide that the fund may elect to convert such termination to an Amortization Election as described below. In addition, if the fund defaults in its obligations or representations under the agreement (including non-compliance with investment guidelines governing the underlying assets, or the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA) and such default is not cured within any applicable cure period, then the Synthetic GIC may be terminated by the issuer and the fund will receive the market value as of the date of termination. Also, generally Synthetic GICs permit the issuer or investment manager to elect at anytime to convert the wrapped portfolio to a declining duration strategy whereby the contract would terminate at a date which corresponds to the duration of the underlying fixed income portfolio on the date of the amortization election (Amortization Election). After the effective date of an Amortization Election, the fixed income portfolio must conform to the guidelines agreed upon by the wrap issuer and the investment manager for the Amortization Election period. Such guidelines are intended to result in contract value equaling market value of the wrapped portfolio by such termination date.

Synthetic GICs and GAC's also define certain other termination events that permit the issuer to terminate the contract at market value. Termination events typically include the following:

(i) termination or replacement of the investment adviser without the issuer's consent, (ii) the Plan or its trust is fully or partially terminated or fails to be exempt from federal income taxation, (iii) the plan merges with another plan, (iv) if a security is sold or subject to a lien other than as permitted under the contract, (v) the contract holder engages in fraud or other action that materially and adversely affects the risk profile of the contract, (vi) if there is any change in law, regulation, ruling, or accounting requirement applicable to the Plan or Fund that could cause substantial withdrawals from the Fund, (vii) performance of the issuer's obligations under the contract becomes illegal, (viii) the bankruptcy of the Fund, Trust or investment advisor, or (ix) the level of impaired securities as defined in the contract exceeds an agreed upon amount of the portfolio.

The average yield earned by the Plan for all fully benefit-responsive investment contracts based on earnings from the underlying investments was approximately 1.43% and 1.09% at December 31, 2014 and 2013, respectively. The average yield of the contracts based on the interest rate credited to participants was approximately 1.53% and 1.18% at December 31, 2014 and 2013, respectively.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative and other fees paid by the Plan are allocated as follows:

- Fees associated with in-service withdrawals, distributions and loans are charged directly to the associated participant account.
- Fees with respect to each investment fund are charged against the investment returns of those investment funds and allocated on a pro-rata basis to participants who invest in those investment funds.
- Expenses associated with qualified domestic relations orders are charged directly to the related participant account.
- Expenses associated with operating the Plan, such as recordkeeping fees, legal fees, consulting fees, transfer fees, annuity fees, annual reporting fees, claims processing fees, cost of supplies and similar fees, are charged to the participant accounts.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

During 2014 and 2013, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

	Year Ended December 31,	
	2014	2013
	<i>(In thousands)</i>	
Textron Inc. Stock Fund	\$ 140,375	\$ 349,942

4. Related-Party Transactions

The Plan holds shares of mutual funds managed by Fidelity Management Trust Company, the trustee of the plan. The Plan also invests in shares of Textron's common stock. At December 31, 2014 and 2013, 25,168,109 and 27,148,818 shares of Textron's common stock were held by the Plan, respectively, with a fair value of \$1,059,829,078 and \$997,990,554 respectively. Dividend income recorded by the Plan for Textron's common stock for the years ended December 31, 2014 and 2013 was \$2,079,550 and \$2,347,559 respectively. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 5, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement impact of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2011.

Report of Independent Auditors

Textron Inc.
Plan Sponsor
Textron Savings Plan

We have audited the accompanying financial statements of Textron Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Textron Savings Plan at December 31, 2014 and 2013, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2014, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Textron Savings Plan
Notes to Financial Statements
December 31, 2014

1. Description of Plan

General

The Textron Savings Plan (the Plan) covers all eligible employees of Textron Inc. (Textron), as defined in the Plan. This Plan description includes policies covering the majority of Plan participants. Certain business and bargaining units have other policies. The Plan invests in the Textron Stock Fund along with mutual funds, Guaranteed Investment Contracts, Common Collective Trusts and Common Stock. The Plan also offers a brokerage feature. The portion that invests in the Textron Stock Fund is an employee stock ownership plan. The remainder of the Plan is a profit-sharing and 401(k) plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and was amended and restated effective January 1, 2013 to reflect recent statutory, regulatory, and other plan changes.

The Plan is currently administered under the terms of a Trust Agreement, dated December 1, 2004 and amended from time to time, with Fidelity Management Trust Company (the Trustee or Fidelity). Fidelity also serves as the Plan's recordkeeper.

Investment Options

Participants may elect to direct their employee contributions to the following funds: Fidelity *Contrafund*® Class K, Fidelity Diversified International Fund Class K, Vanguard Institutional Index Fund Institutional Plus, Fidelity Low-Priced Stock Fund Class K, PIMCO Total Return Institutional, Textron Stock Fund, Textron Managed Income Fund, Vanguard Target Retirement Income Trust I and Vanguard Target Retirement Trust I (with various targeted retirement dates).

Also the Plan offers a self directed brokerage feature, called Fidelity BrokerageLink, which gives participants expanded investment choices by enabling them to select from numerous investment and individual securities that are not otherwise available under the Plan. The values of investments purchased through the Fidelity BrokerageLink were \$65,114,344 and \$43,965,240 as of December 31, 2014 and December 31, 2013, respectively.

Contributions

Participants of the Plan are entitled to elect to contribute up to 40% of their eligible compensation, within the limits prescribed by Section 401(k) of the Internal Revenue Code (the Code). Certain participants may also contribute amounts representing distributions from other qualified employer retirement plans. Participants' pre-tax and after-tax contributions, which are matched 50% on the first 10% of contributions to a max of 5% of eligible compensation by Textron subject to certain ERISA restrictions and plan limits, are recorded when Textron makes payroll deductions from participants' wages.

1. Description of Plan (continued)

Eligible employees are subject to automatic enrollment on the 60th day after their date of hire, if they have not specifically elected to be excluded from the Plan. The automatic enrollment is for 3% of eligible compensation per pay period. An employee who is automatically enrolled may elect to change or suspend their enrollment in the Plan at any time.

Since 2009, Textron has closed most of its defined benefit pension plans to new participants. When new hires join Textron locations that were formerly defined benefit pension eligible locations, these employees are eligible to receive an additional retirement cash contribution to their Plan account of either 2% or 4% (depending on location) of their eligible compensation. These discretionary contributions vest in accordance with the vesting schedule below. The contributions are deposited in the participant account by the end of the first quarter of the following plan year. The amount of the discretionary funding paid in 2015 for the 2014 plan year was \$20,542,568 and the amount paid in 2014 for the 2013 plan year was \$15,386,217. The discretionary contribution is in addition to the matching contribution of 50% on the first 10% up to a max of 5%. These contributions are not considered part of the vested balance eligible for participant loans.

There is also a Retirement Supplement Contribution provided to eligible covered employees at specified locations. For these individuals, Textron will contribute 1% of eligible compensation on a per-pay period basis, whether or not the individual contributes to the Plan. Contributions from employees who receive a retirement supplement are matched 100% up to 4% of eligible salary by Textron subject to certain ERISA restrictions and plan limits, and are recorded when Textron makes payroll deductions from participants' wages. Participants eligible for the retirement supplement are not eligible for the 50% match up to 5% in the Textron Stock Fund. The amount of the discretionary funding paid related to the 2014 and 2013 plan year for the supplemental contribution was approximately \$36,902 and \$36,466, respectively.

Participants who are at least age 50 or who will reach age 50 during the year, are allowed to make additional employee pre-tax contributions (catch-up contributions), above the otherwise applicable limits. In accordance with limits under the federal tax laws, catch-up contributions cannot exceed \$5,500 in 2014 and 2013. After that, the limit may be adjusted from time to time by the Secretary of the Treasury, to reflect inflation. Catch-up contributions are not eligible for Company matching contributions.

Textron makes contributions to the Plan based on actual contribution levels. In addition, Textron may make additional discretionary contributions. All forfeitures arising out of a participant's termination of employment for reasons other than retirement, disability or death are used to reduce future Textron contributions. At December 31, 2014 and 2013, forfeitures totaled \$770,179 and \$679,069, respectively. Forfeitures used during the years ended December 31, 2014 and 2013 to offset the Company match were \$6,700,422 and \$4,474,134, respectively.

1. Description of Plan (continued)

Employer matching contributions are made in the form of Textron Stock and invested in the Textron Stock Fund. Employees have the ability to subsequently reallocate matching contributions among any of the investment options offered in the Plan with no restrictions.

Transfers from Other Plans

On March 14, 2014, Textron acquired Beech Holdings, LLC, which included Beechcraft Corporation and other subsidiaries, (collectively "Beechcraft"). As a result, the Beechcraft Plan was frozen on April 6, 2014, the date on which employees of Beechcraft were eligible to participate in the Plan. The Beechcraft Plan was merged into the Textron Savings Plan on August 21, 2014 resulting in a transfer of assets of \$438.0 million.

On December 17, 2013, Textron acquired HD Electric Company and its plan was merged into the Textron Savings Plan on December 16, 2014 resulting in a transfer of assets of \$3.3 million.

On December 6, 2013, Textron acquired OPINICUS Corporation and its plan was merged into the Textron Savings Plan on December 16, 2014 resulting in a transfer of assets of \$1.8 million.

Benefits

In the event a participant ceases to be an employee or becomes totally disabled while employed, all of his or her account, to the extent then vested, shall become distributable. Distributions are in the form of cash unless Textron stock is requested. An account will be distributed in a single payment if the value of the account is less than \$5,000 when the account first becomes distributable. If the value of the account is \$5,000 or more when the account first becomes distributable, a participant is not required to take a distribution immediately. A participant is always vested in the portions of his or her account attributable to his or her own contributions and compensation deferrals. The Plan provides for full vesting of a participant's account in the event of his or her termination of employment, other than for cause, within two years after a change in control of Textron.

Vesting

Textron's contributions vest based on the length of service in the Plan as follows:

Months of Service	Vested Percentage
24 months but less than 36 months	25%
36 months but less than 48 months	50%
48 months but less than 60 months	75%
60 months or more	100%

1. Description of Plan (continued)

Participant Accounts

A separate account is maintained for each participant and is increased by (a) the participant's contributions and compensation deferrals, (b) Textron's matching contribution, and by the pro rata share of additional discretionary contributions made by Textron, if any, including any retirement supplement contributions and (c) plan income (loss), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The participant is entitled to the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Prior to September 1, 2014, active participants, not including directors or executive officers as determined by the plan administrator, were permitted to have one loan outstanding and may borrow a minimum of \$1,000 up to a maximum of the lesser of one-half of their vested balance or \$50,000, less the participant's highest outstanding loan balance during the 12-month period preceding the new loan request. Beginning on September 1, 2014 participants were allowed to take out up to two loans at a time versus the previous one loan outstanding provision. Interest is charged at a rate of Wall Street Journal Prime Rate plus 1%, as of the first business day of the month. A fee is charged to the participant to cover the cost of administration. The loan terms may range from one to five years and are repaid primarily through automatic payroll deductions.

Plan Termination

Textron has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Textron has not expressed any intent to terminate the Plan. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

2. Significant Accounting Policies

Fair Values of Assets

In accordance with the provisions of ASC 820, *Fair Value Measurement*, fair value is measured at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assumptions that market participants would use in pricing the asset or liability (the “inputs”) are prioritized into a three-tier fair value hierarchy. This fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and the lowest priority (Level 3) to unobservable inputs in which little or no market data exists, requiring companies to develop their own assumptions.

Observable inputs that do not meet the criteria of Level 1, which include quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets and liabilities in markets that are not active, are categorized as Level 2. Level 3 inputs are those that reflect Plan estimates about the assumptions market participants would use in pricing the asset or liability, based on the best information available in the circumstances. Valuation techniques for assets and liabilities measured using Level 3 inputs may include methodologies such as the market approach, the income approach or the cost approach, and may use unobservable inputs such as projections, estimates and management’s interpretation of current market data. These unobservable inputs are only utilized to the extent that observable inputs are not available or cost-effective to obtain. There were no transfers between Levels 1, 2 and 3 in 2014 or 2013.

The Textron Stock Fund consists solely of Textron stock, which is valued at its quoted market price, and is considered a Level 1 investment. Common Stock in the Brokerage account is valued at its quoted market price, and is also considered a Level 1 investment.

Mutual Funds and Money Market Funds consist of groups of investments, which may include equity securities, debt securities or other mutual funds. The underlying investments are valued primarily using quoted market prices in active markets (Level 1) and significant other observable inputs (Level 2), but the mutual funds themselves are quoted in an active market, and as a result, they are considered Level 1 investments.

The Common Collective Trust Funds (CCTs) are groups of investments similar to mutual funds. The underlying investments are valued primarily using quoted market prices in active markets (Level 1), however the collective trusts themselves are not quoted in an active market and are therefore considered Level 2 investments. The fair value of these investments has been estimated using the net asset value per share. The Managed Income fund includes a restriction on movement to competing funds for 90 days. Also included in the Common Collective Trust Funds are the underlying investments in the Synthetic GICs, held by the Textron Managed Income Fund, which also have an associated wrap contract.

Textron Savings Plan
Notes to Financial Statements
December 31, 2014

2. Significant Accounting Policies (continued)

The CCT investments have the following objectives for investees:

(a) Blended debt and equity - This category includes securities in a diversified mix of stocks, bonds and short-term investments within one investment option. In general, these funds are age-based and allocate investments between equities and fixed income based on target retirement date.

(b) Domestic Debt Securities – This category includes investments in diversified fixed income securities designed to provide capital preservation and income over a short to intermediate time frame.

U.S. Treasury notes or bonds are traded and quoted on an open market and are valued at their quoted market price, therefore, we have classified these assets as Level 1 investments. The remaining Bonds are traded using brokers which make the market, and price the bonds using published historical transactions for similar securities and a matrix pricing model. These inputs are observable, although the investments are not quoted on an active market. Therefore, the Plan has classified these assets as Level 2 investments.

Traditional Guaranteed Investment Contracts (GICs) are valued using the income approach, by discounting future contractually guaranteed payments using the duration-matched risk free rate plus a spread for each payment, which approximates market rates for new contracts. These inputs are not observable and therefore the GICs are considered a Level 3 investment.

Group Annuity Contracts (GACs) are valued using a derived net asset value per share. These contracts have an associated wrap contract. As the plan does not own the underlying assets within the contract the GACs are considered a Level 3 investment.

Changes in Fair Value for Unobservable Inputs

The table below presents the change in fair value measurements for Guaranteed Investment Contracts that used significant unobservable inputs (Level 3) for the twelve months ended December 31, 2014 and 2013:

Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Guaranteed Investment Contracts, Group Annuity Contracts, and Synthetic Guaranteed Investment Contracts

The Textron Managed Income Fund invests in a variety of stable value products, including traditional guaranteed investment contracts (GICs), group annuity contracts (GAC's) and synthetic GIC's in addition to the Wells Fargo Short Term Investment Fund (Wells Fargo STI) and the Fidelity Managed Income Port II Class Fund (Fidelity MIP). As described in ASC 962, *Plan Accounting—Defined Contribution Pension Plans*, investment contracts held by a defined contribution plan are required to be reported at fair value.

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts (such as the contracts held by the Textron Managed Income Fund) because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the fully benefit-responsive investment contracts and the adjustment from fair value to contract value for fully benefit-responsive investment contracts.

The fair value of investments in GICs was determined based on the discounted cash flows of the future payments. The fair value of Synthetic GICs and GAC's equals the total of the fair value of the underlying assets plus the total wrap rebid value. The fair value of the Plan's units of the Wells Fargo STI and the Fidelity MIP were determined based on the fair value of the funds underlying assets.

Textron Savings Plan
Notes to Financial Statements
December 31, 2014

2. Significant Accounting Policies (continued)

The GICs, GAC's, and Synthetic GICs represent fully benefit-responsive investments. Contract value represents contributions made under the contract plus interest at the crediting rate payable under such contract less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The issuers guarantee that all qualified participant withdrawals will be at contract value (principal plus accrued interest). There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

Certain events limit the ability of the Plan to transact at contract value with an issuer. In addition to certain Synthetic GICs' termination provisions discussed below, such contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events include the following: material amendments to the Fund's structure or administration; changes to the participating plans' competing investment options including the elimination of equity wash provisions; complete or partial termination of the Fund, including a merger with another fund; the failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; the redemption of all or a portion of the interests in the Fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan; any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Fund or participating plans; the delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

In addition, Synthetic GICs and GACs typically provide for an adjustment to contract value if a security that is part of the underlying assets defaults or otherwise becomes impaired as defined in the wrap contract. In the event of an impairment, generally contract value is decreased by the amortized cost of the impaired security and, if such security is subsequently sold, contract value is increased by the amount of such sales proceeds. As part of the contract entered into in December 2013 for the GACs, the initial credited rate of 2.22% will be applied to the contract value from date of receipt through January 31, 2014. The credited rate for the remainder of 2014 was 2.26%.

GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date. Synthetic GICs generally are evergreen contracts that contain termination provisions. The termination provisions of Synthetic GICs permit the fund's investment manager or issuer to terminate upon notice at any time at market value and provide for automatic termination of the Synthetic GIC if

the contract value or market value of the contract equals zero. The issuer is not excused from paying the excess contract value when the market value equals zero. Synthetic GICs that permit the issuer to terminate at market value generally provide that the fund may elect to convert such termination to an Amortization Election as described below. In addition, if the fund defaults in its obligations or representations under the agreement (including non-compliance with investment guidelines governing the underlying assets, or the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA) and such default is not cured within any applicable cure period, then the Synthetic GIC may be terminated by the issuer and the fund will receive the market value as of the date of termination. Also, generally Synthetic GICs permit the issuer or investment manager to elect at anytime to convert the wrapped portfolio to a declining duration strategy whereby the contract would terminate at a date which corresponds to the duration of the underlying fixed income portfolio on the date of the amortization election (Amortization Election). After the effective date of an Amortization Election, the fixed income portfolio must conform to the guidelines agreed upon by the wrap issuer and the investment manager for the Amortization Election period. Such guidelines are intended to result in contract value equaling market value of the wrapped portfolio by such termination date.

Synthetic GICs and GAC's also define certain other termination events that permit the issuer to terminate the contract at market value. Termination events typically include the following:

(i) termination or replacement of the investment adviser without the issuer's consent, (ii) the Plan or its trust is fully or partially terminated or fails to be exempt from federal income taxation, (iii) the plan merges with another plan, (iv) if a security is sold or subject to a lien other than as permitted under the contract, (v) the contract holder engages in fraud or other action that materially and adversely affects the risk profile of the contract, (vi) if there is any change in law, regulation, ruling, or accounting requirement applicable to the Plan or Fund that could cause substantial withdrawals from the Fund, (vii) performance of the issuer's obligations under the contract becomes illegal, (viii) the bankruptcy of the Fund, Trust or investment advisor, or (ix) the level of impaired securities as defined in the contract exceeds an agreed upon amount of the portfolio.

The average yield earned by the Plan for all fully benefit-responsive investment contracts based on earnings from the underlying investments was approximately 1.43% and 1.09% at December 31, 2014 and 2013, respectively. The average yield of the contracts based on the interest rate credited to participants was approximately 1.53% and 1.18% at December 31, 2014 and 2013, respectively.

2. Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Administrative and other fees paid by the Plan are allocated as follows:

- Fees associated with in-service withdrawals, distributions and loans are charged directly to the associated participant account.
- Fees with respect to each investment fund are charged against the investment returns of those investment funds and allocated on a pro-rata basis to participants who invest in those investment funds.
- Expenses associated with qualified domestic relations orders are charged directly to the related participant account.
- Expenses associated with operating the Plan, such as recordkeeping fees, legal fees, consulting fees, transfer fees, annuity fees, annual reporting fees, claims processing fees, cost of supplies and similar fees, are charged to the participant accounts.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

During 2014 and 2013, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

	Year Ended December 31,	
	2014	2013
	<i>(In thousands)</i>	
Textron Inc. Stock Fund	\$ 140,375	\$ 349,942

4. Related-Party Transactions

The Plan holds shares of mutual funds managed by Fidelity Management Trust Company, the trustee of the plan. The Plan also invests in shares of Textron's common stock. At December 31, 2014 and 2013, 25,168,109 and 27,148,818 shares of Textron's common stock were held by the Plan, respectively, with a fair value of \$1,059,829,078 and \$997,990,554 respectively. Dividend income recorded by the Plan for Textron's common stock for the years ended December 31, 2014 and 2013 was \$2,079,550 and \$2,347,559 respectively. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 5, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement impact of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2011.
