Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Henny Penny Corporation Employees 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of the Henny Penny Corporation (referred to as the Company or Employer) who are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participant contributions to the Plan are made by employees within limitations stipulated in Section 401(k) of the Internal Revenue Code. Eligible employees may contribute any whole percent up to the lesser of 60% of their compensation or the maximum dollar amount permitted by the Internal Revenue Code which is adjusted for inflation and provides for higher contribution limits for employees who are age 50 or older. Eligible employees may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of the first 3% of eligible compensation that a participant contributes to the plan and 25% of the next 3% of eligible compensation contributed by the participant. Additionally, the Company is making a non-elective contribution in the amount of 3% of eligible compensation regardless of whether the participant is contributing to the Plan. However, the non-elective contribution is only credited to those participants with less than 10 years of service as of December 31, 2007 and the participant must be employed on the last day of the Plan year.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of the Employer's contribution and Plan earnings and charged with an allocation of transaction expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately fully vested in their contributions plus all employer matching contributions and actual earnings thereon. Vesting in the Employer's non-elective contribution portion of their accounts plus actual earnings thereon is based on years of continuous service and is subject to a three-year cliff vesting schedule.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to/from the investment fund from/to the loan fund. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. Loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. Interest rates were 4.25% and ranged from 4.25% to 8.50% as of December 31, 2014 and 2013, respectively.

Payment of benefits: Participants become eligible for benefit payments upon death, disability, retirement or termination. Participants may elect to receive a lump-sum cash distribution or a direct rollover distribution.

Forfeited accounts: Forfeited non-vested account balances are used to pay administrative expenses with remaining amounts used to offset future Employer contributions. Forfeited, non-vested accounts totaled \$4,889 and \$96 at December 31, 2014 and 2013, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Investments: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividends and interest income.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by accounting guidance, the Statements of Net Assets Available for Benefits present the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: A significant portion of the administrative expenses are paid by the Employer.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Subsequent events: The Plan administrator has evaluated subsequent events through July 24, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Plan's Trustee

All information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and supplemental schedule related to the Plan's assets.

Fidelity Management Trust Company also certified to the completeness and accuracy of \$784,559 of net depreciation in fair value of investments, \$2,265,319 of dividends related to investments and \$42,031 of interest income on notes receivable from participants for the year ended December 31, 2014.

Note 4. Investments

During the year ended December 31, 2014, the Plan investments (including investments bought, sold and held during the year) depreciated in value as follows:

Mutual funds	\$ (807,866)
Common/collective trust funds	<u>23,307</u>
Net depreciation	<u><u>\$ (784,559)</u></u>

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
Fidelity Advisor New Insights I	\$ 9,096,521	\$ 8,119,329
BlackRock International Opp Instl	3,254,079	3,409,451

Dreyfus MidCap Index	3,166,220	2,619,219
Wells Fargo Stable Value Fund M	2,373,728	2,259,310

Note 5. Fair Value Measurements

The Plan has determined the fair value of certain assets and liabilities through application of accounting guidance that establishes a framework for measuring fair values.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Standards require the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, standards establish a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The fair value hierarchy is as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access as of the measurement date.
- Level 2 Significant other observable inputs other than the Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active and other inputs that are observable or can be corroborated by observable market data.
- Level 3 Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Note 5. Fair Value Measurements (Continued)

A description of the valuation methodologies used for assets measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust funds: Valued at the net asset value (NAV) of shares held by the Plan at year end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund and provides the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December, 2014 and 2013.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Income Tax Status

The Plan adopted a standardized form of a prototype plan sponsored by Fidelity Management Trust Company. The prototype plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2011.

Notes to Financial Statements

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 9. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company (Fidelity). Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. McGohan Brabender serves as advisors to the Plan in which the advisor fees also qualify as party-in-interest transactions. Fees paid by the Plan for investment management and advisory services totaled \$88,185 for the year ended December 31, 2014.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

Net assets available for benefits per financial statements	\$ 34,824,436	\$ 32,075,746

Net assets available for benefits per Form 5500	\$ 34,862,185	\$ 32,099,081

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2014:

Note 1. Description of the Plan

The following description of the Henny Penny Corporation Employees 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of the Henny Penny Corporation (referred to as the Company or Employer) who are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participant contributions to the Plan are made by employees within limitations stipulated in Section 401(k) of the Internal Revenue Code. Eligible employees may contribute any whole percent up to the lesser of 60% of their compensation or the maximum dollar amount permitted by the Internal Revenue Code which is adjusted for inflation and provides for higher contribution limits for employees who are age 50 or older. Eligible employees may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of the first 3% of eligible compensation that a participant contributes to the plan and 25% of the next 3% of eligible compensation contributed by the participant. Additionally, the Company is making a non-elective contribution in the amount of 3% of eligible compensation regardless of whether the participant is contributing to the Plan. However, the non-elective contribution is only credited to those participants with less than 10 years of service as of December 31, 2007 and the participant must be employed on the last day of the Plan year.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of the Employer's contribution and Plan earnings and charged with an allocation of transaction expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately fully vested in their contributions plus all employer matching contributions and actual earnings thereon. Vesting in the Employer's non-elective contribution portion of their accounts plus actual earnings thereon is based on years of continuous service and is subject to a three-year cliff vesting schedule.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to/from the investment fund from/to the loan fund. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. Loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. Interest rates were 4.25% and ranged from 4.25% to 8.50% as of December 31, 2014 and 2013, respectively.

Payment of benefits: Participants become eligible for benefit payments upon death, disability, retirement or termination. Participants may elect to receive a lump-sum cash distribution or a direct rollover distribution.

Forfeited accounts: Forfeited non-vested account balances are used to pay administrative expenses with remaining amounts used to offset future Employer contributions. Forfeited, non-vested accounts totaled \$4,889 and \$96 at December 31, 2014 and 2013, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Investments: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividends and interest income.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by accounting guidance, the Statements of Net Assets Available for Benefits present the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: A significant portion of the administrative expenses are paid by the Employer.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Subsequent events: The Plan administrator has evaluated subsequent events through July 24, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Plan's Trustee

All information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and supplemental schedule related to the Plan's assets.

Fidelity Management Trust Company also certified to the completeness and accuracy of \$784,559 of net depreciation in fair value of investments, \$2,265,319 of dividends related to investments and \$42,031 of interest income on notes receivable from participants for the year ended December 31, 2014.

	<u>2014</u>	<u>2013</u>
Fidelity Advisor New Insights I	\$ 9,096,521	\$ 8,119,329

Wells Fargo Stable Value Fund M	2,373,728	2,259,310

Note 5. Fair Value Measurements

The Plan has determined the fair value of certain assets and liabilities through application of accounting guidance that establishes a framework for measuring fair values.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Standards require the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, standards establish a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The fair value hierarchy is as follows:

- | | |
|---------|--|
| Level 1 | Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access as of the measurement date. |
| Level 2 | Significant other observable inputs other than the Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active and other inputs that are observable or can be corroborated by observable market data. |
| Level 3 | Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability. |

Note 5. Fair Value Measurements (Continued)

A description of the valuation methodologies used for assets measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust funds: Valued at the net asset value (NAV) of shares held by the Plan at year end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund and provides the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December, 2014 and 2013.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Income Tax Status

The Plan adopted a standardized form of a prototype plan sponsored by Fidelity Management Trust Company. The prototype plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2011.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 9. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company (Fidelity). Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. McGohan Brabender serves as advisors to the Plan in which the advisor fees also qualify as party-in-interest transactions. Fees paid by the Plan for investment management and advisory services totaled \$88,185 for the year ended December 31, 2014.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

Net assets available for benefits per financial statements	\$ 34,824,436	\$ 32,075,746

Net assets available for benefits per Form 5500	\$ 34,862,185	\$ 32,099,081

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2014:
