U.S. BATTERY MANUFACTURING
401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE 1 - DESCRIPTION OF PLAN

The U.S. Battery Manufacturing 401(k) Savings Plan is a defined contribution plan providing retirement income, disability, termination and death benefits to eligible employees. The Plan is administered by U.S. Battery Manufacturing Company (the Company). The Plan was adopted effective October 1, 1998 with a year end of December 31. Effective January 1, 2014, the Plan was amended to reflect the change in the name of the Company from U.S. Battery Manufacturing Company to A&A Manufacturing Company, Inc.

The Plan was amended and restated effective November 17, 2009 to comply with the Pension Protection Act (PPA) and the Heroes Earnings Assistance and Relief Tax Act (Heart Act) of 2008.

The following description of the U.S. Battery Manufacturing 401(k) Savings Plan provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

Eligibility and Participation

Each employee who is at least 21 years of age shall become eligible to participate after one year of employment; defined as the completion of 1,000 hours of service during the twelve month period beginning on the date of hire or any plan year beginning after the date of hire.

Contributions

Participants may elect to defer up to 100% of eligible compensation annually. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Contributions are subject to Internal Revenue Service limitations.

The Company makes a safe harbor matching contribution equal to 100% of salary deferrals that do not exceed 3% of the participant's compensation plus 50% of salary deferrals bewtween 3% and 5% of compensation.

Participant Accounts

A participant's account is credited with the participant's contributions, allocations of (a) the Company's contribution and (b) plan earnings. A participant's account is debited with an allocation of plan losses and charged with administrative expenses; as applicable. Allocation of earnings or losses are based upon participant account balances. Allocation of the Company's contributions are based upon eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Employees are 100% vested in all employee and employer contributions.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The notes are secured by the balance in the participant's account and bear a reasonable fixed rate of interest (as determined by the Company) equal to the current prime rate plus two percentage points. Principal and interest is paid through payroll deductions.

Payment of Benefits

The Plan provides for the payment of benefits to the participant or beneficiary at retirement, death, disability or termination of employment. Participants terminating their employment with the Company or attaining age 59 1/2 are entitled to withdraw all or a portion of their vested account balance. "Hardship" distributions, as outlined in the Plan, are permitted subject to the approval of the Company. Participants who qualify for retirement benefits and withdrawals will receive their benefits in the form of a lump sum cash distribution or in periodic installments. Benefits under the Plan shall be distributed solely from the assets of the Trust.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946, *Reporting on Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP)*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Because the contract value approximates fair value, there is no adjustment reflected on the Statements of Net Assets Available for Plan Benefits.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Fees of the administrative agent are paid by the participants. All other expenses related to the administration of the Plan, including fees of the independent public accountants, are paid by the Company. The investment options have certain management fees which reduce the overall return on assets. The net appreciation of assets is reflected net of these fees.

NOTE 3 - INVESTMENTS

The following investments represent 5% or more of the Plan's net assets:

		December 31, 2014		December 31, 2013
Stable Asset Fund II		$ 3,536,227		$ 2,553,656

Vanguard 500 Index Admiral		$ 1,190,674	*	$ -

* These investments did not represent 5% or more of the Plan's net assets available for Plan benefits.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Net appreciation in fair value of pooled separate accounts	$ 627,305
	$ 627,305

NOTE 4 - FAIR VALUE MEASUREMENT

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Levels 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements
Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities inactive markets, (3) inputs other than quoted prices that are observable for the asset or liability, and (4) inputs that are derived principally from corroborated observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts
The value is based upon the unit price of the investment. The unit price is determined using market prices of the underlying investments which are traded on active markets and then adjusted for management fees plus all dividends and capital gains received. Since the investment is not traded on an active market, but the underlying securities are actively traded, then this investment is classified as a Level 2 investment.

Stable Asset Fund
Valued at the net asset value (NAV) of units held by the Plan at year end. The NAV, as provided by the Standard Insurance Company, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Since the value is based upon unobservable inputs, this investment is classified as a Level 3 investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

NOTE 5 - SUMMARY OF FINANCIAL DATA CERTIFIED BY THE CUSTODIAN

The following is a summary of the Plan's financial information and data certified by The Standard Insurance Company in accordance with Section 29 CFR 2520.103-5(c) of the Department of Labor Rules and Regulations for Reporting and Disclosure. Differences between the information summarized below and that which is included in the accompanying financial statements are attributable to adjustments made by the Company to adjust the financial statements to the accrual basis of accounting.

	December 31, 2014	**December 31, 2013**
Investments	$ 11,437,600	$ 10,341,653
Net appreciation in fair value of investments	$ 627,305	
Interest from Stable Asset Fund	40,751	
	$ 668,056	

NOTE 6 - INVESTMENT CONTRACTS

The Plan entered into a benefit-responsive investment contract with the Standard Insurance Company. The Standard Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by the Standard Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $3,536,227 and $2,553,656, respectively. The crediting interest rate is based on a formula agreed with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with the issuer. Such events include the following: (a) termination of the contract, (b) spin-offs, (c) corporate relocation, (d) partial or total plan termination, (e) retirement incentive programs, (f) and the liberalization of plan withdrawal or transfer rules. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The following represents average yields of the investment contract:

	December 31, 2014	December 31, 2013
Based on actual earnings	1.47%	1.85%
Based on interest credited to participants	1.50%	1.90%

NOTE 7 - PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 8 - TAX STATUS

The Company adopted the Sungard Corbel, LLC Profit Sharing Plan, which obtained its latest Opinion Letter on March 31, 2008. In this letter, the Internal Revenue Service states that the Plan is acceptable under Section 401 of the Code for use by the employers for the benefit of their employees. Although the Plan has been amended since receiving the Opinion Letter, the Company believes that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles general accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service (IRS). The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain investments are units held in pooled separate accounts managed by the Standard Insurance Company. The Plan issues notes to participants which are secured by the balances in participants' accounts. These transactions qualify as a party-in-interest transactions for which a statutory exception exemption exists.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

NOTE 11 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the Statements of Net Assets Available for Plan Benefits per the financial statements at December 31, 2014 and 2013 to the Form 5500:
