INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Avanzar Interior Technologies, LTD. Savings and Investment 401(k) Plan:

We have audited the accompanying financial statements of the Avanzar Interior Technologies, LTD. Savings and Investment 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement on the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Avanzar Interior Technologies, LTD. Savings and Investment 401(k) Plan as of December 31, 2014 and 2013, and the changes in its net assets available for benefits for the year ended December 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The following description of the Avanzar Interior Technologies, LTD. Savings and Investment 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description provided to all participants for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan adopted effective September 1, 2005 for participation by eligible employees of Avanzar Interior Technologies, LTD. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by the Johnson Controls Employee Benefits Policy Committee appointed by the Company.

CONTRIBUTIONS

Participants can designate an amount up to twenty-five percent (25%) of their gross annual compensation as contributions, as defined by the Plan, of which the first six percent (6%) is eligible for the employer's matching contribution. Each eligible participant's pre-tax contribution may be matched at the discretion of the Company. Participants are also eligible for a non-matching contribution of three percent (3%) of gross wages. Participants may also contribute amounts representing distributions from other employers' qualified retirement plans.

Participant contributions are deposited in the investment funds of their choice. Participants may reallocate their account balances among the available investment funds at any time in increments of one percent (1%). However, participants can reallocate deposits out of the Fixed Income Fund no more than once each calendar quarter in order to maximize the rate of return for that fund.

Participants are immediately vested in their contributions plus actual earnings (losses) thereon. A participant's interest in employer contributions plus actual earnings (losses) thereon vest at the rate of twenty percent (20%) for each year of employment with the Company or any affiliated company, fully vesting after five years of credited service. A participant becomes fully vested on termination of service due to death, disability or retirement.

If employment terminates other than by reason of retirement, death or total and permanent disability and the participant is not reemployed by the Company or its affiliates within 72 months of that date, the participant's interest in the non-vested portion of the employer contributions is forfeited. The Company may apply any forfeited amounts to reduce future employer contributions to the Plan.

PAYMENT OF BENEFITS

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Benefits are recorded when paid.

PARTICIPANT ACCOUNTS

Participant recordkeeping is performed by Fidelity Investments Institutional Retirement Services Company ("Fidelity").

As of December 31, 2014 and 2013, Plan assets of $1,102,318 and $1,130,347, respectively, have been allocated to the accounts of persons who are no longer active participants of the Plan, but who have not yet received distributions as of that date.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or fifty percent (50%) of their account balance, whichever is less. Loans are subject to certain limitations based on the Plan document.

Only two loans per participant may be outstanding at any time. Each loan may be for a term up to five years. Regular payroll deductions are required to repay a loan. Each loan's interest rate is fixed at the prime rate at the beginning of the calendar quarter in which it is issued. Interest rates are 3.25%. At termination, participants may continue to make monthly loan payments until the balances of any loans are paid off.

The notes receivable from participants are measured at their unpaid principal balances plus accrued but unpaid interest. At the time of borrowing, the assets of the participant are sold proportionally to finance the loan. The loan is collateralized by the participant's assets in the Plan.

Should a participant fail to make a loan payment when due (including retirement or termination), the participant is given a grace period to cure the delinquency through the end of the calendar quarter following the calendar quarter in which the default arose. If the participant fails to cure the delinquency, a deemed distribution occurs in accordance with the provisions of the Plan document. The Plan has not made a provision for uncollectible loans as there are none.

There is no impact on the Johnson Controls, Inc. Savings and Investment Master Trust (the "Master Trust") (see Note 2) if a participant defaults on the loan.

ADMINISTRATIVE EXPENSES

Administrative expenses are paid by the Plan, as allowed by Plan provisions, with all remaining expenses paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting Standards Codification (ASC) No. 946 "Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans," requires disclosure of the fair value, as well as the adjustment to and contract value of, fully benefit-responsive investment contracts held by a defined contribution plan. As the Plan's net assets available for benefits are part of a master trust, this information is provided in the statements of financial position as of December 31, 2014 and 2013 for the Master Trust (see Note 9).

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

SAVINGS AND INVESTMENT MASTER TRUST

All investments and participant loans of the Plan are included under a master trust arrangement, the Master Trust, which is trusteed by Fidelity. All investments of the Master Trust, except the Fixed Income Fund, are stated at market value based on quoted market prices. The Fixed Income Fund, a stable value fund, contains wrap contracts which are stated at contract value. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administrative expenses.

The wrap contracts are designed to allow a stable value fund, such as the Fixed Income Fund, to maintain a constant net asset value (NAV) and to protect the fund in extreme circumstances. The wrap issuer agrees to pay the fund the difference between the contract value and the market value of the covered assets once the market value has been totally exhausted. Though relatively unlikely, this could happen if the fund experiences significant redemptions (redemption of most of the fund's shares) during a time when the market value of the fund's covered assets is below their contract value, and market value is ultimately reduced to zero. If that occurs, the wrap issuer agrees to pay the fund an amount sufficient to cover shareholder redemptions and certain other payments (such as fund expenses), provided that all of the terms of the wrap contract have been met. Purchasing wrap contracts is similar to buying insurance, in that the fund pays a relatively small amount to protect against a relatively unlikely event (the redemption of most of the shares of the fund). Fees the fund pays for wrap contracts are a component of the fund's expenses.

Wrap contracts accrue interest using a formula called the "crediting rate" which minimizes the difference between the market value and contract value of the covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the fund's current market value at the fund's current yield to maturity for a period equal to the fund's duration. Crediting rates are reset quarterly. Although the crediting rate may be affected by many factors, including purchases and redemptions by shareholders, the wrap contracts provide a guarantee that the crediting rate will not fall below zero percent (0%). The average yields based on actual earnings were 1.62% and 1.71% for the years ended December 31, 2014 and 2013, respectively. The average yields based on the interest credited to participants were 1.68% and 1.58% for the years ended December 31, 2014 and 2013, respectively.

The fund and the wrap contracts purchased by the fund are designed to pay all participant-initiated transactions at contract value. However, the wrap contracts limit the ability of the fund to transact at contract value upon the occurrence of certain events, which include, but are not limited to, the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code (IRC), any substantive modification of the Plan or the administration of the Plan that is not consented to by the wrap issuer, complete or partial termination of the Plan, or any early retirement program, group termination, group layoff, facility closing or similar program. At this time, the occurrence of such an event is not probable.

A wrap issuer may terminate a wrap contract at any time. In the event that the market value of the fund's covered assets is below their contract value at the time of such termination, Fidelity may elect to keep the wrap contract in place until such time as the market value of the fund's covered assets is equal to their contract value. A wrap issuer may also terminate a wrap contract if Fidelity investment management authority over the fund is limited or terminated as well as if all of the terms of the wrap contract fail to be met. In the event that the market value of the fund's covered assets is below their contract value at the time of such termination, the terminating wrap provider would not be required to make a payment to the fund.

Investment income or loss of the Master Trust is allocated among the participants plans daily based on the plans' relative equity interests in each of the Master Trust's investment programs as of the beginning of the applicable day. Interest income and share price appreciation or depreciation are recorded daily by each of the applicable investment programs. Dividend income is recorded either quarterly or semi-annually, depending on the investment program.

The statements of financial position as of December 31, 2014 and 2013 and the statement of operations and changes in participating plans' equity for the year ended December 31, 2014 for the Master Trust are presented in Note 9.

The Plan's assets accounted for less than one percent (1%) of the assets held in the Master Trust at December 31, 2014 and 2013.

At December 31, 2014 and 2013, participant forfeitures of non-vested employer contributions of $158,699 and $202,656, respectively, related to the Plan, were in the Master Trust.

DATE OF MANAGEMENT'S REVIEW

Management has evaluated subsequent events through June 17, 2015, the date which the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets available for benefits:

* Asset was not greater than 5% in the respective year.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Investments at fair value as determined by quoted market price (direct):	
Mutual Funds	$ 337,999
Investments at fair value as determined by quoted market price (indirect):	
Common Stock Fund	(127,724)
Other Separate Accounts	15,126
	(112,598)
Net increase in fair value	$ 225,401

NOTE 4 - FAIR VALUE MEASUREMENTS

ASC 820, "Fair Value Measurement," defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a three-level fair value hierarchy that prioritizes information used in developing assumptions when pricing an asset or liability as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs where there is little or no market data, which requires the reporting entity to develop its own assumptions.

ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 1,210,177	$ 5,255,830	$ —	$ 6,466,007
Common Stock Fund	2,175,812	—	—	2,175,812
Other Separate Accounts	421,713	—	—	421,713
Fixed Income Fund	—	342,579	—	342,579
Total assets at fair value	$ 3,807,702	$ 5,598,409	$ —	$ 9,406,111

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 995,961	$ 4,190,752	$ —	$ 5,186,713
Common Stock Fund	2,174,595	—	—	2,174,595
Other Separate Accounts	265,879	—	—	265,879
Fixed Income Fund	—	442,212	—	442,212
Total assets at fair value	$ 3,436,435	$ 4,632,964	$ —	$ 8,069,399

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: The fair value for Mutual Funds is determined by direct quoted market prices. Mutual funds are open-ended investments that obtained proper registration from the Securities and Exchange Commission. The funds publish daily their net asset value (NAV) after the close of trading on regulated financial exchanges. The NAV represents the current market value of the fund's holdings after deducting the fund's liabilities. In the event a direct quoted market price is not available, the fair value of the fund holdings are determined by using pricing inputs that are either directly or indirectly observable and therefore classified as Level 2 assets. During 2014, the fund holdings and pricing methodologies used by certain of the funds were clarified for reporting under the fair value hierarchy. As a result, those investments are now classified as Level 2 investments compared to the previous classification of Level 1. All Mutual Fund amounts classified as Level 2 at December 31, 2014 and 2013 were transferred from Level 1.

Common Stock Fund: The fair value for the Johnson Controls Common Stock Fund is determined by indirect quoted market prices. The value of the fund is not published, but the investment manager reports daily the underlying holdings. The underlying holdings are direct quoted market prices on liquid and regulated financial exchanges. The fair value of the investments in the Johnson Controls Common Stock Fund reflects a unit value computed daily based on the share price and the value of the fund's short-term investments. At December 31, 2014 and 2013, the Plan held 154,752 units and 145,946 units, respectively, of the Johnson Controls Common Stock Fund at unit values of $14.06 and $14.90, respectively.

Other Separate Accounts: The fair value for Other Separate Accounts is determined by indirect quoted market prices. These investments are generally held in a commingled trust. The value of the trust is not published, but the investment manager reports daily the underlying holdings. The underlying holdings are direct quoted market prices on liquid and regulated financial exchanges.

Fixed Income Fund: The fair value of the Fixed Income Fund is accounted for by the contract value. The underlying investments/holdings are direct quoted market prices on regulated financial exchanges and their value is insured through a contract. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administrative expenses. During 2014, the fund holdings and pricing methodology used by the Fund were clarified for reporting under the fair value hierarchy. As a result, those investments are now classified as Level 2 investments compared to the previous classification of Level 1. All Fixed Income Fund amounts classified as Level 2 at December 31, 2014 and 2013 were transferred from Level 1. Refer to Note 2 for further information regarding the Fixed Income Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The fair values of receivables approximate their carrying values.

NOTE 5 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated November 9, 2009, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Transactions involving the Johnson Controls Common Stock Fund, notes receivable from participants and the funds administered by Fidelity, trustee of the Plan, are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
